SECOND/THIRD READING SUMMARY SHEET

ZONING CASE NUMBER: C14-2018-0024 (Powell Lane Apartments)

REQUEST:

Approve second and third readings of an ordinance amending City Code Title 25 by rezoning property locally known as 411 & 601 East Powell Lane and 410, 500, 502, 504, 508, and 606 East Wonsley Drive from limited office-mixed use-neighborhood plan combining (LO-MU-NP) district zoning and neighborhood commercial-mixed use-neighborhood plan combining (LR-MU-NP) district zoning to multifamily residence-moderate-high density-neighborhood plan combining (MF-4-NP) district zoning, with conditions.

The ordinance, public restrictive covenant and street deed reflect the conditions imposed by the City Council on 1st reading.

DISTRICT AREA: 4

PROPERTY OWNER: HDF Investments, Ltd. (Helen Doris Clark Foster) and Behzad Bahrami

APPLICANT: JCI Residential, LLC (Sam Kumar)

AGENT: Alice Glasco Consulting (Alice Glasco)

DEPARTMENT COMMENTS:

The property in question is an 8+ acre tract of land in the North Lamar Combined Neighborhood Planning area. The site currently contains single family residences and an undeveloped lot that front onto Wonsley Drive. There are multifamily uses, a sign shop, a construction sales and services use (JMEG Electric Warehouse), and a hotel/motel use (Red Roof Inn) to the north. To the south, across Wonsley Drive, there are two multifamily complexes (Trifecta Square) and Towne Oaks II) and a religious assembly use (Light of the World). The property to the east contains a hotel/motel use (Super 8) and an automotive sales business. To the west, there is a duplex, single family residences and a multifamily residential use (Meadow Breeze Apartments). The applicant is requesting MF-4, Multifamily Residence Moderate-High Density District, zoning to redevelop these properties with a 258 unit apartment complex. The proposed MF-4 zoning will permit the applicant to develop approximately 38 more units than would be allowed by the existing LO-MU-NP and LR-MU-NP zoning.

The site under consideration is specifically located in the Georgian Acres Neighborhood Planning Area, within the overall North Lamar Combined Planning Area. The Future Land Use Map calls for Mixed Use/Office and Neighborhood Mixed Use land use for these lots. The applicant is requesting a change to Multifamily land use through accompanying neighborhood plan amendment case, NPA-2017-0026.02.

The staff recommends the requested MF-4-NP zoning because the property meets the intent of the district as the proposed zoning will permit the applicant to redevelop these lots with moderate to high density housing in a centrally located area near supporting transportation (Interstate Highway-35, a High Capacity Transit Corridor and North Lamar Boulevard, a designated Activity Corridor) and commercial facilities. The site is in a residential area a block from the
Interstate Highway-35 Southbound service road. The property fronts onto and will take access to two collector roadways, E. Powell Lane and E. Wonsley Drive.

The proposed MF-4 zoning will provide a transition in the intensity of land uses from the single family residences (SF-3 zoning) and the apartment complex (LO-MU-NP zoning) to the west to the commercial uses (CS-CO-NP zoning) fronting IH-35 to the east. There is a precedent for multifamily uses in this area as there are multifamily uses/zoning to the north, south, and west. In addition, these lots are situated near a public amenity as they are located to the south of a property on Powell Lane that was recently zoned “Public” for the Georgian Acres Neighborhood Park. MF-4-NP zoning will permit the applicant to utilize the property to create 250+ multifamily residential units. This is consistent with the goals of the adopted Austin Strategic Housing Blueprint as the redevelopment of this site will create new and affordable housing choices in the City.

The applicant agrees with the City Council’s recommendation at 1st reading.

**DATE OF FIRST READING/VOTE:**

August 30, 2018

**ACTION:** Approved MF-4-NP zoning on 1st reading, leaving the public hearing open and bringing the case back for 2nd/3rd readings on September 20, 2018 (10-0, E. Troxclair-off the dais); G. Casar-1st, A. Alter-2nd.

**DATE OF SECOND/THIRD READINGS:**

September 20, 2018

ZONING CHANGE REVIEW SHEET

CASE: C14-2018-0024 (Powell Lane Apartments)          P.C. DATE: June 26, 2018
                                                    July 10, 2018

ADDRESS: 411 & 601 East Powell Lane and 410, 500, 502, 504, 508, and 606 East Wonsley Drive

DISTRICT AREA: 4

OWNER: HDF Investments, Ltd. (Helen Doris Clark Foster) and Behzad Bahrami

APPLICANT: JCI Residential, LLC (Sam Kumar)

AGENT: Alice Glasco Consulting (Alice Glasco)

ZONING FROM: LO-MU-NP, LR-MU-NP   TO: MF-4-NP   AREA: 8.11 acres

SUMMARY STAFF RECOMMENDATION:

The staff’s recommendation is to grant MF-4-NP, Multifamily Residence-Moderate-High Density-Neighborhood Plan District, zoning.

