Additional Backup Information:

The Austin Police Department (APD) currently operates an Automated Palm and Fingerprint System (APFIS) for identification processes utilized in booking and for other criminal justice purposes. APD and the Pflugerville Police Department (Pflugerville PD) have determined that it would be mutually advantageous for Pflugerville PD to connect to APD’s APFIS in order to enter its fingerprint and palm print records into the APFIS database and to search the database for matches when investigating certain criminal activity. Pflugerville PD will purchase the equipment necessary to connect to the APFIS. There is no cost to the City as a result of entering into this interlocal agreement.
