GPAC: Manage My Profile – Maintain Addresses

This screen displays a table with the address information currently on file with the City of Austin, Electronic Filing System (COA-EFS) for your filer account. You should file a campaign treasurer appointment (Form GTA) with the City of Austin and the current treasurer's address information and assistant treasurer's address information, if applicable, is also displayed. *Please note: It is important for you to keep this information up to date so that you do not miss any notices regarding your filing requirements.*

GPAC: Cover Sheet – Report Type & Period Covered

What kind of report do you want to file? (Report Type): You can only select one of these report types for this report. If you need to file more than one of these report types, you must file each as a separate report. You can select one of the following report types as a stand-alone report or in combination with the "Dissolution" or "10th Day After Campaign Treasurer Termination" reports below, if applicable. Read the information concerning each of the report types. Select the radio button for the report type that applies to the event for which you are filing.

January 15th Semiannual Report: All general-purpose committees filing under the regular filing schedule must file a semiannual report with COA-EFS by midnight Central Time on the January 15 report due date.

July 15th Semiannual Report: All general-purpose committees filing under the regular filing schedule must file a semiannual report with the COA-EFS by midnight Central Time on the July 15 report due date.

30th Day Before Election Report: All general-purpose committees filing under the regular filing schedule that accept political contributions or make political expenditures in connection with an election must file this pre-election report. The report is due no later than 30 days before the election and must be received by the COA-EFS no later than midnight Central Time on the report due date.

8th Day Before Election Report: All general-purpose committees filing under the regular filing schedule that accept political contributions or make political expenditures in connection with an election must file this pre-election report. Additionally, if your committee filed a “30th Day Before Election” report, then your committee must file this report. The report is due no later than 8 days before the election and must be received by the COA-EFS no later than midnight Central Time on the report due date.

Runoff Report: All general-purpose committees filing under the regular filing schedule that accept political contributions or make political expenditures in connection with a runoff election must file this report. The report is due no later than 8 days before the runoff election and must be received by the COA-EFS no later than midnight Central Time on the report due date.

Less Commonly Filed Reports: These reports are only required if you meet certain criteria. You can select one of the following report types as a stand-alone report or in combination with one of the reports listed above, if applicable. Select the radio button for one of these less commonly filed reports only if the report type applies to the event for which you are filing.

Dissolution Report: You must file a Dissolution report in order to dissolve the committee. Your committee may file a Dissolution report if your committee expects to have no further reportable activity. There is not a fixed deadline for this report. A Dissolution report terminates the appointment of campaign treasurer and relieves the campaign treasurer of the duty to file additional reports. (In this case, the Dissolution report serves as the treasurer's termination report.)

10th Day After Campaign Treasurer Termination Report: A general-purpose committee’s campaign treasurer must file this report if his or her campaign treasurer appointment is terminated. This report is due no later than the 10th day after the termination is filed. If the termination takes place on the last day of a reporting period and the proper report for that period is filed, no separate termination report is required.

Other Reports: These other reports are only required in certain circumstances and cannot be combined with other report types. Read the information concerning each of the report types. Select the radio button for one of these other reports only if the report type applies to the event for which you are filing.

For the City of Austin reporting requirements go to <http://austintexas.gov/page/campaign-finance-forms>

Period Covered: The filing application will calculate the period covered for your report based on the report type you select. You can modify the start and end dates as long as your modified start date does not precede the filing application calculated start date and your modified end date does not extend past the filing application calculated end date. If you need to report activity outside of the filing application calculated date range for this report, you will need to file multiple reports.

A reporting period includes the Start date and the End date. The report due date will be after the end of the period. Generally, a report picks up where the last report left off and there should be no gaps or overlapping periods. **First Reports.** If this is the first campaign finance report that your committee has filed, the start date will be the date your campaign treasurer appointment (Form GTA) was filed.

January 15th Semiannual Report Period: The start date is July 1 of the previous year or the day after the last day covered by your committee's last required report, whichever is later. If this is the first report your committee has filed, please see the "First Reports" section above. The end date is December 31 of the previous year.

July 15th Semiannual Report Period: The start date is January 1 or the day after the last day covered by your committee's last required report, whichever is later. If this is the first report your committee has filed, please see the "First Reports" section above. The ending date is June 30.

30th Day Before Election Report Period: The start date is the day after the last day covered by your committee's last required report. If this is the first report your committee has filed, please see the "First Reports" section above. The end date is the 40th day before the election.

8th Day Before Election Report Period: The start date is the 39th day before the election if your committee was required to file a 30th Day Before Election Report. If your committee was not required to file the 30th Day Before Election Report, the start date is the day after the last day covered by your committee's last required report. If this is the first report your committee has filed, please see the "First Reports" section above. The end date is the 10th day before the election.

Runoff Report Period: The start date is the 9th day before the main election if your committee filed an 8th Day Before Election report in connection with the main election. Otherwise, the start date is the day after the last day covered by your committee's last required report or the day your committee appointed a campaign treasurer, whichever is later. The end date is the 10th day before the runoff election.

Dissolution Report Period: The start date is the day after the last day covered by your committee's last required report. The end date is the day you file the dissolution report.

10th Day After Campaign Treasurer Termination Report Period: The start date is either the day after the last day covered by your committee's last required report or the day your committee appointed a campaign treasurer, whichever is later. The end date is the day the campaign treasurer's appointment was terminated. This report is due no later than 10 days after the campaign treasurer appointment was terminated.

Alternative Reporting Requirement for Some Committees:

Higher Contribution Itemization Threshold box: If your committee qualifies for the [higher itemization threshold](#) you may choose to itemize incoming political contributions that exceed \$100 (instead of \$50) from one person for this reporting period by checking this box.

GPAC: Worksheet Summary

Worksheet Summary is a new page in the filing application designed to help you keep track of the schedules required for this report and the activity you enter. If you indicated by answering "Yes" on the previous **Reporting Period Activities** screen that your committee has activity to report, those schedules/categories are highlighted in **green** in the grid.

Return to Cover Sheet button: Click on this button to go to the beginning of this report's Cover Sheet (report type and period covered). You may also go to the cover sheet by clicking on the link in the Report Menu navigation sidebar always displayed down the left side of your screen.

Walk me through all schedules button: Click on this button to be guided through a series of questions to determine whether or not your committee may have activity to disclose on a report schedule. This option takes you through ALL the schedules in the report from beginning to end. During the walk-through, any schedules that you choose to "work on this later" will be flagged with a check mark in the **Work on Later** column on the **Worksheet Summary** screen.

Report Totals button: Click on this button to go to this report's **Subtotals** and **Totals** pages, where you can view the calculated totals of activity entered in this report and enter lump sum totals for unitemized contributions, pledges, loans, and expenditures.

Upload File button: Click on this button to import your contribution and expenditure data into the filing application.

Worksheet Summary Grid: The reporting schedules/categories are organized into three main areas:

- Incoming Funds – any money coming into your committee's political account(s);
- Outgoing Funds – any payments going out of your committee's political account(s); and
- Additional Activity – other types of activity, such as non-monetary (in-kind) contributions, pledged contributions, or unpaid incurred expenditure obligations.

Under each main area, the information is displayed in the following columns:

Category: This column displays the name and letter code of each schedule/category you may possibly need for this report. (For example, the name of the first schedule is Monetary Political Contributions and the letter code for that schedule is A1.) If you indicated on a previous screen that your committee has activity to report, those schedules/categories are highlighted in **green** in the grid.

Walk-Thru: Click this link to be guided through a series of questions to help you determine whether or not your committee may have activity to disclose on a particular report schedule. This option allows you to walk-through a single

schedule only. During the walk-through, if you choose to "work on this later" the schedule will be flagged with a check mark in the Work on Later column.

Count: This column keeps a running tally and displays the number of transactions you have entered and saved for a particular schedule/category.

Sub-Total: This column displays the total amount of transactions you have entered and saved plus any lump sum total you entered on the **Schedule Subtotals** page for a particular schedule/category.

Action: To begin entering activity for a particular schedule/category, click on "Start" in this column. After you have saved your first transaction, the link that you click on changes to "Continue" in this column.

Work on Later: If you choose to do a "walk-thru" of all schedules or one particular schedule, any schedules that you choose to "work on this later" will be flagged with a check mark in this column. Once you enter and save data on a checked schedule, the check mark will be removed; but remember, you can always enter information on any category/schedule, as needed, until you file the report.

GPAC: Schedule A1

NEW! Schedule A is now split into two schedules: Schedule A1 and Schedule A2. Enter only incoming **monetary** contributions on Schedule A1. (Non-monetary (in-kind) contributions are now entered on Schedule A2).

Schedule A1 is used by a general-purpose committee to itemize incoming monetary [political contributions](#) that exceed \$50 (or [\\$100 if committee qualifies](#)) from one person during the reporting period. If your committee accepted other types of incoming funds (such as corporate or labor organization contributions or support, loans, or interest) or non-monetary contributions (such as in-kind contributions or pledges), enter them on the applicable schedules associated with the categories shown on the **Worksheet Summary** page.

