RECOMMENDATION

Staff Recommends Adopting An Ordinance Amending The Oakland Municipal Code To Prohibit The City From Contracting With Companies Who Contract With The Federal Government To Provide Services Or Goods To Construct The Border Wall Referenced In Executive Order No. 13767, Dated January 25, 2017.

EXECUTIVE SUMMARY

On January 25, 2017, President Donald Trump issued Executive Order 13767, titled "Border Security and Immigration Enforcement Improvements". The order directs construction of a contiguous wall approximately 2,000 miles along the southern Mexico-United States border. On March 21, 2017, Oakland City Council adopted Resolution No. 86662 C.M.S. denouncing Executive Order No. 13767 such that unless and until Trump rescinds this order, directing, in its proprietary capacity, the City Administrator to, in instance where there is no significant additional cost, to be defined in regulations, or conflict with law; take action prohibiting Border Wall contractors (BWCs) from entering into city contracts; and prohibiting city staff from entering new or amending existing contracts or purchase agreements for the procurement of goods and/or services with BWCs.

In response to the directives of Resolution No 86662, staff developed a policy and procedures prohibiting BWCs from contracting with the City of Oakland; staff from contracting or amending agreements with them; and requiring all contractors/vendors and subcontractors to declare under penalty of perjury that they are not directly or indirectly under contractual agreement(s) to build, support, service, and/or maintain the operations of the "Border Wall" while competing for or under contract with the City of Oakland.

BACKGROUND / LEGISLATIVE HISTORY

The City of Oakland is committed to the fair and just treatment of immigrants, regardless of their ethnicity, religion or place of origin, and the City has been on record since July 8, 1986 as a City of Refuge when it adopted Resolution No. 63950, promising to protect undocumented immigrants by not assisting in their prosecution, detainment and deportation based on the enforcement of federal immigration law.

On January 25, 2017, President Donald Trump issued Executive Order 13767, titled "Border Security and Immigration Enforcement Improvements" and on March 21, 2017, the City Council adopted Resolution No. 86662 C.M.S. denouncing Executive Order No. 13767 "Border Security and Immigration Enforcement" to build a wall on the U.S.-Mexico border.

Resolution No 86662 states that unless and until President Donald J. Trump rescinds this Order, the Oakland City Council, in its proprietary capacity, directs the City Administrator – in instances where there is no significant additional cost, to be defined in regulations, or conflict with law – will develop, implement, monitor and enforce contracting policies that will direct city staff to refrain from entering into (formally bid/solicited and informally bid/solicited) all new or amended contracts to purchase all goods/commodities and services (i.e. professional, technical, scientific or financial services, goods, construction labor and materials or other services, or supplies) from businesses that enter into contracts to provide such services, goods, materials or supplies to build the U.S.-Mexico border wall (Border Wall Prohibition).

ANALYSIS

Oakland has historically been and remains today a city of immigrants and refugees, with 27% of its residents being foreign born – 31 percent of whom were born in Mexico – and in all its forms, diversity provides a strong foundation of the City's economic vitality, cultural vibrancy and social character. The Oakland City Council in the past has recognized the contributions of immigrant communities in the City and throughout California.

The Border Wall will have negative impacts directly and indirectly Bay Area-wide. Per the 2010-2012 American Community Survey, almost one-third (30%) of residents in the Bay Area region (2.1 million) are immigrants and about 20% of all immigrants in the Bay Area (430,000) are undocumented. Approximately one in every 10 workers in California is an undocumented immigrant, contributing \$130 billion annually to California's gross domestic product.

In the Bay Area region, immigrants account for 37% of the labor force and undocumented immigrants are 7% of the total workforce. Immigrants – many of them undocumented – make up 83% of electrical, electronics, and electromechanical assemblers, 87% agricultural-product graders and sorters, 78% of miscellaneous agricultural workers (including animal breeders), 84% of maids and housekeeping cleaners, 63% of grounds maintenance workers, 61% of first-line supervisors of housekeeping and janitorial workers, 59% of janitors and building cleaners, 87% of sewing machine operators, 81% of tailors, dressmakers, and sewers, 80% of food processing workers, 77% of miscellaneous metal and plastic workers, 70% of cooks, 69% of dishwashers, and 54% of chefs and head cooks.

