

ZONING CHANGE REVIEW SHEET

CASE: C14-2019-0040 (Victory Medical Office) DISTRICT: 5

ZONING FROM: NO-MU-CO, SF-3 TO: LO

ADDRESS: 2111 Fort View Road

SITE AREA: 0.2974 acres (12,954.744 sq. ft.)

PROPERTY OWNER: Eveann Investments, L.P. (William G. Franklin)

AGENT: Husch Blackwell, LLP (Nikelle Meade)

CASE MANAGER: Sherri Sirwaitis (512-974-3057, sherri.sirwaitis@austintexas.gov)

STAFF RECOMMENDATION:

Staff recommends **LO-MU-CO, Limited Office – Mixed Use – Conditional Overlay District, zoning**. The conditional overlay will prohibit vehicular access to and from the subject tract and Fort View Road for civic and commercial uses, with exceptions for emergency services and bicycle and pedestrian traffic.

PLANNING COMMISSION ACTION / RECOMMENDATION:

June 25, 2019

CITY COUNCIL ACTION:

August 8, 2019

ORDINANCE NUMBER:

ISSUES: N/A

CASE MANAGER COMMENTS:

The property in question is currently developed with an administrative office use that fronts onto Fort View Road between Manchaca Road and Victory Drive, one block north of Ben White Boulevard. Fort View Road is designated as a residential collector street that dead ends into the GR zoned tract along Victory Drive. The applicant is requesting LO, Limited Office District, zoning for this lot to utilize this property as part of the medical office use with associated parking for the adjacent Victory Medical facility to the south and west.

The staff is recommending LO-MU-CO, Limited Office-Mixed Use-Conditional Overlay Combining District, zoning at this location because the lot will provide a transition in zoning/uses from the NO-MU-CO zoning to the east to the GR zoning to the west. The lot under consideration fronts onto Fort View Road, a residential collector street, near its terminus. The majority of the properties along this stretch of Fort View Road are developed with single-family residential homes.

While rezoning and reuse of the remaining residences along both Manchaca Road and Ben White Boulevard characterize the transition this area is experiencing, this portion of Fort View Road remains residential. Despite existing access and connections to Ben White Boulevard and Victory Drive, the staff does not think access to residential Fort View Road, even if limited to exit-only, is justifiable.

Therefore, the staff is recommending LO-MU zoning, with the stipulation that no vehicular access be allowed to Fort View Road for civic and commercial uses with the exception of emergency services. This means if the property were used as residential, residents could freely traverse Fort View Road and the impact would be negligible, unless the property was redeveloped with additional residential units. Bicycle and pedestrian access would not be limited for any use.

LO-MU-CO zoning will provide a transition between the SF-3 and NO-MU-CO zoning to the east and the GR zoning along Victory Drive to the west. This lot is situated in that it can be integrated and function, with conditions, as part of the Victory Medical "campus" and not as an independent office use at the end of a residential street.

The property in question is located in the Galindo portion of the South Lamar Combined Neighborhood Planning Area. This neighborhood planning effort has been suspended. As such, there is no neighborhood plan or future land use map to consult in determining the staff recommendation.

The Imagine Austin Growth Concept Map, in the Imagine Austin Comprehensive Plan, identifies this area as an 'Activity Center for Redevelopment in Sensitive Environmental Area'. In the Comprehensive Planning notes below, protecting neighborhood character is also cited, along with the property's location at the end of a mostly residential street. The staff's recommendation of LO-MU-CO zoning, with access prohibitions, will provide protection of the neighborhood character on Fort View Road.

The applicant agrees with the staff's recommendation.

BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Limited Office district is intended for offices predominately serving neighborhood or community needs, which may be located within or adjacent to residential neighborhoods.

Mixed Use combining district is intended for combination with selected base districts, in order to permit any combination of office, retail, commercial, and residential uses within a single development.

Conditional Overlay combining district may be applied in combination with any base district. The district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

2. *Zoning should promote a transition between adjacent and nearby zoning districts, land uses, and development intensities.*

The proposed zoning is consistent with the LO-MU-CO zoning on the property to the south and will provide a transition in the intensity of permitted uses from the SF-3 and NO-MU-CO zoning to the east and the GR zoning along Victory Drive to the west. The recommended zoning will permit the applicant to reuse the existing structure for medical office and parking while placing a condition on access to limit or mitigate detrimental impacts to the adjacent residential area along Fort View Road. This lot is also uniquely situated in that it can be integrated and function, with conditions, as a part of the Victory Medical "campus".

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	NO-MU-CO	Administrative Office
<i>North</i>	SF-3	Single-Family Residences
<i>West</i>	GR	Medical Office
<i>South</i>	LO-CO	Medical Office; Ben White Boulevard
<i>East</i>	NO-MU-CO	Single-Family Residence

NEIGHBORHOOD PLANNING AREA: South Lamar Neighborhood Planning Area, which does not have an adopted neighborhood plan.