Notice to Candidates and Officeholders: If the committee makes political expenditures or accepts political contributions in support of a candidate or officeholder, the committee must provide written notice to the candidate or officeholder who benefits from the committee's activity. The notice must be given before the end of the reporting period during which the committee made the political expenditures or accepted the political contributions. The notice

must inform the person that the committee has made political expenditures or accepted political contributions on his or her behalf, and it must include the full name and address of the political committee and its campaign treasurer and an indication that the committee is a general-purpose committee). NOTE: Such notices are not required if the committee is the principal political committee of a political party.

Corporate or Labor Organization Contributions or Support: Do not enter on this schedule contributions or support your committee received from [corporations](#) or labor organizations. A political committee that *supports or opposes measures exclusively* may accept monetary and non-monetary (in-kind) contributions from corporations or labor organizations and must report such contributions on Schedules C1 and C2. A corporation or labor organization may provide monetary or non-monetary support to a general-purpose committee to: 1) finance the establishment or administration of a general-purpose committee, or 2) solicit contributions to a general-purpose committee from the employees, stockholders, or members of the corporation or labor organization and their families. A general-purpose committee must report such support on Schedules C3 and C4.

Contributions List: After you enter and save your first contribution, the filing application will begin a list of all contributions entered on Schedule A1 for this report. The list will display columns showing pertinent information for each contribution:

Date	Contributor	Amount	Action
01/01/2015	Contributor, Connie	\$1,000.00	Edit Delete

(1 of 1) [Navigation icons] 5

[Add](#) [Memo](#) [Done with Contributions](#)

The contribution list will be the first screen you see each time you return to this schedule. From this list, you will be able to Edit or Delete a previously entered contribution. To enter new contributions, click the Add button located below the list. You can also sort the list in ascending or descending order by clicking on the column header in which you are interested or search the list by entering the search word in the field at the top of each column. You may also use the Memo button to provide additional explanation regarding contribution(s) entered on this schedule.

From Individual or Entity? Indicate whether the contributor is an individual or an entity.

Contributions from Out of State Political Committees *(These fields will be activated only if "Entity" is selected for the type of contributor.)*

Is the Contributor an out of state PAC? Check this box only if the contributor is an out-of-state political committee (PAC). Certain restrictions apply to contributions from out-of-state PACs. The fact that a political committee has a mailing address outside of Texas does not mean that the committee is an out-of-state PAC for purposes of these restrictions. A political committee that has a campaign treasurer appointment on file in Texas is NOT an out-of-state PAC. A political committee that makes most of its political expenditures outside of Texas may be an out-of-state PAC. A political committee must determine if it is an out-of-state PAC.

PAC FEC #: If the out-of-state PAC is registered with the Federal Election Commission (FEC), enter the PAC's FEC identification number (FEC #).

If you do not have an FEC # for the out-of-state PAC, you must provide other documentation as explained below.

Browse to Upload PDF. Attach a copy of one of the following required documents in PDF format to be included with your report:

If you accept over \$500 in a reporting period from an out-of-state PAC (including pledges or loans from sources other than financial institutions that have been in business for more than a year), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a written statement, certified by an officer of the out-of-state PAC, listing the full name and address of each person who contributed more than \$100 to the out-of-state PAC during the 12 months immediately preceding the contribution.

If you accept \$500 or less in a reporting period from an out-of-state PAC (including pledges), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a document listing the committee's name, address and phone number; the name of the person appointing the committee's campaign treasurer; and the name, address and phone number of the committee's campaign treasurer.

NOTE: If your committee accepted contributions from an out-of-state PAC and you do not enter the FEC # or attach a PDF copy of the required information, you must timely file a paper copy of the required information at the time you file your electronic report.

Contribution Date: Enter the date your committee accepted the contribution. [Accepting a contribution](#) is different from receiving a contribution. You accept a contribution when you decide to accept it rather than reject it. This may or may not be the same day that you receive the contribution. A decision to accept a contribution must be made by the end of the reporting period during which the contribution is received.

Contribution Amount: Enter the amount of the contribution.

Itemize box: Checking this box indicates that this contribution will be itemized on Schedule A1. The automatic default is to itemize. Your committee is required to itemize contributions that exceed \$50 in the aggregate from a single contributor (or [\\$100 if committee qualifies](#)). If your committee accepted two or more monetary contributions from the same person, the total of which exceeds \$50 (or [\\$100 if committee qualifies](#)), enter each contribution separately and be sure the box is checked for each entry.

Contributions of \$50 or less (or [\\$100 if committee qualifies](#)). Although you are not required to do so, you may also itemize on Schedule A1 monetary contributions that do not exceed \$50 (in the aggregate) for the reporting period. If you do not itemize monetary contributions of \$50 and less on Schedule A1 (or [\\$100 if committee qualifies](#)), you must total all such contributions and enter the lump sum total on the Schedule Subtotals page of this report. If you enter information about such contributions here and remove the check from the "Itemize" box, the filing application will include the amount on the Totals page but the entry will not appear on Schedule A1.

Contributor Name (First, Last, Title, Suffix; or Entity Name): Enter the [full name](#) of the contributor. If the contributor is an individual, enter the full name,

first, last, and suffix (Jr., III, etc.) if applicable (title is optional). If the contributor is an entity, enter the full name of the entity.

Contributor Address (Street Address, Country, City, State, Zip Code): Enter the complete address of the contributor.

Contributor Principal Occupation and Employer Information *(These fields will be activated only if "Individual" is selected for the type of contributor.)*

Principal Occupation: You must enter the contributor's principal occupation in this field.

Employer (Optional): You may enter the employer of the contributor in this field.

GPAC: Schedule C1

NEW! Enter only incoming **monetary** corporate or labor organization contributions on Schedule C1. (Non-monetary (in-kind) corporate or labor organization contributions are now entered on Schedule C2.)

Schedule C1 and C2 are only for general-purpose committees that support or oppose measures *exclusively*. Other general-purpose committees that receive support from [corporations](#) or labor organizations to establish or administer the committee or to solicit contributions to the committee from the employees, stockholders, or members of the corporation or labor organization and their families use Schedules C3 and C4 to disclose such support.

Schedule C1 is used by political committees that support or oppose measures exclusively to itemize all monetary [political contributions](#) accepted from [corporations](#) or labor organizations during this reporting period. You must itemize all such corporate or labor organization monetary contributions, regardless of the amount, on this schedule. If your committee accepted other types of incoming funds (such as loans or interest) or non-monetary contributions (such as in-kind contributions or pledges), enter them on the applicable schedules associated with the categories shown on the **Worksheet Summary** page.

Contributions List: After you enter and save your first corporate or labor organization contribution, the filing application will begin a list of all

contributions entered on Schedule C1 for this report. The list will display columns showing pertinent information for each contribution:

You may also use the Memo button to provide additional explanation regarding contribution(s) entered on this schedule.

Contribution Date: Enter the date your committee accepted the contribution. [Accepting a contribution](#) is different from receiving a contribution. The committee accepts a contribution when the determination is made to accept it rather than reject it. This may or may not be the same day that the committee receives the contribution.

Contribution Amount: Enter the amount of the contribution.

Itemize box: This box is always checked on this schedule. Your committee is required to itemize all contributions from corporations and labor organizations, regardless of the amount. If your committee accepted two or more contributions from the same corporate contributor, enter each contribution separately.

You must also itemize all loans that your committee accepted during the reporting period from [financial institutions](#) regardless of the amount.

NOTE: Only a general-purpose committee for *supporting or opposing measures exclusively* may accept a loan from a [corporation](#) other than a financial institution that has been legally engaged in the business of making loans for more than one year.

Loans List: After you enter and save your first loan, the filing application will begin a list of all loans entered on Schedule E for this report. The list will display columns showing pertinent information for each loan:

Loans from Out of State Political Committees *(These fields will be activated only if "Entity" is selected for the type of lender.)*

Is the Lender an out of state PAC? Check this box only if the lender is an out-of-state political committee (PAC). Certain restrictions apply to contributions (including loans) from out-of-state PACs. The fact that a political committee has a mailing address outside of Texas does not mean that the committee is an out-of-state PAC for purposes of these restrictions. A political committee that has a campaign treasurer appointment on file in Texas is NOT an out-of-state PAC. A political committee that makes most of its political expenditures outside of Texas may be an out-of-state PAC. A political committee must determine if it is an out-of-state PAC.

If you do not have an FEC # for the out-of-state PAC, you must provide other documentation as explained below.

Browse to Upload PDF. Attach a copy of one of the following required documents in PDF format to be included with your report:

If you accept over \$500 in a reporting period from an out-of-state PAC (including pledges or loans from sources other than financial institutions that have been in business for more than a year), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a written statement, certified by an officer of the out-of-state PAC, listing the full name and address of each person who contributed more than \$100 to the out-of-state PAC during the 12 months immediately preceding the contribution.

