CASE: C14-01-0046.02 (originally filed as C14-2017-0153) – The Baker School

ADDRESS: 3908 Avenue B, Austin, TX, 78751

DISTRICT AREA: 9

OWNER/APPLICANT: Austin Independent School District

AGENT: Weiss Architecture, Inc. (Richard Weiss)

ZONING FROM: UNZ (Unzoned) TO: GR-HD-NCCD-NP

TOTAL AREA: 4.361 acres

SUMMARY STAFF RECOMMENDATION:

Staff recommends community commercial-historic district-neighborhood conservation combining district-neighborhood plan (GR-HD-NCCD-NP) combining district zoning.

HISTORIC LANDMARK COMMISSION RECOMMENDATION:

February 26, 2018 Scheduled for Historic Landmark Commission

PLANNING COMMISSION RECOMMENDATION:

February 27, 2018 Postponed to March 13, 2018 at the Request of the Commission, Vote 10 – 2, Commissioners Kazi and Schissler - nay

March 13, 2018 Scheduled for Planning Commission

ISSUES:

The applicant has spoken to and met with surrounding neighborhood associations - Hyde Park Neighborhood Association (HPNA), and Friends of Hyde Park - and negotiated for the development of the site. HPNA and the Hyde Park Neighborhood Plan Contact Team (HPNPCT) initially supported the rezoning, and Friends of Hyde Park did not support it (See Exhibits E & F). Since the letters in Exhibit F were transmitted, questions have arisen regarding the development of housing on the site. As of March 2, 2018, discussions are still ongoing, and a final agreement between all parties has not yet been reached.
The Hyde Park Neighborhood Plan adopted by City Council in April, 2000 refers to the Baker School property and recommends that the historic school building be preserved, and that the property be returned to a community use that serves children (See Comprehensive Planning, below). The applicant’s plans include preservation of the historic building, with the possibility of some educational uses. Although this plan would not dedicate a large portion of the building or grounds for children, it accomplishes part of the original goal.

The Traffic Impact Analysis (TIA) is waived for this project until the time of site plan. A Public Restrictive Covenant has been requested to require a TIA if the proposed development on the property, considered cumulatively with all existing or previously authorized development and uses, generates traffic that exceeds 2,000 trips per day.

**DEPARTMENT COMMENTS:**

The subject property is the location of the historic Baker Elementary School building, which has been used for many years as an administration building for AISD. Like many historic school sites, the property has never been zoned. It is located in the western part of the Hyde Park neighborhood, a block from Guadalupe Street to the west. Vehicular access is currently available to West 39th and West 40th Streets, and Avenue B. There is also an alley to the west of the site that extends the length of the block.

The applicant originally requested a base zoning of general commercial services (CS), and have amended their request to align with the staff recommendation for a base zoning of community commercial (GR). Because the property is located within existing Hyde Park overlays, the request includes Neighborhood Conservation Combining District (-NCCD), Historic District (-HD), and Neighborhood Plan (-NP). The applicant proposes to amend the NCCD to add the subject property and to change some of the development standards, and add allowed uses, specifically for the property. Therefore the case number is an extension of the original NCCD case number. Ultimately, the applicant is interested in a Historic Landmark (-H) designation, but is not making that request at this time.

The Hyde Park Historic District was approved by Council in December, 2010, and contains a preservation plan, and design standards. The subject site is within the bounds of the historic district, and in the approved ordinance for the district, 3908 Avenue B is listed as a Contributing property (See Exhibit J).

The Hyde Park NCCD ordinance created a handful of special subdistricts; all parcels not in a special subdistrict, are classed in the Residential subdistrict. The subject property does not fall into a special subdistrict, and would therefore be classed as Residential subdistrict. (See Exhibit H & Amendment to the NCCD, Exhibit I).

The applicant’s conceptual plan shows no changes to current vehicular access (See Exhibit G). The applicant is proposing changes to the NCCD, which would apply only to this property. Starting from a baseline of requirements in the Residential subdistrict, the following changes are proposed: increasing the allowable height from 30 feet to 50 feet,
increasing the allowable FAR from 0.5:1 to 1.5:1, and allowing a set of uses. For the full list, see the letter from the applicant, Exhibit E. Proposed Uses that would not otherwise be permitted – in a commercial base zone in the Residential subdistrict – are as follows:

- Condominium Residential
- Financial Services
- Food Sales (5000 s.f. limit)
- General retail sales
- Indoor entertainment
- Multifamily Residential
- Restaurant (limited) (5000 s.f. limit)
- Restaurant (general) (5000 s.f. limit)
- Software Development
- Theater (5000 s.f. limit)

Staff recommends the base zoning of community commercial (GR), which is defined as “office or other commercial use that serves neighborhood and community needs.” GR is preferred over general commercial services (CS) as a zoning category that typically permits a wide range of commercial and light industrial uses, and would not be appropriate in this predominantly residential area.

