AFN will Develop Plan to:

- Understand how to identify measurable outcomes and outcome chains
- Develop a logic model
- Identify performance indicators and performance targets to support the outcome measurement process

AFN will develop Strategic Goal Setting:

- To support new program design and identify success in a new program area
- To support program redesign by determining whether the program's underlying theories and assumptions are correct
- To support funding requests and describe how you will measure a program or service's impacts
- To support staff or board planning processes and report on a program's impact
- To support a funder's request for evidence of the program's effectiveness
- To support internal reviews and determine whether to continue to allocate funding to a program
- To support organization-wide quality improvement and refine program delivery

When crafting outcomes, consider the following:

- Are the outcomes related to the "core mission" of Austin Free-Net?
- Is it within AFN's control to influence these outcomes?
- Are AFN's outcomes realistic and attainable? Are AFN's outcomes achievable within funding and reporting periods?
- Are AFN's outcomes written as change statements—will things increase, decrease, or stay the same?
- Has AFN moved beyond client satisfaction in developing outcomes?
- Is there a logical sequence among AFN's short-term, intermediate, and long-term outcomes?
- Are there any big "leaps" in AFN's outcomes, i.e., gaps in the progression of impacts?

AFN will consider and develop a logic model and outcome measurement plan to include:

- Inputs/Resources: What inputs or elements does AFN need to operate its program? How many staff? How large a budget? How many clients does AFN have/need?
- Activities: What will AFN do? What methods will AFN use to deliver the program or activities? What content areas will AFN cover? What will AFN provide?
- Outputs: What will be the tangible products or units of AFN's program or activity? How many clients will AFN serve?
- Outcomes: What impact will AFN's program or activities have on the clients? What is reasonable to expect in the way of change?

AFN will develop Performance Indicators utilizing a process to include:

- How can AFN see the change? (Through what kind of observation?)
- How can AFN hear the change? (Through interviews? Focus groups?)
- How can AFN read the change? (Through surveys? In records?)

AFN will consider throughout the Performance Indicators Process the following:

- Do AFN's indicators make sense in relation to the outcomes they are intended to measure?
- Are AFN's indicators directly related to the outcome? Do they define the outcome?
- Are AFN's indicators specific?
- Are AFN's indicators measurable or observable? Can they be seen (i.e., observed behavior), heard (i.e., participant interview), or read (i.e., client records)?
- Is it reasonable that AFN can collect data on the indicators?
- Is it within AFN's resources to collect data?

Assemble a diverse skill set of individuals (to include AFN staff and community stakeholders at the discretion of AFN and concurrence by COA):

AFN will consider who on staff possesses the following skills:

- Project coordination, including laying out tasks in a sequence, informing other staff of their roles and assignments, providing assistance to the team as they complete their parts of the evaluation process, and ensuring that the work is being done
- Service or program knowledge, including the ability to identify the relationship between the activities being provided and the intended impacts and an understanding of the types of outcomes AFN's program could achieve

- Understand how to identify measurable outcomes and outcome chains
- Develop a logic model
- Identify performance indicators and performance targets to support the outcome measurement process

AFN will develop Strategic Goal Setting:

- To support new program design and identify success in a new program area
- To support program redesign by determining whether the program's underlying theories and assumptions are correct
- To support funding requests and describe how you will measure a program or service's impacts
- To support staff or board planning processes and report on a program's impact
- To support a funder's request for evidence of the program's effectiveness
- To support internal reviews and determine whether to continue to allocate funding to a program
- To support organization-wide quality improvement and refine program delivery

When crafting outcomes, consider the following:

- Are the outcomes related to the "core mission" of Austin Free-Net?
- Is it within AFN's control to influence these outcomes?
- Are AFN's outcomes realistic and attainable? Are yAFN's outcomes achievable within funding and reporting periods?
- Are AFN's outcomes written as change statements—will things increase, decrease, or stay the same?
- Has AFN moved beyond client satisfaction in developing outcomes?
- Is there a logical sequence among AFN's short-term, intermediate, and long-term outcomes?
- Are there any big "leaps" in AFN's outcomes, i.e., gaps in the progression of impacts?

AFN will consider and develop a logic model and outcome measurement plan to include:

- Inputs/Resources: What inputs or elements does AFN need to operate its program? How many staff? How large a budget? How many clients does AFN have/need?
- Activities: What will AFN do? What methods will AFN use to deliver the program or activities? What content areas will AFN cover? What will AFN provide?
- Outputs: What will be the tangible products or units of AFN's program or activity? How many clients will AFN serve?
- Outcomes: What impact will AFN's program or activities have on the clients? What is reasonable to expect in the way of change?

AFN will develop Performance Indicators utilizing a process to include:

- How can AFN see the change? (Through what kind of observation?)
- How can AFN hear the change? (Through interviews? Focus groups?)
- How can AFN read the change? (Through surveys? In records?)