If you accept \$500 or less in a reporting period from an out-of-state PAC (including pledges), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a document listing the committee's name, address and phone number; the name of the person appointing the committee's campaign treasurer; and the name, address and phone number of the committee's campaign treasurer.

NOTE: If your committee accepted loans from an out-of-state PAC and you do not enter the FEC # or attach a PDF copy of the required information, you must timely file a paper copy of the required information at the time you file your electronic report.

Credits List: After you enter and save your first credit/gain/refund/returned contribution or interest, the filing application will begin a list of all credits/gains/refunds/returned contributions or interest entered on Schedule K for this report. See [Expenditures Made by Credit Card](#) for more information.

Schedule F1 is used by a general-purpose committee to itemize outgoing political payments made from political contributions that exceed \$100 to one individual or entity during the reporting period. Itemize box: Checking this box indicates that this payment will be itemized on Schedule F1. The automatic default is to itemize. Payments of \$100 or less. Although you are not required to do so, you may also itemize on Schedule F1 political payments to a single payee that do not exceed \$100 for the reporting period. Expenditure Purpose. *You must disclose the purpose of the expenditure in two parts: Category and Description. Merely disclosing the category of goods, services, or other thing of value for which the expenditure is made does not adequately describe the purpose of an expenditure.*

Examples of Acceptable Ways to Report Expenditure Purpose

Category: Select a category of goods, services, or other thing of value for which the political payment is made. If none of the listed categories apply, select "Other" and enter your own category.

Description: Enter a brief statement or description of the committee activity that is conducted by making the political payment. The brief statement or description must include the item or service purchased and must be sufficiently specific, when considered within the context of the description of the category, to make the reason for the expenditure clear. State whether the expenditure was to support or oppose a candidate, officeholder, political party, or ballot measure, and identify the candidate, officeholder, political party, or ballot measure. If the payment was a contribution to a candidate or officeholder, or to another committee, enter "political contribution" and identify the recipient.

Expenditure For Out-of-State Travel? Check this box if the payment was an expenditure for travel outside of the state of Texas. The description of a political payment for out-of-state travel must include additional detailed information. To enter the required information, click on the "Enter Travel Info" button that activates when you check the box. This information will be included in your report on Schedule T.

Example: If your committee made an expenditure to prepare and distribute an endorsement letter in support of a candidate and your committee *did not get the candidate's approval* before you made the expenditure, your committee made a [direct campaign expenditure](#). However, if your committee asked for and received the candidate's approval before making the expenditure, your committee made an [in-kind contribution](#) to the candidate.

GPAC: Schedule I

Schedule I is used to itemize outgoing [non-political](#) expenditure payments made from political contributions, regardless of the amount. If your committee had other types of outgoing funds or activity (such as political expenditures, investment purchases, or unpaid incurred expenditure obligations), or expenditures made by credit card, enter them on the applicable schedules associated with the categories shown on the **Worksheet Summary** page.

A [non-political](#) expenditure is an expenditure that is neither a campaign expenditure nor an officeholder expenditure. **NOTE: As a practical matter, very few expenditures made from political contributions are non-political expenditures.** For instance, expenditures for administrative expenses, banking fees, and professional dues are typically **political** expenditures and should not be disclosed on Schedule I.

NEW! Expenditures Made By Credit Card: Effective September 1, 2015, you must disclose committee expenditures charged to a credit card on Schedule F4 and *not* on this schedule. When your committee pays the credit card bill, you will disclose the payment to the credit card company on the appropriate disbursements schedule. See [Expenditures Made by Credit Card](#) for more information.

If your committee had other types of outgoing funds or activity (such as political payments or unpaid incurred expenditure obligations), enter them on the applicable schedules associated with the categories shown on the **Worksheet Summary** page.

Purchased Investments List: After you enter and save your first investment purchased with political contributions, the filing application will begin a list of all purchased investments entered on Schedule F3 for this report. NEW! Schedule A is now split into two schedules: Schedule A1 and Schedule A2. Enter only incoming **non-monetary** (in-kind) contributions on Schedule A2. (Monetary contributions are now entered on Schedule A1).

Schedule A2 is used by a general-purpose committee to itemize incoming non-monetary (in-kind) [political contributions](#) that exceed \$50 (or [\\$100 if committee qualifies](#)) from one person during the reporting period. A corporation or labor organization may provide monetary or non-monetary support to a general-

purpose committee to: 1) finance the establishment or administration of a general-purpose committee, or 2) solicit contributions to a general-purpose committee from the employees, stockholders, or members of the corporation or labor organization and their families. Is the Contributor an out of state PAC? Check this box only if the contributor is an out-of-state political committee (PAC). Certain restrictions apply to contributions from out-of-state PACs. The fact that a political committee has a mailing address outside of Texas does not mean that the committee is an out-of-state PAC for purposes of these restrictions. A political

committee that has a campaign treasurer appointment on file in Texas is NOT an out-of-state PAC. A political committee that makes most of its political expenditures outside of Texas may be an out-of-state PAC. A political committee must determine if it is an out-of-state PAC.

PAC FEC #: If the out-of-state PAC is registered with the Federal Election Commission (FEC), enter the PAC's FEC identification number (FEC #).

If you do not have an FEC # for the out-of-state PAC, you must provide other documentation as explained below.

Browse to Upload PDF. Attach a copy of one of the following required documents in PDF format to be included with your report:

If you accept over \$500 in a reporting period from an out-of-state PAC (including pledges or loans from sources other than financial institutions that have been in business for more than a year), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a written statement, certified by an officer of the out-of-state PAC, listing the full name and address of each person who contributed more than \$100 to the out-of-state PAC during the 12 months immediately preceding the contribution.

If you accept \$500 or less in a reporting period from an out-of-state PAC (including pledges), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a document listing the committee's name, address and phone number; the name of the person appointing the committee's campaign treasurer; and the name, address and phone number of the committee's campaign treasurer.

NOTE: If your committee accepted contributions from an out-of-state PAC and you do not enter the FEC # or attach a PDF copy of the required information,

you must timely file a paper copy of the required information at the time you file your electronic report.

Contribution Date: Enter the date your committee *accepted* the non-monetary (in-kind) contribution. [Accepting a contribution](#) is different from receiving a contribution. A decision to accept a contribution must be made by the end of the reporting period during which the contribution is received.

Contribution Amount: Enter the fair market value of the non-monetary (in-kind) contribution.

Itemize box: Checking this box indicates that this in-kind contribution will be itemized on Schedule A2. The automatic default is to itemize. Your committee is required to itemize contributions that exceed \$50 in the aggregate from a single contributor (or [\\$100 if committee qualifies](#)). If your committee accepted two or more non-monetary (in-kind) contributions from the same person, the total of which exceeds \$50 (or [\\$100 if committee qualifies](#)), enter each contribution separately and be sure the box is checked for each entry.

Contributions of \$50 or less (or [\\$100 if committee qualifies](#)). Although you are not required to do so, you may also itemize on Schedule A2 non-monetary (in-kind) contributions that do not exceed \$50 (in the aggregate) for the reporting period. If you do not itemize non-monetary (in-kind) contributions of \$50 and less on Schedule A2 (or [\\$100 if committee qualifies](#)), you must total all such contributions and enter the lump sum total on the Schedule Subtotals page of this report. If you enter information about such contributions here and remove the check from the "Itemize" box, the filing application will include the amount on the Totals page but the entry will not appear on Schedule A2.

GPAC: Schedule B

NEW! As always, you must disclose a [pledge](#) on Schedule B in the reporting period in which your committee accepted the pledge. Effective January 1, 2015, you must also disclose the receipt of the pledged contribution on Schedule A1 (used for monetary contributions) or A2 (used for non-monetary contributions), as applicable, in the reporting period in which your committee actually receives the pledged money or thing of value. If the pledge is accepted and received in the same reporting period, it is no longer a pledge disclosed here; it becomes a contribution disclosed on the applicable contributions schedule.

Example: In June a supporter promises that he will give a committee \$1,000 in the last week before the November election. The committee accepts his promise. The committee must disclose the pledge on its July 15 report covering the period in which it accepted the pledge. (Note: When the committee receives the \$1,000, the committee will disclose it as a monetary contribution on Schedule A1 of the report covering the period in which it received the money. Also, if the committee never receives the \$1,000, the committee does not correct/amend its report to delete the entry for the pledge.)

Schedule B is used by a general-purpose committee to itemize [pledges](#) (monetary or in-kind) that exceed \$50 from one person during the reporting period. If your committee accepted other types of incoming funds

or activity (such as monetary contributions, non-monetary (in-kind) contributions, corporate or labor organization contributions or support, loans, or interest) enter them on the applicable schedules associated with the categories shown on the **Worksheet Summary** page.

Notice to Candidates and Officeholders: If the committee makes political expenditures or accepts political contributions in support of a candidate or officeholder, the committee must provide written notice to the candidate or officeholder who benefits from the committee's activity. The notice must be given before the end of the reporting period during which the committee made the political expenditures or accepted the political contributions. The notice must inform the person that the committee has made political expenditures or accepted political contributions on his or her behalf, and include the full name and address of the political committee and its campaign treasurer and an indication that the committee is a general-purpose committee. NOTE: Such notices are not required if the committee is the principal political committee of a political party.

Corporate or Labor Organization Pledged Contributions: Do not enter on this schedule pledged contributions your committee accepted from [corporations](#) or labor organizations. A political committee that *supports or opposes measures exclusively* may accept pledged contributions from corporations or labor organizations and must report such pledged contributions on Schedule D.

Pledge of Personal Services or Travel: You are not required to include pledges of an individual's personal services or travel if the individual receives no compensation from any source for the services.

Pledged Contributions List: After you enter your first pledged contribution, the filing application will begin a list of all contributions entered on Schedule B for this report. The list will display pertinent information for each contribution:

The pledged contributions list will be the first screen you see each time you return to this schedule. From this list, you will be able to Edit or Delete a previously entered pledge. To enter new pledges, click the Add button located

below the list. You can also sort the list in ascending or descending order by clicking on the column header in which you are interested or search the list by entering the search word in the field at the top of each column. You may also use the Memo button to provide additional explanation regarding pledge(s) entered on this schedule.

Contributions from Out of State Political Committees *(These fields will be activated only if "Entity" is selected for the type of contributor.)*

Is the Contributor an out of state PAC? Check this box only if the contributor is an out-of-state political committee (PAC). Certain restrictions apply to contributions from out-of-state PACs. The fact that a political committee has a mailing address outside of Texas does not mean that the committee is an out-of-state PAC for purposes of these restrictions. A political committee that has a campaign treasurer appointment on file in Texas is NOT an out-of-state PAC. A political committee that makes most of its political expenditures outside of Texas may be an out-of-state PAC. A political committee must determine if it is an out-of-state PAC.

PAC FEC #: If the out-of-state PAC is registered with the Federal Election Commission (FEC), enter the PAC's FEC identification number (FEC #).

If you do not have an FEC # for the out-of-state PAC, you must provide other documentation as explained below.

Browse to Upload PDF. Attach a copy of one of the following required documents in PDF format to be included with your report:

If you accept over \$500 in a reporting period from an out-of-state PAC (including pledges or loans from sources other than financial institutions that have been in business for more than a year), you must include one of the following with your report:

- a copy of the out-of-state PAC's statement of organization filed as required by law with the Federal Election Commission (FEC) and certified by an officer of the out-of-state PAC; or
- a written statement, certified by an officer of the out-of-state PAC, listing the full name and address of each person who contributed more than \$100 to the

out-of-state PAC during the 12 months immediately preceding the contribution.

If you accept \$500 or less in a reporting period from an out-of-state PAC (including pledges), you must include one of the following with your report:

- a document listing the committee's name, address and phone number; the name of the person appointing the committee's campaign treasurer; and the name, address and phone number of the committee's campaign treasurer.

Pledge Date: Enter the date your committee *accepted* the [pledge](#). *Accepting* a pledge is different from receiving a contribution. You accept a pledge when you decide to accept it rather than reject it. Note that your committee must accept a pledge before you are required to report it.

Pledge accepted and received in different reporting periods: If your committee accepts a pledge in one reporting period and then *receives* the pledged money or other thing of value in a later reporting period, you will disclose the pledge on this schedule in the reporting period in which you accepted the pledge. You will also disclose the receipt of the pledged money or other thing of value on the appropriate incoming funds schedule (such as monetary or non-monetary contributions, or loans) in the reporting period in which you received the pledge.

Pledge received in same reporting period as accepted: If your committee receives a pledge in the same reporting period in which it was accepted, then you will not report the pledge on this schedule. You will only disclose the contribution on the appropriate incoming funds schedule (such as monetary or non-monetary contributions, or loans). The date of the contribution will be the date your committee accepted the pledged contribution, regardless of when the pledged contribution was actually received.

Pledge accepted but never received: You will disclose the pledge on this schedule in the reporting period in which your committee accepted the pledge. If your committee never actually receives the pledge, it is not necessary to correct your report to delete the pledge.

Example: In June a supporter promises that he will give a committee \$1,000 in the last week before the November election. The committee accepts his promise. The committee must disclose the pledge on its July 15 report covering the period in which it accepted the pledge. (Note: When the committee receives the \$1,000, the committee will disclose it as a monetary contribution on Schedule A1 of the report covering the period in which the committee received the money. Also, if the committee never receives the \$1,000, the committee does not correct/amend its report to delete the entry for the pledge.)

Pledge Amount: Enter the amount of the pledge or the fair market value of any pledged goods or services or other thing of value, as applicable.

Itemize box: Checking this box indicates that this pledge will be itemized on Schedule B. The automatic default is to itemize. If your committee accepted two or more pledges from the same person, the total of which exceeds \$50, enter each pledge separately and be sure the box is checked for each entry.

Pledges of \$50 or less: Although you are not required to do so, you may also itemize on Schedule B pledges that do not exceed \$50 (in the aggregate) for the reporting period. If you do not itemize pledges of \$50 and less on Schedule B, you must total all such pledges and enter the lump sum total on the Schedule Subtotals page of this report. If the contributor is an individual, enter the full name, first, last, and suffix (Jr., III, etc.) if applicable (title is optional). Date: Enter the date of the monetary payment made by the corporation or labor organization in support of your committee.

Payments Made By Credit Card: There is a special reporting rule for payments made by credit card. For reports due 30 days and 8 days before an election (pre-election reports) and for runoff reports, the date of a payment made by credit card is the date the credit card is used. For other reports, the date of a payment made by credit card is *either* the date of the charge *or* the date the credit card statement is received. *A filer can never go wrong by disclosing the date of the payment as the date of the charge.*

Amount: Enter the amount of the payment made by the corporation or labor organization in support of your committee.

Itemize box: This box is always checked on this schedule. Your committee is required to itemize all monetary support from corporations and labor

organizations, regardless of the amount. If your committee accepted support in two or more payments from the same corporation or labor organization, enter each payment separately.

NEW! Enter only incoming **non-monetary** corporate or labor organization support on Schedule C4. (Monetary corporate or labor organization support is now entered on Schedule C3.)

Schedules C3 and C4 are only for a general-purpose committee that accepted corporate or labor organization support. Other general-purpose committees that *support or oppose measures exclusively* and accept monetary and non-monetary (in-kind) contributions from corporations or labor organizations use Schedules C1 and C2 to disclose such corporate or labor organization contributions.

Schedule C4 is used to itemize all [non-monetary support](#) provided by [corporations](#) or labor organizations to:

- finance the establishment or administration of your committee; or
- finance the solicitation of political contributions to your committee from the employees, stockholders, or members of the corporation or labor organization and their families.

It is the date on which the obligation to make a payment is incurred, as long as the amount of the payment is “readily determinable”. Generally, the amount of a payment is known (and therefore readily determinable) when the obligation is incurred, but in some cases the amount is not known until the receipt of a bill.

Amount: Enter the fair-market value of the [non-monetary support](#) provided to your committee by a corporation or labor organization.

NEW! As always, you must disclose a corporate or labor organization [pledge](#) on Schedule D in the reporting period in which your committee accepted the pledge. Effective January 1, 2015, you must also disclose the receipt of the pledged corporate or labor organization contribution on Schedule C1 (used for monetary corporate or labor organization contributions) or C2 (used for non-monetary corporate or labor organization contributions), as applicable, in the reporting period in which your committee actually receives the pledged money or thing of value. If the pledge is accepted and received in the same reporting period, it is no longer a pledge disclosed here; it becomes a contribution disclosed on the applicable contributions schedule.

Example: In June a corporate supporter promises to give a committee \$1,000 in the last week before the November election. The committee accepts the corporation's promise. The committee must disclose the pledge on its July 15 report covering the period in which the committee accepted the pledge. (Note: When the committee receives the \$1,000, the committee will disclose it as a monetary corporate contribution on Schedule C1 of the report covering the period in which the committee received the money. Also, if the committee never receives the \$1,000, the committee does not correct/amend its report to delete the entry for the pledge.)

Effective January 1, 2015, you must also disclose when your committee actually pays the incurred expenditure. You must disclose the outgoing payment on Schedule F1 or I as applicable, in the reporting period in which your committee pays the expenditure.

NEW! Expenditures Made By Credit Card: Effective September 1, 2015, you must disclose committee expenditures charged to a credit card on Schedule F4 and *not* on this schedule. When your committee pays the credit card bill, you will disclose the payment to the credit card company on the appropriate disbursements schedule. See [Expenditures Made by Credit Card](#) for more information.

Schedule F2 is used by a general-purpose committee to itemize political expenditures the committee has incurred but not yet paid that exceed \$100 to one individual or entity during the reporting period. Also use this schedule to itemize any non-political expenditures your committee has incurred but not yet paid during the reporting period, regardless of the amount. If your committee had other outgoing funds (such as investment purchases or political payments from political funds), or expenditures made by credit card, enter them on the

applicable schedules associated with the categories shown on the **Worksheet Summary** page.

