

**ZONING CHANGE REVIEW SHEET**

CASE: C14-04-0055.04.SH - Mueller

DISTRICT: 9

ZONING FROM: PUD

TO: PUD, to change conditions of zoning

SITE AREA: 711 Acres

ADDRESS: North IH 35 at East 51<sup>st</sup> Street

PROPERTY OWNER/APPLICANT: City of Austin Economic Development Dept. (Pamela Hefner)

AGENT: McCann Adams Studio (Jana McCann)

CASE MANAGER: Heather Chaffin (512-974-2122, [heather.chaffin@austintexas.gov](mailto:heather.chaffin@austintexas.gov))

STAFF RECOMMENDATION:

Staff supports the Applicant's request to rezone to Planned Unit Development (PUD) to change conditions of zoning.

PLANNING COMMISSION ACTION / RECOMMENDATION:

November 12, 2019:

October 22, 2019: TO GRANT POSTPONEMENT TO NOVEMBER 12, 2019 AS REQUESTED BY COMMISSION, ON CONSENT. (12-0) [Shieh- 1st, Kenny- 2nd; Azar- Absent]

CITY COUNCIL ACTION:

November 14, 2019:

ORDINANCE NUMBER:

ISSUES:

The Applicant is proposing to modify a variety of conditions of the existing PUD zoning to allow the addition of housing types, increased commercial and residential density, and updated land uses to reflect current code. The Applicant also proposes modifying building setbacks for some housing types, as well as some clarification of existing language in the PUD. No changes are proposed for the residential areas that are already developed.

As initially filed, the amendment proposed adding micro-brewery/micro-distillery/winery as a permitted use in some commercial areas. This is no longer requested; the current City definition of this land use is being clarified and updated as part of the code re-write, and the Applicant has decided to wait until the definition is finalized.

The PUD complies with the approved Tier 1/Tier 2 levels established in 2004; the proposed amendments meet or exceed the established superiority items.

The Applicant has prepared a transmittal letter summarizing the proposed changes. ***Please see Exhibit C- Applicant Letter.***

CASE MANAGER COMMENTS:

The Mueller Planned Unit Development (PUD) zoning ordinance (No. 040826-61) was approved in 2004. The PUD is located southeast of IH 35 and East 51<sup>st</sup> Street and contains a mix of commercial and residential land uses. ***Please see Exhibits A and B—Zoning Map and Aerial Exhibit.***

Since 2004, the PUD has been able to develop more residential, office and retail space than was originally anticipated, and is now close to reaching the original caps for commercial, civic, and residential development. With the amendment, the Applicant proposed to increase the maximum number of residential units from 6,450 to 7,790, an increase of 1,340 units. The Master Development Agreement for this SMART Housing project requires the Master Developer to provide 25% of all housing (single family and multifamily) as affordable units. Rental units must be available at 60% median family income (MFI); ownership units must be 80% MFI. The proposed amendment could add up to 335 affordable units. The amendment also proposes increasing commercial development maximum from 5.33 million to 5.88 million square feet (550,000 s.f.). Austin Transportation Department (ATD) has reviewed the proposed increases, and estimates that peak hour trips will increase by 8% overall which is offset by the increased internal capture and transportation network. ***Please see Exhibit D- Mueller PUD Density Table.***

Additional amendments are more focused on land uses and some site development standards. First, the amendment proposes adding land uses that have been created since 2004. A list of the existing and proposed land uses, as well as the subdistricts where they are permitted, conditional, or prohibited is attached. Please see ***Exhibit E- Mueller PUD Zoning Use Summary Table.***

The amendment also identifies a new housing type, Cottage House, and outlines the site development standards for this use. Cottage House is defined as, “a detached, single family residential unit with adjacent off-site shared parking in a separate lot.” ***Please see Exhibit E- Cottage House Development Regulations.***

The amendment also clarifies some definitions and standards in the PUD that have been confusing to developers and City review staff. These are related to the openness of required yards and off-street parking regulations and ratios. ***Please see Exhibits F and G- Openness of Required Yards and Off-Street Parking.***

