

January 2, 2018

Dear John Miki and Peter Park.

The Zoning and Platting Commission voted to recommend/not recommend (circle one) using the East Riverside Corridor compatibility standards in Code Next Version 3 and asks that illustrations/exhibits for all corridors, similar to what was prepared by Commissioner Jim Duncan for the Zoning and Platting Commission, show the existing compatibility standards versus the proposed standards for both sides of the corridor and the lot depths adjacent to the corridors, as per contract requirements.

Jolene Kiobassa, Chair
Zoning and Platting Commission