Notice to Candidates and Officeholders: If the committee makes political expenditures or accepts political contributions in support of a candidate or officeholder, the committee must provide written notice to the candidate or officeholder who benefits from the committee's activity. The notice must be given before the end of the reporting period during which the committee made the political expenditures or accepted the political contributions. The notice must inform the person that the committee has made political expenditures or accepted political contributions on his or her behalf, and it must include the full name and address of the political committee and its campaign treasurer and an indication that the committee is a general-purpose committee). NOTE: Such notices are not required if the committee is the principal political committee of a political party.

Unpaid Incurred Obligations List: After you enter and save your first unpaid incurred obligation, the filing application will begin a list of all unpaid incurred obligations entered on Schedule F2 for this report. The list will display columns showing pertinent information for each payee:

Schedule	Payee	Amount	Date	Travel	Direct Expenditure to benefit C/OH?	Action

From this list, you will be able to Edit or Delete a previously entered unpaid incurred obligation. To enter a new unpaid incurred obligation, click the Add button located below the list. You can also sort the list in ascending or descending order by clicking on the column header in which you are interested or search the list by entering the search word in the field at the top of each column. You may also use the Memo button to provide additional explanation regarding unpaid incurred obligation(s) entered on this schedule.

Expense Amount: Enter the amount of the incurred expenditure obligation.

Itemize box: Checking this box indicates that this incurred expenditure will be itemized on Schedule F2. The automatic default is to itemize. Your committee required to itemize incurred political expenditures that exceed \$100 (in the aggregate) to a single payee. Your committee is required to itemize any non-political expenditure, regardless of the amount. If your committee incurred two or more political expenditures to the same payee, the total of which exceeded \$100, enter each incurred political expenditure obligation separately and be sure the box is checked for each entry.

Incurred Political Expenditure Obligations of \$100 or less. Although you are not required to do so, you may also itemize on Schedule F2 incurred political expenditures to a single payee that do not exceed \$100 for the reporting period. If you do not itemize incurred political expenditures of \$100 and less on Schedule F2, you must total all such incurred political expenditures and enter the lump sum total on the Totals page of this report. If you enter information about such incurred political expenditures here and remove the check from the "Itemize" box, the filing application will include the amount on the Totals page but the entry will not appear on Schedule F2.

Type of Expenditure: Select whether the incurred expenditure was political or [non-political](#). **NOTE: As a practical matter, very few expenditures made from political contributions are non-political expenditures.** For instance, expenditures for administrative expenses, banking fees, and professional dues are typically **political** expenditures.

Check if Austin, TX officeholder living expense: For expenditures made on or after July 1, 2014, check this box only if the incurred expenditure is an [officeholder expense](#) for living in Austin, Texas.

Expenditure Purpose. *You must disclose the purpose of the expenditure in two parts: Category and Description. Merely disclosing the category of goods, services, or other thing of value for which the expenditure is made does not adequately describe the purpose of an expenditure.*

Examples of Acceptable Ways to Report Expenditure Purpose

Category: Select a category of goods, services, or other thing of value for which the incurred expenditure is made. If none of the listed categories apply, select "Other" and enter your own category.

Description: Enter a brief statement or description of the committee activity that is conducted by making the incurred expenditure. The brief statement or description must include the item or service purchased and must be sufficiently specific, when considered within the context of the description of the category, to make the reason for the expenditure clear. State whether the expenditure was to support or oppose a candidate, officeholder, political party, or ballot measure, and identify the candidate, officeholder, political party, or ballot measure. If your incurred expenditure was a contribution to a candidate or officeholder, or to another committee, enter "political contribution" and identify the recipient.

Expenditure For Out-of-State Travel? Check this box if the expenditure was for travel outside of the state of Texas. The description of a political expenditure for out-of-state travel must include additional detailed information. To enter the required information, click on the "Enter Travel Info" button that activates when you check the box. This information will be included in your report on Schedule T.

Example: If your committee made an expenditure to prepare and distribute an endorsement letter in support of a candidate and your committee *did not get*

the candidate's approval before you made the expenditure, your committee made a [direct campaign expenditure](#). However, if your committee asked for and received the candidate's approval before making the expenditure, your committee made an [in-kind contribution](#) to the candidate.

GPAC: Schedule F4

NEW! Schedule F4 is a new schedule used to disclose information about expenditures made by credit card. Effective September 1, 2015, you must disclose committee expenditures charged to a credit card on this schedule and identify the individual, entity, or vendor who receives payment from the credit card company. (When your committee pays the credit card bill, you will disclose the payment to the credit card company on the appropriate disbursements schedule.)

Schedule F4 is used to itemize expenditures your committee made by credit card that exceed \$100 to one individual or entity during the reporting period. If your committee had outgoing funds (such as investment purchases or political payments from political funds), or obligations that your committee has incurred but not yet paid, enter them on the applicable schedules associated with the categories shown on the Worksheet Summary page. See [Expenditures Made by Credit Card](#) for more information.

Notice to Candidates and Officeholders: If your committee makes political expenditures or accepts political contributions in support of a candidate or officeholder, your committee must provide written notice to the candidate or officeholder who benefits from your committee's activity. The notice must be given before the end of the reporting period during which your committee made the political expenditures or accepted the political contributions. The notice must inform the person that your committee has made political expenditures or accepted political contributions on his or her behalf, and it must include the full name and address of the political committee and its campaign treasurer and an indication that the committee is a specific-purpose committee. NOTE: Such notices are not required if your committee is the principal political committee of a political party.

GPAC: Schedule Subtotals

Schedule Subtotals is a new page of the reporting form intended to supplement the report totals (cover sheet, page 2). This page displays the calculated **Subtotal** for each report schedule, based on the amounts you entered on the schedule entry screen (reported itemized and reported unitemized) and any other unitemized total you enter as a lump sum amount here (user entered lump sum unitemized).

You are always required to itemize or report detailed information for contributions, expenditures, and loans over a certain monetary threshold. The thresholds vary depending on the type of activity (see "Itemization Thresholds" below). For smaller contributions, expenditures, and loans that do not exceed the threshold (in the aggregate from a single source), you may report them in one of two ways: 1) add them all together and enter the unitemized total as a lump sum; OR 2) enter the detailed information on the schedule entry screen (and choose to itemize or not).

Note: If your committee qualifies and chooses to use the [\\$100 itemization threshold](#) for contributions disclosed in this report, you must check the Higher Contribution Itemization Threshold box on the **Cover Sheet** page.

Itemized transactions: You chose to enter the detailed information on the schedule entry screen AND the "itemize" box is checked. The filing application calculates the sum of the entries for each schedule and the amount is displayed in the **Reported Itemized** column for the applicable schedule.

Unitemized transactions: Depending on your choice of entry, your unitemized transactions are shown under one of the following columns:

Reported Unitemized – You chose to enter the detailed information on the schedule entry screen and the "itemize" box is NOT checked. The transaction will remain unitemized, unless you manually check the "itemize" box or you enter additional transactions from/to the same source which cause the aggregate total to exceed the itemization threshold.

User Entered Lump Sum Unitemized – You chose not to enter the detailed information, but rather to enter the total of all your unitemized transactions as a lump sum for the applicable schedule. You must manually enter the lump sum total. DO NOT INCLUDE in a lump sum total any transactions for which you chose to enter detailed information.

Itemization Thresholds for Each Schedule: *To return to the instructions for each schedule, click on the applicable link.*

[Monetary Political Contributions \(A1\)](#) – You are not required to itemize contributions (in the aggregate from a single source) of \$50 or less (or [\\$100 or less if committee qualifies](#)). If not entered on this schedule, you must enter a lump sum.

GPAC: Report Totals (Cover Sheet, Page 2)

You are required to include in your committee's campaign finance report the following total amounts of contributions, expenditures, and loans:

1. Total Unitemized Political Contributions (other than pledges, loans or guarantees of loans): *(The total amount is automatically calculated based on your entries.)* This is the sum total of the unitemized contribution amounts shown on the Subtotals page under **Monetary Contributions (A1) and Non-Monetary (In-kind) Contributions (A2)** for:

Reported Unitemized (contributions of \$50 or less (or [\\$100 or less if committee qualifies](#)) in the aggregate from a contributor for which you entered detailed information on the schedule entry screen and did not check the "itemize" box); plus

User Entered Lump Sum Totals (contributions of \$50 or less (or [\\$100 or less if committee qualifies](#)) in the aggregate from a contributor which you entered as a lump sum instead of detailing on the schedule entry screen).

Note: If your committee qualifies and chooses to use the [\\$100 itemization threshold](#) for contributions disclosed in this report, you must check the Higher Contribution Itemization Threshold box on the **Cover Sheet** page.

