Re: C15-2019-0022

Dear Jason,

Austin Energy (AE) has reviewed your application for the above referenced property, requesting that the Board of Adjustment consider a variance(s) from Section 25-2-492 (D) (*Site Development Regulations*) to Section 25-6 Appendix A (*Tables of Off-Street parking and Loading Requirements*) to reduce the number of required parking spaces from 360 spaces (required) to 339 spaces (requested, 271 spaces existing);

In order to add 6,000 square feet office space for 240 employees in a "CS-V-CO-NP", General Commercial Services – Vertical Mixed Use building – Conditional Overlay – Neighborhood Plan zoning district. (North Loop)

Austin Energy does not oppose the requested parking space variance, provided that all proposed and existing improvements are in compliance with AE clearance criteria requirements, the National Electric Safety Code and OSHA. Any removal or relocation of existing electric facilities will be at owners/applicants expense.

Please use this link to be advised of our clearance and safety requirements which are additional conditions of the above review action:

Section 1: Applicant Statement

Street Address: 5501 Airport Blvd

Subdivision Legal Description:

LOT 5 RESUB NO 2 OF BLK 1-2 HILL LOU H MRS SUBD

Lot(s): 5 Block(s): 1-2

Outlot: _____ Division: hill lou h

Zoning District: CS; CS1

I/We Jason Asbury on behalf of myself/ourselves as
authorized agent for Travis County affirm that on
Month March, Day 28, Year 2019, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☒ Attach ☐ Complete ☐ Remodel ☐ Maintain ☐ Other: _____

Type of Structure: 6000 sq ft 2 story office space to 5501 Airport Blvd.

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

With the addition of the 6000 sqft of new office space the parking space requirment became 360 total spaces. After reconfiguring every space as shown on the plan the total will be 339 total spaces. The total number of employees at the location is 240 employees. Which should leave well over 100 spaces for the visitors to the tax office.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

According to the parking lot regulations the site giving the square foortage is to have had 360 spaces. At this time even with the reconfiguration adding the compact car spaces the site is short 21spaces.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

A new multi-use building will be constructed next door to the tax office. Currently there is only an empty lot where the old structures use to be. Every possibe space has been used to provide parking for the structure.

b) The hardship is not general to the area in which the property is located because:

There is very little left over space to construct additional parking. The need to increase the square footage of the Tax office to support the citizens of Travis County is what is driving this modification. After the addition to the building there will still be approximately 100 spaces for the visitors to the Tax Office.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The character of the area will not be altered by the Tax office due to the nature of the area close to 290 and adjacent Travis County offices.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

The current layout of the building would not change the off-street parking. While there are some on street parking available this parking is typically not used due to the location of the on street parking is to the rear of the structure along the rear fencing. Also there is no parking on the street along Airport.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

There is an existing bus stop on Airport and no on street parking is allowed.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

Granting of this variance will not create a safety hazard.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

The customers that park in the lot know that the parking is in short supply. We are actually adding more spaces that should help with the parking issue which will be done by modifying the existing flow through the lot. However there is no reasonable way to get the total number of spaces for the population.
