

Commercial Use Permits

<http://www.austintexas.gov/departments/commercial-use-dedicated-parkland>

For public safety considerations and to effectively manage the Austin park system, a number of inner city and urban area parks have been identified as permitted locations for approved commercial use activities.

Areas specifically dedicated to a use that would reasonably conflict with any approved activities are excluded. For example, holding fitness classes in an area dedicated as a children's play area or running track is not appropriate.