2. Total Political Contributions (other than pledges, loans or guarantees of loans): *(The total amount is automatically calculated based on your entries.)* This is the sum total of all political contributions you accepted in the reporting period. It includes the total amount shown on Line 1 (total unitemized contributions of \$50 or less or [\\$100 or less if committee qualifies](#)) plus the total **Reported Itemized** (contributions which you itemized on the

schedule entry screen) amounts shown on the Subtotals page under **Monetary Contributions (A1), Monetary Contributions from Corporation or Labor Organization (C1), Non-Monetary (In-kind) Contributions (A2), Non-monetary (In-kind) Contributions from Corporation or Labor Organization (C2), Monetary Support from Corporation or Labor Organization (C3), and Non-monetary Support from Corporation or Labor Organization (C4).**

3. Total Unitemized Political Expenditures of \$100 or less: *(The total amount is automatically calculated based on your entries.)* This is the sum total of the unitemized political expenditure amounts shown on the Subtotals page under **Political Expenditures (F1), Unpaid Incurred Obligations (F2), and Expenditures Made by Credit Card (F4)** for:

Reported Unitemized (expenditures of \$100 or less in the aggregate to a payee for which you entered detailed information on the schedule entry screen and did not check the "itemize" box); plus

User Entered Lump Sum Totals (expenditures of \$100 or less in the aggregate to a payee which you entered as a lump sum instead of detailing on the schedule entry screen).

It includes the total amount shown on Line 3 (total unitemized political expenditures of \$100 or less) plus the total **Reported Itemized** (expenditures which you itemized on the schedule entry screen) amounts shown on the Subtotals page under **Political Expenditures (F1), Unpaid Incurred Obligations (F2), and Expenditures Made by Credit Card (F4).**

Total Political Contributions Maintained as of the Last Day of the Reporting Period: *(The total amount is a required field that **you must manually enter here.**)* Enter the total amount of political contributions, including interest or other income on those contributions, maintained as of the last day of the reporting period. Enter "0.00" if your committee does not maintain political contributions, including interest or other income earned on those contributions, as of the last day of the reporting period. (This is different from the total contributions reported on Line 2. Only contributions accepted during the period covered by the report are entered on Line 2.)

The law requires you to disclose the total amount of political contributions accepted, including interest or other income on those contributions, maintained in one or more accounts in which political contributions are deposited as of the last day of the reporting period.

The "total amount of political contributions maintained" includes: the total amount of political contributions maintained in one or more accounts, including the balance on deposit in banks, savings and loan institutions and other depository institutions; the present value of any investments that can be readily converted to cash, such as certificates of deposit, money market accounts, stocks, bonds, treasury bills, etc.; and the balance of political contributions accepted and held in any online fundraising account over which the filer can exercise control by making a withdrawal, expenditure, or transfer.

(This is different from the information reported on Loans (Schedule E). Only loans accepted during the period covered by the report are entered on Schedule E.)

7. Total Unitemized Pledges: *(The total amount is automatically calculated based on your entries. Note: A printed copy of your report will display this total on Schedule B and not on Cover Sheet page 2.)* This is the sum total of the unitemized pledge amounts shown on the Subtotals page under **Pledged Contributions (B)** for:

Reported Unitemized (pledges of \$50 or less in the aggregate from a contributor for which you entered detailed information on the schedule entry screen and did not check the "itemize" box); plus

User Entered Lump Sum Totals (pledges of \$50 or less in the aggregate from a contributor which you entered as a lump sum instead of detailing on the schedule entry screen).

8. Total Unitemized Loans: *(The total amount is automatically calculated based on your entries. Note: A printed copy of your report will display this total*

on Schedule E and not on Cover Sheet page 2.) This is the sum total of the unitemized loan amounts shown on the Subtotals page under **Loans (E)** for:

Reported Unitemized (loans of \$50 or less in the aggregate from a lender (other than a [financial institution](#)) for which you entered detailed information on the schedule entry screen and did not check the "itemize" box); plus

GPAC: Report Error Check

Report Error Check is a tool to assist you in fulfilling your reporting requirements. The Error Check details errors and omissions in the data entry; it does not verify that the report has satisfied all legal requirements. You should review the applicable COA-EFS Guide and the filing application PAGE HELP to ensure that ALL required information is included before you file your report.

If the Error Check finds errors in your report, the errors will be listed for you in a table on this screen. You can also click the View as PDF button to view the error list as an Adobe Acrobat .PDF file (requires Adobe Acrobat reader or equivalent viewer to view) or click the View as Excel button to view the error list in a Microsoft Excel spreadsheet.

The errors list includes the following information:

Severity: The error records are ranked in terms of severity:

HIGH: These are major omissions in information that indicate non-compliance with certain reporting requirements (such as not entering the amount of total political contributions maintained as of the last day of the reporting period under Report Totals). This information is considered very important and you **MUST CORRECT** these errors in order to file the report.

LOW or MEDIUM: These are omissions or errors in other information that indicate non-compliance with certain reporting requirements (such as not entering address information for a contributor or payee). You should correct these errors to be in legal compliance with your reporting requirements. You may, however, choose to accept these errors and file the report as is. **NOTE:**

If you file the report with errors, you could be subject to a sworn complaint for reporting violations.

Tracking Information: This column shows the transaction (contribution, loan, etc.) containing the error and other information to help you identify the transaction.

Error Record: This column shows the name of the data field containing the error and provides a link directly to the entry screen where the error is located. After correcting the error and saving the transaction, you may run the Error Check again by clicking the **Check For Errors** link in the Report Menu navigation sidebar always displayed down the left side of your screen.

Message: This column provides a brief explanation of the required information that is missing or in error.

GPAC: Correction Affidavit

A filer who files a corrected report must submit a **Correction Affidavit**. The affidavit must identify the information that has changed. The affidavit also provides check boxes for your use in swearing to certain statutory provisions regarding the corrected report, if applicable.

Explanation of Correction: Use this box to explain why there were error(s) on the original report, what information is being corrected, and how the new information is different from the information on the original report. You may also use this area to request a waiver or reduction of a late-filing penalty for this correction, if any, and state the basis of your request.

Sworn Statement Check Boxes: Check the box next to any and all applicable statements.

For Any Corrected Report: Check this box if you are filing this corrected report not later than the 14th business day after the date you learned that the report as originally filed is inaccurate or incomplete and any error or omission in the report as originally filed was made in good faith.

A correction to an 8th Day Before Election Report must also meet the "14th business day in good faith" statutory provision, however, the corrected report could be subject to a late-filing penalty unless the report as originally filed substantially complies with the applicable law as determined by the City of

Austin. The person responsible for filing the report may request a waiver or reduction of any late-filing penalty assessed.

For Corrections to Semiannual Reports: Effective September 1, 2011, a Semiannual Report (due January 15 or July 15) that is amended/corrected before the eighth day after the original report was filed is considered to have been filed on the date the original report was filed. A Semiannual Report that is amended/corrected on or after the eighth day after the original report was filed is considered to have been filed on the date the original report was filed if: (1) the amendment/correction is made before any complaint is filed with regard to the subject of the amendment/correction; and (2) the original report was made in good faith and without intent to mislead or misrepresent the information contained in the report.

Correction Tables: Any corrections made to this report are listed in a table below according to the type of correction (added, updated, or deleted). Only the applicable table(s) will display. If you make additional changes before you file the report, those changes will be reflected here.

Updated Record Table: This table contains any records you changed in this corrected report that were previously disclosed incorrectly in the original report.

Deleted Record Table: This table contains any records you deleted in this corrected report that were previously disclosed in error in the original report.

Each table includes columns with the following information:

Record Type and Tracking Information: Shows the type of transaction (contribution, loan, expenditure, etc.) that you added, updated, or deleted, and other information to help you identify the transaction.

Record Detail: Shows the specific data you added, updated, or deleted to help you identify the transaction.

GPAC: Dissolution Report Affidavit

You must file a Dissolution report in order to dissolve the committee. Your committee may file a Dissolution report if your committee expects to have no

further reportable activity. There is not a fixed deadline for this report. A Dissolution report terminates the appointment of campaign treasurer (Form GTA) and relieves the campaign treasurer of the duty to file additional reports. (In this case, the Dissolution report serves as the treasurer's termination report.) A Dissolution report does not relieve the campaign treasurer of his or her responsibility for any delinquent reports or outstanding civil penalties. **Remember:** A political committee may not make or authorize political expenditures or accept political contributions without having a campaign treasurer appointment (GTA) on file.

Dissolution Report Affidavit: This page includes the Dissolution report affidavit language. You must agree to and acknowledge the affidavit to indicate that you understand the consequences of filing a Dissolution report. To do so, select the radio button next to the statement, "I agree to and acknowledge the above affidavit."

If your committee intends to have additional campaign activity and is not ready to file a Dissolution report, select the radio button next to the statement, "I do not agree to the above affidavit." You will have some options as to how you wish to continue:

Continue Working on a Different Report Type: (This option is only available if you started the Dissolution report in combination with another report type.) Selecting this option will return you to the "Cover Sheet" screen. From here, you can select "Clear This Report?" if you do not wish to file a Dissolution report at this time.

