

AGENDA

Recommendation for Council Action (Purchasing)

Austin City Council	Item ID:	65742	Agenda Number	31.
---------------------	----------	-------	---------------	-----

Meeting Date:	January 26, 2017
---------------	------------------

Department:	Purchasing
-------------	------------

Subject

Authorize award and execution of a contract with NETZSCH PUMPS NORTH AMERICA, LLC, to provide cavity pumps and pressure sensors, in an amount not to exceed \$128,172.

Amount and Source of Funding

Funding is available in the Fiscal Year 2016-2017 Operating Budget of Austin Water.

Fiscal Note

A fiscal note is not required.

Purchasing Language:	The Purchasing Office issued Invitation for Bids (IFB) JXP0113REBID for these goods on October 17, 2016 and it closed on November 1, 2016 with three offers received. The recommended offer is the lowest offer submitted by a responsive offeror. Additional information on the solicitation is included below the line.
-----------------------------	---

Prior Council Action:	
------------------------------	--

For More Information:	Shawn Willet, Deputy Purchasing Officer, 512-974-2021
------------------------------	---

Boards and Commission Action:	December 14, 2016 – Recommended by the Water and Wastewater Commission on a 8-0 vote with Commissioner's Blanding and Michel absent and Commissioner Lee off the dais.
--------------------------------------	--

Related Items:	
-----------------------	--

MBE / WBE:	This solicitation was reviewed for subcontracting opportunities in accordance with City Code Chapter 2-9D Minority Owned and Women Owned Business Enterprise Procurement Program. For the goods required for this solicitation, there were insufficient subcontracting opportunities; therefore, no subcontracting goals were established.
-------------------	--

Additional Backup Information

The contract will provide pumps needed to pump treated sludge from digester treatment complexes, where anaerobic digestion occurs, to the dewatering building, where sludge volume is reduced by dewatering. This is an important and necessary part of the City's wastewater treatment process, enabling Austin Water (AW) to pump sludge effectively and efficiently.

The pumps will replace existing pumps which are over 25 years old and are no longer compatible with other new equipment. The new pumps will allow for interchangeability of parts with other onsite equipment, resulting in reduced costs for service, parts inventory, and down time.

If the City is unable to secure a contract for the purchase of these pumps, AW will not have a way to move sludge from digester complexes to the dewatering building. This could cause process disruptions, leading to fines from the Texas Commission on Environmental Quality and Environmental Protection Agency for failure to meet requirements in current City permits. This could also cause an inability to treat waste sludge at Walnut Creek Wastewater Treatment Plant and South Austin Regional Wastewater Treatment Plant.

BID TABULATION

IFB JXP0113REBID

Progressive Cavity Pumps and Pressure Sensors

3 line items

<u>Vendor</u>	<u>Total Price</u>
Netzsch Pumps North America LLC	\$128,172