In Alameda County, unauthorized immigrants comprise 6% of the total immigrant population. Children under the age of 18 are 23% of the total immigrant population, with 3% identified as undocumented immigrants. Children who reside with at least one undocumented immigrant parent constitutes 15% of the immigrant population. By comparison, in East Oakland, unauthorized immigrants make up 17% of the total immigrant population. It is estimated that 35% of children living in East Oakland are undocumented immigrants and have at least one undocumented parent.¹

An article in the "Weekly Wastebasket" titled "Building a Wall of Waste"² reported that a "Border Wall" will have a staggering price tag. As far back as 2006, veteran border agents reported nearly insurmountable obstacles to constructing a "fence" citing rugged desert, creek beds, flash flooding etc. rendering the construction prohibitive.

The Department of Homeland Security, Customs and Border Protection (CBP) issued a notice indicating its intent to issue a solicitation on or about March 6, 2017 "for the design and build of several prototype wall structures in the vicinity of the United States border with Mexico", requiring submittal of concept papers by March 10, 2017, and submittal of responsive proposals by March 24, 2017. On September 26, 2017, contractors broke ground on eight prototypes. U.S. Customs and Border Protection stated that Prototypes must be completed within 30 days. Upon completion, they will be tested by the Department of Homeland Security. Next steps are not clear beyond this point. The contractors selected to compete include: Caddell Construction Co., based in Montgomery, Alabama, W.G. Yates Construction of Philadelphia, Mississippi, Texas Sterling Construction Co., based in Houston, and Fisher Sand and Gravel based in Tempe, Arizona.³

APPLICATION OF POLICY

The United States Supreme Court has upheld the power of a municipality to make legitimate economic decisions without being subject to the restraints of the interstate commerce clause when it participates in the market place as a corporation or a citizen as opposed to exerting its regulatory powers. As such, the City of Oakland declares the right to measure the moral character of its business partners in determining with whom it seeks business relations.

- The application of the policy shall be within the following types of goods and services:
- Construction (including sub-contractors).
- Engineering (including sub-consultants).
- Planning.
- Information technology businesses and their subsidiaries.
- All financial institutions.
- Resources/logistics.

- Communications and public relations surveillance and security.
- Other ancillary service providers related to construction of the U.S.-Mexico wall, engaged by contractors/vendors/suppliers which design and/or build the U.S.-Mexico wall.
- Current City of Oakland contracts with businesses that are contractually engaged to provide any services or such services or goods to build all or part the U.S.-Mexico wall, should not be renewed or otherwise extended.

Application of the Border Wall Prohibition policy will be folded into the City's current contracting and purchasing procedures whereby:

- The City will publish a list of BWCs providing goods or services under contract for work with the federal government and who support in any form or fashion, the construction, operation and/or maintenance of the border wall;
- City staff will be required to refrain from entering new or amending existing contracts to purchase professional, technical, scientific or financial services, goods, construction labor and materials or other services, or supplies from businesses engaged in the building, servicing and or maintenance of the border wall;
 - Evidence of staff's compliance will be reflected in the City Administrator's Contract Authority Check and a "Border Wall Compliance Certificate" issued by Contracts and Compliance.
 - The Border Wall Prohibition will be declared by way of Schedule W in **Attachment B**
 - All contractors/vendors and subcontractors will be required to declare under penalty of perjury that they are not and do not plan to participate in the building, servicing, maintenance of the operations of the "Border Wall" while under contract with the City.
 - This declaration will be provided through the signed "Schedule W" which will be inserted as part of the combined contract schedules.
- To maintain compliance throughout the life of the project, project staff will report to the assigned compliance officer any changes to the approved project teams as reflected in the compliant Schedules E and R.
- Prior to the City Council awarding any contract exceeding the City Administrator's contract limit to a vendor for the purpose of supplying a good/commodity or service to the City of Oakland, the City Administrator, designee, or designated official agent of the City of Oakland, shall require the contractor to stipulate, as a material condition of the contract, that it has not been hired to provide services, goods, products, equipment, or technology, etc. for the construction of the border wall, or any border wall work and does not intend to seek such work or provide such services for the duration of the City of Oakland contract. Contractor further will stipulate that failure to comply with the requirements of this Chapter 2.____.0 shall constitute a material breach by Contractor of the terms of the Contract. The City in its sole discretion shall determine such failure.

