The City's count or weight shall be final and conclusive on shipments not accompanied by packing lists.

8. **NO REPLACEMENT OF DEFECTIVE TENDER:** Every tender or delivery of Deliverables must fully comply with all provisions of the Contract as to time of delivery, quality, and quantity. that no assurance is given within the time specified after demand is made, the demanding party may treat this failure as an anticipatory repudiation of the Contract.

25. **STOP WORK NOTICE:** The City may issue an immediate Stop Work Notice in the event the Contractor is observed performing in a manner that is in violation of Federal, State, or local guidelines, or in a manner that is determined by the City to be unsafe to either life or property. 27. **TERMINATION FOR CAUSE:** In the event of a default by the Contractor, the City shall have the right to terminate the Contract for cause, by written notice effective ten (10) calendar days, unless otherwise specified, after the date of such notice, unless the Contractor, within such ten (10) day period, cures such default, or provides evidence sufficient to prove to the City's reasonable satisfaction that such default does not, in fact, exist. The City may place Contractor on probation for a specified period of time within which the Contractor must correct any non-compliance issues. Probation shall not normally be for a period of more than nine (9) months, however, it may be for a longer period, not to exceed one (1) year depending on the circumstances. The City shall pay the Contractor, to the extent of funds Appropriated or otherwise legally available for such purposes, for all goods delivered and services performed and obligations incurred prior to the date of termination in accordance with the terms hereof.
29. **FRAUD:** Fraudulent statements by the Contractor on any Offer or in any report or deliverable required to be submitted by the Contractor to the City shall be grounds for the termination of the Contract for cause by the City and may result in legal action.
30. **DELAYS:**
- A. The City may delay scheduled delivery or other due dates by written notice to the Contractor if the City deems it is in its best interest. If such delay causes an increase in the cost of the work under the Contract, the City and the Contractor shall negotiate an equitable adjustment for costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. Failure to agree on any adjusted price shall be handled under the Dispute Resolution process specified in paragraph 49. However, nothing in this provision shall excuse the Contractor from delaying the delivery as notified.
- B. Neither party shall be liable for any default or delay in the performance of its obligations under this Contract if, while and to the extent such default or delay is caused by acts of God, fire, riots, civil commotion, labor disruptions, sabotage, sovereign conduct, or any other cause beyond the reasonable control of such Party. The Contractor shall, at its sole expense, defend, indemnify, and hold the City harmless from and against all liability, damages, and costs (including court costs and reasonable fees of attorneys and other professionals) arising out of or resulting from: (i) any claim that the City's exercise anywhere in the world of the rights associated with the City's ownership, and if applicable, license rights, and its use of the Deliverables infringes the intellectual property rights of any third party; or (ii) the Contractor's breach of any of Contractor's representations or warranties stated in this Contract. In the event of any such claim, the City shall have the right to monitor such claim or at its option engage its own separate counsel to act as co-counsel on the City's behalf. Further, Contractor agrees that the City's specifications regarding the Deliverables shall in no way diminish Contractor's warranties or obligations under this paragraph and the City makes no warranty that the production, development, or delivery of such Deliverables will not impact such warranties of Contractor.

