THE LRCSP ALLOWS PC TO MEET CHARTER REQUIREMENTS

AUSTIN CITY CHARTER, ARTICLE X § 4. THE PLANNING COMMISSION — POWERS AND DUTIES

The planning commission shall:

- (1) Review and make recommendations to the council regarding the adoption and implementation of a comprehensive plan (as defined by Section 5 of this article) or element or portion thereof prepared under authorization of the city council and under the direction of the city manager and responsible city planning staff;
- (4) Submit annually to the city manager, not less than ninety (90) days prior to the beginning of the budget year, a list of recommended capital improvements, which in the opinion of the commission are necessary or desirable to implement the adopted comprehensive plan or element or portion thereof during the forthcoming five-year period;

KEY DRIVERS FOR CAPITAL INVESTMENTS

- Urgent Needs (safety, legal, service imperative)
- Capital Renewal (condition-based)

Item D-03

- Service Demands (people-based)
- Policy Priorities
 (Council-approved priorities)
- Planning Priorities

 (Imagine Austin and small area plans, regional plans)

ROLLING NEEDS ASSESSMENT

ROLLING NEEDS ASSESSMENT HIGHLIGHTS

Area Master Plans

Small Area Plan Implementation

Electric

- Future Downtown Substation
- District Cooling Plant

Facilities

- Joint Use Fire/EMS Stations
- Public Health Neighborhood Centers in Colony Park/Dove Springs/North Central
- Resource Libraries
- Police substations and HQ
 replacement
- Renewal

Housing

Community Land Trust

Mobility

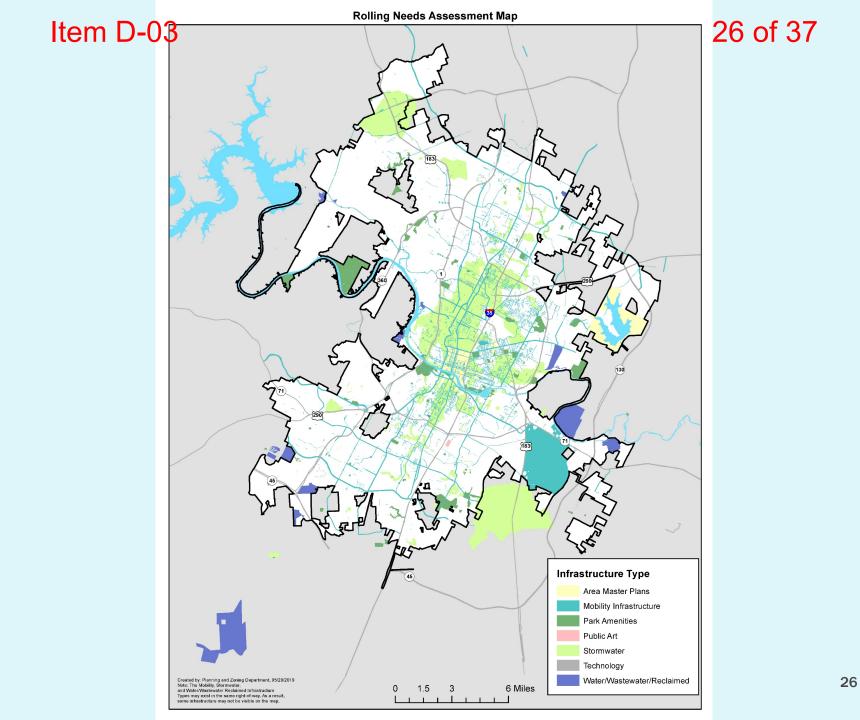

- Corridor Mobility Program
- Regional Partnership Projects
- High Capacity Transit related improvements
- Bike/Ped
- Renewal
- Great Streets

