

# EXHIBIT D - PROPOSED CORRIDOR CONSTRUCTION PROGRAM

The Proposed Corridor Construction Program is composed of all recommendations in Corridor Mobility Plans for nine corridors throughout Austin. The estimated cost to design and construct all of these recommendations is approximately \$1.4 billion. The 2016 Mobility Bond can fund a portion of those improvements, and the City of Austin will pursue partnerships, leveraging opportunities, and other funding strategies to fully implement the entire Corridor Construction Program.

Those projects in the Proposed Corridor Construction Program that have been prioritized for design and construction with 2016 Mobility Bond funding will result in the biggest bang for the buck and meet other goals outlined in City Council's Contract With Voters.

Here's what you'll get:

## Reduced Vehicular Delay

.....

- Anticipated 25% average reduction in delay time
- 30 intersections improved, 50 new intersection turn lanes
- 120 signal improvements with new technology
- 30 miles of pavement rehabilitation

## Increased Safety

.....

- Anticipated 15% reduction in crash rate
- 13 of Austin's Top 28 crash intersections improved
- Intermittent median islands to reduce crashes
- 40 new mid-block pedestrian crosswalk signals (Pedestrian Hybrid Beacons)

## Better Connectivity and Travel Options

.....

- 75 miles of sidewalks or shared-use paths creating a complete network along the length of all nine corridors
- 40 miles of bicycle lanes creating a complete network along the length of all nine corridors
- 100 bicycle route connections
- Coordinated transit improvements (Capital Metro Connections 2025)

.....

All numbers are approximate and based on the best available data at this time. The exact locations of improvements will be determined in the Project Design Phase, and the City will work with the community prior to project construction.
