# Zoning CITY OF AUSTIN RECOMMENDATION FOR COUNCIL ACTION

**AGENDA ITEM NO.: Z-4** 

AGENDA DATE: Thu 09/02/2004

PAGE: 1 of 1

SUBJECT: C14-04-0084 - Hoskins 10 - Conduct a public hearing and approve an ordinance amending Chapter 25-2 of the Austin City Code by rezoning property locally known as 412, 414, 426 and 428 Thompson Lane (Carson Creek Watershed) from rural residence (RR) district zoning to general commercial services (CS) district zoning. Zoning and Platting Commission Recommendation: To grant general commercial services-conditional overlay (CS-CO) combining district zoning. Applicant: Fred W. Hoskins. Agent: Jim Bennett Consulting (Jim Bennett). City Staff: Wendy Walsh, 974-7719.

#### ZONING CHANGE REVIEW SHEET

<u>CASE:</u> C14-04-0084 <u>Z.P.C. DATE:</u> July 20, 2004

August 3, 2004

**ADDRESS:** 412, 414, 426 and 428 Thompson Lane

**OWNER AND APPLICANT:** Fred W. Hoskins **AGENT:** Jim Bennett Consulting

(Jim Bennett)

ZONING FROM: RR TO: CS AREA: 10.320 acres

#### SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant commercial services – conditional overlay (CS-CO) combining district zoning. The Conditional Overlay: 1) prohibits the following uses: equipment repair services; equipment sales; kennels; laundry services; vehicle storage; adult-oriented businesses; and transportation terminal; and 2) limits development of the property to less than 2,000 motor vehicle trips per day.

#### ZONING & PLATTING COMMISSION RECOMMENDATION:

July 20, 2004: POSTPONED TO 08/3/04 DUE TO NOTIFICATION ERROR (STAFF) [J.M; J.G  $2^{ND}$ ] (8-0) J.P – ABSENT

August 3, 2004: APPROVED STAFF'S RECOMMENDATION OF CS-CO DISTRICT ZONING; PROHIBIT ADULT ORIENTED BUSINESSES. [J.M; J.G  $2^{ND}$ ] (8-0) J.P – ABSENT

#### **ISSUES:**

The applicant is in agreement the alternate staff recommendation.

#### **DEPARTMENT COMMENTS:**

The subject property consists of one unplatted tract that contains an electrical company, a mechanical company, a lighting company and one occupied single family residence. The tract is zoned rural residence (RR) district and access is taken to Thompson Lane, a collector street. Thompson Lane extends between U.S. Highway 183 and Hergotz Lane and has a varied land use character with agriculture at its intersection with Hergotz and a mixture of single family residences, manufactured home parks, office / warehouses, and commercial service uses proceeding southwest towards 183 (zoned I-RR; DR; I-SF-2; P-CO; CS and CS-1-CO). Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

The tract is also located within the Airport Overlay Zone (AO-3) also known as the ½ mile buffer zone that permits commercial and industrial uses. (The AO-3 Zone does not allow for new residential development to occur outside of recorded final plats, municipal utility district boundaries or neighborhood plan combining district boundaries.) The tract is located outside of the Carson Creek fully-developed 25 and 100-year floodplains which is being studied by the Watershed Protection and Development Review Department.

The applicant proposes to rezone the property to the commercial services (CS) district to accommodate the existing developments on the property. Staff recommends commercial uses that support the Austin Bergstrom International Airport, and also proposes a Conditional Overlay to prohibit the more intensive commercial uses and those with significant truck-generation. Staff recommends prohibiting the following uses:

**Equipment Repair Services** 

**Equipment Sales** 

Kennels

Laundry Services

Vehicle Storage

Transportation Terminal

Adult-oriented businesses

Staff supports CS-CO zoning in the context of its proximity to a highway and location within the Airport Overlay Zone, with the prohibition of intensive and truck-generating commercial uses.

#### **EXISTING ZONING AND LAND USES:**

	ZONING	LAND USES
Site	RR	Electric company; Mechanical company; Lighting company;
		One occupied single family residence
North	DR; I-SF-2	Agricultural; Single family residences; Vacant manufactured
		home
South	I-SF-2; I-RR	Manufactured home park (surrounded by rezoning area on three
		sides); Single family residences; Agricultural sales and
		services; General retail sales
East	(County); I-RR; I-SF-2;	Agricultural; Pallet storage and undeveloped land; Single
	I-RR; P-CO; CS; CS-1-	family residences; Manufactured home park; Office-
	CO	warehouses; Capital Metro service yard; Retail sales; Adult-
		oriented uses; Supply company
West	DR; RR;	Agricultural; Undeveloped

**AREA STUDY:** N/A

<u>TIA:</u> This property is located within the Airport Overlay which prohibits single family development and therefore a neighborhood traffic analysis is not required.

