

Memorandum

Date: May 26, 2017

TO: Historical Preservation Commission

From: Fred Blood, VP Wilshire Wood/Delwood One Neighborhood Association

Concerning: 4208 Wilshire Parkway: Renovation/Demolition plans

On May 17, we had a specially called informal meeting to discuss the demolition/reconstruction plans for the property at 4208 Wilshire Parkway. This was not a formal neighborhood meeting, and therefore no vote was taken. However, almost all the impacted neighbors and neighborhood association officers were present.

The minutes and attendance are attached.

In general, the neighborhood was satisfied with the project as presented – current house to be demolished and replaced with a single story, cut stone, house of approximately the same footprint. Those in attendance voiced support and appreciation for the effort made to allow the project to fit into the existing neighborhood fabric.

I believe that it is safe to state that, as long as the final product closely follows the presented plans and suggestions made, the Wilshire Wood/Delwood One Neighborhood Association is in support of the planed project at 4208 Wilshire Parkway.