Staff supports the proposed amendment. The addition of Cottage House and other land uses identified by Code will allow a greater variety of housing types and land uses. The clarifications to required yard and parking regulations will help developers and City Staff understand design parameters. The increased development intensity is not expected have an adverse impact on the neighborhood inside or outside the PUD boundaries because the existing roadway network includes 23 access points to distribute the increased volume, instead of just 13 points as assumed in the 2004 TIA. The addition of residences, and particularly affordable units, will provide much needed housing of varying types. The addition of commercial uses will help support the community and provide convenient local services and options. Additionally, Staff has received letters of support from neighborhood groups including the PUD's Plan Implementation Advisor Commission, which is an official City commission. ***Please see Exhibit I-Correspondence.***

#### BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*  
Planned unit development (PUD) district is the designation for a large or complex single or multi-use development that is planned as a single contiguous project and that is under unified control. The purpose of a PUD district designation is to preserve the natural environment, encourage high quality development and innovative design, and ensure adequate public facilities and services for development within a PUD. A PUD district designation provides greater design flexibility by permitting modifications of site development regulations and must be superior to the development that would occur under conventional zoning and subdivision regulations. The proposed amendment allows more diverse land uses and much needed housing, while exceeding the superiority items approved in 2004.
2. *The rezoning should be consistent with the policies and principles adopted by the City Council or Planning Commission.*  
The proposed amendment will provide much needed housing, particularly affordable units, as outlined in the Austin Housing Blueprint. The additional housing type of Cottage House will increase the diversity of available housing types, and the addition of commercial land uses that have been adopted by this City since 2004 will allow a greater variety of local services and commercial options.
3. *Zoning should promote clearly-identified community goals, such as creating employment opportunities or providing for affordable housing.*  
The proposed amendment will provide much needed housing, particularly affordable units, as outlined in the Austin Housing Blueprint.

Re: Proposed Amendment to the Mueller Planned Unit Development (PUD)  
Case Number: C814-04-0055.04

Dear Mr. Rusthoven and Ms. Chaffin,

Attached please find an application for proposed amendments to the Mueller PUD. These amendments are intended to better align the development with current City policies, including the goals of *Imagine Austin* and the Council's recent *Austin Strategic Direction 2023*. These PUD amendments will maintain and enhance Mueller's superior performance relative to conventional zoning and subdivision regulations in the Land Development Code. ***The main goal of this PUD amendment is to increase the number of residential units, including affordable housing, and commercial space in the development, which supports the city's goal of a compact and connected community – described under item #3, below.*** The proposed amendments are as follows:

1. Proposed revisions to the land use table to include newly established uses from the Land Development Code (see the proposed Exhibit D, attached);
2. Clarifications to the Site Development Regulations to further define and help illustrate a new missing middle housing type called "Cottage Houses", and to provide clarity related to street yard setbacks (see the proposed Exhibit E, attached);
3. A proposed increase of the maximum "caps" related to the number of dwelling units and the amount of commercial space allowed in the development (see the proposed Exhibit F, attached); and
4. Clarifications to the off-street parking regulations to bring them into better alignment with Land Development Code standards (see proposed Exhibit I, attached).

The following provides a summary of the rationale for the proposed amendments described in the attached application:

**1. Exhibit D: Zoning Use Summary Table**

The proposed amendments include an update to the Mueller Planned Unit Development Zoning Use Summary Table of Exhibit D to include new land use types introduced into the Land Development Code since the last major amendment to the PUD in 2009. In addition to these land use types, the "Cottage House" is proposed as a new, residential use type comprised of smaller, single-family detached units that will be constructed in Mueller's next neighborhood. The Cottage House units are intended to add

to the diversity of housing choices and to promote additional “age-in-place” opportunities. Although the existing PUD language accommodates these new units, a specific definition including the proposed site development regulations in Exhibit E will provide for more clarity to assist with the development review process.

## **2. Exhibit E: Site Development Regulations**

The 2009 PUD amendment updated the original ordinance (No. 040826-61), allowing for “*a non-cantilevered bay window (one built at grade) to project two feet into a required yard*”. This PUD amendment proposes that covered porches with columns also be permitted to project into a required street yard. This amendment is intended to support Mueller’s more affordable, small-lot housing types, and to promote building articulations and visual interest along the street front.

With the introduction of the *Cottage House* building and lot type, Exhibit E also includes a diagram that specifically describes the proposed front yard, side yard, interior side yard and courtyard setbacks for these clustered units, with the intent of providing more clarity for City staff and builders. All of these proposed Site Development Regulation amendments are described in Exhibit E in the attached application.

## **3. Exhibit F: Mueller PUD Density**

Over the past 15 years, Mueller has been able to add more residential, office and retail space than was originally anticipated. The introduction of a more diverse mix of “missing middle” housing types, the increased number of affordable housing units and the creation of a more compact and mixed-use Town Center has brought Mueller into closer alignment with the citywide goals of the comprehensive plan, [\*Imagine Austin\*](#), and the recent Council-adopted, [\*Austin Strategic Direction 2023\*](#). Mueller is now accommodating more families, businesses and services who want to live, work and operate within Central Austin. However, with this success, Mueller is now coming to a point where the original caps assigned in the PUD for commercial floor area and for the number of residential dwelling units are close to being reached.

Given encouragement by many members of the community — including the Mueller Neighborhood Association and the Robert Mueller Municipal Airport Plan Implementation Advisory Commission — the Mueller Team, consisting of the City of Austin Economic Development Department and its Master Developer partner - Catellus, has explored ways to increase Mueller’s capacity for more density and affordability, and has concluded that there is an opportunity to accommodate additional residential and commercial space within the existing height limits of the PUD, and without any significant new infrastructure investments. More specifically, the PUD amendment proposes to increase the PUD cap by 1,340 additional dwelling units for residential and 550,000 square feet for commercial, institutional or civic space on Mueller’s remaining, undeveloped land, to provide flexibility for future development.

Increasing the residential dwelling unit cap would allow the development to add up to 335 more affordable for-rent and for-sale residences to the community, maintaining the Master Development Agreement’s commitment for 25% of homes to be affordable. In addition to affordable housing, property taxes generated at Mueller would increase, without significant costs associated with additional infrastructure, thereby offering further opportunities for Mueller to continue to contribute to broader community benefits.

The findings of the traffic analysis indicate that Mueller's highly connected, grid-like roadway network, its multi-modal design features such as protected bike lanes and the mixed-use pattern of land uses that promote internal capture of trips, should work together to accommodate the potential increase in vehicular trips.

The proposed increase in residential and non-residential caps is described in the attached amendments to the Mueller PUD Density Table (Exhibit F). As shown, the Density Table also includes a redistribution of dwelling units and non-residential uses within Mueller's Land Use areas to more accurately reflect current and projected development conditions.

#### **4. Exhibit I: Off-Street Parking Regulations**

Mueller's off-street parking standards have not been substantially amended since the PUD was first adopted in 2004. These traditional parking standards did not anticipate the current mix of missing-middle and small-lot housing types, so even today, two (2), off-street parking spaces are required for both a large Yard House of 3,500 square feet and the smaller Cottage House or Row House of 1,000 square feet. This requirement has a direct effect on the cost and affordability of housing at Mueller. In order to bring Mueller's parking standards into better alignment with the existing Land Development Code and those of the future Code and to reinforce the affordability goals of the community, Exhibit I allows for parking standards set forth in the Land Development Code to be utilized if they are less restrictive than those in the Mueller PUD.

#### **Supporting Documents**

- Attached to this cover letter is a summary of PUD amendments that have already been approved since 2004 (Figure 1).
- Also attached are the proposed text and exhibit changes to the Mueller PUD, including Exhibits D, E, F and I. For clarity, these are shown in "red-lined" format.
- Following these is the Mueller peak hour trip amendment letter from our traffic engineer, HDR and the signed determination worksheet approval from the City of Austin.
- Also included in this application is a Mueller PUD Tier 1 + Tier 2 Analysis Summary that we have prepared summarizing Mueller's superiority over typical provisions of the Land Development Code, including environmental features.

Please do not hesitate to contact me if you have any questions or comments on this request, either by phone at 512-732-0001 or by email at [jima@mccannadamsstudio.com](mailto:jima@mccannadamsstudio.com)

**FIGURE 1: Summary of Mueller PUD Amendments**

The following provides a summary of amendments to the Mueller PUD zoning district (Zoning Case Number C814-04-0055) since its adoption on 2004.

