 DEMOLITION AND RELOCATION PERMITS  
 HDP-2018-0014  
 500 W. 35<sup>TH</sup> STREET

## PROPOSAL

---

Demolish a ca. 1931 house.

## ARCHITECTURE

---

One-story, rectangular-plan, front-gabled frame bungalow with a central, recessed entry; single and paired 1:1 fenestration. The house was converted to duplex use in 1952.

## RESEARCH

---

City records indicate a water service permit for this house dating from 1931 with the former address of 408 W. 35<sup>th</sup> Street, an address that is confirmed by city directories. The first known occupant of this house was Travis A. Edwards, who was a supervisor and teacher at Austin State School. Travis Edwards' home address is not shown in either the 1930-31 nor the 1932-33 city directories, but he is listed as the renter of this house in the address cross-reference section of the directory. He lived here until around 1933.

From around 1933 until around 1951, the house was rented or owned by David I. Williams, a barber, and his wife, Lucille. David I. Williams was born in Arkansas, and lived in Coolidge, Texas (near Marlin and Waco) at the time that he registered for the draft for World War I in 1917. He was a barber in Coolidge and was married. He and Lucille were living in Austin by 1930, where David I. Williams continued his trade as a barber. For all the time that he and Lucille lived in this house, David Williams was a barber, working in various shops in the city, and at one point, working at Bergstrom Field. They lived here until the early 1950s, when they moved to a house on Romeria Drive.

The house was converted to a duplex in 1952, and has been a rental unit since that time. The house has seen a high turnover in tenants, with none listed in consecutive city directories. Tenants included a student, a gas station attendant, two servicemen in the Air Force, clerks, and employees of Laguna Gloria Art Museum.

## STAFF COMMENTS

---

The house was listed with no priority for research in the Comprehensive Cultural Resources Survey (1984).

Staff has evaluated this house for designation as a historic landmark and has determined that the house does not meet the criteria for landmark designation as set forth in City Code:

- a. **Architecture.** The house is a frame early 1930s bungalow with a recessed central entry that does not correspond to the footprint of the house shown on the 1935 nor the 1962 Sanborn maps. However, the materials of the house seem to indicate that this was the original, or at a minimum, historic configuration, despite the rendering on the Sanborn maps, and there are no building permits that evidence a remodeling of the house to enclose the front porch shown on the maps. With the exception of the recessed entry, the house reflects a common style with no architectural distinction.
- b. **Historical association.** The house was either rented or owned by a barber and his wife for about 20 years during the historic period; there do not appear to be significant historical associations.

- c. **Archaeology.** The house was not evaluated for its potential to yield significant data concerning the human history or prehistory of the region.
- d. **Community value.** The house does not possess a unique location, physical characteristic, or significant feature that contributes to the character, image, or cultural identity of the city, the neighborhood, or a particular demographic group.
- e. **Landscape feature.** The property is not a significant natural or designed landscape with artistic, aesthetic, cultural, or historical value to the city.

#### **STAFF RECOMMENDATION**

---

Encourage rehabilitation and adaptive re-use, then relocation over demolition, but release the permit upon completion of a City of Austin Documentation Package. The house does not meet the criteria for individual designation as a historic landmark.
