

Climate Program Manager Update
Office of Sustainability
January 23, 2018

Climate Plan Revision

We've begun work on

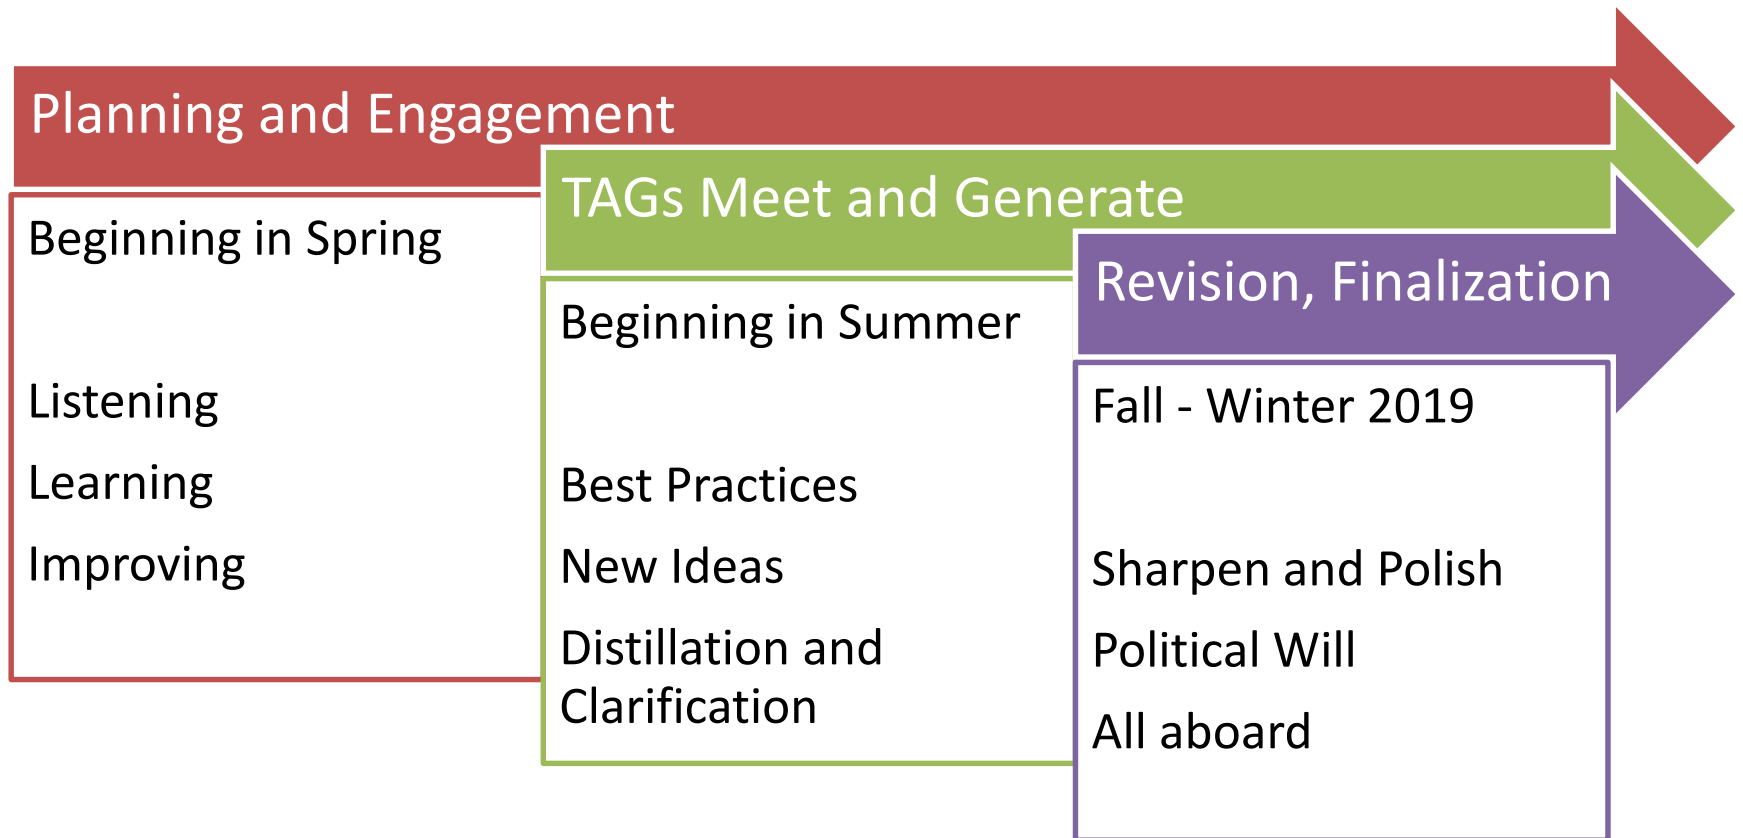

- 4-year analysis and summary of the implementation of the original 2015 plan
- Summary of the Carbon Impact Statement Pilot
- First cut at a consumption based GHG inventory
- Benchmarking of goals / plans from other Cities
- Analyzing options for Community Engagement

Proposed Structure

Who participates where?
Need to recruit other participants

Draft Schedule

Engagement

- We want to hire consulting help
 - Gain perspective that is hard to obtain from City Staff
 - Get in front of more types of people and larger numbers of people
- What might we do?
 - Community Survey
 - 1-1 interviews
 - 10 District Town Halls / Focus Groups
- Topics:
 - Willingness to take action
 - Barriers and issues with actions
 - Benefits and areas of support
 - Incentives that could cause change

Next Steps

- Further build out the detailed workplan
- Hire Staff and start drafting an Engagement RFP
- Recruit dedicated Steering and TAG participants
- Generate our Summary Reports