<b>Ordinance/ Amendment Number</b>	<b>Description</b>
Ordinance No. 040826-61	Mueller PUD zoning district is adopted with Mueller PUD Criteria Manual. These regulatory documents were developed based on two years of due diligence with City departments and developer team and approved several months prior to the master development contract, also executed in 2004.
Ordinance No. 20070503-065	The Mueller PUD zoning district is amended to better accommodate the hospital anchor employer.
Ordinance No. 20090423-087	The Council-approved amendment shifted residential and commercial square footages within the PUD zoning district, allowing the Town Center and north of Town Center to be developed in a more urban pattern (moving the HEB site to 51 <sup>st</sup> ); allowed for more compact housing types including zero-lot line single family detached housing; broadened permitted uses for north of Town Center, and clarified definitions.
Ordinance No. 20130328-032	Includes Mueller with other Transit-Oriented Development (TOD) in the ability to exempt site plan requirements for Townhouses.
Administrative Amendment (2015)	Administrative Amendment clarified certain site development regulations and shifted residential and commercial square footages within the PUD zoning district. No additional entitlements were requested or added in this administrative amendment.

OPEN SPACE/COMMUNITY FACILITIES (land area includes neighborhood parks & open space)	151.1	21.60%	
RIGHTS-OF-WAY & (STREETS/ALLEYS)	180.5	25.80%	
TOTAL MAXIMUM RESIDENTIAL ALLOWED			<ul style="list-style-type: none"> <li><b>6,450</b> 7,790 Dwelling Units (Subject to Traffic Impact Analysis)</li> </ul>
TOTAL MAXIMUM COMMERCIAL ALLOWED			<ul style="list-style-type: none"> <li><b>5.33</b> 5.88 Million Square Feet (Subject to Traffic Impact Analysis)</li> </ul>
TOTAL LAND AREA	698.7	100.00%	

## NOTES:

- The maximum allowable densities shown above are regulated per each individual land use area. The actual accumulated totals of all land use areas in the PUD must not exceed **6,450** 7,790 Dwelling Units for Residential Uses or **5.33** 5.88 million square feet for Commercial Uses.
- All maximum allowable densities are subject to the Traffic Impact Analysis (TIA).
- The proposed 2009 maximum allowable densities for Retail, Office, Civic and Commercial Uses are combined under "Civic and/or Commercial Uses" for each individual Land Use Area.
- Open space is inclusive of neighborhood parks and publicly-accessible open space in all land use areas.
- So long as uses are permitted in a land use area, residential maximum allowable densities may be transferred from one land use area to another provided that the overall project maximum for residential density is not exceeded.

Proposed amendments are shown in red bold text.

## ADDITION OF EXHIBIT E PAGE 6: COTTAGE HOUSE DEVELOPMENT REGULATIONS

		COTTAGE HOUSE
	Minimum Lot Size	800 SF
	Minimum Lot Width	20 FT.
	Maximum Height	35 FT.
<b>A</b>	Minimum Front Yard Setback	3 FT.
	Minimum Street Side Yard Setback	N/A
<b>B</b>	Minimum Interior Side Yard Setback	3 FT.-1 IN <sup>1</sup>
<b>C</b>	Minimum Interior Rear Yard Setback	0 FT. <sup>2</sup>
<b>D</b>	Minimum Rear Yard Setback	3 FT.
	Maximum Impervious Cover	75%
<b>E</b>	Common Courtyard Setback	3 FT.

### FOOTNOTES:

1. A minimum side yard setback of 3'-1" is permitted (measured from face of building to property line) provided that the adjoining side yard setback is a minimum of 3'-11" to create a face-of-building to face-of-building space of at least seven (7) feet.
2. One side of a cottage house exterior wall may be located on the lot's interior rear yard property line, however the interior rear yard-facing building walls of adjoining lots must be separated by a minimum of five (5) feet. (Access and/or maintenance easements may need to be created by individual builders or property owners to facilitate maintenance of buildings and/or areas that are located on or very close to an interior rear yard property line.)

