DEMOLITION AND RELOCATION PERMITS

1403 E. 6TH STREET**

PROPOSAL

Demolish a ca. 1890 house.

ARCHITECTURE

The house, at 1403 E. 6th Street, is a one-story, wing-and-gable plan frame vernacular Queen Anne house with a partial-width shed-roofed independent porch to the left of the projecting front gable with a spindlework frieze and ornamental brackets; single and paired 1:1 fenestration; transom over the front door; cutaway corners on the projecting front gable with spindlework brackets; fishscale imbrication in the tympanum of the gable; clipped side gable on the east side of the house.

RESEARCH

The house and store (released for demolition by the Commission upon completion of a documentation package on October 24, 2016) were both built around 1890 by Felix Cherico, a New Orleans-born son of Italian immigrants, who established a grocery and general merchandise business here. He sold dry goods, groceries, boots and shoes, hats, and notions from this store. After about 1905, he was exclusively engaged in the grocery business from this location. In addition to being a prominent merchant in East Austin, Felix Cherico also dealt in real estate, and helped shape the development of East Austin in the early 20th century.

The Chericos had their grocery business here until around 1921, when they rented the house and store to Antoine and Anna Fogle, who ran a grocery business here in the early 1920s. The Fogles did not stay long; around 1923, the house and store were owned by members of the Franzetti family, Italian immigrants who had several grocery stores in East Austin and in old Wheatville, and were prominent in civic, sports, and Catholic activities in the city. The Franzettis lived and were in business here until around 1938, when they moved to Park Lane in South Austin and opened the Alpine Café and Delicatessen on W. 6th Street downtown.

After a short period of being a rental house, with the store building vacant, the properties were rented by Ysabel and Louisa Arriaga, who opened their grocery and market business at 1401 E. 6th Street and lived in the house at 1403 E. 6th Street. The Arriagas bought the property in the mid-1940s, and operated their grocery store until the early 1950s. They then opened El Jalisco, a Mexican restaurant, to the east of the house, at 1405 E. 6th Street. The Arriagas lived in the house until their deaths in the 1970s. The store was rented by one of the Arriaga sons in the mid-1950s, then became the Humane Society Rummage Store from the mid-1950s through the mid-1960s. The store building was vacant again until around 1974, when Joe Gonzales opened a record shop, which was in business through the early 1980s.

The house as a rental property in the early 1980s, and since the mid-1980s, had been the administrative offices for Lone Star Meat Company, now Lone Star Food Service Company.

STAFF COMMENTS

The house is listed in the East Austin Historic Survey (1980), indicating its significance. The store is not listed in any City survey to date.

STAFF RECOMMENDATION

Initiate historic zoning on the house. The house has significance as an outstanding example of Queen Anne residential architecture, as well as for its associations with several prominent East Austin merchant families.

Reference: House Relocation for 1406 E. 6th Street

Mr. Gill,

I am responding to the request for quote for the relocation of the Structure located at 1406 East 6th street.

This is being done after your request for quote to include myself and Mr. Edgar Dodson with Dodson House Movers.

Based on the several meetings, looking at the routing to determine the possibility and if so the cost to relocate the structure the following description of work required and cost associated with both follows.

The moving process to relocate the structure from the current site will require the roof system be completely removed as well as several feet of the wall system on the entire building. Also the structure will need to be cut into three pieces to allow transport.

The restrictive elements of street widths, electrical wires, tree limbs and traffic signals dictate these modifications be made to insure the movement can happen.

It will take the work of multiple companies to make ready, transport and set the structure to a new location.

This will also require that the interior of the structure be stripped to allow for the lowering of all wall systems. This is due to the height of the building being that even with the roof taken off the structure is over height for movement for the reasons for mentioned.

Also, the front porch and the addition to the building will need to be removed as well.

The Cost estimate to be provided DOES NOT include any rebuild work done once the building has been delivered.

Make ready for move, to include removal of the two pieces not moving, removal of the entire roof system, demolition of the interior, cut down of all walls, structure framing required to stabilize each section moved. Cost:\$ 85,000.00

Materials for support systems: \$3,800.00

Movement of the structure: \$100,000.00

Concrete piers: \$35,000.00 residential \$50,000.00 Commercial

Engineering: \$3,000.00

Site clean and debris removal: \$12,500.00

Police escort and city permits for street closure: \$4,500.00

Crane cost for roof and wall removal: \$6,000.00

Total cost estimate for RELOCATION ONLY: \$264,800.00

A good estimate for setting the wall sections and re framing the roof to decking only \$90,000

This does NOT again include any rebuild of the interior, sections removed and new utilities.

Please call with any questions about the information provided.

Thank you for the opportunity,

Jery Edgett

He continued in business at that location for thirty years, the store during that era becoming a well-known east Austin grocery venue. The 1900 Sanborn Fire Insurance Company map shows the store building on the corner with an address of 1401-03 E. 6th Street, and the house to the east, denoted on the map as 1405 E. 6th Street. This area of the city was outside of the scope of earlier Sanborn maps.

The 1935 Sanborn map shows the store on the corner with the address of 1401 E. 6th Street and the house to its east with the address of 1403 E. 6th Street. There is a connector between the house and the store which was not shown on the 1900 map. This connector is still apparent on the house today.

The 1962 map shows the store and house with the current connector between the two; there are additional buildings to the south of the store on Navasota Street.
