ZONING CHANGE REVIEW SHEET

CASE: C14-2016-0096 (7901 Ranch Road 2222)  Z.A.P. DATE: October 18, 2016
ADDRESS: 7901 Ranch to Market Road 2222  November 1, 2016
DISTRICT AREA: 10  November 15, 2016
APPLICANT/OWNER: Malamae/Dentastic, LP (James V. Potter)

ZONING FROM: LO-CO  TO: GO-MU  AREA: 4.724 acres

SUMMARY STAFF RECOMMENDATION:

The staff recommends GO-MU-CO, General Office-Mixed Use-Conditional Overlay Combining District, zoning. The conditional overlay will subject the property to the following conditions:

1) Allow Business or Trade School as the only permitted GO district use,
2) Prohibit all other GO district uses that are not permitted in the NO zoning district,
3) Prohibit Multifamily Residential use, Art Workshop, Convalescent Services, Communications Services and Cultural Services uses,
4) Include a 35 foot building setback from the south property line,
5) Require that a six (6) foot high fence be constructed and maintained along the south property line that abuts a residential property,
6) The maximum height for a building or structure shall be limited to 28 feet from ground level and may not exceed one story in height.

ZONING AND PLATTING COMMISSION RECOMMENDATION:

10/18/16: Approved staff’s request for a postponement to November 1, 2016 due to notification error by consent (10-0, J. Kiolbassa-absent); G. Rojas-1st, S. Lavani-2nd.

11/01/16: Postponed to November 15, 2016 at the neighborhood’s request on consent (11-0); J. Kiolbassa-1st, S. Lavani-2nd.

11/15/16: Approved GO-MU-CO zoning with the following conditions:
1) Allow Business or Trade School as a conditional use,
2) Prohibit all other GO district uses that are not permitted in the NO zoning district,
3) Prohibit Multifamily Residential use, Art Workshop, Convalescent Services, Communications Services and Cultural Services uses,
4) Include a 35-foot building setback/vegetative buffer from the south property line,
5) Require that an eight (8) foot high fence be constructed and maintained along the south property line that abuts a residential property,
6) The maximum height for a building or structure shall be limited to 28 feet and may not exceed two stories in height.
7) Include a 35-foot building setback/vegetative buffer from the west property line,
8) Limit the hours of operation for a Business or Trade School use on the site from 8 a.m. to 6:00 p.m.

Vote: (6-3, S. Harris, S. Lavani and B. Evans-No; D. Breithaupt and G. Rojas-absent); S. Harris-1st, B. Evans-2nd.
ISSUES:

On January 13, 2017, the staff received a petition from adjacent property owners who are opposed to any zoning classification other than the current LO-CO zoning on the site (Please see Petition Submittal - Attachment A). This GIS staff evaluated the petition and found that it is currently valid at 29.72%. The excerpt below is from the City of Austin's Land Development Code and explains when the City Council is subject to the three-fourths vote.

Sec. 25-2-284 REQUIREMENT FOR APPROVAL BY THREE-FOURTHS OF COUNCIL.

(A) The affirmative vote of three-fourths of the members of Council is required to approve a proposed rezoning if:

(1) the Land Use Commission recommends denial of an application to rezone property to a planned unit development; or

(2) the proposed rezoning is protested in writing by the owners of not less than 20 percent of the area of land:

(a) included in the proposed change; or

(b) immediately adjoining the area included in the proposed rezoning and extending 200 feet from the area.

DEPARTMENT COMMENTS:

The property in question is developed with a single-family residence. The applicant is requesting GO-MU, General Office-Mixed Use Combining District, zoning because he would like to redevelop the property with a Business or Trade School use for music production, with the possibility of supporting housing. This tract of land is located within a Hill Country Roadway corridor and will require further approval from this Commission when a site plan is submitted.

The site under consideration fronts and will take access to FM 2222 Road, an arterial roadway. A site plan has been approved for a medical/dentist office (SPC-05-1219B) on this property.

