

ZONING CHANGE REVIEW SHEET

H.L.C. DATE: August 28, 2017

P.C. DATE: September 12, 2017

CASE: - C14-2017-0076 – ACC Rio Grande Campus - Block 153 Zoning

ADDRESS: 1212 Rio Grande Street

DISTRICT AREA: 9

OWNER/APPLICANT: Austin Community College District (Paul R Mason)

AGENT: Urban Design Group (Vanessa Mendez)

ZONING FROM: UNZ and UNZ-H **TO:** DMU-CO and DMU-CO-H

TOTAL AREA: 3.247 acres

SUMMARY STAFF RECOMMENDATION:

Staff recommends Downtown Mixed Use- Conditional Overlay (DMU-CO) combining district for Tract 1 and, Downtown Mixed Use- Conditional Overlay- Historic Landmark (DMU-CO-H) combining district for Tract 2.

The Conditional Overlay will limit the height to sixty feet (60') on both tracts; prohibit the following uses on Tract 2: Automotive repair services, Automotive sales, Automotive washing (of any type), Bail bond services, Cocktail lounge, Exterminating services, Liquor sales, Outdoor entertainment, Residential treatment and Service station; prohibit the same set of uses on Tract 1, with the addition of Pawn shop services; and will limit total vehicle trips to less than 2,000 per day across both tracts.

HISTORIC LANDMARK COMMISSION RECOMMENDATION:

August 28, 2017 *APPROVED DMU-CO FOR TRACT 1 AND DMU-CO-H FOR TRACT 2 AS STAFF RECOMMENDED [T. MYERS; K. KOCH – 2nd] (7-0-1) A. PAPAVALIOU – ABSTAINED, E. HIBBS, T. HUDSON, B. TOLLET - ABSENT*

PLANNING COMMISSION RECOMMENDATION:

September 12, 2017 *APPROVED DMU-CO FOR TRACT 1 AND DMU-CO-H FOR TRACT 2 AS STAFF RECOMMENDED [P. SEEGER; J. SHEIH – 2nd] (12-0), J. VELA III OFF THE DAIS*

ISSUES:

None on subject tract

DEPARTMENT COMMENTS:

The subject property is comprised of six unplatted lots, comprising the entire block south of W 13½ Street, north of W 12th Street, east of West Avenue, and west of Rio Grande Street, and is approximately 3.25 acres.

The property is divided into two tracts. Tract 2 is the southern portion of the property, is currently unzoned, and has a historic landmark designation which was granted in 1982. (See Exhibit D). Located on Tract 2 is a historic building which once housed Austin High School and, prior to that, John Allen Junior High School. The building is now the main building (Building 1000) for the Rio Grande campus of Austin Community College (ACC). Tract 1 is the northern portion of the property and is the site of a more recently constructed building known as the Annex, also owned by ACC and used for classrooms and educational facilities. In addition, Tract 1 has a parking lot with vehicular access taken from Rio Grande Street to the east and from West Avenue to the west.

The main building was designed by architect Dennis Walsh, and constructed in 1916, originally in a T-shape, with the main cross piece fronting on Rio Grande and the stem extending to the west. From 1916 to 1925, the building was the home of Allen Junior High. In 1925, additions were made to the school, creating a double court yard design. With the completion of the additions and renovations, the building became the new location of Austin High School, and housed this school until 1975. The Austin Independent School District maintained the property until 2004 when it was conveyed to Austin Community College. (For more on the history of the building, see Exhibit D).

In 2012, an application was made to rezone the property to DMU and DMU-H, for Tracts 1 and 2 respectively – the same request as the current one. Staff supported the application with conditions, which included a 60 ft height limit, front, side, and rear setbacks, a limit of 2,000 daily trips, and a set of prohibited uses. Planning Commission approved the staff recommendation, and added a requirement for participation the Great Streets program. However, the applicant ultimately withdrew the application for rezoning.

For the current application, the applicant is requesting downtown mixed use (DMU) district zoning. The applicant has a plan that includes constructing covers for existing courtyard spaces and reconfiguring the parking area, improvements that are part of a submitted site plan (SP-2017-0260C) for the property. The applicant must obtain zoning prior to approval of the site plan. There is a simultaneously submitted rezoning request (C14-2017-0077), also to DMU, for a property located at 1218 West Avenue, for which ACC is also the applicant.

