Additional Backup Information:

Since the execution of the interlocal agreement with Capital Metro, the Public Works Department has made accessibility improvements to achieve compliance with Americans with Disabilities Act requirements at over 1,000 bus stops throughout the city of Austin. Due to the overwhelming success of this partnership, Capital Metro has authorized award of another construction contract to continue these important upgrades to the Capital Metro system.

Indefinite Delivery/Indefinite Quantity contracts provide for an indefinite quantity of services for a fixed time, usually an initial term with extension options. They are commonly used when precise quantities of supplies or services, above a specified minimum, cannot be determined. Indefinite Delivery/Indefinite Quantity contracts help streamline the contract process and service delivery and allow the City the flexibility to add work as needs arise or change. As each project is defined, a specific work assignment will be given to the contractor who will complete the scope of work for the unit prices included in the contract. Work deadlines will be established for each work assignment.

The base bid was used to identify and determine the lowest responsive bidder and to determine contract unit prices for each bid item and the lowest bidder.

This request allows for the award and execution of a construction contract with Alpha Paving Industries, LLC for an estimated period of 12 months with one 12 month extension. However if funds for the initial term are expended, staff may accelerate the extension options, but in no event will exceed the total contract amount. The extension options are subject to the agreement of both parties.

Bus stop locations will be throughout the city of Austin. The project will be managed by the Public Works

Department.

Alpha Paving Industries, LLC (DBE) is located in Round Rock, TX.