**Excerpt Page 6 of 6**

### Cottage Block Development Standards

**AMEND PART 6.A (ZONING)**  
**TO INCLUDE THE FOLLOWING**

**EXHIBIT G**

- F. Part 6.A (*Zoning*) of the Original Ordinance is amended to add a new Section 10 as follows:

(10) Subsection (B) of Section 25-2-513 (*Openness of Required Yards*) is modified to allow a non-cantilevered bay window (one built at grade) to project two feet into a required yard.

street

- and other features, or projections -

Part 6.A (*Zoning*) of the Original Ordinance is amended as shown:

(11) Subsection (G) of Section 25-2-513 (*Openness of Required Yards*) is modified as shown:

This subsection applies to ~~a building residential uses located in a multifamily residence medium density (MF-3) or more restrictive district.~~ A covered porch with or without columns that is open on three sides may project ~~five~~ **three** feet into a required front yard, a street side yard, or both.

**REDLINE OF 2015 MUELLER PUD AMENDMENT****EXHIBIT I: OFF-STREET PARKING  
REGULATIONS AND RATIOS****EXHIBIT H****EXHIBIT I****OFF-STREET PARKING REGULATIONS AND RATIOS***Revised September 22, 2019*

- (1) There is no off-street loading requirement for a building with less than 10,000 square feet of gross building area. The director shall determine the location, number, and dimensions of the off-street loading for a larger building.
- (2) Except as approved by the Director, parking in alleys is prohibited.
- (3) This section establishes minimum vehicular parking requirements. **The standards set forth in the Land Development Code may be used if they are less restrictive.**
  - a. Except as otherwise provided in this subsection, a commercial use shall provide one parking space for every 500 square feet of gross building area.
  - b. An office use shall provide one parking space for every 500 square feet of gross building area.
  - c. All condominium residential (including two-unit condominium buildings), multi-family residential, group residential, Mueller House, and retirement housing (large and small site) use shall provide one parking space for the first bedroom of a dwelling unit and 0.5 parking space for each additional bedroom. **A unit 500 square-feet or less shall provide .25 parking space per unit and parking is to be leased separately from the unit, or follow city code, whichever is less restrictive.**
  - d. A townhouse residential, single-family residential, non-condominium duplex residential, yard house, **cottage house**, row house, shop house, group home (Class I General, Class I Limited, and Class II), and family home use shall provide two parking spaces for each dwelling unit. A yard house is not required to provide additional parking for an accessory dwelling unit so long as the accessory dwelling unit does not contain more than 700 square feet of gross building area. A shop house is not required to provide additional parking for a commercial use if the commercial use does not exceed 750 square feet.
  - e. A daycare services (commercial, general and limited), primary educational facilities (private and public), or secondary educational facilities (private and public) use shall provide one parking space for each employee
  - f. A hospital services (general and limited) use must provide one visitor parking space for every 4 beds and one parking space for every two employees.

## EXHIBIT I

BOARD/COMMISSION RECOMMENDATION

Robert Mueller Municipal Airport Plan Implementation Advisor Commission (RMMA PIAC)

Recommendation Number: (20191008-003B): 2019 Mueller PUD Amendment Recommendation

WHEREAS, the vision for Mueller's redevelopment has been guided by the community determined goals of Fiscal Responsibility, Economic Development, East Austin Revitalization, Compatibility with Surrounding Neighborhoods, Diversity & Affordability and Sustainability in order to create a model for responsible urban development that could influence the form and pattern of growth within Austin; and

WHEREAS, the Mueller development continues to evolve, taking into account best practices, stakeholder feedback and market conditions; and

WHEREAS, through such evolution Mueller is both a leader and a demonstration project for affordable housing, sustainable growth patterns, and a diversity of housing types; and

WHEREAS, the Austin City Council's Strategic Housing Blueprint, calls for the building of 135,000 housing units in the next 10 years, with at least 60,000 of those units being affordable; and

WHEREAS, the Imagine Austin Plan's core principles call for the city to "Grow as a compact, connected city"; and

WHEREAS, the proposed PUD amendment would maintain the Master Development Agreement commitment to 25% of all new housing being affordable, allowing for up to an additional 1,005 market rate units and 335 affordable units; and

WHEREAS, the proposed PUD amendment adds the vast majority of its residential units and commercial square footage through vertical development within existing height limits; and

WHEREAS, Catellus, the Mueller project's master developer, has determined the proposed PUD amendments can be accomplished with only minor infrastructure updates while maintaining all planned green spaces; and

WHEREAS, the proposed PUD amendment would increase the Mueller project's City tax base by raising the cap on commercial office space by 550,000 square feet, and thereby support the project's Council-approved goal of fiscal responsibility; and

WHEREAS, the RMMA PIAC has encouraged the City and Catellus to explore opportunities for adding more housing, including more affordable housing at Mueller.