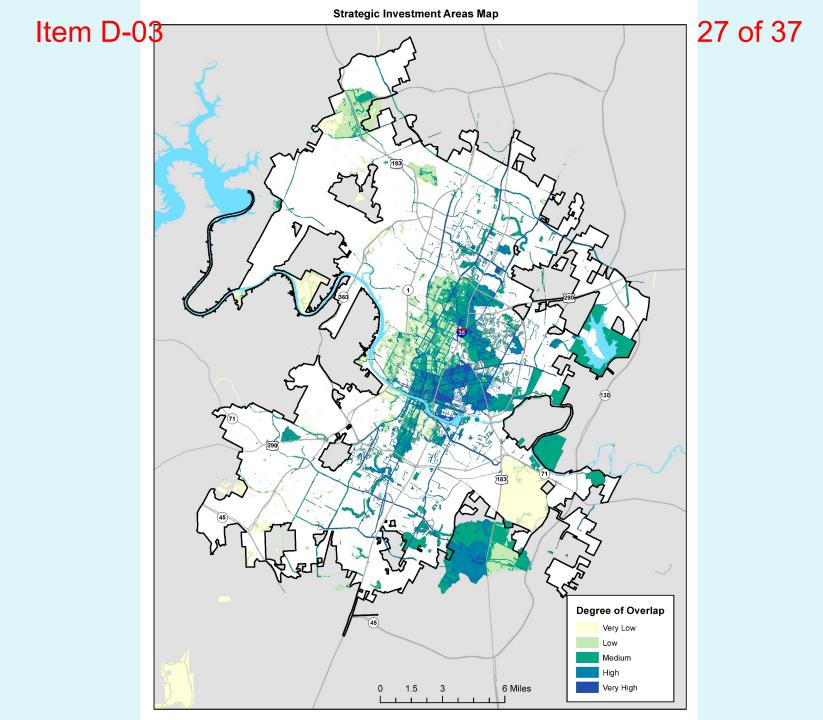

Park Amenities

- Waller Creek
- ADA/Safety

Stormwater

- Flood Risk Reduction (Creeks and Localized)
- Open Space Acquisition
- Water Quality/Stormwater Treatment
- Green Infrastructure
- Low water crossing/storm drain improvements
- Floodplain Mapping and Data

CONCLUSIONS AND PRIORITIES

CONCLUSIONS

Capital Renewal:

 Conclusion #1: While much of the City's infrastructure is in fair or better condition, regular funding is needed to maintain acceptable levels of service. In addition, some asset categories have higher amounts of infrastructure that are in poor or worse condition that will require substantial capital investment over the long-term.

CONCLUSIONS

Service Demands:

- Conclusion #2: Significant, incremental redevelopment is occurring in areas of Austin with older infrastructure systems, which presents challenges for seamless infrastructure system integration. Rapid growth and changing development patterns have produced significant impacts in several parts of the city, and infrastructure solutions are needed to remediate those impacts.
- Conclusion #3: Significant population growth is anticipated on the edges of Austin, particularly in the eastern portions of the city, primarily through new greenfield development. This anticipated growth will require a long-term infrastructure planning effort across all infrastructure types to ensure the combination of planned CIP investment and private development regulations for infrastructure are adequate to respond to increased service demands in these areas.

CONCLUSIONS

Planning and Policy Priorities

- Conclusion #4: Maintaining and improving affordability and mobility have been identified as two critical near term policy goals for the city. Recent direction from the Austin Strategic Housing Blueprint, Austin Strategic Mobility Plan, and the Contract With Voters established by City Council for the 2016 Mobility Bond support the notion of investing in transitsupportive mobility infrastructure and affordable housing in tandem with land use changes along *Imagine Austin* corridors.
- Conclusion #5: Opportunities exist to develop additional strategic projects that leverage basic capital improvements to achieve City policy and planning outcomes; this will require additional planning in areas without current small area plans and project development efforts where plans are in place.
- Conclusion #6: As the city has grown and evolved over time, different areas of the city have certain development characteristics, projected growth patterns, and levels of past CIP planning and project development 31 that warrant different types of capital investment strategies.

CONCLUSIONS

Funding and Partnerships

 Conclusion #7: Need for innovative approaches to funding, regulation, planning, and partnerships to further realize the potential opportunities of strategic capital investment as well as minimize cost impact of addressing basic drivers of capital improvement needs.

PRIORITIES

Econ	nomic Opportunity and Affordability					
1	Strategic Housing Blueprint					
2	Leveraging private investments					
3	Equity					
4	IA Centers and Corridors and value capture tools					
5	Investing in tandem with annexation					
Mob	ility					
6	Transit and Austin Strategic Mobility Plan					
7	Vision Zero					
Safe	ty					
8	Addressing hazards and threats from flooding, wildfire, terror attacks					

PRIORITIES

Health and Environment

- 9 Access to healthy and affordable foods and healthcare
- **10** Parks, open space, recreation, and urban trails
- **11** Green infrastructure
- **12** Emphasizing conservation and environmental goals

Culture and Lifelong Learning

- **13** Strengthen portfolio of programs and build trust
- **14** Use publically owned assets for creative space

Government that Works for All

- 15 Financial policies
- 16 Transparency
- **17** Capital renewal
- **18** Areas of initiative overlap