Further, staff recommends granting the applicant’s request to change the development standards - increasing the allowable height from 30 feet to 50 feet, and increasing the allowable FAR from 0.5:1 to 1.5:1 - which will accommodate the applicant’s preliminary plan. This plan includes a predominantly residential structure in the undeveloped western portion of the site, to the rear of the historic structure.

Finally, staff recommends adding allowed uses, recognizing that these uses were part of the original agreement with Hyde Park Neighborhood Association, and finding these uses to be compatible with the surrounding neighborhood. Some small changes to the original request are recommended: General retail sales should be clarified to “General Retail Sales (Convenience)” and limited to 5,000 square feet. Indoor Entertainment should be limited to 5,000 square feet.

**BASIS FOR RECOMMENDATION**

1. **Zoning should promote a transition between adjacent and nearby zoning districts, land uses, and development intensities.**

   From Guadalupe Street to the west, the height entitlement would step down to the rest of the Hyde Park neighborhood to the east. 60 feet of height is allowed on Guadalupe, the request is for an entitlement of 50 feet, which would apply to the western portion of the site. The historic school building furthest west will be maintained at 40 feet in height.

2. **Zoning should promote clearly-identified community goals, such as creating employment opportunities or providing for affordable housing.**

   Affordable housing is a provision of the agreement between the applicant and the Hyde Park Neighborhood Association.

3. **Zoning should allow for reasonable use of the property.**

   The property is currently unzoned, and zoning should allow for uses beyond the existing administrative and business use of the property, expanding entitlements to allow for residential uses.

**EXISTING CONDITIONS**

**Site Characteristics**

The historic Baker School building is located on the site, and is currently occupied by an office use. There are parking lots to the north and south of the building, with driveway access from W. 40th Street and W. 39th Street. There is also vehicular access from Avenue B, and from an alleyway to the west of the site that runs the length of the block. There are several heritage trees to the north, south, and east of the building. There is a large open field to the west of the building. The site is relatively flat, and is not located within a flood plain.

**Impervious Cover**

The site is located in an Urban Watershed and therefore the zoning district will determine the impervious cover limits. The Residential District within the Hyde Park NCCD allows up to 70% impervious cover.
Comprehensive Planning – Kathleen Fox – 512-974-7877

The subject property is located within the boundaries of the Hyde Park Neighborhood Planning Area. The proposed use is mixed use for a new corporate headquarters. There is a possibility of affordable housing units and space for creative industry non-profits to be located on the property in the future.

Connectivity
Public sidewalks are available on the eastern and southern borders of the property, but not to the north. A Capital Metro transit stop is located within walking distance to this site. The Walkscore for this site is 83/100, Very Walkable, meaning most errands can be accomplished on foot.

Hyde Park Neighborhood Plan
The HPNP does not have a Future Land Use Map. The following goals, objectives and text are relevant to this case:

Residential District: Purpose: To maintain Hyde Park's traditional single family character and encourage compatible redevelopment of apartment uses. To maintain civic uses in scale and use to be compatible with the predominant single family character. (p. 11)

5. Consider for Historic Landmark status buildings and structures that are eligible, (including): p. 17
   - Baker School

Goal 6: Foster a genuine community of neighbors of every age and background. (p. 45)
59. Preserve Baker School and encourage its return to use for public academic purposes and community uses. Neighborhood Action Item: NPT, AISD (p. 47)
61. The Yarborough Library serves the Hyde Park area. Future joint reuse of Baker School or other civic buildings should be investigated for a public reading room and/or library book drop-off bin. Neighborhood Action Item: NPT, Library Dept., AISD
63. Additional park facilities should be provided as following: C) Austin Independent School District (AISD) should improve and maintain the facilities at Baker School, including the Baker School fields. (p. 48)

Beyond day care, there is an intense interest among residents for community-based education. Baker School was Hyde Park's original 1st through 8th grade school. It was converted from Community College use to office facilities for AISD in 1998. HPNA opposed this change and requested that the school be returned to service as a school. During the recent past, while the school has served needs other than those of neighborhood school, the facility has not provided for community use beyond as a voting location. (p. 48)

Return Baker School to uses for children. It is the wish of the neighborhood that the school return to use as both a school for area children and as a focus of community
activity including after school care and other child care and community activities such as Parks & Recreation’s summer teen program (in the summer of 1997 and 1998 this programs utilized the gym and grounds), community meetings, and access to the gym for recreation. Planning Principle: NPT

The HPNP appears to support uses which are compatible and in scale with the predominant single family character in the Residential District. In addition, the Neighborhood Plan supports the preservation and historic designation of the Baker School, but desires the school to be converted back to a community use.

