## City Council Meeting Item No. 10 (Strategic Housing Plan)

### Multi-Generational Housing

**Motion:** I move to add text to the new subsection "Increase the Supply of Multi-Bedroom Housing for Families with Children" (found on page 20) to read as follows:

- Explore ways to <sup>is develop a goal for the 9%</sup> achieve 70% multi-bedroom housing in neighborhoods, which can create age-diverse neighborhoods;
- Explore options to increase multi-bedroom housing in a variety of areas, including on publicly-owned land and on corridors and centers near schools. Such options could include establishing minimum bedroom requirements and policies that encourage dwellings for multi-generational households.