37. **CONFIDENTIALITY:** In order to provide the Deliverables to the City, Contractor may require access to certain of the City's and/or its licensors' confidential information (including inventions, employee information, trade secrets, confidential know-how, confidential business information, and other information which the City or its licensors consider confidential) (collectively, "Confidential Information"). Contractor acknowledges and agrees that the Confidential Information is the valuable property of the City and/or its licensors and any unauthorized use, disclosure, dissemination, or other release of the Confidential Information will substantially injure the City and/or its licensors. The Contractor (including its employees, subcontractors, agents, or representatives) agrees that it will maintain the Confidential Information in strict confidence and shall not disclose, disseminate, copy, divulge, recreate, or otherwise use the Confidential Information without the prior written consent of the City or in a manner not expressly permitted under this Agreement, unless the Confidential Information is required to be disclosed by law or an order of any court or other governmental authority with proper jurisdiction, provided the Contractor promptly notifies the City before disclosing such information so as to permit the City reasonable time to seek an appropriate protective order. The Contractor agrees to use protective measures no less stringent than the Contractor uses within its own business to protect its own most valuable information, which protective measures shall under all circumstances be at least reasonable measures to ensure the continued confidentiality of the Confidential Information.
38. **PUBLICATIONS:** All published material and written reports submitted under the Contract must be originally developed material unless otherwise specifically provided in the Contract. When material not originally developed is included in a report in any form, the source shall be identified.
39. **ADVERTISING:** The Contractor shall not advertise or publish, without the City's prior consent, the fact that the City has entered into the Contract, except to the extent required by law.
40. **NO CONTINGENT FEES:** The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the Contract upon any agreement or understanding for commission, percentage, brokerage, or contingent fee, excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the City shall have the right, in addition to any other remedy available, to cancel the Contract without liability and to deduct from any amounts owed to the Contractor, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.
41. **GRATUITIES:** The City may, by written notice to the Contractor, cancel the Contract without liability if it is determined by the City that gratuities were offered or given by the Contractor or any agent or representative of the Contractor to any officer or employee of the City of Austin with a view toward securing the Contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performing of such contract. In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.
42. **PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS:** No officer, employee, independent consultant, or elected official of the City who is involved in the development, evaluation, or decision-making process of the performance of any solicitation shall have a financial interest, direct or indirect, in the Contract resulting from that solicitation. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty

thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City.

43. **INDEPENDENT CONTRACTOR:** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. The Contractor agrees and understands that the Contract does not grant any rights or privileges established for employees of the City.
44. **ASSIGNMENT-DELEGATION:** The Contract shall be binding upon and enure to the benefit of the City and the Contractor and their respective successors and assigns, provided however, that no right or interest in the Contract shall be assigned and no obligation shall be delegated by the Contractor without the prior written consent of the City. Any attempted assignment or delegation by the Contractor shall be void unless made in conformity with this paragraph. The Contract is not intended to confer rights or benefits on any person, firm or entity not a party hereto; it being the intention of the parties that there be no third party beneficiaries to the Contract.
45. **WAIVER:** No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.
46. **MODIFICATIONS:** The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.
47. **INTERPRETATION:** The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. Although the Contract may have been substantially drafted by one party, it is the intent of the parties that all provisions be construed in a manner to be fair to both parties, reading no provisions more strictly against one party or the other. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.
48. **DISPUTE RESOLUTION:**
- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.
- B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the

mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

49. **JURISDICTION AND VENUE:** The Contract is made under and shall be governed by the laws of the State of Texas, including, when applicable, the Uniform Commercial Code as adopted in Texas, V.T.C.A., Bus. & Comm. Code, Chapter 1, excluding any rule or principle that would refer to and apply the substantive law of another state or jurisdiction. All issues arising from this Contract shall be resolved in the courts of Travis County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.
50. **INVALIDITY:** The invalidity, illegality, or unenforceability of any provision of the Contract shall in no way affect the validity or enforceability of any other portion or provision of the Contract. Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent this entire Contract from being void should a provision which is the essence of the Contract be determined to be void.

PCA610 Pre-Conditioned Air Connector PCA650 Snap-in Replaceable Gasket

The PAGE **PCA610** is the ultimate Pre-Conditioned Air connector in the market today. Built with input from the airline industry, the PCA610 provides features targeted at saving you time and money. Its progressive design is both functional and rugged. No other PCA connector in the industry incorporates all of the design elements into one connector, making the PCA610 the premier connector in the world today.

PCA650 Snap-in replaceable gasket

No need to remove the connector from service when the gasket gets worn, simply SNAP-IN a new PCA650 durable gasket. No caustic glue, scrapping, or cure time. You're back up and running in minutes!

Superior air flow and protective screen

Provides the largest internal diameter of any connector, maximizing air flow into the aircraft. No internal nuts or bolts to obstruct air flow. The built in "high flow" F.O.D. screen prevents debris from entering the aircraft.

Years of reliable service

Built of high impact UV resistant nylon, the innovative modular design of the PCA610 is resistant to fuels and chemicals and made to last.

Integral spinning PCA hose connection

Eliminates those bulky "bolt-on" swivel adaptors along with the added hardware. Made of high impact UV resistant material, the rotating ring connection eliminates twists and maximizes airflow. The extended ring provides a greater connecting surface for attaching your PCA duct.

