**Subject:** Demolition of 809 San Marcos  
**Date:** Friday, March 22, 2019 1:08:31 PM

---

Dear Steve and team –

I am writing in support of the proposed demolition of 809 San Marcos. Although listed as a contributing structure in our proposed LHD, the house was significantly remodeled in 1989 and does not retain many of the original details or massing elements. I support demolition, particularly with the knowledge that our local neighborhood development corporation, GNDC, has plans for a new, more sympathetic and appropriate structure on the site.

I have lived in the neighborhood, half a block from 809 San Marcos, for over 30 years, and am an architect working primarily in the realm of historic preservation and rehabilitation.

Thank you very much. We appreciate all that you do.
