The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. Any portions of such material claimed by the Contractor to be proprietary must be clearly marked as such. Determination of the public nature of the material is subject to the Texas Public Information Act, Chapter 552, Texas Government Code.
36. **NO WARRANTY BY CITY AGAINST INFRINGEMENTS:** The Contractor represents and warrants to the City that: (i) the Contractor shall provide the City good and indefeasible title to the Deliverables and (ii) the Deliverables supplied by the Contractor in accordance with the specifications in the Contract will not infringe, directly or contributorily, any patent, trademark, copyright, trade secret, or any other intellectual property right of any kind of any third party; that no claims have been made by any person or entity with respect to the ownership or operation of the Deliverables and the Contractor does not know of any valid basis for any such claims. The Contractor (including its employees, subcontractors, agents, or representatives) agrees that it will maintain the Confidential Information in strict confidence and shall not disclose, disseminate, copy, divulge, recreate, or otherwise use the Confidential Information without the prior written consent of the City or in a manner not expressly permitted under this Agreement, unless the Confidential Information is required to be disclosed by law or an order of any court or other governmental authority with proper jurisdiction, provided the Contractor promptly notifies the City before disclosing such information so as to permit the City reasonable time to seek an appropriate protective order. The Contractor agrees to use protective measures no less stringent than the Contractor uses within its own business to protect its own most valuable information, which protective measures shall under all circumstances be at least reasonable measures to ensure the continued confidentiality of the Confidential Information.
38. **PUBLICATIONS:** All published material and written reports submitted under the Contract must be originally developed material unless otherwise specifically provided in the Contract. When material not originally developed is included in a report in any form, the source shall be identified.

In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.
42. **PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS:** No officer, employee, independent consultant, or elected official of the City who is involved in the development, evaluation, or decision-making process of the performance of any solicitation shall have a financial interest, direct or indirect, in the Contract resulting from that solicitation. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City.
43. **INDEPENDENT CONTRACTOR:** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. The Contractor agrees and understands that the Contract does not grant any rights or privileges established for employees of the City.

45. **WAIVER:** No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.
46. **MODIFICATIONS:** The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.
47. **INTERPRETATION:** The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. Although the Contract may have been substantially drafted by one party, it is the intent of the parties that all provisions be construed in a manner to be fair to both parties, reading no provisions more strictly against one party or the other. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.
48. **DISPUTE RESOLUTION:**
- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such

- B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.
49. **JURISDICTION AND VENUE:** The Contract is made under and shall be governed by the laws of the State of Texas, including, when applicable, the Uniform Commercial Code as adopted in Texas, V.T.C.A., Bus. & Comm. Code, Chapter 1, excluding any rule or principle that would refer to and apply the substantive law of another state or jurisdiction. All issues arising from this Contract shall be resolved in the courts of Travis County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.
50. **INVALIDITY:** The invalidity, illegality, or unenforceability of any provision of the Contract shall in no way affect the validity or enforceability of any other portion or provision of the Contract. Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent this entire Contract from being void should a provision which is the essence of the Contract be determined to be void.

**ADDENDUM
CITY OF AUSTIN, TEXAS**

Solicitation: **IFB GLB0031** Addendum No: **1** Date of Addendum: **July 31, 2015**

This addendum is to incorporate the following changes to the above referenced solicitation:

I. Questions:

The following questions were posed by one or more contractors in writing. Each question (Q) is followed by its answer (A).

1. (Q) What version of the TEES does the City of Austin want their cabinets built to as the base standard?
(A) This bid is for the purchase of standard 332 cabinets with the requirements outlined in our specifications.
2. (Q) The output file drawing in section 6.7 shows a red monitor board. This is not explicitly called out in the specification, and is not included as a standard component in either version of the Caltrans TEES. Does Austin want the red monitor board included in their cabinets?
(A) Yes, we want all of the cabinets delivered with the RED FAIL board installed and ready for use.
3. (Q) A standard Caltrans cabinet comes with terminal blocks on the input panel for landing the loop detector input wires. The Austin input file includes Phoenix connectors for quick disconnect and a strain relief bar for routing the wires. It's not explicitly stated, but it seems like the terminal blocks on the input panel (and the associated wiring to run from the input panel to the input file) are not needed in the Austin cabinet. Is that correct?
(A) The Specification requires that both the Input File and the Output File be designed with quick disconnect Phoenix connectors.

4. (Q) Section 3.8 calls for a PDA-2. The 2009 TEES changes the designation for the power distribution assembly to a PDA# 2L, with several design changes, most notably lower ratings on the signal breakers. The main power circuit is also broken down into Raw and Clean AC power from the surge arrestor/line filter.
- (A) Although we are not calling for a PDA #2L, it is our understanding that the use of the mercury contactor is no longer allowed so we are approving the use of a Solid State Relay (Crydom A2450 or equal) in place of the mercury contactor. The specification already requires that the 24V power supply be a EDI 206L or approved equal.
5. (Q) Section 5.13 and 5.14 call for both a line filter and an SHA-1250 surge suppressor. The 2009 TEES calls for an SHA-1250-ITS surge suppressor/line filter combination, plugged into a service panel assembly that includes a main 30A breaker at the power entry point. This would be a fairly significant deviation from the UT-99 specification.
- (A) We are not calling for the SHA-1250-ITS. Each cabinet shall include a pluggable surge protection unit on the AC service input (EDCO SHA-1250 with SHA-1250 Base -A or buyer approved equivalent utilizing 16 pin Beau connectors). The surge arrestor shall be a multi stage series hybrid type power line surge device. The surge arrestor shall be installed between the applied line voltage and earth ground. The unit shall have 2 LED indicators for operational display status. The surge arrestor shall be capable of reducing the effect of lightning transient voltages applied to the AC line and provide filtering that conforms to 50kHz with a minimum insertion loss of 50db.

The arrestor/base shall have the following terminals:

- 1) Main Line (AC line first stage terminal)
 - 2) Main Neutral (AC neutral input terminal)
 - 3) Equipment Line In (AC line second stage input terminal, 10A)
 - 4) Equipment Line Out (AC line second stage output terminal, 10A)
 - 5) Equipment neutral out (neutral terminal to protected equipment)
- Ground (GND) (earth connection)

Before we allow a device such as the SHA-1250-ITS, or any other device of this type, we will have to review the proposed cabinet design.
