ZONING CHANGE REVIEW SHEET

H.L.C. DATE: February 26, 2018 **P.C. DATE:** February 27, 2018 March 13, 2018

CASE: C14-01-0046.02 (originally filed as C14-2017-0153) – The Baker School

ADDRESS: 3908 Avenue B, Austin, TX, 78751

DISTRICT AREA: 9

OWNER/APPLICANT: Austin Independent School District

AGENT: Weiss Architecture, Inc. (Richard Weiss)

ZONING FROM: UNZ (Unzoned) **TO:** GR-HD-NCCD-NP, as amended (see Exhibit K)

TOTAL AREA: 4.361 acres

SUMMARY STAFF RECOMMENDATION:

Staff recommends community commercial-historic district-neighborhood conservation combining district-neighborhood plan (GR-HD-NCCD-NP) combining district zoning. Staff recommends that the property become part of the Hyde Park Neighborhood Conservation Combining District (NCCD) in the Residential subdistrict. Specifically for this property, staff recommends changes to the NCCD development standards as follows: increasing the allowable height from 30 feet to 50 feet, and increasing the allowable FAR from 0.5:1 to 1.5:1. The staff also recommends that development on the property be limited to less than 2,000 vehicle trips per day. Further, staff recommends the addition of permitted uses:

- Condominium Residential
- Financial Services
- Food Sales (5000 sq. ft. limit)
- General retail sales (convenience) (5,000 sq. ft. limit)
- Indoor entertainment (5000 sq. ft. limit)
- Multifamily Residential
- Restaurant (limited) (5000 sq. ft. limit)
- Restaurant (general) (5000 sq. ft. limit)
- Software Development
- Theater (5000 sq. ft. limit)

The staff has reviewed that agreement between the applicant and the Hyde Park Neighborhood Association and the Hyde Park Neighborhood Plan Contact Team and we have no objection to adding the following conditions for this property to the NCCD overlay to: prohibit Drive-Thru Services, to restrict the maximum height to 50 feet on

the western 100 feet of the property as measured from the western property line, and to limit restaurant uses to a maximum of 5,000 sq. ft. overall on the property.

ISSUES:

The applicant has spoken to and met with surrounding neighborhood associations - Hyde Park Neighborhood Association (HPNA), and Friends of Hyde Park - and negotiated for the development of the site (See Exhibit E). HPNA and the Hyde Park Neighborhood Plan Contact Team (HPNPCT) initially supported the rezoning, and Friends of Hyde Park did not support it.

At Planning Commission on February 27, 2018, questions arose regarding agreements with the neighborhoods, and the relative certainty of a second phase – a building to the west of the historic school. The item was postponed and the applicant agreed to meet with both neighborhood associations, and the meetings were subsequently held. As of March 5, 2018, an agreement has been reached with Hyde Park Neighborhood Association (HPNA) and the Hyde Park Neighborhood Plan Contact Team (See Exhibit F). An updated letter from Reid Long, the President of the Hyde Park Neighborhood Association, was added to the backup material online for this case on March 8, 2018.

Friends of Hyde Park has informed the applicant that they do not support the rezoning. Friends of Hyde Park submitted an updated letter to the Planning Commission last Thursday evening. This letter was uploaded with the backup material online on March 9, 2018.

DEPARTMENT COMMENTS:

The subject property is the location of the historic Baker Elementary School building, which has been used for many years as an administration building for the Austin Independent School District (AISD). Like many historic school sites, the property has never been zoned. It is located in the western part of the Hyde Park neighborhood, a block from Guadalupe

Street to the west. Vehicular access is currently available to West 39th and West 40th Streets, and Avenue B. There is also an alley to the west of the site that extends the length of the block.

The applicant has a phased plan for the development of the site. The first phase is to occupy the existing historic structure with an Administrative and Business Office use. The second phase would involve the construction of a separate structure to the west and rear of the historic building. This structure would be approximately 50 feet tall, have ground floor parking with three floors of residential. The applicant is uncertain when or if the second phase will be built. The applicant's plan shows no changes to current vehicular access (See Exhibit G).

The applicant is requesting zoning which would allow for both phases of this plan. For the first phase, zoning is required to obtain a Certificate of Occupancy for the building. For the second phase, changes would be required to the NCCD in order to accommodate a building of the size proposed, and to allow residential uses. Other permitted uses are requested in case these could be added to either the historic or proposed structure in the future.

The Hyde Park NCCD ordinance created a handful of special subdistricts; all parcels not in a special subdistrict, are classed in the Residential subdistrict. The subject property does not fall into a special subdistrict, and would therefore be classed as Residential subdistrict. (See Exhibit H & Amendment to the NCCD, Exhibit I). The Residential subdistrict is a specified area distinguished by single-family housing. The Baker School property is located at the end of Avenue A, between W. 39th Street and W. 40th Street. The development along Avenue A, to the north, is characterized by one-story single family housing with a three story apartment complex, located at the northeast intersection of W. 40th Street and Avenue A. To the east, across Avenue B, there is a religious assembly use (Hyde Park Presbyterian Church) and one-story single family homes. The properties to the south along W. 39th Street are developed with two multifamily complexes, a single family residence and an office use. To the west, adjacent to Guadalupe Street, there is a food sales use (Natural Grocers), a service station (Valero) and a general retail sales-convenience use (Game Republik).

The applicant is proposing changes to the NCCD, which would apply only to this property. Starting from a baseline of requirements in the Residential subdistrict, the following development standards are proposed to change: increasing the allowable height from 30 feet to 50 feet, and increasing the allowable FAR from 0.5:1 to 1.5:1. Regarding land uses, the applicant is proposing a set of allowed uses beyond those currently allowed in a commercial base zone within the Residential subdistrict of the NCCD. (For the full proposed list, see the letter from the applicant, Exhibit E).

The applicant originally requested a base zoning of general commercial services (CS), and amended their request to align with the staff recommendation for a base zoning of community commercial (GR) (See Exhibit K, email to be replaced with formal letter when it is received). Because the property is located within existing Hyde Park overlays, the request includes Neighborhood Conservation Combining District (-NCCD), Historic District (-HD),

and Neighborhood Plan (-NP). Ultimately, the applicant is interested in a Historic Landmark (-H) designation, but is not making that request at this time.

Staff recommends the base zoning of community commercial (GR), which is defined as "office or other commercial use that serves neighborhood and community needs." Further, staff recommends granting the applicant's request to change development standards - increasing the allowable height from 30 feet to 50 feet, and increasing the allowable FAR from 0.5:1 to 1.5:1 - which will accommodate both phases of the applicant's plan.

Finally, staff recommends adding permitted uses (See Summary Staff Recommendation), finding these uses to be compatible with the surrounding neighborhood. A few changes to the original list of requested uses are recommended: General retail sales should be clarified to "General Retail Sales (Convenience)" and limited to 5,000 square feet. Indoor Entertainment should be limited to 5,000 square feet.

Beyond these items, any other agreements between the applicant and the neighborhoods may be made in the form of a private restrictive covenant, which the City of Austin will not be a party to, nor have the ability to enforce.

The Hyde Park Neighborhood Plan adopted by City Council in April, 2000 refers to the Baker School property and recommends that the historic school building be preserved, and that the property be returned to a community use that serves children (See Comprehensive Planning, below). The applicant's plans include preservation of the historic building, with the possibility of some educational uses. Although this plan would not dedicate a large portion of the building or grounds for children, it accomplishes part of the original goal.

BASIS FOR RECOMMENDATION

1. Zoning should promote a transition between adjacent and nearby zoning districts, land uses, and development intensities.

From Guadalupe Street to the west, the height entitlement would step down to the rest of the Hyde Park neighborhood to the east. 60 feet of height is allowed on Guadalupe, the request is for an entitlement of 50 feet, which would apply to the western portion of the site. The historic school building furthest west will be maintained at 40 feet in height.

2. The rezoning should be consistent with the policies and principles adopted by the City Council or Planning Commission.

The adopted Hyde Park Neighborhood Plan includes goals for the Baker property – preservation of the historic building, and return of the property to a use which serves children. The applicant proposes to preserve the building, and there is potential for some child-serving educational uses as well.