**Imagine Austin**
The property is located less than 100 ft. away from a designated Activity Corridor on Guadalupe Street. Activity Corridors are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances. The following Imagine Austin policies are taken from Chapter 4 of the IACP, which specifically discusses the promotion of different types of housing throughout Austin:

- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.

- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to schools, retail, employment, community services, and parks and recreation options.

Based upon this project being adjacent to an Activity Corridor, and the Imagine Austin policies referenced above that supports mixed use and a variety of housing types, this project appears to be supported by the Imagine Austin Comprehensive Plan, and partially supported by the HPNP.

**Site Plan – Amelia Watts – 512-974-3103**

SP 1. Site plans will be required for any new development other than single-family or duplex residential.

SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

**Compatibility Standards**

SP 4. The site is subject to compatibility standards. Along the North, East, and South property lines, the following standards apply:

- No structure may be built within 25 feet of the property line.
• No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
• No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
• No parking or driveways are allowed within 25 feet of the property line.
• A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
• For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
• An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
• A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

Additional design regulations will be enforced at the time a site plan is submitted.

FYI. Additional comments may occur in the Site Plan review stages, as this falls near a “National Register of Historic Districts.

Environmental - Mike McDougal - 512-974-6380

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

2. Zoning district impervious cover limits apply in the Urban Watershed classification.

3. According to floodplain maps there is no floodplain within or adjacent to the project location.

4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development’s requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**Austin Water Utility – 512-972-0000**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.

Dear Jerry:

At its December 4th general meeting, the Hyde Park Neighborhood Association voted to approve an agreement on zoning for the Baker Center property that is under an option to Alamo Drafthouse (Hereafter Alamo). The agreement was approved without opposition to support a zoning of the Baker Center to CS-NCCD-HD-H. This zoning category will be followed with an amendment from the neighborhood to change the allowable uses on this site as well as to modify the FAR to 1.5:1 and a maximum height on the field behind the building of 50’.

Additionally, the neighborhood also agreed to support a variance for the inclusion of the parking spaces along both 39th and 40th Streets towards the parking count for the Baker Center site.

Finally, please do not hesitate to contact me regarding this zoning matter. We look forward to working with you and Alamo Drafthouse on this particular project.

Sincerely,

[Signature]

Friends of Hyde Park Requests Planning Commission Change Baker Center Rezoning

Posted on February 22, 2018 by Friends of Hyde Park

Planning Commission,

Friends of Hyde Park requests that the rezoning for the property located at 3908 Avenue B as CS-HD-NCCD-NP be denied. Instead, we request the zoning of the property be approved as CS-HD-NP with the same requested entitlements or that this rezoning case be delayed until after the adoption of CodeNEXT. The only difference would be the removal of the NCCD designation.

When CodeNEXT is adopted, in a matter of a few months, no new properties will be allowed to be zoned NCCD and NCCDs will no longer be an available zoning tool. CodeNEXT will also start the process of phasing out all existing properties currently zoned NCCD. CodeNEXT Draft 3 in section “23-4D-8080 Former Title 25 (F25) Zone” states the intent is to “rezone properties” in order to “gradually eliminate” … “Neighborhood Conservation Combining District (NCCDs).”

There are examples of other properties in Hyde Park that do not have NCCD zoning, so that designation is not required. 310 W 43rd St is currently zoned SF-3-HD in the interior of the Hyde Park neighborhood and is proposed to be rezoned to R2C-HD in the latest draft map of CodeNEXT. 408 W 45th St is currently zoned General Office (GO) and is proposed to be rezoned MU2B-A – Mixed-Use 2B under CodeNEXT.

We should not be zoning any more properties into NCCD zoning with the adoption of CodeNEXT coming within a few months, especially a property that’s currently unzoned. If the NCCD designation is left off of the zoning, then this property will be rezoned into a more flexible zoning category automatically upon the adoption of CodeNEXT. However, if this property is zoned into an NCCD now, then it may take years, if not decades, for it to come into compliance with CodeNEXT and be allowed to provide the flexibility of uses and housing that can provide the most benefits to our neighborhood.

Please consider zoning this property without the NCCD designation.