OTHER STAFF COMMENTS:Comprehensive Planning

NO-MU-CO to LO

This zoning case is located on the south side of Fort View Road, one block north of Ben White Boulevard, on a 0.23 acre parcel that contains a one story administrative office, which was formerly a house. The property is located in the South Lamar Neighborhood Planning Area, which does not have an adopted neighborhood plan. Surrounding land uses include retail, auto service uses, and an apartment complex to the north; to the south are a variety of commercial and office uses, SH 290, and more office and commercial uses; to the east is single family housing; and to the west is the Victory Medical multi-story office building and Target. The proposal is to convert the property from administrative offices to a medical office, which would increase entitlements to the property.

See chart below:

	Building height	Maximum building coverage	Impervious surface coverage	Maximum FAR
NO	35 ft.	35%	60%	.35:1
LO	40 ft.	50%	70%	.7:1

The western portion of Fort View Road consisted solely of residential uses until this property was rezoned from 'single family, SF-3' to 'office, NO-MU-CO' in 2012 for Victory Medical practice.

Connectivity

Fort View Rd. is predominantly residential development; public sidewalk access is limited to short segments constructed in front of single-family homes. This sidewalk is located at the street's terminus and leads directly to the Victory Medical Office Building. Several CapMetro transit stops are located less than 1,000 ft. from the property on Manchaca Road and Ben White Blvd. The Walkscore for this site is 71/100, **Somewhat Walkable**, meaning some errands may be accomplished on foot. There are no existing urban trails within a mile of this property. The mobility and connectivity options in the area are above average.

Imagine Austin

The property is located within one of five **Activity Centers for Redevelopment in Sensitive Environmental Areas** as identified on the Imagine Austin Growth Concept Map. Page 106 of the Imagine Austin Comprehensive Plan states, *“Five centers are located over the recharge or contributing zones of the Barton Springs Zone of the Edwards Aquifer or within water-supply watersheds. These centers are located on already developed areas and, in some instances, provide opportunities to address long-standing water quality issues and provide walkable areas in and near existing neighborhoods. State-of-the-art development practices will be required of any redevelopment to improve stormwater retention and the water quality flowing into the aquifer or other drinking water sources. These centers should also be carefully evaluated to fit within their infrastructural and environmental context.”* One of the Land Use and Transportation policies, LUT P21 (p.102), clarifies the intent, *“Ensure that redevelopment in the Edwards Aquifer’s recharge and contributing zones maintains the quantity and quality of recharge of the aquifer.”*

The following are key policies taken from Chapter 4 of the Imagine Austin Comprehensive Plan, which specifically discuss the preservation of neighborhood character:

- **LUT P4.** Protect neighborhood character by directing growth to areas of change that includes designated redevelopment areas, corridors and infill sites. Recognize that different neighborhoods have different characteristics and new and infill development should be sensitive to the predominant character of these communities.
- **LUT P10.** Direct housing and employment growth to activity centers and corridors and preserving and integrating existing affordable housing where possible.
- **HN P11.** Protect neighborhood character by directing growth to areas of change and ensuring context sensitive infill in such locations as designated redevelopment areas, corridors, and infill sites.
- **HN P15.** Protect neighborhood character by providing opportunities for existing residents who are struggling with rising housing costs to continue living in their existing neighborhoods.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Williamson Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2-year storm on site.

At this time, no information has been provided as to whether this property has any ls that preempt current water quality or Code requirements.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

FYI: Additional design regulations will be enforced at the time a site plan is submitted.

COMPATIBILITY STANDARDS

The entire site is subject to compatibility standards due to the proximity of SF-3 zoned property to the east and north. The following standards apply:

- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less property in an SF-5 or more restrictive zoning district.

RESIDENTIAL DENTIAL DESIGN STANDARDS OVERLAY

The site is subject to 25-2 Subchapter F. Residential Design and Compatibility Standards.

Transportation

Additional right-of-way maybe required at the time of subdivision and/or site plan.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day, and a neighborhood traffic analysis was not required because the traffic generated by the proposed zoning does not exceed 300 vehicle trips per day. [LDC 25-6-113, 25-6-114].

FYI – the existing driveways along Fort View Road may be required to be removed and/or reconstructed at the time of the site plan application in accordance with the Land Development Code and Transportation Criteria Manual.

FYI – Sidewalks shall be constructed according to City of Austin standards along Fort View Road at the time of the site plan application.

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Fort View Road	50 feet	30 feet	Local	No	No	Yes

Austin Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

RE: Rezoning Application
2111 Fort View Road
Victory Medical Office

Dear Greg:

The enclosed application is to rezone the above-referenced property from NO-MU-CO to LO. Approval will allow for the modernization of the overall Victory Medical Center campus. We appreciate your department's review of this application, and respectfully request to have it set for the soonest possible meeting of the Planning Commission.

Sincerely,

Nikelle S. Meade
