ZONING CHANGE REVIEW SHEET

P.C. DATE: August 8, 2017

CASE: - C14-2017-0027 - Texas Motor Transportation and Oil Field Haulers Inc.

ADDRESS: 700 E 11th Street

DISTRICT AREA: 1

OWNER/APPLICANT: Texas Motor Transportation & Oil Field Haulers, Inc. (John Esparza)

AGENT: Metcalfe Wolff Stuart & Williams (Michele R. Lynch)

ZONING FROM: CS TO: CBD

TOTAL AREA: 0.810 acres (35,284 sq. ft.)

SUMMARY STAFF RECOMMENDATION:

Staff recommends rezoning the tract locally known as 700 E 11th Street from general commercial services (CS) to Central Business District (CBD) zoning.

PLANNING COMMISSION RECOMMENDATION:

August 8, 2017 APPROVED CBD ZONING AS STAFF RECOMMENDED BY CONSENT
[N. ZARAGOZA, P. SEEGER – 2ND] (10-0) K. McGRaw, J. VELA III, T. WHITE, — ABSENT.

ISSUES:

None on the subject tract

DEPARTMENT COMMENTS:

The subject property is 0.810 acres and consists of three unplatted lots located on the northeast corner of E 11th Street and Sabine Street just west of the IH-35 service road in the Downtown Neighborhood Planning Area. The property is now zoned general commercial services (CS). A two-story, 26,000 square foot office building currently occupies the site. The property takes access to 11th Street.

To the north of the site is an annex office building for a bank, and across the Sabine Street to the west is the main bank branch. Both of these sites have active zoning cases, and are also requesting CBD zoning (C14-2017-0061 – Velocity, E 12th St and C14-2017-0062 – Velocity, E 11th St). Beyond the bank branch to the east are a restaurant and outdoor entertainment venue – Symphony Square, which is owned by the City and leased to a tenant. Directly east of the property and fronting on the IH-35 service road is a rental car business. Across 11th Street to the south is a hotel.

The applicant is requesting to change the zoning to Central Business District (CBD) in order to construct a 30-story tower, to include 299 residential units and 13,000 square feet of office space.

C14-2017-0062 – CC – August 31, 2017
In preparation for the zoning case and site plan, the applicant worked from the assumption that the proposed development would generate more than 2,000 trips per day, thus requiring a Traffic Impact Analysis (TIA), and that the TIA would be used to request mitigation. With this in mind, the applicant began discussions with Austin Transportation Department, proposing to cover all mitigation items at the zoning stage, and in hopes of avoiding the TIA requirement. As a result of these discussions, staff agrees to waive the mandatory TIA at this stage, contingent upon the posting of Fiscal, prior to third reading of the ordinance (see Internal Memo, Exhibit G, attached).

One constraint on the property is the narrow frontage on E 11th Street. Because of this limited frontage, any future site plan for the property will require that the E 11th Street driveway be closed and that access be taken from Sabine Street (LDC 25-6-381(A)). Another constraint is the property’s location within a Capitol View Corridor – CVC 11, East 11th Street Threshold, which traverses the site, and will limit the maximum height of a building. (See Exhibits C and D)

The property is located in the Waller Creek District of the Downtown Austin Plan (DAP), which was adopted in 2011. The DAP identifies the tract as a Development Opportunity Site, one which is relatively unconstrained. In addition, DAP recommends CBD zoning for the tract and others in the vicinity - the strip of land between the IH-35 and Red River Street from just north of E 12th Street to just South of E 9th Street. Some of these properties have been rezoned to CBD, such as 707 E 9th St, 703 E 9th St, and 1209 Red River St. (See Exhibit E – Excerpts from DAP).

The CBD zoning classification is intended to expand entitlement rights to develop the property in a way that will encourage a mix of land uses while allowing the pursuit of district specific goals. For the Waller Creek Subdistrict, these include “Establish activities along the Creek that contribute to its safety and vitality and to the area’s economic revitalization” and “Encourage new development that promotes the area as a diverse, livable, and affordable mixed-use district with a distinctly local feel.” At minimum, the rezoning will allow for a site plan in accordance with these and other goals. At the time of site plan, the applicant will be required to coordinate with the Waller Creek District Design Review Board regarding the development of the tract. This board consists of members of the Waller Creek Conservancy and City of Austin Staff.

In the Imagine Austin Comprehensive Plan, downtown is designated as a Regional Center, the most urban place in the region. Higher densities are encouraged in these areas, including medium to high-rise residential and office buildings. For the reasons stated above, Staff believes the request is supported by the Downtown Austin Plan and the Imagine Austin Comprehensive Plan, and recommends CBD zoning.

TR1. The applicant shall participate in identified transportation improvements at adjacent intersections in lieu of providing a traffic study. (See Exhibit G).

