Additional Backup Information

Pursuant to the terms of various agreements, Austin Public Health has provided public health services throughout the unincorporated areas of Travis County (County) since 1985. After several years of work by City and County staff to consolidate the patchwork of agreements and amendments related to these services, the County Commissioners Court and City Council approved an interlocal agreement (ILA) on September 27, 2007 and October 18, 2007, respectively. This original ILA was renewed several times.

On September 26, 2013, City Council approved the current ILA with an initial 12-month term from October 1, 2013 through September 30, 2014, with four 12-month renewal options. Approval of this item will authorize negotiation and execution of the fourth and final renewal term of the ILA for a 12-month term beginning on October 1, 2017 in an amount not to exceed \$4,403,824.

Following the execution of this ILA, Austin Public Health will continue to provide public health services, such as HIV outreach & prevention, immunizations, disease surveillance, vital records, chronic disease prevention, communicable disease services, epidemiology and disease surveillance, Health Authority services, tuberculosis elimination, and environmental health services.