NOW, THEREFORE, BE IT RESOLVED that the RMMA PIAC encourages the Austin City Council to adopt the proposed 2019 PUD amendments.

Date of Approval: 10/08/2019

Record of the vote: Unanimous on a 6-0 vote

  
Attest: \_\_\_\_\_

**Offered by the Mueller Neighborhood Association Steering Committee on October 21, 2019**

**RESOLUTION SUPPORTING THE PROPOSED MUELLER PUD AMENDMENT**

**WHEREAS**, Mueller was founded on the attached vision that called for the creation of Mueller as a compact, pedestrian oriented, and mixed-use community; and

**WHEREAS**, the City of Austin comprehensive plan, Imagine Austin, calls for the city to be grown as a compact and connected City; and

**WHEREAS**, the maximum number of dwelling units in Mueller is capped at 6450 (subject to a Traffic Impact Analysis); and

**WHEREAS**, the master developer Catellus currently plans on building approximately 5900 units at Mueller; and

**WHEREAS**, conditions in Austin have changed since the adoption of the Mueller Master Plan in 2000 and the Mueller PUD, and Austin is now facing ever increasing challenges with affordability, economic segregation and traffic congestion; and

**WHEREAS**, Mueller is extremely well situated with direct connections to major arterials of MLK Blvd, Airport Blvd., and 51st Street, as well as direct connections to IH35, and has many ways to ways to get to major employment centers such as Austin's downtown, the Capitol Complex and the University of Texas; and

**WHEREAS**, Mueller is well served by transit with two Capital Metro routes that connect to the major employment centers; and

**WHEREAS**, Mueller is a walkable area rich with amenities and parks; and

**WHEREAS**, the City can best serve a lot of people with goods, services and parks by allowing for an abundance of housing to be built in walkable areas that are rich with amenities and parks; and

**WHEREAS**, Mayor Adler has recently called for 100,000 new housing units to be built by 2025; and

**WHEREAS**, if Austin is to realize the Mayor's goal while meeting the dictates of Imagine Austin and grow as a compact and connected city it will mean finding areas in central Austin that can best accommodate growth; and

**WHEREAS**, Mueller is less than 50% complete and there is still significant opportunity to add density to Mueller during the initial build; and

**WHEREAS**, the Mueller PUD already allows for a wide array of “missing middle” housing types that are generally not permitted elsewhere in Austin and which can help address affordability in a way that single-family detached homes cannot; and

**WHEREAS**, the residents of Mueller are eager to demonstrate such missing-middle housing types are well received here and need not be feared by other central Austin neighborhoods; and

**WHEREAS**, Mueller demonstrates that additional density can be done in a way that is a win for the neighborhood by adding resiliency to support our high level of trails, lakes and parks, a win for the surrounding communities by shouldering more of the burden for demand in this area, a win for all those seeking a home in central Austin by adding to the available options, a win for the City by providing increased tax base, and a win for all the builders and tradespeople who are working on the Mueller project; and

**WHEREAS**, it is incumbent upon all neighborhood associations to work with the City to help solve the problems of affordability, traffic congestion and resource allocation in a responsible manner and in such a way that does not contribute to sprawl; therefore, be it

**RESOLVED**, that the Mueller Neighborhood Association (MNA) Steering Committee urges Catellus to build to the density limit; and

**RESOLVED**, that the MNA requests that the City work with Catellus and Capital Metro to connect Mueller to transit sufficiently to allow the density caps limited by any Traffic Impact Analysis to be lifted; and

**RESOLVED**, that MNA supports, and requests that the City Council examine, revising the PUD to allow for a significant increase of density in terms of number of dwelling units, building heights and allowances of commercial and retail square footage, so long as all new density (i) adhere to the high standards and sound principles of urban design embedded in the Design Book, (ii) maintain all existing and planned parks and (iii) to the extent permissible by law, retain the commitment to reserve 25% of all housing stock for Affordable Housing.

