

Public Safety Commission Data

March 4th 2019

DISCLAIMER:

1. The data provided are for informational use only and may differ from official APD crime data.
2. APD's crime database is continuously updated, so reports run at different times may produce different results. Care should be taken when comparing against other reports as different data collection methods and different data sources may have been used.
3. The Austin Police Department does not assume any liability for any decision made or action taken or not taken by the recipient in reliance upon any information or data provided.
4. "Rate per capita" represents the number of incidents per 100,000 Austin residents. Yearly population estimates were obtained from the City of Austin demographer.

2018 Violent Crime Notes:

Overall, down 6% compared to 2017

2017 Violent Crime Incidents: 4082

2018 Violent Crime Incidents: 3817

Homicide, Business Robberies, bank robberies, and homicide were up from previous year

Robbery series played a role in the increase:
