

## RECOMMENDATION

### Bicycle Advisory Council

#### Recommendation Number 20180320-05C: Local Area Traffic Management (LATM)

WHEREAS, the purpose of the Bicycle Advisory Council (BAC) is to advise the City of Austin, and other jurisdictions, on all matters relating to the use of the bicycle;

NOW, THEREFORE, BE IT RESOLVED that the Bicycle Advisory Council recommends that Austin Transportation Department take the needs and safety of cyclists into consideration when installing traffic calming on a roadway. Road humps/speed cushions should be positioned to maintain rideable space for cyclists and discourage vehicles from veering into the bike lane to straddle the humps/cushions. Where road humps/speed cushions are installed, there should be physical protection for the bike lane so vehicles don't utilize the bike lane to avoid the humps/cushions, but these protections should not significantly narrow the bike lane.