PCAir Hose Reel & Yoke Assemblies

PAGE has taken the PCAir hose reel and yoke to a new level with unequalled strength and design. The smooth, rounded corners do away with areas that can damage PCAir hoses or injure the operator. Made of the highest quality materials available and engineered for operators' safety and comfort, the PAGE PCAir Hose Reel and Yoke Assemblies truly are the new standard in the GSE industry.

PCA200 Series Hose Reel Cart

The PCA200 series PCAir Hose Reels are low profile and can stow 80' of PAGE Lay Flat hose. Our design allows the operator to safely and quickly dispense or retract the hose to and from the passenger boarding bridge and the aircraft. The PCA200 minimizes the wear on the PCAir hose as the reel prevents the hose from being dragged on the tarmac, prolonging the life of the hose. The PCAir Hose Reel does away with the operator having to lift or roll the hose along the ground which can cause injuries.

Available with or without the ABC adaptor for use as an extension reel. Can be configured in the field, making the PCA200 the most versatile hose cart reel available in the industry today!

“With its superior design and configuration flexibility, the PCA200 has no equal.”

PCA400 Series PC Air Yoke Assemblies

PAGE's PCA400 series of Yoke Assemblies are designed to securely hold up to three PAGE PCAir hose reels by attaching them to the wheel bogie of the passenger boarding bridge. The Yoke Assembly allows the PCAir hose reels to move with the bridge which minimizes clutter on the ramp and ensures your PCAir hoses are right where your operator needs them.

The PCA400 Yoke Assembly utilizes metal tubes to allow for the most robust and long-lasting configuration possible while minimizing any dangerous sharp angles that may damage the PCAir hose or harm an operator. This easy to install and safe to use high visibility Yoke Assembly is also manufactured to the highest standards to surpass the airport ramp's harsh environment.

Pre Conditioned Air Hose Products

PAGE Industries offers a complete line of PC Air hoses designed to the highest technological and material standards. From weaving the fabric, applying special coatings to final assembly of the product, PAGE Hoses ensure longevity and performance throughout our entire product line.

It doesn't get any better than this!

Construction Features of Vinyl Hoses

Exterior Layer

- ◇ The exterior layer utilizes the same proprietary extruded construction as the interior layer only is constructed using stronger material.
- ◇ The fabric is a 19oz extruded PVC reinforced by 1300dx2000d yarns going 9x9 in the warp and weft directions.
- ◇ The Extrusion coating provides an exceptional molecularly bonded composition.
- ◇ Fabric material is very strong relative to its weight and is exceptionally tear resistant.
- ◇ PVC compound adds UV inhibitors and mold as well as mildew resistance.
- ◇ Fabric is fire resistant and is self-extinguishing. CSAM427 – V880 fire compliant.

Tapered Adaptor

Interior Layer

- ◇ The internal fabric layer is a 14oz Yellow/Black Extruded PVC that is reinforced with polyester scrim.
- ◇ The Polyester scrim is a weft insertion knit using 500dx1000 yarns going 18x9 in the warp and weft directions. The scrim construction utilizes a third tie yarn that locks the knitted yarns in thereby preventing any yarns from shifting, stretching or moving around when fabric is under tension.
- ◇ Our proprietary PVC extrusion coating provides a molecular bond with the polyester scrim creating a very strong composition with adhesion typically 50-70% better than laminated fabrics commonly used for PCA ducting.
- ◇ The fabric backside is coated in the color black to reduce opacity and help slow the transfer of heat and refraction from hot ambient conditions. The materials need to be as light as possible and this is another way to add R-value and help maximize delivery of conditioned air.
- ◇ Fabric material is very strong relative to its weight and is exceptionally tear resistant.
- ◇ PVC compound adds UV inhibitors and mold and mildew resistance.
- ◇ Fabric is fire resistant and is self-extinguishing. NFPA701-V820 fire compliant.

Insulation

- ◇ A low profile and lightweight closed-cell insulation layer with reflective surface.
- ◇ The insulation with refractive surface works to slow heat transfer coefficient, insulate from refraction and add R-value.
- ◇ The closed-cell construction maintains thermal characteristics and does not use air or gas pockets (bubbles) construction; which when popped significantly reduce the R-Value of the duct.
- ◇ The insulation material does not wick, absorb or retain moisture from condensation or wet tarmac.
- ◇ All hoses are available with or without insulation.
