

**RCA
CITY OF AUSTIN
RECOMMENDATION FOR COUNCIL ACTION**

AGENDA ITEM NO.: 39
AGENDA DATE: Thu 09/02/2004
PAGE: 1 of 1

SUBJECT: Authorize negotiation and execution of a 12-month State Use Agreement with TEXAS INDUSTRIES FOR THE BLIND AND HANDICAPPED, for vegetation control in creeks and detention/water quality ponds, and for the hauling of excessive vegetation and debris from specified job site locations to an acceptable landfill in an amount not to exceed \$1,618,000.

AMOUNT & SOURCE OF FUNDING: Funding in the amount of \$1,618,000 is included in the Fiscal Year 2004-2005 proposed Operating Budget of the Watershed Protection and Development Review Department.

FISCAL NOTE: There is no unanticipated fiscal impact. A fiscal note is not required.

REQUESTING Watershed Protection and **DIRECTOR'S**
DEPARTMENT: Development Review **AUTHORIZATION:** Joe Pantalion

BOARD AND COMMISSION ACTION: N/A

PURCHASING: N/A

MBE / WBE: N/A

To reduce the risk of flooding to properties adjacent to waterways, this agreement provides for the clearing of excessive vegetation and debris from identified high-risk drainage channels and creeks. This agreement also provides these services for detention and water quality ponds and in newly annexed areas in accordance with approved service plans.

Texas Industries for the Blind and Handicapped (TIBH), in conjunction with Easter Seals Central Texas, has performed this service for the past fifteen (15) years. Their dedication, experience, and timely performance demonstrate their qualifications to continue the creek clearing and pond maintenance services the City is obligated to provide.

State Law allows political subdivisions to substitute services available from blind or disabled persons for those which could be purchased from private businesses without securing competitive bids (Texas Human Resources Code, Section 122.017). Comparison of TIBH prices in past years has shown them to be at or below those of the private sector. TIBH's prices will remain the same for the Fiscal Year 2004-2005 contract as they were for the Fiscal Year 2003-2004 contract (Price Agreement #-S040011). However, the overall contract has been increased by \$18,000 to provide the vegetation service for an additional twenty (20) ponds projected to be added to the pond maintenance requirement in Fiscal Year 2004-2005.

Texas Industries for the Blind and Handicapped serves as a broker to locate and administer contracts for non-profit organizations. Easter Seals Central Texas Workforce Development Program personnel will perform the work and receive 94% of the funds. TIBH will receive the remaining 6% of the funds to

Appendix C

Guidelines for Excess Vegetation Removal From Open Waterways and Ponds

APPENDIX C

Guidelines for Excess Vegetation Removal from Open Waterways and Ponds

1.0 SCOPE OF WORK

- 1.1 The City of Austin has approximately seventy (70) miles of open waterways within the City limits requiring vegetation control. Highest priority waterways shall be cleared of excess vegetation to optimize flood flow conveyance at least three (3) times during the term of the one-year agreement, weather permitting. Certain open waterways require maintenance more frequently than three (3) times per year (refer to Appendix A – Creek Locations List).
- 1.2 The City of Austin has approximately four hundred (400) detention and water quality ponds within Austin's ETJ requiring vegetation control. These ponds shall be cleared of excess vegetation to maximize the stormwater holding capacity and optimize the water quality prior to discharge downstream. The ponds shall be maintained at least four (4) times per year during the one-year agreement, weather permitting. Certain ponds require maintenance more frequently than four (4) times per year (refer to Appendix B – Pond Locations List).

