Motion

Councilmember Cooke moved that the Council delete \$158,738 for the following items: CPR(\$40,000); Minority Intern Program(\$8,738); Special Projects (\$100,000); Tuition Reimbursement (\$5,000); and Other Fees and Services (\$5,000). The motion was seconded by Councilmember Himmelblau.

Councilmember Snell stated, "I don't know how I could vote for this, because I can't vote against...I can't support this taking \$8,000 out of the Minority Intern Program; I can't support the Tuition Reimbursement. I wish we could pull those out. I would like to vote separately on those."

Councilmember Trevino concurred with Councilmember Snell and the Mayor pulled the two items for a separate vote.

The Council, on Councilmember Cooke's amended motion, voted to delete the following:

<u>CPR (added revenue)</u>	<u>\$ 40,000</u>

#### Motion

Ayes: Mayor McClellan, Councilmember Cooke, Mayor Pro Tem Himmelblau, Councilmember Mullen

Noes: Councilmembers Snell, Trevino

Absent: Councilmember Goodman

#### Vehicle and Equipment Services

The Council rather extensively discussed the replacement of vehicles, the upgrading of vehicles and gas allotments. Mayor Pro Tem Himmelblau noted that too many vehicles are going home at night and that we need a cut-back with fuel being used more wisely.

There was some discrepancy in two memos supplied to the Council and a request was made for clarification in two specific areas - the number of replacement vehicles and their impact on the General Fund and the number of vehicles to be upgraded, as reflected in the September 20 memo.

At this time Councilmember Goodman entered the Council Chamber.

Councilmember Cooke said, "Could I have Mr. Butler explain to us if we didn't replace the 33 vehicles, what that would...how that would effect the General fund? This is replacement of 33 vehicles."

Mr. Butler replied, "Mr. Cooke, I think if we are able to park the 33 replacement sedans in the General Fund and as part of the fuel conservation program, to switch some of the people that would be driving sedans to the allowance thing, that we can effect a net reduction in.... across General Fund Departments that are effected, of about \$110,000." He further stated, "Parking those vehicles and trying to put those people on allowances...the net effect of that would be \$100,000 reduction in the General fund spread throughout the effected departments; so, when it is put in there, some of the departments will be effected \$2,000...If Council does this, we are going to park those vehicles and we will sell them at an auction. We will not retain them in the fleet, whatsoever."

Mayor McClellan commented that a real savings would be realized next year.

#### Motion

Councilmember Cooke moved that the Council delete \$110,000 from the General Fund. The motion, seconded by Mayor McClellan, carried by the following vote:

Ayes: Mayor Pro Tem Himmelblau, Councilmembers Mullen, Snell,  
Mayor McClellan, Councilmember Cooke

Noes: None

Not in Council Chamber when roll was called: Councilmember Trevino,  
Goodman

#### Merit Raise

#### Motion

Councilmember Mullen moved that the Council cut the merit fund by 20% (\$500,000). The motion was seconded by Councilmember Cooke.

The Council discussed merit raises at some length, noting that it often appears that raises are automatic, rather than based on merit. Councilmember Goodman expressed concern about long-time employees having their salaries frozen. He suggested an increase in pay steps, in order to "unfreeze" those employees.

Mr. Flakes noted in the first three quarters of this year that there have been 1,888 merit increases given and that the average, or the increase rate was 3.6%.

In reply to Mayor Pro Tem Himmelblau's inquiry, Mr. Davidson said that \$624,797 of the total merit increase money would go to the Utility Fund.

Substitute Motion - Vote Failed for Lack of Second

Mayor Pro Tem Himmelblau said, "That is the point I wanted to make. I would go with a compromise and make it in the form of a substitute motion." (Substitute motion failed for lack of second).

Friendly Amendment - Not Accepted

Councilmember Goodman offered a Friendly Amendment to the original motion to eliminate the freeze on employees after seven years, in order that the manager might have even more flexibility.

Councilmember Mullen did not accept the Friendly Amendment, but he did make a commitment to look at it in a couple of weeks and perhaps at that time to consider amending the budget.

Roll Call on Original Motion

Councilmember Mullen moved that the Council delete 20% of the merit fund (\$500,000). The motion, seconded by Councilmember Cooke, carried by the following vote:

Ayes: Mayor Pro Tem Himmelblau, Councilmember Mullen, Mayor McClellan, Councilmember Cooke  
Noes: Councilmembers Goodman, Snell, Trevino

Personnel Entry Levels

Mr. Flakes presented a proposal to the Council which said that "we would have two new entry pay scales...one on the administrative-clerical pay-scale and one on the technical-craft pay scale. They would be at approximately...be minimum wage, and the purpose would be so that we would be able to reclassify those positions that we have traditionally overpaid; and, we don't need to pay to secure the entry level kinds of services...non-experience kinds of positions. We would save \$138,000."\*(Mr. Flakes later corrected the figure to be \$182,000, rather than \$138,000). He said, "By implementing this at the beginning of the budget year and classifying all of the employees that should be on that scale."

Mr. Flakes further commented that this would be "all of the current employees that should be there. We are not proposing that any employee is losing his pay, but we are also not proposing that two employees in the same classification be paid on two separate pay scales; this would result "redlining" some jobs.

Mayor McClellan commented that they wouldn't be losing their pay, but neither would they have any salary and wage increases or potential for growth.

Mr. Flakes recommended to the Council that we widen our pay ranges to be competitive with the market, in order to protect employees from reaching the end of the line so quickly. If implemented immediately, the cost would be \$287,000.

