Project: 1615 Westlake Drive, Westlake, TX 78150
 Dear Mrs. Studer:

- On March 23rd and April 2nd of 2001, I visited the referenced home
 to inspect a recently constructed Dock/Boat dock.
 Attached are the following:
 1. Vicinity Map of the Project
 2. Plan View of the Dock
 3. Three Elevations of the Dock
 4. Sketch of additional project modifications that are required.
 A. Fill in at the base with additional concrete.
 B. Attached support brackets at top of 6" x 6" post.
 C. Install 2 additional 2" x 8" supports on top of 2" x 10" posts, equally spaced.
 D. Scale into 4" x 4" posts, 2 (two) additional 2" x 4" boards and 1 (one) additional 2" x 6" board. These will be installed one foot inside of a 12" cylinder of concrete that will sit on an existing submerged footing. The 12" concrete column will be a minimum of 6" above the water line.
 If all of the above referenced items are detailed in the drawings, the recently constructed Dock/Boat Dock will satisfactorily meet the requirements of CADD 11955.
 If I can be of further assistance, please call me at (512) 237-3373.

Sincerely,
 R. Stewart Polvado, P.E.
 Westlake, Texas

I, Dustin Donnell, am applying for a variance from the Board of Adjustment regarding Section LDC 25-2-1176(A) (2) & (4) of the Land Development Code. The variance would allow me the ability to construct a boat dock that is 1.9 feet longer and 4.3 feet wider than without the variance, making the total dock 30 feet x 30 feet.

By signing this form, I understand that I am declaring my support for the variance being requested.