The staff recommends GO-MU-CO zoning at this location as the proposed zoning will permit low intensity office, civic or a mix of uses that front onto an arterial roadway, R.M. 2222 Road. The proposed office zoning will provide for a transition between R.M. 2222 and the existing single family houses to the west. GO-MU-CO zoning will allow for a fair and reasonable use of the property as it will permit the applicant to construct a small Business or Trade School, office, civic or mixed use development on the site that will provide services to the surrounding community.

STAFF RECOMMENDATION

The staff recommends GO-MU-CO, General Office-Mixed Use-Conditional Overlay Combining District, zoning. The conditional overlay will subject the property to the following conditions:

1) Allow Business or Trade School as the only permitted GO district use,
2) Prohibit all other GO district uses that are not permitted in the NO zoning district,
3) Prohibit Multifamily Residential use, Art Workshop, Convalescent Services, Communications Services and Cultural Services uses,
4) Include a 35 foot building setback from the south property line,
5) Require that a six (6) foot high fence be constructed and maintained along the south property line that abuts a residential property,
6) The maximum height for a building or structure shall be limited to 28 feet from ground level and may not exceed one story in height.

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

General office (GO) district is the designation for an office or commercial use that serves community and city-wide needs. A building in a GO district may contain one or more different uses.

The purpose of a mixed use (MU) combining district is to allow office, retail, commercial, and residential uses to be combined in a single development.

2. The proposed zoning should promote consistency and orderly planning.

The proposed zoning is GO-MU zoning will provide for a transition from the arterial roadway, RM 2222, to the single family residential uses to the west.

3. The proposed zoning should allow for a reasonable use of the property.

The GO district would permit the applicant to develop the property with an office or civic use that would provide services to the surrounding residential areas. The proposed MU, Mixed Use, Combining District will allow for a mixture of office, civic and residential uses to be developed on the site.

Existing Land Use

The property in question is currently developed with a single-family residence.

Comprehensive Planning

This zoning case is located on the west side of Ranch Road 2222, north of Bell Mountain Drive. The parcel is approximately 4.72 acres in size and has a residential home on it. The property is not located within a neighborhood planning area. Surrounding land uses includes residential uses and vacant land to the north, an office building and residential uses to the south, large lot single family houses to the west, and FM 2222 and vacant land to the east. The proposed use is an undefined mixed use project.
Connectivity
There are no public sidewalks in this area. The Walkscore for this site is 13/100, meaning all errands would require a car.

Imagine Austin
The proposed project is not located along an Activity Corridor or Center according to the Imagine Austin Growth Concept Map. The following IACP policies are applicable to this case:

- **LUT P3.** Promote development in compact centers, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.

- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.

Analysis and Conclusions
Analyzing the land uses within a mile of radius of this subject property, there appears to be both benefits and challenges to this location. Most importantly, this area of Austin is lacking a variety of goods and services for nearby residents and office workers and safe access to pedestrian (sidewalks and hike and bike trails) or public transportation stops available within several miles of this location.

Although this project is not located along an Activity Corridor or within an Activity Center, which the Imagine Austin Growth Concept Map targets for growth, FM 2222 is a heavily traveled arterial road that contains myriad of office parks, residential subdivisions and multi-family apartment complexes. The proposed project could contribute to making this area a more ‘complete community’ (where people can live, work and play) by adding a much needed mixed use component (residential, retail and office uses, along with recreational amenities). To add connectivity to the area, the developer should consider installing sidewalks, hike and bike trails, and negotiating public transportation options for the users of the residential and offices uses located both within and around this site, thus reducing dependency on privately owned automobile. If this is a true mixed use project (not just apartments), this proposed project would appear to be partially supported by the Imagine Austin Comprehensive Plan.

Environmental
The site is not located over the Edwards Aquifer Recharge Zone. The site is in the West Bull Creek Watershed of the Colorado River Basin, which is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Drinking Water Protection Zone.