#### Motion

Councilmember Goodman moved that the Council extend the pay grades to be effective May, 1980 (an estimated cost of \$138,000) and to implement the two new entry pay grades in October, 1979 (a cost savings of \$182,000). The motion was seconded by Mayor Pro Tem Himmelblau.

Councilmember Goodman commented that his proposal would result in a \$44,000 savings.

#### Substitute Motion

Councilmember Mullen made a substitute motion that the Council take action only on the entry level question, in order to save \$182,000 and take up the other question at a later date. The motion, seconded by Councilmember Cooke, carried by the following vote:

Ayes: Councilmembers Mullen, Snell, Mayor McClellan, Councilmember Cooke, Mayor Pro Tem Himmelblau  
Noes: Councilmembers Trevino, Goodman

#### Good News!

After Mayor McClellan commented, "Yes, City of Austin, there is a Santa Claus," Mr. Butler addressed the Council as follows:

"As you know, on Thursday, the City Council will be asked to certify the Tax Assessment Rolls for the City of Austin for the calendar year 1979. That certification will carry a larger number than the number upon which we did the budget planning for the tax base. We planned this budget on a tax base of \$3,674,000,000. The Board...we will ask you to certify...the Board of Equalization will ask you to certify an Assessment Roll or Tax Roll of \$3,789,487,573. This number is based upon a computer run which became available for the first time this morning, and there are three exceptions to that

number. 1) it does not exclude any decisions made on appeals by the Board, 2) changes in the amount of the City tax exemptions for the year 1978, or 3) enactment of any local tax exemptions for disabled persons; but, on that basis, this roll should generate about \$785,315 in the next tax year, above that which is in the General Fund at this time. I wish we could have had this number sooner for you, but this information simply became available this morning. There will be some minor modifications. We will not realize the full gain in that income, but the assessment roll will be greater...the General Fund will gain \$785,315 or in that neighborhood, which is about 2 cents."

### Aqua Festival

Councilmember Cooke moved that the Council require the Aqua Festival to give the City of Austin reimbursement of \$30,000 for all City services, except Police. (Net reimbursement - \$20,000). The motion, seconded by Mayor Pro Tem Himmelblau, carried by the following vote:

Ayes: Mayor McClellan, Councilmember Cooke, Mayor Pro Tem Himmelblau, Councilmember Mullen

Noes: Councilmembers Snell, Trevino, Goodman

The Council noted that if the Aqua Festival attempts to get a service that the City finds substandard, the Council would not concur with that kind of situation; however, they are free to go to another entity and get the service cheaper, as long as the safety of the citizens, etc. is not endangered.

The Mayor announced that the ordinance had been finally passed.

After the motion, the Council made the following comments:

Mayor McClellan said, "Before I vote, I want to make one short speech, and that is, I believe that we are about to adopt what we have done. To first of all, thank the City Manager, the Department Heads and the staff and certainly the citizens and our advisory groups that work with us and citizen groups who work with us and particularly my Council colleagues too, who put many many hours on a very tough budget; and I am particularly pleased with what I believe we are about to adopt, which is a balanced budget with no increase in taxes. Although this represents a lower spending level than recommended by the City Manager, it is not a negative reflection on his recommended budget that called for a tax increase. To meet what I believe was a necessity which is the no-tax increase, we have reduced or about to reduce spending levels for new programs. We have re-arranged priorities and policies and we have made some very, very difficult hard decisions; and, in these inflationary times, the City's costs, just like citizens' cost go up, and this budget reflects higher costs, but, I believe it is incumbent upon government to hold the line wherever possible, and as I study the City Manager's proposed budget,

I could...it is really difficult to find any fault with the suggested expenditures provided that we had the money to do that without a tax increase. The hard decisions usually concern the fact that the City cannot be all things to all people and the City cannot meet every request for funds or support without a tax increase and when faced with that decision, I landed on the side of "no" tax increase. I realize for many departments this will be a lean year for City government, but I also believe that this will mean that our financial health will remain high - that basic services will remain strong and that we will continue to look for a way to maintain a quality city and I vote "yes" on the budget."

Councilmember Cooke further commented, "I too vote "yes" and the only thing is, I feel that the one, probably the area most difficult, and I guess there is always the desire that you wish from this side of the podium that you could do more or in our electric utility and water and wastewater, because I really feel that while we did adopt a budget that didn't, or about to adopt a budget that didn't include any tax increase, that a lot larger segment of the community are effected by our utility bills. I vote "yes".

Councilmember Goodman said, "I vote "yes". No speech. If you would like, I will give a short one".

Mayor Pro Tem Himmelblau commented that "I, too, am gratified that we are adopting a budget that does not include a tax increase. I will have some policy statement either on tomorrow's agenda or next Thursday, and I will vote "yes", but I wish that we had allowed enough leeway in the budget to come out with two tax statements...one from us and one from A.I.S.D."

Mayor McClellan replied, "If it didn't cost us more money, I would go with you on it."

The Mayor Pro Tem said, "I know that. I didn't ask for the additional money, but...can I have Thursday underlined in red this year, Mr. Manager?"

The City Manager replied, "We will look at it again, Mrs. Himmelblau."

Councilmember Snell noted, "Of the years I have worked on the budget, I think this has been the toughest. I am not completely statisfied with the budget. I think the Council and the Staff have done a wonderful job, but there are some areas that I think should have been improved. Even though I am not completely satisfied with it, I will vote yes."

Councilmember Trevino was the last to comment. "Yes, but I do regret that we have reduced those areas of Human Services. I think, as all of us are very aware, that there is perhaps the one category that we have been very stingy with. We have the minimum of a percentage for that, and to go in and even remove one cent from those agencies, I think is regrettable.
