Additional Backup Information

The Emergency Medical Services Department has received reimbursement from the Travis County Healthcare District (d/b/a Central Health) for the Medical Access Program (MAP) patients for the past eight or more years under previous interlocal agreements with Central Health. On June 1, 2013, Central Health and the Seton Healthcare Family created the Community Care Collaborative (CCC), which is a 501(3) corporation designed to be a new integrated delivery system that will provide a coordinated continuum of services to a defined patient population. The CCC now oversees and funds the MAP and reimburses the City for the transport of MAP beneficiaries. The department has a current revenue goal for the contracted amount. There is no cost variance from last year's agreement.