The applicant also plans to remodel and renovate for the main building. Because of the building's Historic Landmark status, a certificate of appropriateness was applied for and was granted by the Historic Landmark Commission on July 24, 2017.

The majority of the property (all but the northernmost 90 feet) is located within the Criminal Justice Center Overlay (LDC Section 25-2-650). Pawn shop services is a prohibited use within the overlay. Certain uses that would otherwise be permitted in the base zoning are conditional uses - bail bond services, cocktail lounges and liquor sales. Part of the property is located within the Redbud Trail Capitol View Corridor (CVC). However, this would not be a constraint on the property, because for the portion it regulates, the CVC would limit building height to approximately 140 feet, and the height limit recommended by staff is 60 feet, and DMU base zoning allows 120 feet.

In the Imagine Austin Comprehensive Plan, downtown is designated as a Regional Center, the most urban place in the region. Higher densities are encouraged in these areas, including low to high rise residential, office, and other uses, including civic uses such as educational.

The property is located in the Northwest District of the Downtown Austin Plan (DAP), which was adopted in 2011. Because both tracts were unzoned at the time of the plan, there were no zoning recommendations for the tracts contained in the DAP. However, the area that surrounds the tracts are recommended for downtown mixed-use, DMU-60, with the 60 referring to a height limit to be contained in a conditional overlay. (See Exhibit E). Base DMU zoning allows for 120 feet in height. The Northwest District has a significant number of Historic Landmark structures. Limiting the height to 60 feet will better compliment the historic character of the district.

In addition to a height restriction, staff recommends the addition of a set of prohibited uses to the conditional overlay; these uses would not be desirable in the context of the neighborhood, should the property ever be redeveloped. Some of these uses are conditional in the DMU district, and this is an extra measure to ensure that they are never allowed in the district.

For Tract 2, prohibited uses would be as follows: Automotive repair services, Automotive sales, Automotive washing (of any type), Bail bond services, Cocktail lounge, Exterminating services, Liquor sales, Outdoor entertainment, Residential treatment and Service station. For Tract 1, staff recommends the same set of prohibited uses with the addition of Pawn shop services; part of Tract 1 is outside the Criminal Justice Overlay and therefore will not have this use prohibited as part of base zoning. Finally, a limit of 2,000 trips per day is recommended, across both tracts.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	UNZ, UNZ-H	Community College
<i>North</i>	W 13 ½ St, then LO, GO	W 13 ½ St, then Office, Three/fourplex
<i>South</i>	W 12th St, then UNZ	W 12th St, then elementary school
<i>East</i>	Rio Grande St, then LR, GO, LR-CO, DMU-CO	Rio Grande St, then office, apartment/condo, parking
<i>West</i>	West Ave, then LO, SF-3, MF-4, LO, CS	West Ave, then educational, office, single family, three/fourplex, commercial

BASIS FOR RECOMMENDATION

1. *Zoning changes should promote compatibility with adjacent and nearby uses.*

Granting DMU-CO would be in keeping with the adjacent uses and zonings in the area and would be in conformance with the Downtown Austin Plan.

2. *The rezoning should be consistent with the policies and principles adopted by the City Council or Planning Commission.*
3. *Zoning should not constitute a grant of special privilege to an individual owner; Granting of the request should result in an equal treatment of similarly situated properties.*

The DMU zoning district is appropriate for this site as it is supported by the Austin Downtown Plan that was adopted by City Council in December, 2011. The subject property is located in a general area that is primarily recommended for Downtown Mixed Use – DMU and suggests a height restriction of 60 ft. (see Exhibit E). DMU will grant entitlement rights to develop the property in a way that will implement the district-specific goals.

The zoning change is also congruent with the Imagine Austin Plan that encourages infill and redevelopment, specifically in those areas classified as a Regional Center on the Imagine Austin's Growth Concept Map.

EXISTING CONDITIONS

Site Characteristics

The property is currently developed with two buildings, part of the Rio Grande campus of Austin Community College. There is a parking lot on the northern portion of the property; vehicular access to the parking lot is taken from Rio Grande Street to the east and from West Avenue to the west. The tract is relatively flat with a slight grade change, sloping down from the east to the west. There are no critical environmental features on the property and it is not in a floodplain.