3. Zoning should allow for reasonable use of the property.

The property is currently unzoned, and zoning should allow for uses beyond the existing Administrative and Business use of the property, expanding entitlements to allow for residential uses.

EXISTING CONDITIONS

Site Characteristics

The historic Baker School building is located on the site, and is currently occupied by an office use. There are parking lots to the north and south of the building, with driveway access from W. 40th Street and W. 39th Street. There is also vehicular access from Avenue B, and from an alleyway to the west of the site that runs the length of the block. There are several heritage trees to the north, south, and east of the building. There is a large open field to the west of the building. The site is relatively flat, and is not located within a flood plain.

Impervious Cover

The site is located in an Urban Watershed and therefore the zoning district will determine the impervious cover limits. The Residential District within the Hyde Park NCCD allows up to 70% impervious cover.

Comprehensive Planning – Kathleen Fox – 512-974-7877

The subject property is located within the boundaries of the Hyde Park Neighborhood Planning Area. The proposed use is mixed use for a new corporate headquarters. There is a possibility of affordable housing units and space for creative industry non-profits to be located on the property in the future.

Connectivity

Public sidewalks are available on the eastern and southern borders of the property, but not to the north. A Capital Metro transit stop is located within walking distance to this site. The Walkscore for this site is 83/100, Very Walkable, meaning most errands can be accomplished on foot.

Hyde Park Neighborhood Plan

The HPNP *does not* have a Future Land Use Map. The following goals, objectives and text are relevant to this case:

Residential District: Purpose: To maintain Hyde Park's traditional single family character and encourage compatible redevelopment of apartment uses. To maintain civic uses in scale and use to be compatible with the predominant single family character. (p. 11)

- 5. Consider for Historic Landmark status buildings and structures that are eligible, (including): p. 17
 - Baker School

Goal 6: Foster a genuine community of neighbors of every age and background. (p. 45)

- 59. Preserve Baker School and encourage its return to use for public academic purposes and community uses. Neighborhood Action Item: NPT, AISD (p. 47)
- 61. The Yarborough Library serves the Hyde Park area. Future joint reuse of Baker School or other civic buildings should be investigated for a public reading room and/or library book drop-off bin. Neighborhood Action Item: NPT, Library Dept., AISD
- 63. Additional park facilities should be provided as following: C) Austin Independent School District (AISD) should improve and maintain the facilities at Baker School, including the Baker School fields. (p. 48)

Beyond day care, there is an intense interest among residents for community-based education. Baker School was Hyde Park's original 1st through 8th grade school. It was converted from Community College use to office facilities for AISD in 1998. HPNA opposed this change and requested that the school be returned to service as a school. During the recent past, while the school has served needs other than those of neighborhood school, the facility has not provided for community use beyond as a voting location. (p. 48)

Return Baker School to uses for children. It is the wish of the neighborhood that the school return to use as both a school for area children and as a focus of community

activity including after school care and other child care and community activities such as Parks & Recreation's summer teen program (in the summer of 1997 and 1998 this programs utilized the gym and grounds), community meetings, and access to the gym for recreation. Planning Principle: NPT

The HPNP appears to support uses which are compatible and in scale with the predominant single family character in the Residential District. In addition, the Neighborhood Plan supports the preservation and historic designation of the Baker School, but desires the school to be converted back to a community use.

Imagine Austin

The property is located less than 100 ft. away from a designated Activity Corridor on Guadalupe Street. Activity Corridors are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances. The following Imagine Austin policies are taken from Chapter 4 of the IACP, which specifically discusses the promotion of different types of housing throughout Austin:

- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.
- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to schools, retail, employment, community services, and parks and recreation options.

Based upon this project being adjacent to an Activity Corridor, and the Imagine Austin policies referenced above that supports mixed use and a variety of housing types, this project appears to be supported by the Imagine Austin Comprehensive Plan, and partially supported by the HPNP.

Site Plan – Amelia Watts – 512-974-3103

- SP 1. Site plans will be required for any new development other than single-family or duplex residential.
- SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
- SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Compatibility Standards

- SP 4. The site is subject to compatibility standards. Along the North, East, and South property lines, the following standards apply:
 - No structure may be built within 25 feet of the property line.

- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

Additional design regulations will be enforced at the time a site plan is submitted.

FYI. Additional comments may occur in the Site Plan review stages, as this falls near a "National Register of Historic Districts.

Environmental - Mike Mcdougal - 512-974-6380

- 1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
- 2. Zoning district impervious cover limits apply in the Urban Watershed classification.
- 3. According to floodplain maps there is no floodplain within or adjacent to the project location.
- 4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
- 5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

- 6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 sq. ft. cumulative is exceeded, and on site control for the two-year storm.
- 7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Transportation - Mark Kere - 512-974-2964

- TR1. Additional right-of-way may be required at the time of subdivision and/or site plan.
- TR2. A Traffic Impact Analysis (TIA) is required but has not been received. A zoning application is not complete until the required TIA has been received. This delay in the submittal of the TIA may result in a delay in the scheduling of this zoning change request on a Land Use Commission agenda. The TIA must be submitted at least 26 calendar days (18 working days) prior to consideration of this case by the Commission. Please contact Scott James at Scott.James@austintexas.gov. [LDC 25-6-113]*

*In an e-mail dated March 8, 2018, the DSD Transportation Review division has stated that they would like to waive the TIA requirement and to a condition to limit development on the site to 2,000 vehicle trips per day.

Acting Assistant Director

Austin, Texas 78704

Dear Jerry:

At its December 4th general meeting, the Hyde Park Neighborhood Association voted to approve an agreement on zoning for the Baker Center property that is under an option to Alamo Drafthouse (Hereafter Alamo). The agreement was approved without opposition to support a zoning of the Baker Center to CS-NCCD-HD-H. This zoning category will be followed with an amendment from the neighborhood to change the allowable uses on this site as well as to modify the FAR to 1.5:1 and a maximum height on the field behind the building of 50'.

Additionally, the neighborhood also agreed to support a variance for the inclusion of the parking spaces along both 39^{th} and 40^{th} Streets towards the parking count for the Baker Center site.

Finally, please do not hesitate to contact me regarding this zoning matter. We look forward to working with you and Alamo Drafthouse on this particular project.

Sincerely

Friends of Hyde Park Requests Planning Commission Change Baker Center Rezoning

Posted on February 22, 2018 by Friends of Hyde Park

Planning Commission,

Friends of Hyde Park requests that the rezoning for the property located at 3908 Avenue B as CS-HD-NCCD-NP be denied. **Instead, we request the zoning of the property be approved as CS-HD-NP** with the same requested entitlements or that this rezoning case be delayed until after the adoption of CodeNEXT. The only difference would be the removal of the NCCD designation.

When CodeNEXT is adopted, in a matter of a few months, no new properties will be allowed to be zoned NCCD and NCCDs will no longer be an available zoning tool. CodeNEXT will also start the process of phasing out all existing properties currently zoned NCCD. CodeNEXT Draft 3 in section "23-4D-8080 Former Title 25 (F25) Zone" states the intent is to "rezone properties" in order to "gradually eliminate" ... "Neighborhood Conservation Combining District (NCCDs)."

There are examples of other properties in Hyde Park that do not have NCCD zoning, so that designation is not required. 310 W 43rd St is currently zoned SF-3-HD in the interior of the Hyde Park neighborhood and is proposed to be rezoned to R2C-HD in the latest draft map of CodeNEXT. 408 W 45th St is currently zoned General Office (GO) and is proposed to be rezoned MU2B-A – Mixed-Use 2B under CodeNEXT.

We should not be zoning any more properties into NCCD zoning with the adoption of CodeNEXT coming within a few months, especially a property that's currently unzoned. If the NCCD designation is left off of the zoning, then this property will be rezoned into a more flexible zoning category automatically upon the adoption of CodeNEXT. However, if this property is zoned into an NCCD now, then it may take years, if not decades, for it to come into compliance with CodeNEXT and be allowed to provide the flexibility of uses and housing that can provide the most benefits to our neighborhood.

Please consider zoning this property without the NCCD designation.
