No Historic Review Application Needed for 1711 Waterston

Ryan Bollom <[REDACTED]>

1711 Waterston Avenue Addition

Gaudette, Angela [REDACTED]

Fri, Mar 20, 2020 at 9:55 AM

To: Ryan Bollom <[REDACTED]>

Hi Ryan,

I've passed on your inquiry to my supervisor, and she's determined that the property at 1711 Waterston should be considered "non-contributing" in accordance with the recent survey done for a historic district application (now defunct).

Our staff will be able to sign off on the project (window replacement and rear addition) as part of the regular internal review process - **no historic review application needed.**

It's up to you whether you'd like to split the application into two parts or not, but make sure everything is submitted to the Residential Review team electronically, as our entire office is currently working remotely.

Let us know if you have any more questions,

Angela Gaudette

Re: C15-2020-0029

Dear John,

Austin Energy (AE) has reviewed your application for the above referenced property, requesting that the Board of Adjustment consider a variance(s) from the following section of the Land Development Code. Section 25-2-492 (Site Development Regulations);

1. Setback requirements to decrease the minimum interior side setback from 5 feet (required) to 3ft. 6 in. (requested);
2. Setback requirements to decrease the minimum rear yard setback from 10 feet (required) to 5 feet (requested);
3. Building Cover requirements to increase from 40% (maximum allowed) to 55% (requested);
4. Impervious Cover requirements to increase from 45% (maximum allowed) to 65% (requested);

In order to construct an addition to an existing Single-Family residence in an "SF-3-NP", Single-Family Residence-Neighborhood Plan zoning district. (Old West Austin Neighborhood Plan)

Austin Energy does not oppose the above variance requests provided any proposed and existing improvements follow Austin Energy's clearance criteria requirements, the National Electric Safety Code and OSHA. Any removal or relocation of existing electric facilities will be at owners /applicants' expense.

Please use this link to be advised of our clearance and safety requirements which are additional conditions of the above review action: <https://austinenergy.com/wcm/connect/8bb4699c-7691-4a74-98e7-56059e9be364/Design+Criteria+Manual+Oct+2015.pdf?MOD=AJPERES>

If you require further information or have any questions regarding the above comments, please contact our office. Thank you for contacting Austin Energy.

Case # _____ ROW # _____ Tax # _____

Section 1: Applicant Statement

Street Address: 1711 WATERSTON AVENUE, AUSTIN, TX 78703

Subdivision Legal Description:

E42.5FT OF N125FT OF LOT 10 BLK 14 MAAS ADDN

Lot(s): 10 Block(s): 14

Outlot: _____ Division: MAAS ADDN

Zoning District: SF3-NP

I/We RYAN BOLLUM on behalf of myself/ourselves as
authorized agent for MOLLY ROSENBLATT AND JOHN PEET affirm that on
Month June, Day 4, Year 2020, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☒ Attach ☐ Complete ☐ Remodel ☐ Maintain ☐ Other: _____

Type of Structure: SINGLE FAMILY WOOD FRAME ADDITION ON SLAB ON GRADE

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

25-2-492: INTERIOR SIDE YARD SETBACK OF 5' changed to 3'-6", REAR YARD SETBACK OF 10' changed to 5', BUILDING COVERAGE OF 40% changed to 55%, IMPERVIOUS COVERAGE OF 45% changed to 65%.

