Additional Backup Information:

In accordance with City Ordinance No. 20130117-017, Austin Water's financial policies require a public hearing during the City's annual budget review process to provide citizens an opportunity to comment on growth-related projects within the Drinking Water Protection Zone (DWPZ).

Capital improvement projects for new water and wastewater treatment plants, capital expansions, and growth-related projects that are located in the DWPZ were identified and submitted, as part of the annual budget process, to the following Boards and Commissions: Water and Wastewater Commission, Resource Management Commission, Environmental Board, Planning Commission, and the Zoning and Platting Commission.

These Boards and Commission reviewed growth-related DWPZ capital projects spending plans, provided input, reviewed consistency with Imagine Austin comprehensive plan, reviewed effect on growth within the DWPZ, and made recommendations on projects. All Boards and Commissions approved to include DWPZ projects in Austin Water's 5-year spending plan.

A public hearing will be held during the City's annual budget review process to provide citizens an additional opportunity to comment on growth related projects located within the DWPZ.