Go Back to My Reports Page: Selecting this option will return you to the "Manage My Reports" screen without creating the Dissolution report. From here, you can continue working on an in-progress report or start a new report.

Return to Dissolution Report Affidavit: Selecting this option will return you to the Dissolution Report Affidavit screen. From here, you can choose to agree to the Dissolution report affidavit in order to continue with the Dissolution report.

GPAC: Appendix

Change Of Status

A change in political activity may mean that a political committee has changed from a specific-purpose political committee (SPAC) to a general-purpose

political committee (GPAC/MPAC) or vice versa. If this happens, the committee is subject to new filing requirements.

SPAC becoming a GPAC/MPAC. If an SPAC engages in activities that make the committee a GPAC/MPAC, the committee must file a new campaign treasurer appointment (on Form GTA) with the City of Austin before it may accept more than \$500 in total political contributions or make more than \$500 in total political expenditures as a GPAC/MPAC. On Form GTA, the committee may choose whether to file according to the regular filing schedule (filer type GPAC) or monthly filing schedule (filer type MPAC).

In addition to filing Form GTA with the City of Austin, the campaign treasurer of the new GPAC/MPAC must give notice of the change in status to the filing authority with whom the committee filed reports as an SPAC. This notice is due no later than the due date for the next report the committee would have had to file as an SPAC. The notice must state that the committee will file future reports as a GPAC/MPAC and that those reports will be filed with the City of Austin.

GPAC/MPAC becoming an SPAC. A GPAC or MPAC that chooses to limit its activities to the activities of an SPAC must file a new campaign treasurer appointment (on Form STA) with the appropriate filing authority. See "[Where to File an Appointment of Campaign Treasurer](#)" in the PAC guide. Further, the new SPAC may not make expenditures in an election supporting or opposing a candidate for a statewide office, the State Legislature, the State Board of Education, a multi-county district office, or a judicial district office unless it has had its appointment of campaign treasurer as an SPAC on file for at least 30 days before the election.

In addition to filing a new Form STA with the appropriate filing authority, the campaign treasurer of the new SPAC must give notice to the City of Austin of the change in status. This notice must be given to the City of Austin no later than the due date for the next report the committee would have had to file with the City of Austin if the committee had not become an SPAC. The notice must state that the committee will file future reports as an SPAC and must identify the filing authority with which those reports will be filed.

Alternative Reporting Requirement for Some Committees

For a report due on or after September 1, 2005, a general-purpose committee with less than \$20,000 in total political contributions maintained as of the last day of the preceding reporting period may choose to itemize incoming monetary political contributions that exceed \$100 (instead of \$50) from one person during the reporting period. If your committee qualifies for the higher itemization threshold, you may select it by checking the box on the **Cover Sheet** page of the report.

Reporting Tips to Avoid Common Pitfalls: Outgoing Expenditures

You can never go wrong by disclosing the date the credit card was charged as the expenditure date. For 30-day and 8-day pre-election reports, the expenditure date is the date of the credit card charge, not the date of the credit card bill. For all other reports, the expenditure date may be either the date of the charge or the date of receipt of the credit card bill that includes the expenditure.

If you make an expenditure for goods or services to benefit another candidate, officeholder, or committee, disclose the vendor who sold you the goods or services as the payee. DO NOT disclose as the payee the name of the candidate, officeholder, or committee that benefitted from the expenditure. Include that person's name under the purpose description.

Did a staff worker make political payment(s) out of his or her personal funds? How you disclose the payment(s) depends on two things: 1) the aggregate total of those payments in the reporting period; and 2) whether or not you reimburse the staff worker in the same reporting period.

Staff Reimbursement Examples:

Case #1: The payment out of the staff worker's personal funds does not exceed \$5,000 in the reporting period AND you reimburse the staff worker from political funds in the same reporting period – You will simply itemize the payment (if over the \$100 itemization threshold) on Schedule F1 as if you made the expenditure directly to the vendor out of your political funds, with the name of the vendor who sold the goods or services as the payee for the expenditure. DO NOT disclose as the payee the name of your staff worker.

Case #2: The payment(s) out of the staff worker's personal funds are over \$5,000 in the aggregate in the reporting period AND you reimburse the staff

worker from political funds in the same reporting period – You will use a 3-step process, disclosing everything on the same report: (1) On Schedule E, disclose the total amount paid from the staff worker's personal funds as a loan from the staff worker to your campaign; (2) On Schedule F1, itemize the payments made by your staff worker separately, with the names of the vendors who sold the goods or services to your staff worker as the payees for the expenditures. DO NOT disclose as the payee the name of your staff worker; and (3) On Schedule F1, disclose the payment to your staff worker for the reimbursement of the loan.

Case #3: The payment(s) out of the staff worker's personal funds do not exceed \$5,000 in the aggregate in the reporting period BUT you reimburse the staff worker from political funds in a different reporting period – You will use a 3-step process, disclosing steps 1 and 2 on the same report and step 3 later, when the reimbursement occurs: (1) On Schedule E, disclose the total amount paid from the staff worker's personal funds as a loan from the staff worker to your campaign; (2) On Schedule F1, itemize the payments made by your staff worker separately, with the names of the vendors who sold the goods or services to your staff worker as the payees for the expenditures. DO NOT disclose as the payee the name of your staff worker; and (3) When you reimburse your staff worker, if ever, disclose on Schedule F1 of the report covering the period in which the reimbursement occurs the payment to your staff worker for the reimbursement of the loan.

Examples Of Expenditures

This list is for illustrative purposes only. It is intended to provide helpful information and to assist filers in reporting the purpose of an expenditure. However, it is not, and is not intended to be, an exhaustive or an exclusive list of how a filer may permissibly report the purpose of an expenditure.

(1) Example: Candidate X is seeking the office of State Representative, District 2000. She purchases an airline ticket from ABC Airlines to attend a campaign rally within District 2000. The acceptable category for this expenditure is “travel in district.” The candidate activity that is accomplished by making the expenditure is to attend a campaign rally. An acceptable brief statement is “airline ticket to attend campaign event.”

(2) Example: Candidate X purchases an airline ticket to attend a campaign event outside of District 2000 but within Texas, the acceptable category is

“travel out of district.” The candidate activity that is accomplished by making the expenditure is to attend a campaign event. An acceptable brief statement is “airline ticket to attend campaign or officeholder event.”

Incurred Expenditure Obligations

The date of an expenditure is not necessarily the date that goods or services are received. It is the date on which you incur the obligation to make a payment, as long as the amount of the payment is "readily determinable." Generally, you know the amount of an expenditure (and therefore it is readily determinable) when the obligation is incurred, but in some cases you may not know the amount until the receipt of a periodic bill. An amount is readily determinable if the vendor can provide the amount at your request.

Example 1: On June 29th, a filer orders political signs. On July 16th, the filer receives the invoice for the signs. The date of the expenditure is June 29th, if on that date the vendor can provide the amount the filer will owe the vendor for the signs. Filers should request a vendor to provide the amount of an obligation at the time the obligation is incurred and disclose that unpaid incurred obligation on Schedule F2 in the July 15 semiannual report covering the period in which the unpaid obligation is incurred. (Note: When the filer makes the payment, he will disclose it as an outgoing payment on Schedule F1 in the report covering the period in which he pays the expenditure.)

Example 2: A filer maintains a campaign office. The filer does not know the cost of the office's June utilities until she receives the periodic monthly bill on July 16th. The filer will not disclose the expense as an unpaid incurred obligation on Schedule F2 in the July 15 semiannual report, since the amount

was not readily determinable until after the end of the semiannual reporting period.

Expenditures Made by Credit Card

Beginning on September 1, 2015, all expenditures made by credit card must be reported on a new schedule: "Expenditures Made by Credit Card" Schedule (F4). This requirement applies to filers of electronic and paper campaign finance reports, including candidates, officeholders, political committees, political parties, and direct campaign expenditure filers.

When a credit card is used to make a reportable expenditure, the expenditure must be reported on the new schedule by identifying the name and address of the vendor who sold the goods or services, **NOT** the credit card company that issued the credit card. The date, amount, and purpose of the expenditure must also be disclosed, in addition to other information.

Once the credit card bill is paid, the payment must also be reported using the appropriate existing disbursement schedule (e.g., Schedule F1, Schedule G, Schedule H, or Schedule I) by identifying the credit card company that receives the payment. The date, amount, and purpose of the payment must also be disclosed, in addition to other information.

Please see the following examples of reporting expenditures made by credit card:

Example 1: Candidate Using Credit Card to Make a Political Expenditure and Using Political Contributions to Pay the Credit Card Bill in the Same Reporting Period:

A candidate for *non-judicial* office uses her credit card to buy \$1,000 in campaign office supplies from an office store. During the same reporting period, the candidate makes a payment from her political contributions account to pay the \$1,000 credit card bill.

