March 2, 2018

The Honorable Steve Adler
City of Austin Mayor
P.O. Box 1088
Austin, TX 78767

Re: Fiscal Year 2019 Air Quality Program Funding Request

Dear Mayor Adler:

Local governments in the Austin-Round Rock metro area have long demonstrated their commitment to clean air and ensuring that the region remains in compliance with federal air quality regulations. As of the end of 2017, air pollution levels in the metro area are just 1% below federal standards, which underscores the importance of maintaining a high-quality regional air quality program to help ensure that we can remain in compliance with these standards. This is important for public health, for the region's economic competitiveness, and allowing the region to efficiently conduct transportation planning.

For the previous twenty years, the Austin-Round Rock Metro area's air quality program was primarily funded by a state planning grant that was awarded to CAPCOG. The \$1.25 million in state air quality funding for fiscal years 2018 and 2019 that the Legislature had approved for CAPCOG was vetoed by the Governor in June 2017, and in response, the 22 local governments that are members of the Clean Air Coalition stepped up to the challenge by contributing \$287,000 to CAPCOG's air quality program. Combined with about \$150,000 that CAPCOG was able to carry forward from our 2016-2017 air quality grant, CAPCOG was able to maintain some of our core staff functions and continue conducting regional air quality monitoring in 2018.

Since CAPCOG lost two years' worth of state funding, CAPCOG is now requesting that your jurisdiction again contribute at least \$108,304, the same pro-rata share of the \$287,000 that CAC members contributed to CAPCOG's program in 2017 and FY 2018. This funding will enable us to: a) complete work on a new air quality plan due at the end of 2018, b) prepare a 2018 air quality report tracking the region's air quality progress, c) continue providing staff support to the CAC and maintain the www.AirCentralTexas.org website and social media accounts through September 2019, and d) to conduct regional ozone monitoring at six-eight sites in 2019 to supplement TCEQ's two sites in Travis County.

Due to the unavailability of state funding for FY 2019 to supplemental local funding, the \$287,000 raised from local governments for FY 2018 would not be sufficient to maintain the same level of service CAPCOG's air quality program is currently providing. Therefore, we also request that your jurisdiction consider contributing additional \$56,605 in funds in order to help CAPCOG maintain current service levels. This additional amount is your jurisdiction's

Chair

Council Member Corbin Van Arsdale
City of Cedar Park

1st Vice Chair

Commissioner Gerald Daugherty
Travis County

2nd Vice Chair

Council Member Andrea Navarrette
City of Leander

Secretary

Judge Paul Pape
Bastrop County

Past Chair

Judge Bert Cobb
Hays County

Parliamentarian

Commissioner Cynthia Long
Williamson County

Judge Brett Bray
Blanco County

Judge Mary Cunningham
Llano County

Representative John Cyrier
Texas House

Commissioner Joe Don Dockery
Burnet County

Judge Dan Gattis
Williamson County

Council Member William Gordon
City of Smithville

Council Member Mike Heath
City of Pflugerville

Mayor Pro Tem Wiley Hopkins
City of Buda

Council Member Ellen Troxclair
City of Austin

Mayor Lew White
City of Lockhart

Representative Paul Workman
Texas House

pro-rata share of the \$150,000 is not receiving from the state in FY 2019. These additional funds would enable CAPCOG to: a) conduct an analysis of the 2018 air monitoring data, b) conduct an analysis of new emissions data that will be available from TCEQ and EPA for the region, c) provide technical assistance to CAC members in implementing emission reduction measures, d) conduct an analysis of the emission reductions from local emission reduction measures, and e) conduct additional outreach activities and advertising. These activities are important to ensuring that the region can continue to stay ahead of the curve in understanding and managing the region's air quality and remaining in compliance with federal regulations.

The enclosed funding table and scope of work outline the basis for each jurisdiction's funding request and how the funding would be used. If your staff could please let us know by May 1, 2018, whether your jurisdiction plans to include this request in your FY 2019 budget, we would appreciate it – this will help CAPCOG develop our own budget and staffing plan for FY 2019. Thank you again for your support for CAPCOG's air quality program.