TR2. FYI – each lot has less than 200 ft. of frontage along 11th Street and a proposed driveway will not comply with TCM standards due to the existing driveway (i.e. the driveway spacing shall

C14-2017-0062 – CC – August 31, 2017
be a minimum 200 ft.). Per LDC 25-6-381(A), access shall be denied to 11th Street. All access shall be taken to Sabine Street and/or the adjacent alley.

TR3. Changes to the proposed project (as shown on the TIA Determination worksheet) require a new TIA determination. At the time of site plan application, a Traffic Impact Analysis shall be required if triggered per LDC 25-6-113.

TR4. Additional right-of-way may be required at the time of subdivision and/or site plan.

TR5. According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane is recommended for 11th Street.

TR6. Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.

TR7. FYI – 11st Street is a Major Undivided Arterial as indicated within the Austin Metropolitan Area Transportation Plan.

TR8. FYI – loading, trash, parking, sidewalks, driveways, etc. shall comply with the LDC and TCM requirements at the time of site plan application.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

   The CBD zoning district is intended for an office, commercial, residential, or civic use located in the downtown area. This zoning district is appropriate for this site based on its location within the downtown area.

2. *The rezoning should be consistent with the policies and principles adopted by the City Council or Planning Commission.*

   The CBD zoning district is appropriate for this site as it is supported by the Austin Downtown Plan that was adopted by City Council in December, 2011. The subject property is proposed for a zoning change to Central Business District-CBD zoning district (Exhibit C). While there is no specific use or project planned for the subject property at this time, the zoning change to CBD will grant entitlement rights to develop the property in a way that will implement the following district-specific goals:
   - 5. Encourage new development that promotes the area as a diverse, livable, and affordable mixed-use district with a distinctly local feel.
   - 6. Establish activities along the Creek that contribute to its safety and vitality and to the area’s economic revitalization.

   The zoning change is also congruent with the Imagine Austin Plan that encourages infill and redevelopment, specifically in those areas classified as a 'Regional Center' on the Imagine Austin’s Growth Concept Map.

3. *The proposed zoning should promote consistency and orderly planning.*

   The CBD zoning district would be compatible and consistent with the properties that have CBD zoning in neighboring blocks.

EXISTING CONDITIONS

*Site Characteristics*

The property is currently developed with a two-story office building and parking lot. The property takes access to 11th Street, and to a midblock alley which connects to Sabine Street to the west. The site is relatively flat and slopes down to the southwest. There is a Heritage tree in the southwest corner of the site and a retaining wall that wraps around the same corner, separating the main site from the sidewalk. The site is not in the floodplain and there are no critical environmental features.

*Impervious Cover*

The tract is located in an Urban Watershed and therefore the zoning district will determine the impervious cover limits. The CBD zoning district allows up to 100% impervious cover.
Comprehensive Planning

Downtown Austin Plan - The subject property is located in the Waller Creek District of the Downtown Austin Plan. The subject property has been identified in the plan document as a ‘Development Opportunity Area’ (pg. 57) and as a property that is proposed for a zoning change to Central Business District-CBD zoning district (pg. 79). While there is no specific use or project planned for the subject property at this time, the zoning change to CBD will grant entitlement rights to develop the property in a way that will help to implement the following district-specific goals:

- 5. Encourage new development that promotes the area as a diverse, livable, and affordable mixed use district with a distinctly local feel.
- 6. Establish activities along the Creek that contribute to its safety and vitality and to the area’s economic revitalization.

Imagine Austin Plan - The subject property is located within the boundaries of a ‘Regional Center’, as identified in the Imagine Austin’s Growth Concept Map, found in the Imagine Austin Plan. A Regional Center is the most urban of the three activity centers outlined in the growth concept map and are intended to be retail, cultural, recreational, and entertainment destinations for Central Texas. These are also the places where the greatest density of people and jobs and the tallest buildings in the region will be located. The densities, building heights, and overall character of a center will vary depending on location. Regional centers will range in size between approximately 25,000-45,000 people and 5,000-25,000 jobs. The following IACP policies are applicable to this case:

- **LUT P3** Promote development in compact centers, communities or along corridors that are connected by roads and transit, are designed to encourage walking and bicycling, and reduce healthcare, housing and transportation costs.
- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.

Based on the information above, Staff believes that the proposed zoning change is supported by both the Downtown Austin Plan and the Imagine Austin Comprehensive Plan.