If the requested zoning is recommended for this site, then 32 feet of right-of-way should be dedicated from the centerline of Wonsley Drive through a street deed prior to 3rd reading of the case at City Council.

In addition, the recommendations from the Neighborhood Traffic Analysis (NTA) for this property shall be placed in a public restrictive covenant before 3rd reading of this case at City Council. Please see NTA Memorandum – Attachment A.

PLANNING COMMISSION RECOMMENDATION:

6/26/18: Postponed to July 10, 2018 at the request of the neighborhood/North Lamar Neighborhood Contact Team (11-0, J. Thompson-absent); F. Kazi-1st, C. Kenny-2nd.

8/14/18: Approved the staff’s recommendation of MF-4-NP zoning, with conditions, for the property at 502 E. Wonsley Drive by consent (9-0, K. McGraw and T. Shaw-absent); C. Kenny-1st, P. Seeger-2nd.

ISSUES:

The Law Department has determined that there was a posting error on the July 10, 2018 Planning Commission agenda for cases C14-2018-0024 and NPA-2018-0026.02. The address for the property located at 502 East Wonsley Drive was inadvertently left off the agenda posting for these cases. The Law Department has stated that both the zoning and the NPA cases must comply with statutory notice and TOMA notice. Therefore, both the zoning and the NPA cases will need to go back to commission
to add the 502 E. Wonsley Drive address as the Planning Commission did not take an action on that address.

The staff will be re-noticing cases C14-2018-0024 and NPA-2018-0026.02 for the property located at 502 E. Wonsley Drive only for consideration on the August 14, 2018 Planning Commission meeting and the August 23, 2018 City Council meeting.

Then staff will request a postponement of both cases at the August 9th City Council meeting to the August 23rd City Council meeting so that the Planning Commission can make a recommendation on the property at 502 E. Wonsley Drive. Cases C14-2018-0024 and NPA-2018-0026.02 will be posted on the August 23, 2018 City Council meeting so that the City Council will be able to consider them in their entirety.

DEPARTMENT COMMENTS:

The property in question is an 8+ acre tract of land in the North Lamar Combined Neighborhood Planning area. The site currently contains single family residences and an undeveloped lot that front onto Wonsley Drive. There are multifamily uses, a sign shop, a construction sales and services use (JMEG Electric Warehouse), and a hotel/motel use (Red Roof Inn) to the north. To the south, across Wonsley Drive, there are two multifamily complexes (Trifecta Square) and Towne Oaks II) and a religious assembly use (Light of the World). The property to the east contains a hotel/motel use (Super 8) and an automotive sales business. To the west, there is a duplex, single family residences and a multifamily residential use (Meadow Breeze Apartments). The applicant is requesting MF-4, Multifamily Residence Moderate-High Density District, zoning to redevelop these properties with a 258 unit apartment complex. The proposed MF-4 zoning will permit the applicant to develop approximately 38 more units than would be allowed by the existing LO-MU-NP and LR-MU-NP zoning.

The site under consideration is specifically located in the Georgian Acres Neighborhood Planning Area, within the overall North Lamar Combined Planning Area. The Future Land Use Map calls for Mixed Use/Office and Neighborhood Mixed Use land use for these lots. The applicant is requesting a change to Multifamily land use through accompanying neighborhood plan amendment case, NPA-2017-0026.02.

The staff recommends the requested MF-4-NP zoning because the property meets the intent of the district as the proposed zoning will permit the applicant to redevelop these lots with moderate to high density housing in a centrally located area near supporting transportation (Interstate Highway-35, a High Capacity Transit Corridor and North Lamar Boulevard, a designated Activity Corridor) and commercial facilities. The site is in a residential area a block from the Interstate Highway-35 Southbound service road. The property fronts onto and will take access to two collector roadways, E. Powell Lane and E. Wonsley Drive.

The proposed MF-4 zoning will provide a transition in the intensity of land uses from the single family residences (SF-3 zoning) and the apartment complex (LO-MU-NP zoning) to the west to the commercial uses (CS-CO-NP zoning) fronting IH-35 to the east. There is a precedent for multifamily uses in this area as there are multifamily uses/zoning to the north, south, and west. In addition, these lots are situated near a public amenity as they are located to the south of a property on Powell Lane that was recently zoned “Public” for the Georgian Acres Neighborhood Park. MF-4-NP zoning will permit the applicant to utilize the property to create 250+ multifamily residential units. This is consistent with the goals of the adopted Austin Strategic Housing Blueprint as the redevelopment of this site will create new and affordable housing choices in the City.
The applicant agrees with the staff’s recommendation.