Impervious Cover

The tract is located in an Urban Watershed and therefore the zoning district determines the impervious cover limits. The DMU zoning district allows up to 100% impervious cover.

Comprehensive Planning – Anne Milne – 512-974-2868

Downtown Austin Plan

The property is located in the Northwest District of the Downtown Austin Plan. The property is not identified on the Proposed Downtown Zoning Change as a property to be changed. Instead, it is identified as Austin Community College (ACC). The nearby areas are proposed to be rezoned as DMU.

Imagine Austin Plan

The subject property is located within the boundaries of a Regional Center as defined in the Imagine Austin Growth Concept Map. A Regional Center is the most urban and dense of the activity center types and is intended to be a retail, cultural, recreation, and entertainment destination in central Texas. These are also the places where the greatest density of people and jobs and the tallest buildings in the region will be located. The densities, buildings heights, and overall character of a center will vary depending on location. Regional centers will range in size between approximately 25,000-45,000 people and 5,000- 25,000 jobs. The following IACP policies are applicable to this case:

- **LUT P3** Promote development in compact centers, communities or along corridors that are connected by roads and transit, are designed to encourage walking and bicycling, and reduce healthcare, housing and transportation costs.

Based on the information above, Staff believes that the proposed zoning change is supported by the Imagine Austin Comprehensive Plan.

Site Plan – Ramon Rezvanipour - 512-974-3124

- SP 1. Site plans will be required for any new development other than single-family or duplex residential.
- SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
- SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Compatibility Standards

- SP 4. The site is subject to compatibility standards. Along the north and west property lines, the following standards apply:
 - No structure may be built within 25 feet of the property line.
 - No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
 - No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
 - No parking or driveways are allowed within 25 feet of the property line.
 - A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
 - For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
 - An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
 - A landscape area at least 15 feet in width is required along the property line if tract is zoned MF-3, MF-4, MF-5, MH, NO, or LO.
 - A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

Additional design regulations will be enforced at the time a site plan is submitted.