**WATERSHED:** Carson Creek

**DESIRED DEVELOPMENT ZONE:** Yes

**CAPITOL VIEW CORRIDOR:** No

**SCENIC ROADWAY:** No

#### SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant commercial services – conditional overlay (CS-CO) combining district zoning. The Conditional Overlay: 1) prohibits the following uses: equipment repair services; equipment sales; kennels; laundry services; vehicle storage; adult-oriented businesses; and transportation terminal; and 2) limits development of the property to less than 2,000 motor vehicle trips per day.

#### BACKGROUND

The subject property consists of one unplatted tract that contains an electrical company, a mechanical company, a lighting company and one occupied single family residence. The tract is zoned rural residence (RR) district and access is taken to Thompson Lane, a collector street. Thompson Lane extends between U.S. Highway 183 and Hergotz Lane and has a varied land use character with agriculture at its intersection with Hergotz and a mixture of single family residences, manufactured home parks, office / warehouses, and commercial service uses proceeding southwest towards 183 (zoned I-RR; DR; I-SF-2; P-CO; CS and CS-1-CO).

The tract is also located within the Airport Overlay Zone (AO-3) also known as the ½ mile buffer zone that permits commercial and industrial uses. (The AO-3 Zone does not allow for new residential development to occur outside of recorded final plats, municipal utility district boundaries or neighborhood plan combining district boundaries.) The tract is located outside of the Carson Creek fully-developed 25 and 100-year floodplains which is being studied by the Watershed Protection and Development Review Department.

The applicant proposes to rezone the property to the commercial services (CS) district to accommodate the existing developments on the property. Staff recommends commercial uses that support the Austin Bergstrom International Airport, and also proposes a Conditional Overlay to prohibit the more intensive commercial uses and those with significant truck-generation. Staff recommends prohibiting the following uses:

Equipment Repair Services Equipment Sales Kennels Laundry Services

Vehicle Storage Transportation Terminal Adult-oriented businesses

Staff supports CS-CO zoning in the context of its proximity to a highway and location within the Airport Overlay Zone, with the prohibition of intensive and truck-generating commercial uses.

#### BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

- 1. The proposed zoning should be consistent with the purpose statement of the district sought.
  - CS, Commercial Services, zoning is intended for commercial or industrial uses that typically have operating characteristics or traffic service requirements generally incompatible with residential environments. The property is located in close proximity to Bastrop Highway / U.S. Highway 183, a major freeway.
- 2. Zoning changes should promote compatibility with adjacent and nearby uses.

Staff supports CS-CO zoning in the context of its proximity to a highway and location within the Airport Overlay Zone, with the prohibition of intensive and truck-generating commercial uses. In

addition, establishing a maximum number of daily vehicle trips will limit development to maintain acceptable traffic conditions on adjacent roadways and intersections

#### **EXISTING CONDITIONS**

#### **Site Characteristics**

The site is developed with an electrical company, a mechanical company, a lighting company and a single family residence. There appear to be no significant topographical constraints on the site.

#### **Impervious Cover**

The maximum impervious cover allowed by the CS zoning district would be 80%, which is based on the more restrictive zoning regulations.

#### Environmental

The site is not located over the Edward's Aquifer Recharge Zone. The site is in the Carson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Development Classification	% of Net Site Area	% with Transfers
Single-Family	50%	60%
(minimum lot size 5750 sq. ft.)		
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

In the Water Quality Transition Zones, impervious cover is limited to 30%.

According to flood plain maps, there is no flood plain in, or within close proximity of, the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any pre-existing approvals which preempt current water quality or Code requirements.

#### TPSD Right-of-Way

The scope of this review is limited to the identification of needs for dedication and/or reservation of right-of-way for funded Capital Improvement Program (C.I.P.) Roadway Construction Projects and Transportation Systems Management (T.S.M.) Projects planned for implementation by the City of Austin. No aspect of the proposed project is being considered or approved with this review other than the need for right-of-way for City projects. There are separate right-of-way dedication and reservation requirements enforced by other Departments and other jurisdictions to secure right-of-way for roadway improvements contained in the Austin Metropolitan Area Roadway Plan, roadway projects funded by County and State agencies, and for dedication in accordance with the functional classification of the roadway.

We have reviewed the proposed rezoning case and anticipate no additional requirement for right-ofway dedication or reservation for funded C.I.P. or T.S.M. projects at this location.

#### **Transportation**

The trip generation under the requested zoning is estimated to be 17,918 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

#### Water and Wastewater

The landowner intends to serve the site with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or utility adjustment are required, the landowner will be responsible for all costs and providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City utility design and specifications.

#### Compatibility Standards

This tract is already developed. A change of use within the existing structure would not trigger compatibility development regulations. However, any new construction on this site would be subject to compatibility development regulations due to the existing I-SF-2 zoned property to the north, south and east, and would be subject to the following requirements:

The site is subject to compatibility standards. Along the north, south and east of the property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

  Additional design regulations will be enforced at the time a site plan is submitted.

This property is within the Airport Overlay Zone AO-3. Development on this property is limited by Chapter 25-13 of the Austin City Code. Airport hazards as defined in Federal Aviation Regulations Part 77, as adopted by the City in Section 25-13-23, are prohibited. Noise level reduction measures may be required for certain new structures.