AFN will consider throughout the Performance Indicators Process the following:

- Do AFN's indicators make sense in relation to the outcomes they are intended to measure?
- Are AFN's indicators directly related to the outcome? Do they define the outcome?
- Are AFN's indicators specific?
- Are AFN's indicators measurable or observable? Can they be seen (i.e., observed behavior), heard (i.e., participant interview), or read (i.e., client records)?
- Is it reasonable that AFN can collect data on the indicators?
- Is it within AFN's resources to collect data?

Assemble a diverse skill set of individuals (to include AFN staff and community stakeholders at the discretion of AFN and concurrence by COA):

AFN will consider who on staff possesses the following skills:

- Project coordination, including laying out tasks in a sequence, informing other staff of their roles and assignments, providing assistance to the team as they complete their parts of the evaluation process, and ensuring that the work is being done
- Service or program knowledge, including the ability to identify the relationship between the activities being provided and the intended impacts and an understanding of the types of outcomes AFN's program could achieve
- Computer skills, including expertise in formatting surveys and other data collection instruments, creating spreadsheets or databases, and entering data

Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.

For individuals seeking training in how to do a job search or obtain access to government services, the client meets with the trainer at the start of the first visit. The desired training goal is identified and a pre-assessment is made by the trainer. A post assessment is done at the end of each training session and progress updated. Clients also provide outcomes information related to job search training.

Performance Evaluation

We will evaluate our performance on both subjective and objective data. The subjective data will be gathered using an evaluation form. The objective data will be gathered using learning outcome checklists to measure students' improvement in the subject areas taught. The data will be analyzed and reported quarterly to the City of Austin.

No employee shall be discriminated against, harassed, intimidated, nor suffer any reprisal as a result of reporting a violation of this policy. Furthermore, any employee, supervisor, or manager who becomes aware of any such discrimination or harassment should immediately report it to executive management or the human resources office to ensure that such conduct does not continue.

Conclusion

In conclusion, TARA supports the inquiry related to the Ownership of Property clause located in the upcoming contract with Austin Free-Net for the Digital Inclusion Program:

1. COA retains ownership of equipment to continue to provide a public benefit, minimizes risk should contractor default.
2. Strengthens COA position of authority, as it relates to Ownership of Property, following the best practice of other contracts for services by COA.

AFN provides and manages the equipment for the public computing labs in City facilities. AFN manages the two public computer labs located at the City's DeWitty Employment Center in east Austin. AFN has received federal and state and foundation grant funding and donations to leverage the city's contract funding and the two City employees that help support Austin Free-Net. In 2010, Austin Free-Net received \$2.1 in federal stimulus funds from the Broadband Technology Opportunities Program (BTOP) grant program. The Contractor agrees to use protective measures no less stringent than the Contractor uses within its own business to protect its own most valuable information, which protective measures shall under all circumstances be at least reasonable measures to ensure the continued confidentiality of the Confidential Information.
38. **OWNERSHIP AND USE OF DELIVERABLES:** The City shall own all rights, titles, and interests throughout the world in and to the Deliverables.
- A. **Patents.** As to any patentable subject matter contained in the Deliverables, the Contractor agrees to disclose such patentable subject matter to the City. With respect to such work made-for-hire, the Contractor agrees to execute, acknowledge, and deliver and cause each of its employees providing services to the City hereunder to execute, acknowledge, and deliver a work-made-for-hire agreement, in a form to be reasonably approved by the City, to the City upon delivery of such Deliverables to the City or at such other time as the City may request.

For breach or violation of this warranty, the City shall have the right, in addition to any other remedy available, to cancel the Contract without liability and to deduct from any amounts owed to the Contractor, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.
42. **GRATUITIES:** The City may, by written notice to the Contractor, cancel the Contract without liability if it is determined by the City that gratuities were offered or given by the Contractor or any agent or representative of the Contractor to any officer or employee of the City of Austin with a view toward securing the Contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performing of such contract. In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.
43. **PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS:** No officer, employee, independent consultant, or elected official of the City who is involved in the development, evaluation, or decision-making process of the performance of any solicitation shall have a financial interest, direct or indirect, in the Contract resulting from that solicitation. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City.
44. **INDEPENDENT CONTRACTOR:** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. 45. **ASSIGNMENT-DELEGATION**: The Contract shall be binding upon and enure to the benefit of the City and the Contractor and their respective successors and assigns, provided however, that no right or interest in the Contract shall be assigned and no obligation shall be delegated by the Contractor without the prior written consent of the City. 46. **WAIVER**: No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.
47. **MODIFICATIONS**: The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.
48. **INTERPRETATION**: The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. Although the Contract may have been substantially drafted by one party, it is the intent of the parties that all provisions be construed in a manner to be fair to both parties, reading no provisions more strictly against one party or the other. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.
49. **DISPUTE RESOLUTION**:
- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.
- B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.
50. **JURISDICTION AND VENUE**: The Contract is made under and shall be governed by the laws of the State of Texas, including, when applicable, the Uniform Commercial Code as adopted in Texas, V.T.C.A., Bus. & Comm. Code, Chapter 1, excluding any rule or principle that would refer to and apply the substantive law of another state or jurisdiction. All issues arising from this Contract shall be resolved in the courts of Travis County, Texas and the

Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this section shall not prevent this entire Contract from being void should a provision which is the essence of the Contract be determined to be void.