Overlays

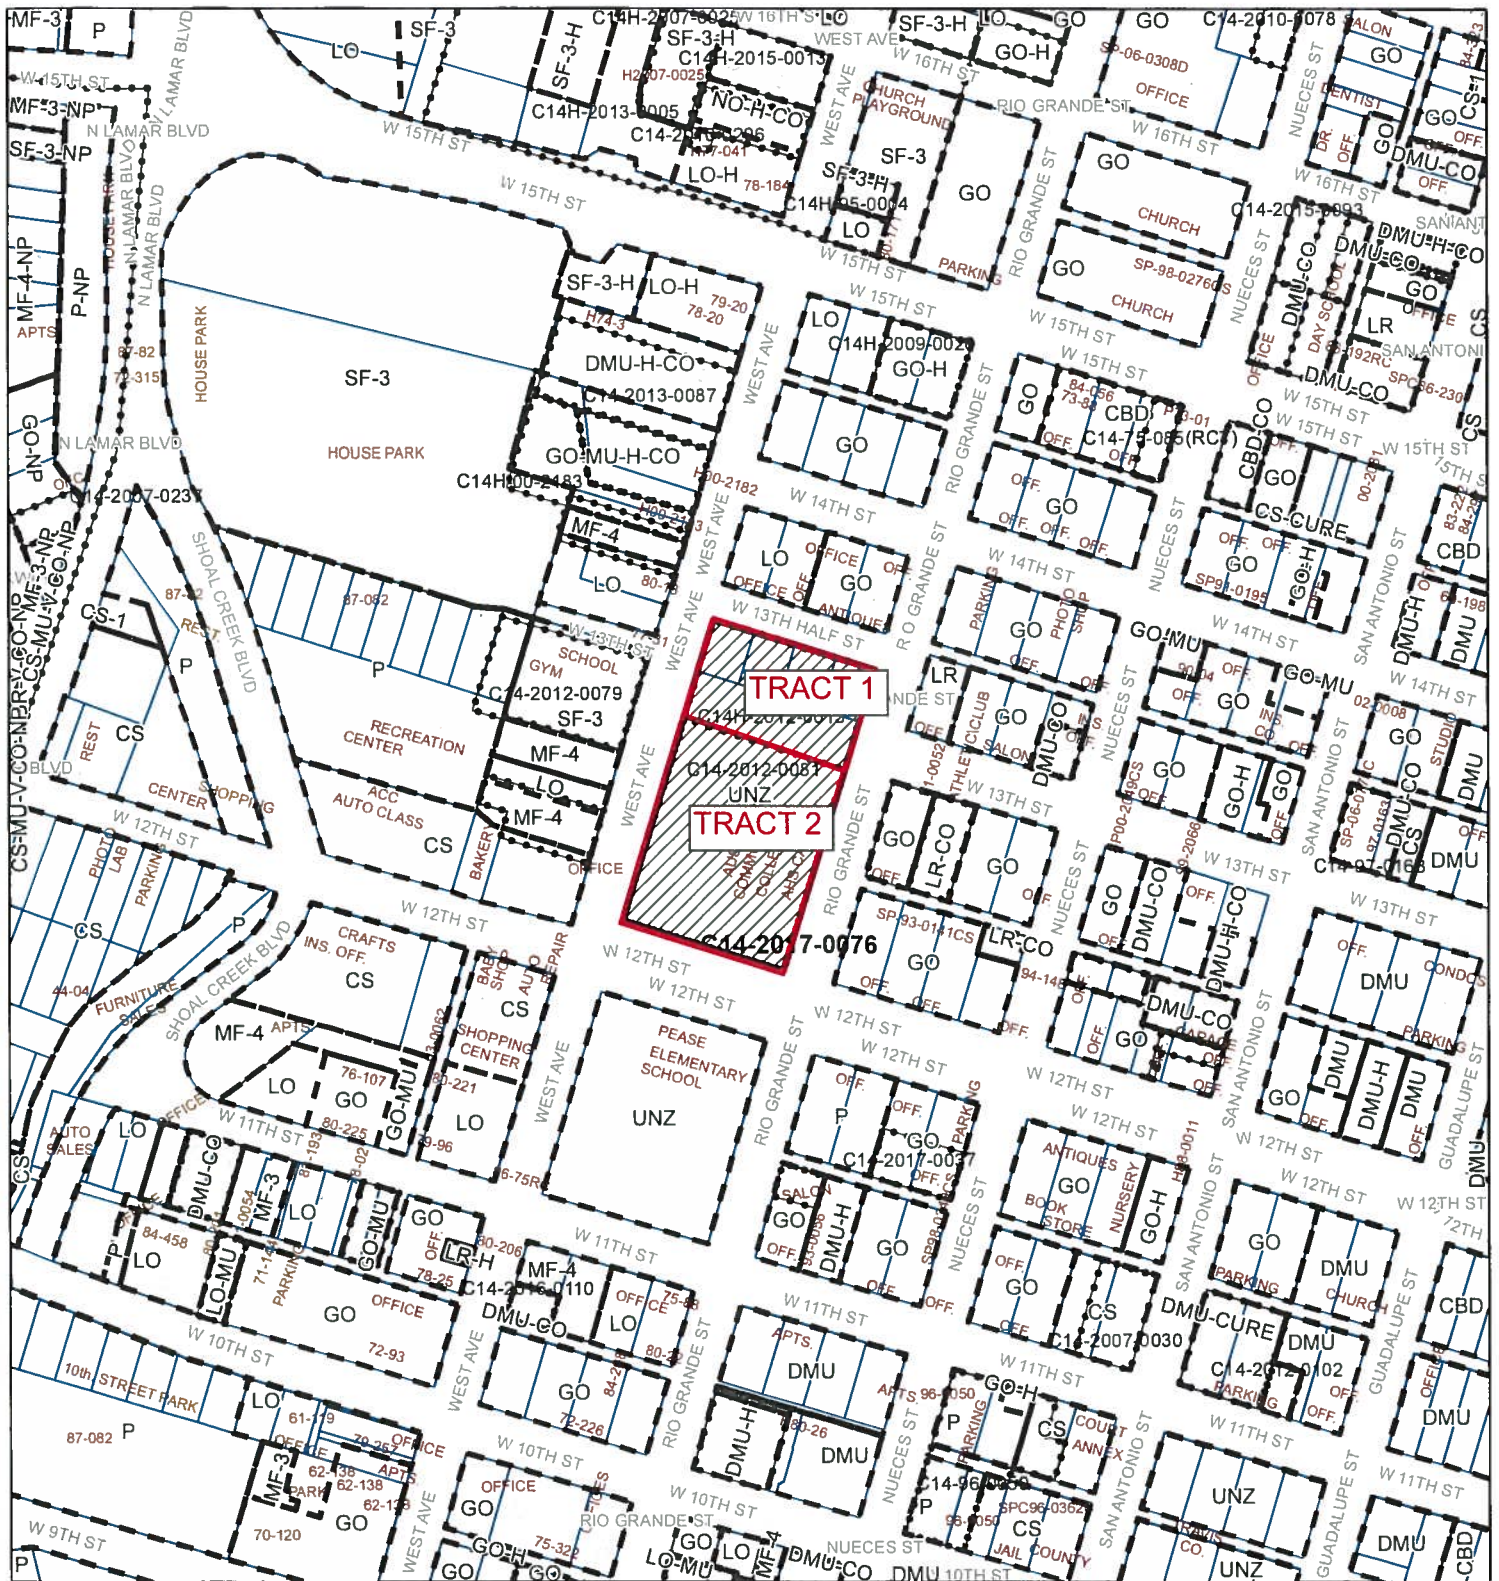

- SP 5. FYI – This site is located within the Criminal Justice Center Overlay, the Central Urban Redevelopment Overlay, the Red Bud Trail Capital View Corridor Overlay, and the Downtown Neighborhood Plan Area. Additional comments may be generated during the site plan review process.

Environmental – Mike McDougal - 512-974-6380

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Shoal Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Zoning district impervious cover limits apply in the Urban Watershed classification.
3. According to floodplain maps there is a floodplain adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

Water Utility – Neil Kepple – 512-972-0077

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.

Allan Jr. High/Austin High School

In 1910, when the secondary school population in Austin exceeded 800 students, Superintendent A. N. McCallum and high school Principal James E. Pearce began planning for the building of a second high school. Whether it would be a separate school for girls, a second high school operating independently, or a junior high school would not be decided until 1915.

In 1915, the Board of School Trustees determined to proceed with plans for a new school. A bond election had been approved that year and, on July 12, 1915, the Board conducted a hearing to decide the matter. Dennis Walsh was selected as the architect, and his plans for the building were approved on September 17, 1915. Bids were called and the bid of Van Horn-Shaw Construction Company was accepted at \$89,070 on November 25, 1915. On December 20, 1915, the Board acted to organize a junior high school. A poll had been taken at the high school to determine the wishes of the students, and extensive community discussion had been conducted on the matter. The building was ready for occupancy on September 25, 1916, and a final payment was made on October 6, 1916. Total cost of the 1916 construction was \$96,352.