The suggested changes reflect the limits the code already provides for small lots in 25-2-779.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The small lot size, irregular subdivision, COA protected trees and general tree canopy prevent the owners from adding the additional space they are afforded by COA zoning (.4 FAR) that the neighborhood generally affords other owners. Furthermore, the irregular nature of the subdivision allows neighboring homes to extend into setbacks unequally. More generous setbacks and building coverage (which the code provides for small lots in 25-2-779) will allow the owners to build a single story addition at the FAR afforded to other residents that also respects the neighboring historic homes.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

1. The lot has substandard width (43.1'), depth (125.2') and overall size (5401sf)
2. COA protected trees & additional canopy severely restrict buildable area in plan & elevation.
3. The 2 adjacent single story homes to the west of the property are considered historic
4. The irregular subdivision of Lot 10 allows adjacent structures to extend into setbacks that applicable code does not currently afford on our property

b) The hardship is not general to the area in which the property is located because:

The property is substandard while most other properties in the neighborhood are not. The protected trees and tree canopy are specific constraints that apply only to the property. Not all homes in the area are situated next to historic homes. The area is not comprised of many irregular subdivisions.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The variance will allow the addition to be built on a single story, which is more respectful of the single story neighboring historic homes, more appropriate to the character of the area, and avoids the destruction of the existing tree canopy. Many of the neighboring properties are non-conforming; the variance will afford this property the same rights without impairing use. The variance will allow the owners to build a home to the size the zoning district provides. They would not be able to do so without severely altering the neighborhood's existing character.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

1711 Waterston Avenue Addition BOA Variance Request

Date: July 13, 2020

Owners: Molly Rosenblatt and John Peet

Architect: Ryan Bollom, Principal, Low Design Office

Application Summary

The small lot size, irregular block subdivision, COA protected trees and general tree canopy prevent us from adding the additional space we are afforded by COA zoning (.4 FAR), which the neighborhood generally affords other property owners. Furthermore, the irregular nature of the subdivision allows neighboring homes to extend into setbacks unequally.

More generous setbacks and building coverage (which the code provides for small lots in 25-2-779) will allow us to build a single story addition at the FAR afforded to other residents that is more respectful of the single story neighboring historic homes, more appropriate to the character of the area, and avoids the destruction of the existing tree canopy. Many of the neighboring properties are non-conforming; the variance will afford our property the same rights without impairing use. The variance will allow us to build a home to the size the zoning district provides. We would not be able to do so without severely altering the neighborhood's existing character.

Extenuating Circumstances

We hope to build a universally accessible home so that we can accommodate our sister's physical impairments as well as our parents as they become less mobile.

Before purchasing the home, the COA residential review provided us with incorrect information in August, 2019 and then again in September, 2019, telling us that we could build a one story home according to 25-2-779 of the Land Development Code. After months of design work we were shocked and disappointed when we were told this was not the case and that we needed to apply for a variance in order to proceed.

Thank you for your time and consideration.

Best,

Molly Rosenblatt

All neighboring homes are 1 story.
Direct neighbors are historic with alterations. Also in close proximity to National Register Historic home.

Lot has substandard width (43.1'), depth (125.2') and overall size (5401sf).
Tree roots and canopy severely restrict buildable area and height.
Neighboring lots encroach on setbacks and cross lot lines.
Neighbor acquired permit to enclose non-complying wood deck in 2011

Old West Austin Neighborhood Design Guidelines

Residential Guidelines

Goal 1: Promote prevailing neighborhood character

- 1.1 Promote diversity of architectural styles
 - 1.1.1 Promote additions that reflect both the period of the addition and preserve the integrity of original structures
- 1.2 Maintain consistent mass and scale
- 1.3 Maintain historic land use patterns
 - 1.3.1 Maintain street setback lines
 - 1.3.2 Promote “back-buildings”
 - 1.3.3 Promote parking on the side or rear in lieu of front

Goal 2: Enhance the streetscape

- 2.1 Promote and maintain street trees
- 2.2 Minimize driveway width and curb cuts
- 2.3 Promote openness to the street
 - 2.3.1 Windows
 - 2.3.2 Porches
 - 2.3.3 Transparent fences
 - 2.3.4 Face garage doors away from the street
- 2.4 Promote and maintain sidewalks
- 2.5 Promote localized porch and walkway lighting

1.0 Residential guidelines

Goal 1: Promote prevailing neighborhood character

1.2 Maintain consistent mass and scale