According to floodplain maps there is a floodplain within or adjacent to the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Water Quality Transition Zone / Critical Water Quality Zone exist within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**Impervious Cover**

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<table>
<thead>
<tr>
<th>Development Classification</th>
<th>% of Net Site Area</th>
<th>% NSA with Transfers</th>
</tr>
</thead>
<tbody>
<tr>
<td>One or Two Family Residential</td>
<td>30%</td>
<td>40%</td>
</tr>
<tr>
<td>Multifamily Residential</td>
<td>40%</td>
<td>55%</td>
</tr>
<tr>
<td>Commercial</td>
<td>40%</td>
<td>55%</td>
</tr>
</tbody>
</table>

Development within a Water Quality Transition Zone is limited to 18%.

**Site Plan**

Site plans will be required for any new development other than single-family or duplex residential.

**Hill Country**

The site is located within 1,000 feet of RM 2222 and within a Hill Country Roadway Corridor. The western portion of the site is located within a low intensity zone of the Hill Country Roadway, but the eastern portion of the site falls within a moderate intensity zone. Based on the more restrictive regulations of the low intensity zone, the site may be developed with the following maximum floor-to-area ratio (FAR):

<table>
<thead>
<tr>
<th>Slope</th>
<th>Maximum FAR</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-15%</td>
<td>0.20</td>
</tr>
<tr>
<td>15-25%</td>
<td>0.08</td>
</tr>
<tr>
<td>25-35%</td>
<td>0.04</td>
</tr>
</tbody>
</table>

Except for clearing necessary to provide utilities or site access, a 100 foot vegetative buffer will be required along RM 2222. At least 40% of the site (excluding dedicated right-of-way) must be left in a natural state. The allowable height is as follows: Within 200 feet of RM 2222 the maximum height is 28 feet, and beyond 200 feet the maximum height is RM 2222 feet.

Prior to the issuance of a building permit for the proposed use, a site plan must be approved by the Planning Commission.
**Scenic Roadway**

This site is within the Scenic Roadway Sign District. All signs must comply with Scenic Roadway Sign District regulations. Contact Viktor Auzenne at 512-974-2941 for more information.

**Compatibility Standards**

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

The site is subject to compatibility standards. Along the *ALL* property lines, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

**Stormwater Detention**

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

**Transportation**

FYI, additional right-of-way maybe required at the time of subdivision and/or site plan.

A Traffic Impact Analysis shall be required at the time of site plan if triggered per LDC 25-6-113. LDC, Sec. 25-6-113.

FYI, Chad Crager, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Water and or wastewater service extension requests may be required proposed development. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
ORDINANCE NO. 031120-Z-17

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY LOCATED ALONG THE SOUTHSIDE OF F.M. 2222 NORTH OF BELL MOUNTAIN DRIVE FROM SINGLE FAMILY RESIDENCE STANDARD LOT (SF-2) DISTRICT TO LIMITED OFFICE-CONDITIONAL OVERLAY (LO-CO) COMBINING DISTRICT.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district from single family residence standard lot (SF-2) district to limited office-conditional overlay (LO-CO) combining district on the property described in Zoning Case No.C14-03-0128, on file at the Neighborhood Planning and Zoning Department, as follows:

A 4.724 acre tract of land, more or less, out of the Hrs. Wm. L. Swain Survey No. 810, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit “A” incorporated into this ordinance, (the “Property”)

locally known as the property located along the southside of F.M. 2222, north of Bell Mountain Drive, in the City of Austin, Travis County, Texas, and generally identified in the map attached as Exhibit “B”.

PART 2. The Property within the boundaries of the conditional overlay combining district established by this ordinance is subject to the following conditions:

1. A site plan or building permit for the Property may not be approved, released, or issued, if the completed development or uses of the Property, considered cumulatively with all existing or previously authorized development and uses, generate traffic that exceeds 2,000 trips per day.

2. The building setback is 35 feet from the south property line.

3. A 6 foot high fence shall be constructed and maintained along the south property line that abuts the adjacent residential property.

4. The maximum height for a building or structure is 15 feet from ground level.
5. A building or structure may not exceed one story in height.