During the next ten school years, 1916-1925, the building served as the John Allan Junior High School, serving grades seven and eight. The building was constructed in a "T" shape, with the crossbar of the "T" along Rio Grande Street, and the stem of the "T" extended westward toward West Avenue. Classrooms were located in the Rio Grande Street wing, while cafeteria, physical education room and auditorium were located in the stem.

The building was ordered converted to a senior high school by vote of the Board of School Trustees in their meeting of September 16, 1925. Superintendent McCallum recommended the change. The old site at 9th and Trinity site lacked space for further high school expansion. McCallum felt that the Rio Grande campus, adjacent to House Park, would be highly suitable for a continued development of a high school.

Renovations and additions to the building were ordered in 1925. Plans drawn by architects Giesecke and Harris reveal that the original "T" shape was expanded to a double courtyard design by the addition of classroom wings on the north and south side of the old "T" shape, enclosing two courtyards. Additions and building refurbishing was still under way during the Thanksgiving Holiday, 1925, when the junior and senior high school campuses were exchanged. From 1925 onward, the Rio Grande campus would serve as the Austin High School campus until 1975.

The shape of the modern Austin High School began to emerge in these years of the twenties and thirties. The school annual, the Comet, entered its modern form. The Maroon student newspaper began publication in 1928. The Student Council wrote a new constitution in 1927, based on their new start in the new building. The Red Dragon drama organization was formed in 1929 and the Red Jackets girls organization was organized in 1926.

These look good Laura, and OANA reiterates the support we expressed in 2012 for these zoning changes.

We sincerely appreciate your team and city staff maintaining the use restriction all parties agreed to back in 2012 and look forward to the restoration of the original building.

Thanks very much for reaching out on this.

Best, Ted

Old Austin Neighborhood Association

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.