Sincerely,

Betty Voights
Executive Director

Enclosures:

Attachment A: CAPCOG Air Quality FY 19 Funding Request Summary

Attachment B: CAPCOG Air Quality FY 19 Scope of Work

Attachment A: CAPCOG Air Quality FY 19

Funding Request Summary

CAPCOG's FY 2019 funding request is based on a continuation of the local funding requests that CAPCOG made in July 2017 to each CAC jurisdiction (FY 2019 Base Level) plus a supplemental funding request that would make up for the \$150,000.00 in state funding that CAPCOG was able to carry forward from its FY 2016-2017 in order to fund its 2018 operations. Similar to CAPCOG's membership dues formula, the per-capita rates for counties are half of the rates for cities to reflect differences in the resource base for cities and counties.

County:

- Base Level Rate: \$0.057129 per capita,
- Supplemental Rate: \$0.029858 per capita

City:

- Base Level Rate: \$0.114258 per capita
- Supplemental Rate: \$0.059717 per capita

Jurisdiction	2016 Population	FY 2019 Base Level	FY 2019 Supplemental	FY 2019 Total Base + Supplemental
Bastrop County	82,733	\$4,726	\$2,470	\$7,197
Caldwell County	41,161	\$2,351	\$1,229	\$3,580
Hays County	204,470	\$11,681	\$6,105	\$17,786
Travis County	1,199,323	\$68,516	\$35,810	\$104,326
Williamson County	528,718	\$30,205	\$15,787	\$45,992
City of Austin	947,890	\$108,304	\$56,605	\$164,909
City of Bastrop	8,519	\$973	\$509	\$1,482
City of Bee Cave	6,535	\$747	\$390	\$1,137
City of Buda	15,023	\$1,717	\$897	\$2,614
City of Cedar Park	68,918	\$7,874	\$4,116	\$11,990
City of Elgin	9,323	\$1,065	\$557	\$1,622
City of Georgetown	67,140	\$7,671	\$4,009	\$11,681
City of Hutto	23,832	\$2,723	\$1,423	\$4,146
City of Lakeway	14,641	\$1,673	\$874	\$2,547
City of Leander	42,761	\$4,886	\$2,554	\$7,439
City of Lockhart	13,527	\$1,546	\$808	\$2,353
City of Luling	5,878	\$672	\$351	\$1,023
City of Pflugerville	59,245	\$6,769	\$3,538	\$10,307
City of Round Rock	120,892	\$13,813	\$7,219	\$21,032
City of San Marcos	61,980	\$7,082	\$3,701	\$10,783
City of Sunset Valley	696	\$80	\$42	\$121
City of Taylor	16,857	\$1,926	\$1,007	\$2,933
TOTAL	2,056,405	\$287,000	\$150,000	\$437,000

Attachment B: CAPCOG Air Quality FY 19

Scope of Work

CAPCOG's Air Quality FY 2019 scope of work is intended to: 1) continue providing support for activities that help reduce ozone-forming emissions within the region, and 2) continue to collect ozone monitoring data throughout the region in order to supplement TCEQ's two regulatory ozone monitors in Travis County. This will be achieved by: 1) maintaining core CAPCOG staff activities required to sustain the region's air quality program, and 2) maintaining CAPCOG's regional ozone monitoring capabilities. In many cases, the tasks identified in this scope of work directly tie back to work that CAPCOG had planned to conduct using state funding during the 2018-2019 biennium. CAPCOG has prioritized these tasks based on the results of a stakeholder survey conducted in January 2019.

CAPCOG has organized this scope of work in order to identify tasks that could be completed if CAPCOG received the same \$287,000 in local funding provided by CAC members in 2018, and supplemental tasks that could be completed if local governments provided the additional \$150,000 in funding that CAPCOG would need to maintain the same level of air quality services as it provided in 2018 (to replace the remaining 2016-2017 grant funding that had been carried forward to 2018). This scope of work anticipates a start date of October 1, 2018, and an end date of December 31, 2019. This would cover various staff work between October 1, 2018, and September 30, 2019, and monitoring during the 2019 ozone season, March through November 2019. Since the funding provided by local governments for 2017 and 2018 was only intended to cover staff work up through September 30, 2018, and ozone monitoring through the end of the 2018 ozone season, there is no overlap in the work that will be completed under the FY 2018 funding and FY 2019 funding.