6. The following uses of the Property are prohibited uses:
   
   Art and craft studio (limited)    Convalescent services
   Communications services          Cultural services

Except as specifically restricted under this ordinance, the Property may be developed in accordance with the regulations established for the neighborhood office (NO) base district and other applicable requirements of the City Code.

PART 3. This ordinance takes effect on December 1, 2003.

PASSED AND APPROVED

ORDINANCE NO. 040624-Z-16

AN ORDINANCE AMENDING ORDINANCE NO. 031120-Z-17 TO CORRECT CONDITIONS OF ZONING FOR THE PROPERTY KNOWN AS POTTER PROJECT LOCATED ALONG THE SOUTH SIDE OF F.M. 2222 NORTH OF BELL MOUNTAIN DRIVE AND DESCRIBED IN ZONING FILE NO. C14-03-0128.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. Part 2 of Ordinance No. 031120-Z-17 is amended to correct the conditions in subparts 2 and 4, as follows:

2. The building setback is 35 feet from the south property line [•] where it abuts a residential property.

4. The maximum height for a building or structure is 28 [±5] feet from ground level.

PART 2. In all other respects the terms and conditions of Ordinance No. 031120-Z-17 remain in effect.

PART 3. This ordinance takes effect on July 5, 2004.

PASSED AND APPROVED

Cc: Sirwaitis, Sherri
Subject: Zoning Case C14-2016-0096 by Malamale, James Porter

Dear Mr. Weber,

In speaking with Sherri Sirwaitis, she suggested I email you to voice our concerns.

The following are our requests for restrictions to the zoning for Zoning Case C14-2016-0096.

1. We would like an 8 foot privacy fence along the entire southern boundary of the subject property. The environmental preservation zone that extends across my property and other properties is at risk.

2. All lighting to be shrouded and does not shine to the south into our properties.

3. Hours of operation to be no earlier than 8 am and no later than 6pm.

4. No building to be greater than 2 stories.

5. A reasonable decibel level limit for sound emanating from the property.

We would appreciate your presenting our request to the Zoning Commission.

Thank you

Ray and Elisabeth Janss

Any review, use, disclosure or distribution by any person or entity other than the intended recipient(s) is prohibited. If you are not the intended recipient, please so advise the sender by reply e-mail and destroy all copies of the original email.
PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application’s hearing to a later date, or may evaluate the City staff’s recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin’s land development process, visit our website: www.austintexas.gov/planning.

City of Austin
Zoning & Platting Commission

Re: Zoning Case C14-2016-0096 (7901 Ranch Road 2222)

Dear Zoning & Platting Commissioners:

2222 Coalition of Neighborhood Associations (2222 CONA) supports Long Canyon Homeowners Association in its opposition to the proposed rezoning of the property at 7901 RM 2222 from the current LO-CO zoning. This current zoning allows only one LO use: Medical Office. The other commercial properties adjacent to the Long Canyon neighborhood are zoned NO.

There are significant commercial developments along other sections of RM 2222 west of Loop 360, and additional properties suitable for commercial development are available. However, in the section of the proposed rezoning, residential developments exist on both sides of RM 2222. There is no pressing need for more intensive commercial development so close to established residential neighborhoods.

2222 CONA represents residential neighborhoods along the 2222 corridor between Loop 360 and RM 620.

Please deny this rezoning.

Sincerely,

[Signature]

PETITION

Date: 1/20/2017

Total Square Footage of Buffer: 640811.7481  
Percentage of Square Footage Owned by Petitioners Within Buffer: 37.88%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

CASE#: C14-2016-0096

This product is for informational purposes and may not have been prepared for or be suitable for legal, engineering, or surveying purposes. It does not represent an on-the-ground survey and represents only the approximate relative location of property boundaries.

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.
To: Austin City Council

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would zone the property to any classification other than the current LO-CO zoning per Ordinance 031120-Z-17.

(STATE REASONS FOR YOUR PROTEST)

The requested GO-MU zoning is incompatible with the adjacent residential properties.

(Please use black ink when signing petition)
