

We, William Scroggie & Murray Williams, are applying for a variance from the City of Austin Board of Adjustment regarding Section 25-2-492 of the Land Development Code.

The variance would allow us the ability to modify our existing accessory structure at the rear of our property, which is currently and will continue to be used as a poolhouse. The referenced section of the Land Development Code defines setbacks where building is prohibited. Our existing structure is built within those prohibited areas, but was built in 1940, predating the code. It is our intention to renovate the existing structure and add a second floor, with the critical goals of both preserving as much of the original structure as possible and being highly sympathetic to the character and scale of the neighborhood. We feel this variance will allow us to make much better use of our poolhouse, without compromising any neighboring property or affording us any unreasonable privileges, given our unique circumstance.

**By signing this form, I understand that I am declaring my support for the variance being requested.**
