Subject: 307 Leland

Dear Chair Galindo and Commission members:

I am writing to oppose the demolition of 307 Leland Street, on the agenda for tonight's meeting. I live around the corner from this property and am concerned that removal of this home, the original house of Leland Street, would drastically alter the street scape of this block. As you may know, this block of Leland is entirely intact with original homes. I believe the restoration of the Calcasieu cottages on the adjacent property provide an example of what could be done on the 307 Leland property.

I ask that you postpone a decision on this permit until neighbors can seek to meet with the owners to see if there might be a way to preserve the front home, which dates to 1900, per Travis Central Appraisal District, while still accommodating an addition.

Thank you for your consideration.

Sincerely,

Bob Gee
302 Terrace Drive
