Why Government & Our City

- Government has the ability to
 - Create inequity
 - Create Equity
 - Improve overall quality of life for residents

History of government and equity

Initially explicit

Government explicitly creates and maintains inequity.

Became implicit

Discrimination illegal, but "neutral" policies and practices perpetuate inequity.

Government for racial equity

Proactive policies, practices and procedures that advance equity.

City of Austin's Opportunity to Drive Equity

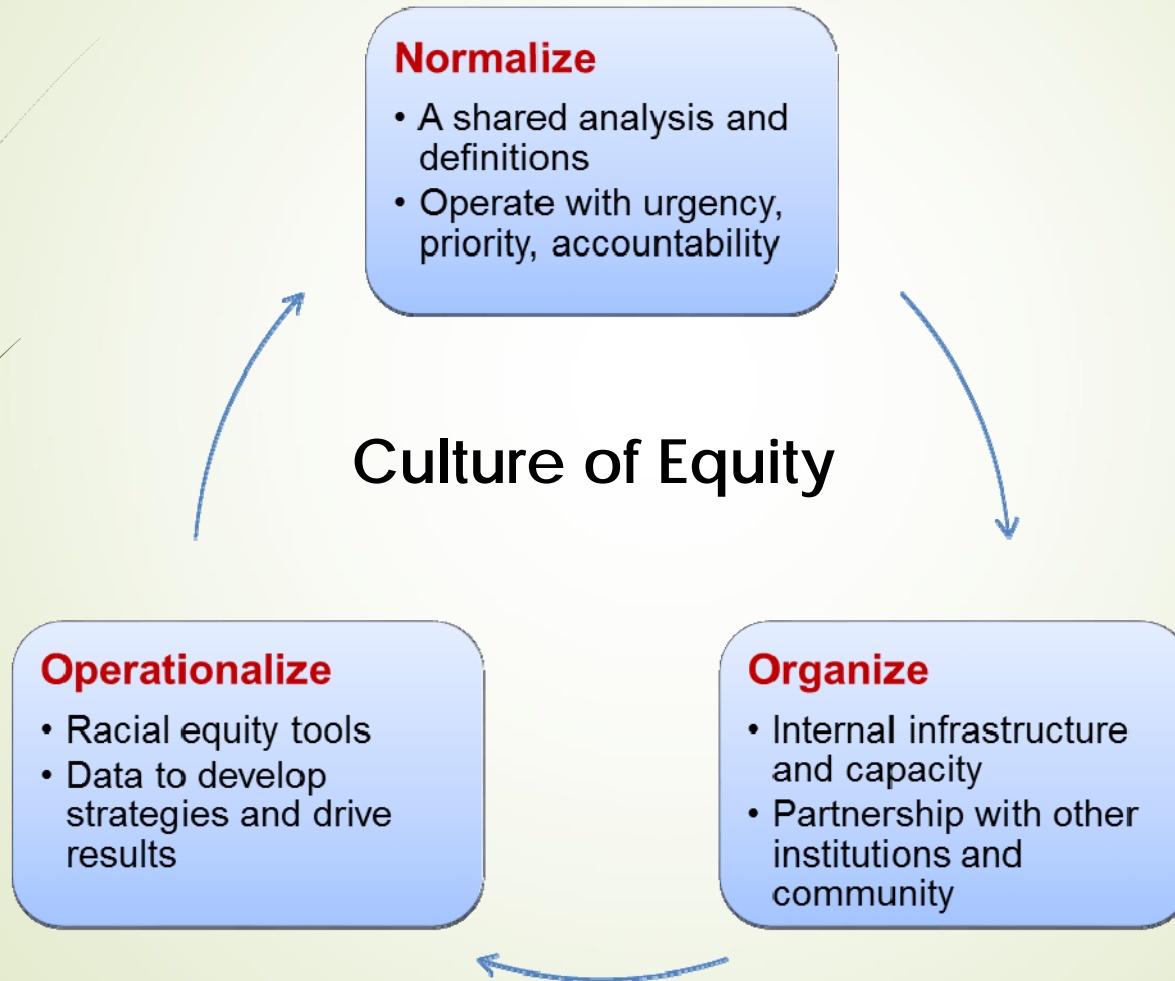

It's all about CHOICE POINTS

- Choice Points are decision-making opportunities that influence outcomes
- The cumulative impacts of small choices can lead to BIG influence on outcomes and equity
- When we are conscious of choice points and the related impact, we're less likely to replicate implicit bias and the status quo, and we open new possibilities for equitable change.

Key Areas of Departmental CHOICE

- **Planning:** What to change and prioritize in programs?
- **Budgeting:** what items do we add or cut and what initiatives get the funding?
- **Personnel:** who to hire, retain, promote, or develop as leaders
- **Policy Development:** what to propose or modify?
- **Practices:** routines/habits and or expectations to set

- Bring conscious attention to racial inequities and impact before decisions get made
- Help us avoid or minimize adverse impacts and unintended consequences

Equity Office Partnership

Operationalize

- Racial equity tools
- Data to develop strategies and drive results

Consider overlaying an equity lens to your prioritization process:

1. Know the History: Consider historical context of projects. Does the project address events that have negatively impacted communities of color? Acknowledge them and create space for communities to share as to not repeat the same mistakes.

2. Review & Monitor the Data: What are the data and projected impact of the project? What do the data tell us? Are they disaggregated by race/ethnicity?

3. Engage the Community: How have communities been engaged? Are there opportunities to expand engagement and what were the efforts to reach most marginalized populations and bring those voices into consideration?

5. Advance Racial Equity: Does this project have an opportunity to advance equity within Council Six Outcome Priorities and reduce/eliminate a disparity?

6. Analyze Unintended Consequences: Are there any possible unintended outcomes for this project? Could the project have a negative impact on communities of color and/or other marginalized populations?
