NOTES

1. No lot shall be occupied until the structure is connected to the City of Austin water and wastewater utility system.
2. The water and wastewater utility system serving this subdivision must be in accordance with the City of Austin utility design criteria. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction.
3. The landowner is responsible for providing the subdivision infrastructure, including the water and wastewater utility improvements.
4. Building Setback Lines shall be in conformance with the City of Austin Zoning ordinance requirements.
5. No buildings, fences, landscaping, or other obstructions are permitted in drainage easements except as approved by the City of Austin.
6. The owner of this subdivision, and his or her successors and assigns, assumes responsibility for plans for construction of subdivision improvements which comply with applicable codes and requirements of the City of Austin. The owner understands and acknowledges that prior vacation or replatting may be required, at the owner's sole expense, if plans to construct this subdivision do not comply with such codes and requirements.
7. No additional impervious cover is allowed within the Barton Creek Watershed.
8. All streets, drainage improvements, public sidewalks, erosion controls, and water and wastewater lines are required to be constructed and installed to City of Austin Standards.
9. Austin Energy has the right to cut and trim trees and shrubbery and remove obstructions to the extent necessary to keep the easements clear of obstructions. Austin Energy will perform off-trace work in compliance with Chapter 25-8, Subchapter B of the City of Austin Land Development Code.
10. The owner/developer of this subdivision/lot may provide Austin Energy with any easement and/or access required for the installation and ongoing maintenance of overhead and underground electric facilities within or along the perimeter of this subdivision/lot. These easements/accesses are required to provide electric service to the buildings and will not be located so as to cause the site to be out of compliance with the City of Austin Land Development Code.
11. The owner shall be responsible for installation of temporary erosion control, revegetation and tree protection. In addition, the owner shall be responsible for any initial pruning and tree removal that is within ten feet of the centerline of the proposed overhead electrical facilities designed to provide electric service to this project. The owner shall include Austin Energy's work within the limits of construction for this project.
12. By approving this plat, the City of Austin assumes no obligation to construct any infrastructure in connection with this subdivision. Any subdivision infrastructure required for the development of the lots in this subdivision is the responsibility of the developer and/or the owners of the lots. Failure to construct any required infrastructure to City standards may be just cause for the City to deny applications for certain developments, permits, including building permits, site plan approvals and/or certificates of occupancy.
13. Public sidewalks, built to City of Austin standards, are required along the following street and as shown by a dotted line on the face of the plat, Barclay Drive. These sidewalks shall be in place prior to the lot being occupied. Failure to construct the required sidewalks may result in the withholding of Certificates of Occupancy, building permits, or utility connections by the governing body or utility company.
14. Erosion/Sedimentation controls are required for all construction on each lot including single family and duplex construction, pursuant to the Land Development Code and the Environmental Criteria Manual.
15. The owner of the property is responsible for maintaining clearances required by the National Electric Safety Code, Occupational Safety and Health Administration (OSHA) regulations, City of Austin rules and Texas state laws pertaining to clearances when working in close proximity to overhead power lines and equipment. Austin Energy will not render electric service unless required clearances are maintained. All costs incurred because of failure to comply with the required clearances will be charged to the owner.
16. All restrictions and notes from the previous existing subdivision, Anita Subdivision, as recorded in Volume 79 Page 114, Travis County Plat Records, shall apply to this resubdivision plat.
17. All electric easements must be shown on all plan sheets, left clear for electric use and maintenance on a 24/7 basis in perpetuity and maintain necessary clearances from any proposed structures, vegetation, etc. of all lines. Necessary clearance information (AE, OSHA, NEC and NECI) may be found in Austin Energy's Design Criteria Manual -- Section 15.02. The manual is available on Austin Energy's website under contractors/electric service design and planning.
18. Development within the Barton Springs Zone is limited to 20% impervious cover. Development within Water Supply Suburban is limited to 30% impervious cover.
19. Within the Barton Springs Zone, the maximum portion of any commercial, multi-family, or single family/duplex lot that may be established as law or landscaped is 15 percent. However, no lot shall be restricted to less than 2000 square feet of turf or landscaped area. Undisturbed natural areas or areas restored to natural conditions shall not be considered landscaping or turf.
20. All drainage easements on private property shall be maintained by the property owners or assigns.
21. Property owner shall provide for access to drainage easements as may be necessary and shall not prohibit access by governmental authorities.
22. For a minimum travel distance of 25 feet from the roadway edge, driveway grades may exceed 14% only with specific approval of surface and geometric design proposals by the City of Austin.
23. Prior to construction, except detached single family on any lot in this subdivision, a site development permit must be obtained from the City of Austin.
24. Prior to construction on lots in this subdivision drainage plans shall be submitted to the City of Austin for review. Rainfall run-off shall be held in the amount existing of undeveloped status by piling or other approved methods. All proposed construction or site alteration on Lot 1 requires approval of a separate Development Permit.
25. Access to and from the adjacent (0.2295 Acre) tract referenced herein as the AR and JR Radio Towers No 1 LP tract, is provided per the terms and conditions of that Agreement for Ingress and Egress as set out in that deed recorded in Volume 3547 Page 807 of the Deed Records of Travis County, Texas.