"Base" funding of up to \$287,000 would cover the following tasks, in priority order:

1. Finalization of a New Regional Air Quality Plan
2. Clean Air Coalition Meetings
3. Clean Air Coalition Advisory Committee Meetings
4. Monthly Air Quality Newsletter
5. Basic Outreach Activities
6. Annual Air Quality Report
7. 2019 Ozone Monitoring

"Supplemental" funding up to \$150,000 would cover the following tasks, in priority order:

1. Analysis of 2018 Air Monitoring Data
2. Analysis of 2017 National Emissions Inventory Data
3. Technical Assistance to CAC Members
4. Analysis of Local Emission Reductions
5. Additional Staff Outreach Activities and Air Quality Advertising

CAPCOG has prepared this scope of work based input from the CAC, but please note that at this stage, this scope of work and prioritization is flexible and, with any additional input from local officials and the CAC, we can make adjustments and re-prioritize these activities if necessary. In order to ensure that the same scope of work is used for all CAC members, CAPCOG expects to finalize the proposed scope of work at either the May or August Clean Air Coalition meetings.

Base Funding Tasks (up to \$287,000)

Task 1: Finalization of New Regional Air Quality Plan

This task involves staff work involved in the completion of a new voluntary regional air quality plan covering 1/1/2019 – 12/31/2023. This work will include a continuation of any work completed prior to 9/30/2018 on this project up through when the new plan is finalized. Within this timeframe, CAPCOG expects this work to include the following activities:

- Coordinating CAC member resolutions and letters committing to participate in the plan;
- Drafting the text of the plan to present to the Clean Air Coalition Advisory Committee for review and comment ahead of the November 2018 CAC meeting;
- Incorporating feedback from the CACAC and any members of the public into the draft plan prior to the November 2018 CAC meeting;
- Incorporating any final feedback from the CAC into the final version of the plan; and
- Distributing copies of the plan to CAC members, the TCEQ, and EPA.

Task 2: Clean Air Coalition Support

This task involves ongoing staff support for the Central Texas Clean Air Coalition (CAC), the region's umbrella organization for air quality work coordinated among cities, counties, and other regional stakeholders, including private industry. This staff support includes research, analysis, and coordination of all air quality-related functions of the CAC. CAPCOG will host at least four Clean Air Coalition meetings between October 1, 2018, and September 30, 2019, under this task.

Task 3: Clean Air Coalition Advisory Committee Support

This task involves ongoing staff support for the CAC Advisory Committee, which provides policy and technical advice to the CAC. Under this task, CAPCOG will host at least four CAC Advisory meetings between October 1, 2018, and September 30, 2019. The CAC Advisory Committee's input remains an important tool for enabling the CAC to have well-informed technical and policy advice on air quality.

Task 4: Monthly Air Quality Newsletter

This task involves the preparation and dissemination of a monthly air quality newsletter to provide CAC representatives, CAC Advisory Committee representatives, and other stakeholders. This newsletter will include:

- Updates on air quality monitoring data from the prior month;
- Updates on state and federal regulatory action, legislation, and court cases relevant to air quality;
- Updates on funding and training opportunities relevant to air quality; and
- Information on upcoming meetings and other regional air quality activities.

All 20 CAC representatives, 44 CAC Advisory Committee representatives, and over a dozen other stakeholders currently rely on these newsletters for such information, and continuation of this activity would ensure that these updates can continue between CAC and CACAC meetings. This is particularly

important when there are time-sensitive issues such as grant opportunities or opportunities to comment on pending rules and regulations or opportunities to participate in outreach activities.

Task 5: Basic Outreach and Education Activities

This task involves basic direct air quality outreach and education activities carried out by CAPCOG between October 1, 2018 and September 30, 2019. This would involve maintaining the AirCentralTexas.org website, maintaining AirCentralTexas.org social media accounts and staffing at least one air quality outreach event in each county. These activities are important to providing basic air quality information to residents of Central Texas.

Task 6: Annual Air Quality Report

This task involves preparing CAPCOG's annual air quality report, which summarizes the region's air quality data from the previous year, the status of the implementation of the emission reductions within the region, and other information relevant to tracking the region's progress in implementing the regional air quality plan. This report provides an important tool for documenting the region's efforts to EPA and TCEQ, and to provide accountability among CAC members on implementation of commitments.

