These three contracts will replace eight contracts with an expiration date of June 30, 2017. The average spend is \$143,145 per year. The variable demand of required parts and the lead time to receive the necessary items makes it essential to maintain stock in the warehouse.

If the City is unable to secure a contract, the repair of City fire hydrants will be impacted, leaving fire hydrants possibly unavailable for Austin Fire Department to utilize during a fire.