2.0 PERFORMANCE SPECIFICATION

- 2.1 All undesirable vegetative growth shall be removed from dedicated creek drainage easements and ponds. All vegetation within the work areas, including public right-of-ways, shall be cut to a height between three (3) to six (6) inches. The soil shall not be disturbed in the work areas, unless the activities necessary to accomplish the desired work warrant such action and previous authorization has been obtained from the City's Program Manager. Any work that disturbs the existing condition of the soil shall conform to the requirements in the City of Austin Land Development Code/Environmental Criteria Manual.
- 2.2 Careful consideration shall be taken by the Performing Party to minimize soil disturbance and protect desirable trees from injury. All undesirable trees, shrubs and bushes shall be cut as close as possible to the level of the existing ground surface. Each open waterway shall be left in a cut, clean and sanitary condition, free from tall weeds and grass.
- 2.3 The Performing Party shall protect all desirable vegetative growth such as trees, shrubs and wood vines from damage, injury or loss. Overhanging limbs of those trees that have been determined as desirable, using the Environmental Criteria Manual Class I category as a guide, shall be trimmed up to a height of six (6) feet above the ground. The underside of shrubs shall be trimmed only around the base up to a height of eighteen (18) inches above the ground. All trimming shall be done in such a manner that does not endanger the life of such plants. Trees and shrubs that do not stand in the waterway flow line shall not be cut or damaged.
- 2.4 The Performing Party shall provide adequate supervision to assure that all work shall be done in accordance with this agreement and generally accepted practices of vegetation control.

APPENDIX C

Guidelines for Excess Vegetation Removal from Open Waterways and Ponds

3.0 SPECIAL SITE CLEANUP REQUIREMENT

For locations being cut for the first time or if a cutting cycle has been missed, the work shall also include raking the cut area and removing the excess vegetation based on the established agreement standard rates.

4.0 EQUIPMENT AND TOOLS TO BE USED

- 4.1 In most cases, the required work under this agreement shall be performed in areas that are sloped, overgrown with vegetation, and on uneven terrain, and difficult to access with mechanical equipment.
- 4.2 Work shall be accomplished using the following equipment: hand-held tools, chain saws, weed eaters, push type mowers, small tractors equipped with mowing and raking attachments, and trucks and trailers for hauling excess vegetation and debris.

5.0 PROHIBITION OF CHEMICALS

No chemicals shall be used to complete any portion of this agreement, unless prior approval has been obtained from the City's Program Manager.

6.0 NOTIFICATION

- 6.1 At the discretion of the Receiving Party's Program Manager, neighborhood organizations shall be notified of impending vegetation removal from creeks. Door hanger notification is not required for pond locations.
- 6.2 For those locations where work is being performed on a regularly scheduled basis, the use of door hangers shall be at the discretion of the Performing Party.
- 6.3 For new creek areas being cut for the first time, affected citizens in the work locations shall be notified by door hangers 24 to 48 hours before any work by the Performing Party is initiated.
- 6.4 When required by the Receiving Party's Program Manager, the Performing Party shall verify that such notification has been performed.

7.0 INSPECTION

- 7.1 When requested by the Receiving Party's Program Manager, the Performing Party shall report the open waterway and pond locations that have been cleared and are ready for inspection. No open waterway or pond shall be reported by the Performing Party as cleared, until all work in the given area is completed in accordance with all agreement provisions.
- 7.2 If the inspection reveals work that is not completed, the Performing Party shall finish the uncompleted work and then re-notify the Program Manager.
- 7.3 Work will not be designated as complete nor will payment be authorized until an inspection acceptable to the Receiving Party is completed.

Appendix D

VCP Agreement Cost Summary

Appendix D

VCP Agreement Cost Summary

FY2004-2005

<u>Item</u>	<u>Cost</u>
Creek Vegetation Control Program Cost (Appendix A)	\$1,067,289
Landfill Disposal Costs	
320 Loads at \$167.50 per Load	53,600
Allowance for Unidentified Creek Vegetation Control Work, Special Requests for Trash and Debris Removal and Identified Locations not on Creek Locations List	<u>29,111</u>
Sub Total	<u>1,150,000</u>
Pond Vegetation Control Program Cost (Appendix B)	436,672
Landfill Disposal Cost	
60 Loads at \$167.50 per Load	10,050
Allowance for Unidentified Pond Vegetation Control Work and Special Requests for Trash and Debris Removal	<u>21,278</u>
Sub Total	<u>468,000</u>
TOTAL	<u>\$1,618,000</u>