Task 7: 2019 Ozone Season Monitoring

Under this task, CAPCOG will operate ozone and meteorological monitoring at continuous air monitoring stations (CAMS) throughout the region during the region's 2019 ozone season (March 1, 2019 – November 30, 2019). Based on a 2019-2023 monitoring plan approved by the CAC, CAPCOG will conduct monitoring at approximately 6-8 stations within the CAPCOG region. This monitoring is particularly important for Bastrop, Caldwell, Hays, and Williamson Counties, since TCEQ doesn't operate any ozone monitors in these counties. Activities funded under this task will include:

- Relocation of any monitoring equipment if recommended in the 2019-2023 monitoring plan;
- Preventative maintenance activities;
- Regular equipment calibrations;
- Equipment rental/replacement costs;
- Incidental equipment repair costs and supply costs;
- Utilities;
- Licenses to use TCEQ's LEADS data system to host and display monitoring data;
- Data validation activities; and
- Monthly reports from CAPCOG's contractor describing activities completed in the prior month.

Following the end of the 2019 ozone season, CAPCOG will prepare a year-end monitoring report summarizing the monitoring activities completed during the 2019 ozone season, completeness statistics, accuracy statistics, and a year-end equipment inventory. CAPCOG's goal is to ensure the collection and validation of at least 75% of all possible hourly ozone, wind speed, wind direction, temperature, and humidity measurements each month during the 2019 ozone season at each monitoring station, and for ozone measurements to remain within 7% of reference measurements during monthly calibrations. These performance goals are consistent with EPA's most recent ambient air monitoring guidance for ozone monitoring.

Supplemental Funding Tasks (up to \$150,000)

Task 8: Analysis of 2018 Air Monitoring Data

Under this task, CAPCOG will perform an analysis of the air pollution and meteorological data collected in 2018 and compare these data to data collected in previous years. This will help identify the conditions that were most likely to lead to high air pollution levels during 2018, whether these conditions were more or less likely to occur in 2018 compared to prior years, and whether there were any specific emissions-related or meteorological-related explanations for any deviations from what has been typical for the previous several years. This analysis will help provide a better understanding of the extent to which local emission reduction efforts impacted ambient ozone concentrations. CAPCOG will initiate this project following TCEQ's certification of its 2018 air monitoring data, which is due to EPA by May 1, 2019.

Task 9: Analysis of 2017 National Emissions Inventory Data

Under this task, CAPCOG will analyze any data TCEQ and EPA provide for the 2017 National Emissions Inventory (NEI) for its implications for regional air quality planning in the Austin-Round Rock MSA. Federal regulations require states to provide data every three years to develop an NEI, and the data for the 2017 NEI will be due to EPA by January 31, 2019. In 2016, CAPCOG performed a similar analysis for the data used for the 2014 NEI. This project will involve:

- Summarizing annual emissions totals by pollutant for each county in the CAPCOG region;
- Summarizing annual emissions totals by source for the CAPCOG region;
- Summarizing any trends in emissions within the region, across the state, and across the country;
- Identifying sources of emissions contributing the most to high ambient air pollution levels within the region when they occur; and
- Explaining the basis for the TCEQ and EPA emissions estimates and identifying any significant uncertainties or opportunities for improvement.

This analysis can be used to help the region better target its emission reduction strategies in order to achieve its goals.

Task 10: Technical Assistance to CAC Members to Implement Emission Reduction Measures

Under this task, CAPCOG will provide technical assistance to CAC members to implement emission reductions identified in the region's 2019-2023 air quality plan. This includes identifying best practices for implementing emission reduction commitments that an organization has made, analyzing operational data provided by an organization, identifying opportunities to maximize emission reductions, and assisting organizations with securing the funding and training needed to implement emission reduction measures. CAPCOG will plan on providing approximately 350 – 450 hours of technical assistance under this task. This work could also include implementation of any measures that are regional in scope that CAPCOG would be tasked with implementing. CAPCOG would prioritize these activities in such a way as to maximize the potential emission reductions that these efforts would achieve.

Task 11: Quantification of Local Emission Reductions and Ozone Impacts

This task involves quantification of emission reduction measures implemented by CAC members. This will involve estimation of NO_x emission reductions and other co-pollutant impacts of emission reduction measures identified in the annual air quality report based on operational data provided by CAC members. At a minimum, CAPCOG expects that this will include an assessment of:

- Commute solutions-related emission reductions;
- Fleet emission reduction measures; and
- Energy efficiency and renewable energy measures.