Chapter 252 of the Local Government Code requires that municipalities comply with the procedures established for competitive sealed bids or proposals before entering into a contract requiring an expenditure of \$50,000 or more, unless the expenditure falls within an exemption listed in Section 252.022.

Senate Bill 7 amended Chapter 252 of the Local Government Code to exempt from the requirements of such Chapter expenditures made by a municipally owned electric utility for any purchases made by the municipally owned electric utility in accordance with procurement procedures adopted by a resolution of its governing body that sets out the public purpose to be achieved by those procedures. The Austin City Council has adopted Resolution No. 040610-02 to establish circumstances which could give rise to a finding of critical business need for Austin Energy.

This Certification of Exemption is executed and filed with the Purchasing Office as follows:

1. The undersigned is authorized to submit this certification.
2. The undersigned certifies that the following exemption is applicable to this purchase. (Please check which exemption you are certifying)

- ☐ a procurement made because of a public calamity that requires the immediate appropriation of money to relieve the necessity of the municipality's residents or to preserve the property of the municipality
- ☐ a procurement necessary to preserve or protect the public health or safety of municipality's residents
- ☐ a procurement necessary because of unforeseen damage to public machinery, equipment, or other property
- ☒ a procurement for personal, professional, or planning services
- ☐ a procurement for work that is performed and paid for by the day as the work progresses
- ☐ a purchase of land or right-of-way
- ☐ a procurement of items available from only one source, including: items that are available from only one source because of patents, copyrights, secret processes, or natural monopolies; films, manuscripts, or books; gas, water, and other utility services; captive replacement parts or components for

equipment; books, papers, and other library materials for a public library that are available only from the persons holding exclusive distribution rights to the materials; and management services provided by a nonprofit organization to a municipal museum, park, zoo, or other facility to which the organization has provided significant financial or other benefits

- ☐ a purchase of rare books, papers, and other library materials for a public library
- ☐ paving, drainage, street widening and other public improvements, or related matters, if at least one-third of the cost is to be paid by or through special assessments levied on property that will benefit from the improvements
- ☐ a public improvement project, already in progress, authorized by voters of the municipality, for which there is a deficiency of funds for completing the project in accordance with the plans and purposes as authorized by the voters

- ☐ a payment under a contract by which a developer participates in the construction of a public improvement as provided by Subchapter C, Chapter 212
- ☐ personal property sold: at an auction by a state licensed auctioneer; at a going out of business sale held in compliance with Subchapter F, Chapter 17, Business & Commerce Code; by a political subdivision of this state, a state agency of this state, or an entity of the federal government; or under an interlocal contract for cooperative purchasing administered by a regional planning commission established under Chapter 391
- ☐ services performed by blind or severely disabled persons
- ☐ goods purchased by a municipality for subsequent retail sale by the municipality
- ☐ electricity
- ☐ advertising, other than legal notices
- ☐ Critical Business Need (Austin Energy Only)

3. The following facts as detailed below support an exemption according to Section 252.022 of the Local Government Code for this purchase. Please verify the steps taken to confirm these facts. If you are citing the following exemptions, please provide the additional information requested below. A more detailed explanation of these exemptions is attached.

- **Preserve and Protect the Public Health and Safety** – Describe how this purchase will preserve and protect the public safety of residents.
- **Sole Source** – Describe what patents, copyrights, secret processes, or natural monopolies exist. Attach a letter from vendor supporting the sole source. The letter must be on company letterhead and be signed by an authorized person in company management.
- **Personal Services** – Describe those services to be performed personally by the individual contracted to perform them.
- **Professional Services** – Describe what mainly mental or intellectual rather than physical or manual and/or disciplines requiring special knowledge or attainment and a high order of learning, skill, and intelligence are required to perform this service.
- **Planning Services** – Describe the services primarily intended to guide governmental policy to ensure the orderly and coordinated development of the state or of municipal, county, metropolitan, or regional land areas.

The current contract NS140000001 for digital literacy services has expired on 02/28/18 and no extensions remain. Digital literacy services must be provided to the public. Therefore, the City is entering into an interim contract for 30 days with a 30 extension option with the most recent vendor, Austin Free-Net, to provide services until a long term contract is negotiated and written.

4. Please attach any documentation that supports this exemption.
5. Please provide any evaluation conducted to support the recommendation. Include the efforts taken to ensure the selected vendor is responsible and will provide the best value to the City (Ex: evaluation of other firms, knowledge of market, etc).

Austin Free-Net has provided digital literacy training and public computer lab management services in the City of Austin for over twenty years. Austin Free-Net was awarded a new long term contract by City Council on March 1, 2018. In order to provide continuity of service and a smooth transition from the expired contract to the new Council-approved contract, TARA recommends Austin Free-Net to provide services. This will allow Austin Free-Net to provide services while a new long term contract is negotiated and written.

6. Because the above facts and documentation support the requested exemption, the City of Austin intends to contract with Austin Free-Net which will cost approximately \$ 16,000.00 (Provide estimate and/or breakdown of cost).
