Staff recommends the proposed termination of the public restrictive covenant.

**ZONING AND PLATTING COMMISSION RECOMMENDATION:****DEPARTMENT COMMENTS:**

The applicant is requesting to terminate a public restrictive covenant associated with zoning case C14-85-392 that limits the floor to area ratio (FAR) on the "Oakline Tract" and adds a zoning site plan requirement to the Property. The applicant's request letter is included as Attachment A to this report.

The staff recommends the applicant's request to delete this public restrictive covenant as the applicant is currently requesting to rezone these tracts of land to GR-MU through associated case C14-2018-0133. The applicant is proposing to construct a multifamily residential development at this location. The staff is supportive of the removal of the conditions in the restrictive covenant from 1985 as the development review process and conditions in this area of the City have changed. The site under consideration is now located within 3/4 mile of the Lakeline Rail Station in the designated Northwest Park and Ride Transit Oriented Development (TOD) and by the Lakeline Station Regional Center in the as identified on the Growth Concept Map in the Image Austin Comprehensive Plan.

The applicant agrees with the staff's recommendation.

Re: Lakeline at 183A – Rezoning application and restrictive covenant termination application for the 12.306 acre piece of property located at the northeast corner of U.S. 183A and Lakeline Blvd. in Austin, Williamson County, Texas (the “Property”)

Dear Mr. Guernsey:

As representatives of the owner of the Property, we respectfully submit the enclosed zoning application and restrictive covenant termination packages. The project is titled Lakeline at 183A, consists of 12.306 acres of land, and is currently undeveloped. The Property is currently zoned CH (Commercial Highway Services), GO (General Office), and GR (Community Commercial).

The requested rezoning is from CH, GO, and GR to GR-MU (Community Commercial-Mixed Use) for the entire Property. The purpose of this rezoning is to allow for a residential project while preserving the existing commercial base district. The proposed zoning is consistent with the surrounding area – the Property is located between two major thoroughfares and within ¼-mile of multiple large commercial and multifamily developments as well as ¾ of a mile from the CapMetro Lakeline Rail Station.

The Property was part of a larger tract of land (the “Oakline Tract”) totaling approximately 20.65 acres. As part of a previous rezoning case (C14R-85-392), the owner of the Oakline Tract and the City of Austin entered into a public restrictive covenant (the “Restrictive Covenant”) limiting the FAR on the Oakline Tract to 0.46:1 and adding a zoning site plan to the Property. Subsequently, the Texas Department of Transportation condemned approximately 8.34 acres out of the western side of the Oakline Tract for right-of-way in order to construct U.S. 183A; the Property is what remains of the Oakline Tract after condemnation. The requested restrictive covenant termination will bring the FAR into compliance with existing regulations at 1:1 FAR. Additionally, the rezoning request will remove the existing zoning site plan.

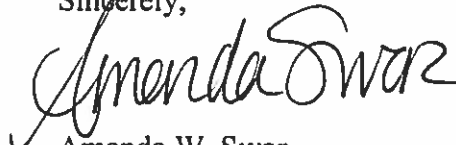

The Property proposes to take access from Lakeline Boulevard and the US 183A service road. Per the Traffic Impact Analysis (TIA) Determination Worksheet dated September 18, 2018, the proposed development does not require a TIA pursuant to the provisions of Senate Bill 1396 (75<sup>th</sup> Legislative Session).

Page 2

The Property is located in City Council District 6, in the Full Purpose Jurisdiction of the City of Austin, and currently receives utilities from Austin Energy and Austin Water. The Property is located within three suburban watersheds: Buttercup Creek, South Brushy Creek, and Lake Creek. The Property is not located within the boundaries of a neighborhood planning area.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Sincerely,

  
Amanda W. Swor
