The Record of Decisions from the June 13, 2003 meeting was approved on a 2-0 vote.

CITIZEN COMMUNICATIONS

Richard Viktorin, - Mr. Viktorin expressed his concerns on the City's public access policies relating to recreational uses in the Forest Ridge tract of the Balcones Canyonlands Preserve. Mr. Viktorin stated that he feels the signage at this location is not adequate and appears to discriminate against running groups and groups in general. Mr. Viktorin stated that limiting access is not in the best interests of the BCP and requested a defined policy on access to Forest Ridge.

Skip Cameron, President Bull Creek Foundation – Mr. Cameron addressed his views on public participation in the BCP process. Mr. Cameron stated he felt that the public input during the early stages of the Habitat Conservation Plan process and during the development of the BCP Land Management Plan was ignored in the end product. Mr. Cameron also stated his opposition to the public access policy, fencing of preserve tracts, and his opinion that biological studies addressing golden-cheeked warblers and recreation were not done in a way to answer the questions.
