CURRENT POLITICAL CLIMATE

- Anti-city environment (preempt cities roles and limit property taxes)
- Governor and Lt. Governor committed to property tax issue
- Driven by organized opposition to local governments
- Republican lead legislature – that's not changing
- Speaker's race – extremely important to cities

CURRENT POLITICAL CLIMATE

*“...on the topic of **reining in local government**, I am calling for legislation that **reduces, restricts and prohibits local regulations.**”*

– Gov. Greg Abbott, June 6, 2017 in press conference calling a special session of the legislature

*"As opposed to the state having to take multiple rifle-shot approaches at overriding local regulations, I think a **broad-based law** by the state of Texas that says across the board, the state is going to **pre-empt local regulations**, is a superior approach... makes it more simple, more elegant,"*

– Gov. Greg Abbott, March 14, 2017 at Texas Conservative Coalition Research Institute

“Local control is a tool, not a rule....”

– Sen. Konni Burton, July 5, 2017 in guest column with Empower Texans