ACTION:
ORDINANCE READINGS:  1st 8/30/18

ORDINANCE NUMBER:

CASE MANAGER: Sherri Sirwaitis

PHONE: 512-974-3057, sherri.sirwaitis@austintexas.gov
STAFF RECOMMENDATION

The staff’s recommendation is to grant MF-4-NP, Multifamily Residence-Moderate-High Density-Neighborhood Plan District, zoning.

If the requested zoning is recommended for this site, then 32 feet of right-of-way should be dedicated from the centerline of Wonsley Drive through a street deed prior to 3rd reading of the case at City Council.

In addition, the recommendations from the Neighborhood Traffic Analysis (NTA) for this property shall be placed in a public restrictive covenant before 3rd reading of this case at City Council. Please see NTA Memorandum – Attachment A.

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Multifamily residence moderate-high density (MF-4) district is the designation for multifamily and group residential use with a maximum density of 36 to 54 units per acre, depending on unit size. An MF-4 district designation may be applied to high density housing in a centrally located area near supporting transportation and commercial facilities, in an area adjacent to the central business district or a major institutional or employment center, or in an area for which moderate to high density multifamily use is desired.

2. Zoning should promote a transition between adjacent and nearby zoning districts, land uses, and development intensities.

The property in question is surrounded by multifamily and commercial uses/zoning to the north, south, and west. These lots are situated near a public amenity as they are located to the south of a property on Powell Lane that was recently zoned “Public” for the Georgian Acres Neighborhood Park.

3. Zoning should allow for reasonable use of the property.

MF-4-NP zoning will permit the applicant to utilize the property to create 250+ multifamily residential units. This is consistent with the goals of the adopted Austin Strategic Housing Blueprint as the redevelopment of this site will create new and affordable housing choices in the City.

EXISTING CONDITIONS

Site Characteristics

The site under consideration is an 8+ acre tract of land in the North Lamar Combined Neighborhood Planning area. The site currently contains single family residences and an undeveloped lot that front onto Wonsley Drive.
Environmental

Monday March 12, 2018

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Little Walnut Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project location. 4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 sq. ft. cumulative is exceeded, and on site control for the two-year storm. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Hill Country Roadway

The site is not within a Hill Country Roadway Corridor.

Impervious Cover

The maximum impervious cover allowed by the MF-4 zoning district would be 70%. The site is located in the Little Walnut Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Compatibility Standards
The site is subject to compatibility standards. Along the North property line, the following standards apply:
- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

Stormwater Detention
At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

Transportation
A Neighborhood Traffic Analysis is required for access to Powell Lane and Wonsley Drive. The NTA requires three (3) consecutive 24 hour tube counts, preferably on Tuesday, Wednesday, and Thursday, during a non-holiday week when school is in session. Please contact Scott James (Scott.James@austintexas.gov) or myself to discuss the location of the tube counts. Results will be provided in a separate memo. LDC 25-6-114. Please pay the NTA fees with the Intake staff on the 4th floor. This comment will be cleared once the Memo is approved and the fees are paid.

The Neighborhood Traffic Analysis Memorandum findings are based upon an assumed proposed intensity of 270 multi-family apartments. If the proposed development differs from the proposed land uses and/or intensities, a revised NTA is required. A Traffic Impact Analysis shall be required at the time of site plan application and further mitigations may be required if triggered per LDC 25-6-113.
LDC. 25-6-113.

Wonsley Drive requires 64 feet of right-of-way in accordance with the TCM. If the requested zoning is recommended for this site, 32 feet of right-of-way should be dedicated from the centerline of Wonsley Drive in accordance with the TCM. LDC 25-6-55; TCM, Tables 1-7, 1-12.

Additional right-of-way maybe required at the time of subdivision and/or site plan.
It is recommended that joint access be provided for all tracts to Powell Lane and Wonsley Drive.

Janae Spence, Urban Trails, Public Works Department, Mike Schofield, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

At the time of site plan review, it is recommended to provide a minimum 15-foot sidewalk, trail, and recreational easement along the western property line, connecting E Wonsley Drive and E Powell Lane, to provide connectivity to the Georgian Acres Neighborhood Park and other uses to the north and south of the development. Additionally, it is recommended to construct a minimum 5-foot sidewalk according to City of Austin standards within the easement at the time of the site plan application.

FYI – E Lola Drive appears to be stubbed out to the western property line. At the time of the subdivision application, E Lola Drive is required to be extended through the property, or a variance is required from Land Use Commission.

FYI – driveways and sidewalks shall be constructed according to City of Austin standards at the time of the site plan application.

**Water and Wastewater**

Thursday March 08, 2018

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
