1. Do not scale drawings. Written dimensions govern.
2. Verify existing site conditions and report to architect any discrepancies between actual field conditions and these plans prior to commencing work.
3. All new sidewalks to have max 1:20 grade with cross slope to drain at 1/4" per foot. Seal concrete and provide a broom finish unless otherwise noted.
4. Contractor to tie into existing utilities. Some utilities may require upgrading, contractor to verify.
5. Verify meter & utility service locations prior to installation.
6. Contractor to utilize temporary erosion and sedimentation control measures as required by code.
7. Provide tree protection for all trees not marked for removal.
8. Trees to be removed shall be removed from the soil to a depth of 12" below the surface of the ground in the area of the building.
9. Selectively clear or prune any unwanted trees or those impeding construction with consent of owner.
10. Coordinate removal and disposal of unwanted trees and other landscaping materials with owner.
11. Provide new gutters and downspouts to drain on site. Downspouts to drain away from building.
12. Ensure all grading slopes away from building at least 10'-0".
13. Exterior HVAC equipment shall be screened in compliance with any City of Austin regulations and/or local deed restrictions.
14. Provide control and expansion joints as required on concrete drives, walks & patios.
15. Existing utility line locations are approximated. Contractor to verify locations prior to construction.