These efforts will help CAPCOG and local partners assess whether these measures are achieving the emission reductions intended and identifying opportunities for improvement.

Task 12: Additional Staff Outreach Activities and Air Quality Advertising

This task involves more extensive air quality outreach and education activities carried out by CAPCOG between October 1, 2018 and September 30, 2019, beyond what is described under Task 5, in order to increase the emission reductions that can be achieved by changing behavior among the public and organizations with large numbers of employees or members. At a minimum, this additional outreach would involve: 1) staffing at least an additional five outreach events within the region, 2) reaching out to and meeting with at least one large employer or other organization (>100 employees or members) each month to promote activities that can improve air quality or otherwise reduce the exposure of vulnerable populations to high levels of air pollution when it occurs, 3) targeted institutional outreach to the media, health care professionals, educators, etc. to encourage reporting of the air quality index and air quality forecasts; and 4) purchasing advertising and educational supplies (approximately \$30,000 - \$50,000 total) to maintain high levels of air quality awareness and motivate members of the public to take action to reduce emissions; and 5) distribution of a public-facing air quality outreach newsletter. CAPCOG will use an Outreach and Education subcommittee of the CAC Advisory Committee to help guide these activities. This will also involve recruitment of additional CAC members, with a goal of recruiting at least one additional CAC member by the end of FY 2019. Money spent on this task could also be leveraged as a local match for federal Commute Solutions funding, if necessary.

Task, Deliverable, and Performance Metric Summary

The following table identifies the deliverables, due dates, performance metrics, and performance targets for each task. In the event that an interlocal agreement starts after a deliverable due, the scope of work for that agreement would only include tasks that had not yet been completed, but would not affect the amount of funding that would be needed from the jurisdiction in order to complete the entire scope of work.

Table 1. Work Plan Task and Deliverable Summary

Task Number	Deliverable	Due Date	Performance Metric	Performance Target
1	New Regional Air Quality Plan	12/31/2018	On-Time Completion of Task	Completion of Task by 12/31/2018
2	Clean Air Coalition Meeting Minutes	30 days after meetings	Number of CAC Meetings	4
3	Clean Air Coalition Advisory Committee Minutes	30 days after meetings	Number of CACAC Meetings	4
4	Monthly Air Quality Newsletters	By the end of each month	Number of newsletters	12
5	Quarterly Reports on Basic Outreach Activities Completed	Within 10 business days of the end of each quarter	a) Number of unique visitors to Air Central Texas site b) number of social media posts, and c) number of events staffed in each county	a) 2,500 b) 100, and c) 1
6	2018 Air Quality Report	7/31/2018	Number of organizations reporting	20
7	Monthly Monitoring Reports	Within 10 business days of the end of each quarter	a) number of quality-assured hours of ozone monitoring data b) accuracy of ozone monitoring data	a) 28,944 (75% of all possible hours between 3/1 – 11/30 at six locations), and b) deviation of no more than +/- 7%

Attachment B: CAPCOG Air Quality FY 2019 Scope of Work

Task Number	Deliverable	Due Date	Performance Metric	Performance Target
8	2018 Air Monitoring Data Analysis Report	August 31, 2019	Number of 2018 hourly ozone and meteorological data points analyzed	241,200 (75% of all possible hourly values at 10 stations for five parameters)
9	2017 National Emissions Inventory Analysis Report	September 30, 2019	2017 NO _x Emissions Estimates Analyzed	1,610 (distinct NO _x emissions estimates for the 10-county CAPCOG region at the SCC-7 level)
10	Report on Technical Assistance Provided to CAC members	October 31, 2019	Hours of technical assistance provided	350
11	Quantification of Local Emission Reductions	September 30, 2019	NO _x emission reductions quantified	At least 2 tons per day
12	Quarterly Reports on Additional Outreach Activities Completed	Within 10 business days of the end of each quarter	a) Number of additional outreach events; b) number of meetings with large organizations, c) number of meteorologists reached, and d) advertising gross impressions	a) 5, b) 12, c) 3, and d) 2 million