Site Plan – Lynda Courtney – 512-974-2810

No site plan comments

Environmental - Mike Mc Dougall - 512-974-6380

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

2. Zoning district impervious cover limits apply in the Urban Watershed classification.

3. According to floodplain maps there is no floodplain within or adjacent to the project location.

C14-2017-0062 – CC – August 31, 2017
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Water Utility - Bradley Barron – 512-972-0078

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

MEMORANDUM

TO: Scott Grantham, Case Manager
Planning and Zoning Department

FROM: Scott A. James, P.E., PTOE, Land Use Review/Transportation
Sangeeta Jain, AICP, Development Services Department

DATE: August 8, 2017

RE: Texas Motor Transportation & Oil Field Haulers, Inc.
Zoning Case C14 – 2017 – 0027/ Site Plan SP – 2017 – 0166C

Section 25 – 6 – 114 of the Land Development Code requires that a traffic impact
analysis be conducted for a zoning or site plan application if the proposed project is anticipated
to generate more than 2,000 daily trips. The project site is located on East 11th Street and
Sabine Street. The proposed development is a 30-story tower, to include up to 299 residential
units and up to 13,000 square feet of office space. The project site is currently occupied and is
zoned CS. The applicant is proposing to rezone 0.808 acres to CBD.

Roadways

East 11th Street is a three lane east-west roadway, in the vicinity of the site, widening to four
lanes (undivided) serving the downtown of Austin. There are marked bicycle lanes along both
sides of the roadway. The posted speed limit is 30 MPH.

East 12th Street is a four lane divided east-west roadway with limited connection westward due
to the state Capitol grounds. The posted speed limit is 30 MPH.

Red River Street is classified an (undivided) arterial roadway. In the vicinity of the site, it has
four travel lanes and a posted speed limit of 30 MPH.

Sabine Street is classified a collector roadway with connection to East 11th and East 12th Streets.
The posted speed limit is 30 MPH. The roadway does not offer thru connection north of East
12th Street, nor south of East 11th Street.
Trip Generation and Traffic Analysis

Based on the ITE publication *Trip Generation, 9th Edition*, the proposed development will include up to 299 residential units and up to 13,000 square feet of office space land uses. The total number of estimated daily trips attributed to the development is 2,266 vehicle trips per day (vpd). Table 1 below summarizes the site trip generation rates used in the traffic analysis:

Table 1 – Site Trip Generation

<table>
<thead>
<tr>
<th>Land Use (ITE Code)</th>
<th>Size</th>
<th>24-Hour Two-Way Volume</th>
<th>AM Peak Hour</th>
<th>PM Peak Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Office (710)</td>
<td>13,000 SF</td>
<td>144</td>
<td>18</td>
<td>2</td>
</tr>
<tr>
<td>Residential Multi-family (220)</td>
<td>299 units</td>
<td>1,936</td>
<td>30</td>
<td>122</td>
</tr>
<tr>
<td><strong>Totals</strong></td>
<td><strong>2,080</strong></td>
<td><strong>48</strong></td>
<td><strong>124</strong></td>
<td><strong>123</strong></td>
</tr>
</tbody>
</table>

Review staff from the Austin Transportation and Development Services Department examined this combined zoning and site plan application and confirmed that as the estimated daily trip generation will exceed 2,000 daily trips, mitigation measures will be required. However, rather than request and review a full Traffic Impact Analysis (TIA), review staff identified existing infrastructure improvements that, in proportion to the proposed development, would serve to mitigate site traffic impact upon the adjacent roadway infrastructure.

In consequence, staff agreed to support the zoning and site plan application, contingent upon the posting of fiscal for the following identified infrastructure improvements:

<table>
<thead>
<tr>
<th>Location</th>
<th>Transportation Improvement</th>
<th>Estimated Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>11th Street and Red River</td>
<td>• Traffic Signal Upgrade&lt;br&gt;• Crosswalk markings upgrade</td>
<td>$47,968.13</td>
</tr>
<tr>
<td>12th Street and Red River</td>
<td>• Traffic Signal upgrade&lt;br&gt;• Crosswalk markings upgrade</td>
<td>$64,269.38</td>
</tr>
<tr>
<td>11th Street</td>
<td>• Reconstruction of transit stop&lt;br&gt;• Installation of Bike Share Kiosk</td>
<td>$20,000.00</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td></td>
<td>$221,237.51</td>
</tr>
</tbody>
</table>

The "bike share kiosk" is to be in a location mutually acceptable to the City of Austin and the owner. It shall be sized, operated and maintained by the City of Austin consistent with other "bike share kiosks" in the general proximity of the project.
Recommendations

1) Prior to the release of site plan, the applicant shall post fiscal in the amount of $221,237.51 for the following improvements:
   a. Traffic signal upgrades to the intersections of East 11th Street / Red River Street and East 12th Street / Red River Street
   b. Enhanced pedestrian crossings for East 11th / Red River and East 12th / Red River
   c. Reconstruction of transit stop on East 11th Street
   d. Installation of 'Bikeshare' kiosk (location TBD at the time of site plan)

2) Development of this property should not vary from the approved uses, nor exceed the approved land use intensities, otherwise staff reserves the right to revisit the conditions of this project application and reserves the right to recommend additional mitigation.

If you have any questions or require additional information, please contact me at (512) 974 - 2208. Thank you.