- *Fiscal Responsibility*: Redevelopment must create a positive revenue stream that will fund onsite infrastructure and increase the City’s tax base for the benefit of all citizens.
- *Economic Development*: The project should serve to reinforce Austin’s role in an increasingly global marketplace and create a wide range of employment opportunities for a diversity of the community’s citizens.
- *East Austin Revitalization*: The project must promote economic development opportunities within East Austin, giving local residents a direct stake in redevelopment.
- *Compatibility with Surrounding Neighborhoods*: Development must maintain and enhance the quality of life in adjacent neighborhoods, providing complementary linkages, land uses and transportation patterns.

- *Diversity*: Redevelopment must offer a wide range of housing choices in order to create a new community of socially and economically diverse residents.
- *Sustainability*: Development should be planned in a way that promotes energy and water efficiency, environmental quality, reduced auto dependency, watershed protection and green space preservation.

RE: Proposed PUD Revision/Mueller  
Case Number: C 814-04-0055.04.SH

It is my pleasure to send this letter documenting the Delwood 2 Neighborhood Association's support of the requested zoning change for the Mueller Development. Delwood 2 enjoys a positive working relationship with Catellus and all those associated with Mueller. Catellus representatives met with the Delwood residents explaining the proposed changes and answering questions.

Again, the Delwood 2 Neighborhood Association supports the purposed zoning change. Please contact me if you have questions or need additional information.

Kind Regards,

Karen Brinkman  
President, Delwood 2 Neighborhood Association

Dear Mayor Adler and Members of the Austin City Council,

This correspondence is submitted on behalf of the J.J. Seabrook Neighborhood Association in support of the rezoning request submitted by the Mueller Commission for the Mueller PUD development (Zoning Case # \_\_\_\_\_).

*C1814-04-0065.04*

Representatives of the Applicant took the opportunity to present to our membership at our regularly scheduled Association meeting on October 8th. During this meeting details were provided on both the necessity for the request and the potential benefits and impacts of the requested change. Neighborhood members expressed concerns regarding the impact that this density increase would have on the acutely deficient transportation infrastructure in and surrounding the Mueller development (including that bordering and transecting of our neighborhood). This concern is derived in no small part from the profound influx of planned apartment units in the immediate vicinity of the PUD - and not solely based on the proposed density increase within the PUD.

Following discussion, the neighborhood ultimately resolved that the requested increase in density within the PUD represents many of our shared beliefs on manner of responsible development necessary to establish livable communities under the continuing pressure of municipal growth. Specifically, we understand that the request seeks to increase residential density in areas already planned for multifamily development and that the whole of the density increase is planned to occur a portion of the PUD which will minimize impact on existing residents and uses in and surrounding the PUD. Further, the applicant has shared plans to mitigate potential impacts and their willing to continue a dialogue with the Association as to how the continued development within the PUD can accommodate the future vision of Austin, integrate with the adjacent neighborhoods, and maintain the quality of life that drew and retained residents of this area. Finally, and perhaps most importantly, we recognize the importance of additional affordable units that will result from this change - particularly when affordable housing requirements are being waived for surrounding developments. As the proposed PUD amendment maintains the commitment to 25% of all new housing being affordable, allowing up to an additional 1,005 market rate units and 335 affordable units.

For each of the foregoing reasons the J.J. Seabrook Neighborhood Association believes this zoning change to present an opportunity for a positive development change and provides this letter in support of the Applicants request.

Kindest regards,

A handwritten signature in black ink, appearing to read 'Roger Taylor, Jr.', is written over the typed name.

Roger Taylor, Jr.  
President JJ Seabrook Neighborhood Association

Date: 10/21/2019

**PUBLIC HEARING INFORMATION**

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: [www.austintexas.gov/planning](http://www.austintexas.gov/planning).

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: Do NOT agree with the desire  
to change in original design of  
neighborhood to increase density.  
Not good for current residents.  
infrastructure etc. I do NOT  
agree with new proposal.

Michelle
