Additional Backup Information				
<p>The Watershed Protection Department is proposing a set of code amendments to clarify and improve existing code requirements. The proposed code amendments included in this ordinance fall into three categories:</p> <ol style="list-style-type: none"> <li>1. Watershed Protection Ordinance (WPO) clean-up amendments, which clarify requirements and correct inconsistencies resulting from the 2013 WPO;</li> <li>2. Clarification of Land Use Commission findings of fact for variances to Chapters 25-8 and 30-5; and</li> <li>3. Clarification of regulations applicable to agricultural activities.</li> </ol> <p>The proposed amendments include the following changes to the Save Our Springs Initiative: (1) removing total organic carbon and fecal streptococci from the list of regulated pollutants, and (2) clarifying that the existing impervious cover exemption for roadway improvements applies only to the listed improvements, not all roadway projects, which was the intent of the 2013 WPO revisions. The proposed amendment also includes a minor</p>				

clarification to the Barton Springs Zone Redevelopment Exception (Section 25-8-26).