- Language reflecting the Border Wall Prohibition will be folded in with all authorized standard boilerplate documents including "Terms and Conditions" as put forward by Purchasing Services.
- Required authorized standard City-wide boilerplate documents must include but may not be limited to:
 1. Professional Services Agreement (PSA) (including As-Needed and On Call Agreements).
 2. Construction contract boilerplate.
 3. Information Technology Service Agreement.
 4. Maintenance Agreements.
 5. Commodity Purchase Agreements.
 6. Request for Proposals/Qualifications (RFP/Q).
 7. Notices Inviting Bids (NIB).
 8. Informal Solicitations.
- Upon close out or completion of deliverables and prior to issuance of final payment (while honoring the Prompt Payment Ordinance) the vendor must submit a statement attached to the final invoice, under penalty of perjury, declaring compliance with the Border Wall Prohibition. An invoice is not declared fully complete unless and until the declaration of compliance is accepted.
- Unless otherwise waived per the conditions of the Ordinance, bids, proposals or submittals will be denied if the vendor is not in compliance with the Border Wall prohibition.
- In instances where there is no significant additional cost, to be defined in regulations, or conflict with law – to develop, implement, monitor and enforce contracting policies that will direct city staff to refrain from entering formally bid/solicited and informally bid/solicited for all new or amended contracts to purchase all goods/commodities and services.

"Declaration of Significant Cost" to justify a Limited Conditional Waiver will be recommended in writing by the director responsible for the city department in need of the good/commodity or service and approved by the City Administrator, official or designee.

Border Wall Prohibition Rules and Regulations are found in **Attachment A**.

FISCAL IMPACT

It is not clear when a most responsive and responsible contractor or contractors will be selected. Staff recommends conducting a fiscal assessment six to eight months after contracts have been award. At that time staff, will have a better idea of the activity generated by the prohibition and will return to Council with a report on resources needed to maintain compliance and enforcement of the new policy.

PUBLIC OUTREACH / INTEREST

Internal and external outreach will include all city departments, local Chambers of Commerce, membership organizations, supporters and opponents of the policy. Business districts and council districts must be informed as well as a city-wide noticing using various business databases.

San Francisco, in the introduction of a similar Ordinance, proposed a public hearing. Staff recommends this option for City Council consideration.

COORDINATION

During the implementation process, all departments must be informed and engaged in applying the Border Wall Prohibition policy. The key staff citywide will be those persons currently responsible for procurement of goods and services on behalf of the City and those entities responsible for serving the business community. Public Works, Department of Transportation, Contracts and Compliance, Purchasing Services, The Business Assistance Center, and Business Taxes will be key partners in the implementation process. Other localities with business databases will prove invaluable in the City's outreach efforts as well.

SUSTAINABLE OPPORTUNITIES

Economic: The Oakland City Council stands up for fiscally prudent, fair and compassionate spending of public funds by standing up to Executive Order "Border Security and Immigration Enforcement" as it directs the federal Administration to prioritize the use of Federal lands and funding for the enforcement of border security and the construction of the border wall. Government estimates put the cost of the U.S.-Mexico wall at \$21.6 billion. These are significant dollars that could be better used for other programs and services that serve and support the economy through strategies such as affordable housing, infrastructure, and education instead of threatening the health, safety and welfare of our immigrant families.

Environmental: The Border Wall Prohibition may help to mitigate the negative environmental impacts created by influencing the market available to plan and construct the wall, excavate the land, acquisition of land owned by others, years of litigation over land ownership, and the visual image of a monument to separation, exclusion and division.

Social Equity: The City of Oakland is committed to the fair and just treatment of immigrants, regardless of their ethnicity, religion or place of origin.

ACTION REQUESTED OF THE CITY COUNCIL

Staff recommends adopting an ordinance amending the Oakland Municipal Code to prohibit the City from contracting with companies who contract with the federal government to provide services or goods to construct the border wall referenced in Executive Order No. 13767, dated January 25, 2017.