To report that activity, the candidate would report all of the following on a campaign finance report (Form C/OH) covering the period in which she made the credit card charge and sent the payment to the credit card company:

- For the credit card charge: a \$1,000 expenditure on the “Expenditures Made by Credit Card” Schedule (F4). The schedule identifies the office store as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Office Overhead/Rental Expense,” and a description as “Campaign Office Supplies.” In Section 9 of the schedule, the box for “Political” is also checked.
- For the payment to the credit card company: a \$1,000 expenditure on the “Political Expenditures from Political Contributions” Schedule (F1). The schedule identifies the credit card company as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Credit Card Payment,” and a description as “Payment of credit card bill for campaign office supplies.”
- Both \$1,000 amounts reported on each schedule will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

Example 2: Candidate Using Credit Card to Make a Political Expenditure and Using Personal Funds to Pay the Credit Card Bill in the Same Reporting Period:

A candidate for *non-judicial* office uses his credit card to purchase \$3,000 in political advertising materials from a print shop. During the same reporting period, the candidate makes a payment from his personal funds account to pay the \$3,000 credit card bill.

To report that activity, the candidate would report all of the following on a campaign finance report (Form C/OH) covering the period in which he made the credit card charge and sent the payment to the credit card company:

- For the credit card charge: a \$3,000 expenditure on the “Expenditures Made by Credit Card” Schedule (F4). The schedule identifies the print shop as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Advertising Expense,” and a description as “Political Advertising Materials.” In Section 9 of the schedule, the box for “Political” is also checked.

- For the payment to the credit card company: a \$3,000 expenditure on the “Political Expenditures Made from Personal Funds” Schedule (G). The schedule identifies the credit card company as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Credit Card Payment,” and a description as “Payment of credit card bill for political advertising materials.” If the candidate intends to seek reimbursement from political contributions, the candidate may also check the appropriate box in Section 6.
- Both \$3,000 amounts reported on each schedule will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

Example 3: Political Committee Using Credit Card to Make a Political Expenditure and Using Political Contributions to Pay the Credit Card Bill in Different Reporting Periods:

A general-purpose committee uses its credit card to buy \$500 in political advertising in a newspaper. The committee receives the statement from the credit card company but does not send a payment until after the reporting period ends. When the committee sends a payment to the credit card company, it makes a \$500 payment from its political contributions account.

To report the credit card charge, the committee’s campaign treasurer would report all of the following on a campaign finance report (Form GPAC) covering the period in which it made the credit card charge:

- A \$500 expenditure on the “Expenditures Made by Credit Card” Schedule (F4). The schedule identifies the newspaper as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Advertising Expense,” and a description as “Political Advertising.” In Section 9 of the schedule, the box for “Political” is also checked.
- The \$500 amount reported on the “Expenditures Made by Credit Card” Schedule (F4) will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

To report the payment to the credit card company, the committee’s campaign treasurer would also report all of the following on a campaign finance report

(Form GPAC) covering the period in which it made the payment to the credit card company:

- A \$500 expenditure on the “Political Expenditures from Political Contributions” Schedule (F1). The schedule identifies the credit card company as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Credit Card Payment,” and a description as “Payment of credit card bill for political advertising.”
- The \$500 amount reported on the “Political Expenditures from Political Contributions” Schedule (F1) will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

Example 4: Candidate Using Credit Card to Make a Political Expenditure and Using Political Contributions to Pay the Credit Card Bill in Different Reporting Periods:

A candidate for *judicial* office uses her credit card to buy \$500 in political advertising in a newspaper. The candidate receives the statement from the credit card company but does not send a payment until after the reporting period ends. When the candidate sends a payment to the credit card company, she makes a \$500 payment from her political contributions account.

To report the credit card charge, the candidate would report all of the following on a campaign finance report (Form JC/OH) covering the period in which she made the credit card charge:

- A \$500 expenditure on the “Expenditures Made by Credit Card” Schedule (F4). The schedule identifies the newspaper as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Advertising Expense,” and a description as “Political Advertising.” In Section 9 of the schedule, the box for “Political” is also checked.
- The \$500 amount reported on the “Expenditures Made by Credit Card” Schedule (F4) will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

To report the payment to the credit card company, the candidate would also report all of the following on a campaign finance report (Form JC/OH)

covering the period in which the payment to the credit card company was made:

- A \$500 expenditure on the “Political Expenditures from Political Contributions” Schedule (F1). The schedule identifies the credit card company as the payee of the expenditure and includes the address, date, amount, a category of the expenditure as “Credit Card Payment,” and a description as “Payment of credit card bill for political advertising.”

The \$500 amount reported on the “Political Expenditures from Political Contributions” Schedule (F1) will also be included in the appropriate sections of Cover Sheet Pages 2 and 3.

GPAC: Glossary

A

Accepting a Contribution: A committee must report contributions that the committee has accepted. Receipt is different from acceptance. A decision to accept a contribution must be made by the end of the reporting period during which the contribution is received.

Failure to make a determination about acceptance or refusal: If you fail to make a determination to accept or refuse a contribution by the end of the reporting period, the contribution is considered to have been accepted.

Returning refused contributions: If you receive a political contribution but do not accept it, you must return the contribution not later than the 30th day after the end of the reporting period in which the contribution was received. If you fail to do so, the contribution is considered to have been accepted.

B

C

Corporation: Includes any of the following business associations:

(1) corporations that are organized under the Texas Business Corporation Act, the Texas For-Profit Corporation Law, the Texas Non-Profit Corporation Act, the Texas Nonprofit Corporation Law, federal law, or law of another state or nation; or

(2) the following associations, whether incorporated or not: banks, trust companies, savings and loan associations or companies, insurance companies, reciprocal or interinsurance exchanges, railroad companies, cemetery companies, government-regulated cooperatives, stock companies, and abstract and title insurance companies.

D

Direct Campaign Expenditure: A "direct campaign expenditure" to benefit a candidate or officeholder is not a "political contribution" to that candidate or officeholder. A direct campaign expenditure is a campaign expenditure made on someone else's behalf and without the prior consent or approval of that person. This is in contrast to a political contribution, which the person has the opportunity to accept or reject.

Example: If you made an expenditure to prepare and distribute an endorsement letter in support of a candidate and you did not get the candidate's approval before you made the expenditure, you made a **direct campaign expenditure**. However, if you asked for and received the candidate's approval before making the expenditure, you made an in-kind contribution to the candidate.

E

F

Financial Institution: A corporation that has been legally engaged in the business of making loans for more than one year.

Full Name of the Contributor: Texas law does not allow anonymous contributions. Even if you do not itemize a contribution, you must maintain a record of all the information related to a contribution for two years after the deadline for filing the report. You must also identify the actual source of a contribution, not an intermediary.

Non-Monetary Support: Support provided by a corporation or labor organization through the use of goods or services to either establish or administer your committee, or solicit contributions to your committee from the employees, stockholders, or members of the corporation or labor organization and their families. Examples of non-monetary support include:

- The use of corporate or labor organization office space
- The use of a corporate or labor organization mailing list
- The use of any other corporate or labor organization asset

Non-Political Expenditure: An expenditure that is neither a campaign expenditure nor an officeholder expenditure. As a practical matter, **very few** expenditures made from political contributions are non-political expenditures. For instance, expenditures for administrative expenses, banking fees, and professional dues are typically **political** expenditures. Examples of non-political expenditure:

- Charitable donation, if you receive no benefit in return
- A political committee uses political contributions to pay a lobbyist to work on legislative matters

O

Officeholder Expenditure: A payment or agreement to pay certain expenses in connection with an officeholder's duties or activities, if the expenses are not reimbursable with public money.

Austin Texas Officeholder Living Expense: refers to payments made to defray ordinary and necessary expenses incurred in connection with the performance of duties or activities as a public officeholder, including payment of rent, utility, and other reasonable housing or household expenses incurred in maintaining a residence in Travis County by members of the legislature who do not ordinarily reside in Travis County. Examples include:

- Rent for Austin apartment
- Phone line and internet access for Austin apartment
- Installation expense of security system at officeholder apartment

P

Pledge: a promise to transfer money, goods, services, or other things of value. A pledge is not a reportable contribution, unless it is accepted.

Political Contribution: Any transfer of or promise to transfer money, goods, services, or other thing of value, including a loan, that is given to a committee with the intent that it be used either:

(1) in connection with a campaign for elective office or a measure to be submitted to the voters; or

(2) to defray expenses in connection with an officeholder's duties or activities, provided that the expenditures are not reimbursable from public money

A donation of money to a political committee at a fundraiser is a monetary contribution.

A contribution of goods or services is a non-monetary (in-kind) contribution. Examples of non-monetary (in-kind) contributions are:

- Donation of office space
- Donation of an item to be auctioned at a fundraiser
- Donation of a mailing list
- Donation of material and labor for printing campaign signs

A political contribution in the form of a pledge must be reported on the appropriate schedule. For example, a promise to give you money after the election to pay debts incurred in connection with the election is a pledge.

A loan from an incorporated financial institution that has been in business for more than a year is not considered to be a contribution, but you must report any such loans taken out for campaign or officeholder purposes on the appropriate schedule.
