

ZONING CHANGE REVIEW SHEET

CASE NUMBER: C14H-2020-0069

HLC DATE:

July 27, 2020

PC DATE:

August 11, 2020

APPLICANTS: Rogers-Washington-Holy Cross Historic District Application

HISTORIC NAME: Rogers Washington Holy Cross Historic District

WATERSHED: Boggy Creek

ADDRESS OF PROPOSED ZONING CHANGE: Roughly bounded by E. 21st Street on the north, Cedar Avenue on the east, E. Martin Luther King Jr. Boulevard on the south, and Chestnut Avenue (to E. 20th Street) on the west. See map for additional details.

ZONING: All base zoning within the proposed historic district will have the HD (Historic Area Combining District) overlay added. No changes to base zoning are proposed by this application.

SUMMARY STAFF RECOMMENDATION: Staff recommends the proposed zoning change to create the Rogers Washington Holy Cross Historic District.

QUALIFICATIONS FOR HISTORIC DISTRICT DESIGNATION: The application for the Rogers Washington Holy Cross Historic District meets all Code requirements for the formation of a historic district.

HISTORIC LANDMARK COMMISSION ACTION: Recommend granting historic area (HD) combining district overlay to all existing base zoning for all parcels within the proposed historic district, including 1905 Chestnut Avenue as a contributing resource. Vote: 10-0.

PLANNING COMMISSION ACTION:

DEPARTMENT COMMENTS: The proposed Rogers Washington Holy Cross Historic District is a largely intact postwar neighborhood that demonstrates the determination and success of the African American community in Austin. The neighborhood was developed by Black professionals for Black professionals. This was a major milestone at a time when many white Austinites with similar socioeconomic and community standing were buying suburban homes and moving out of the city. Racially restrictive covenants, redlining, prejudiced lenders, and other social and governmental barriers prevented African Americans from making the same move. Rogers Washington Holy Cross was a powerful symbolic response, and established a tight-knit neighborhood of movers and shakers in the Black community, Austin, and beyond.

Early residents included Huston-Tillotson Chancellor John Q. Taylor King; Carnegie H. Mims, Jr., the first Ombudsman at the University of Texas; T. C. Calhoun, longtime principal of Kealing Junior High School; and numerous other educational leaders, including Willie Mae Kirk, Carnegie Harvard Mims, Sr., and Ira Poole. The Kirk family lived on Maple Avenue; Ms. Kirk's husband Lee Sr. was the first African American postal worker and certified pilot in Austin, and her son Ron served as Dallas's first African American Mayor and an Obama cabinet member. Jimmy Snell was a City Council member who served as the first Black Mayor Pro Tem. Norman Scales was a member of the famed Tuskegee Airmen. Prominent business owners, some of the earliest graduates from UT following desegregation, and even more leaders also called the neighborhood home.

John Chase, the first African American graduate of UT's School of Architecture and the first licensed African American architect in Texas, designed at least two houses in the neighborhood, attesting to residents' prominent standing and creating a rich architectural legacy. Nash Phillips, a well-known and prolific Austin builder, constructed houses along Maple, Givens, and Werner avenues.

The prevailing architectural style within the district is Ranch; other styles include Minimal Traditional, Split Level, and Contemporary/Mid-Century Modern.

The City held a community workshop to discuss the draft design standards for the district, and the proposed standards reflect the comments and concerns raised at the workshops and through outreach efforts from the applicant. The applicant conducted additional outreach through door-to-door outreach and neighborhood meetings.

BASIS FOR RECOMMENDATION:

The Code requires that at least 51% of the structures within a proposed district contribute to its the historic character; and that at least 51% of the property owners or the owners of 51% of the land within the district must support its creation. The proposed historic district contains 57 resources, of which 47 (82%) are contributing. The application to create the historic district has the demonstrated support of the owners of 53% of the land area within the district. The district's design standards (preservation plan) have been reviewed and approved by the City Law Department and Austin Energy.

PARCEL NO.: See attached appendix.

LEGAL DESCRIPTION: See attached appendix.

ESTIMATED ANNUAL TAX ABATEMENT: N/A. The owners of eligible properties within the district may apply for an abatement of the taxes on the added value of the property after completing qualified rehabilitation or restoration projects approved by the Historic Landmark Commission.

APPRAISED VALUE: N/A

PRESENT USE: The proposed historic district is entirely residential.

CONDITION: N/A

PRESENT OWNERS: See attached appendix.

DATE BUILT: The period of significance for the proposed Rogers Washington Holy Cross Historic District begins in 1953, with the construction of the earliest homes, and ends in 1970, at the fifty-year threshold typically used to evaluate historic properties.

ALTERATIONS/ADDITIONS: See Design Standards, attached.

ORIGINAL OWNER(S): Multiple

OTHER HISTORICAL DESIGNATIONS: There are no City of Austin historic landmarks in the proposed historic district.

TYPICAL VIEWS OF THE PROPOSED DISTRICT:

Rogers Washington Holy Cross Historic District Preservation Plan & Narrative History

Rogers Washington Holy Cross Preservation Plan Overview

About the historic district

The Rogers Washington Holy Cross Historic District is one of the most intact concentrations of post-World War II housing for African Americans in Austin. As an early neighborhood developed by black professionals for black professionals, its development pattern is strongly tied to its cultural significance as a professional, middle-class, suburban neighborhood. Neighborhood residents positively impacted science, architecture, local and national government, education, the U.S. Army and U.S. Air Force, and more. Architecturally, the houses represent post-war stylistic trends, including ranch, minimal traditional, contemporary and split-level styles. John Chase, the first African American to graduate from the University of Texas School of Architecture, designed houses in the district. Nash Phillips, a well-known builder, is also associated with the district.

Historic district (HD) designation is intended to protect and enhance existing historic resources. By establishing Rogers Washington Holy Cross Historic District zoning, the City of Austin provides a mechanism to ensure that architectural changes within the district are compatible with its historic character. Some of the homes within the district may not have sufficient historical or architectural significance to be designated as individual historic landmarks, but they have significance as part of the neighborhood fabric and context.

Rogers Washington Holy Cross has retained its original appearance and landscape patterns and conveys a distinct and accurate sense of its own history. As noted in the East Austin Historic Resource Survey, the district is significant for its relevance to important historic development and architectural trends in Austin, including post-World War II development patterns and its associations with Nash Phillips and John Chase, both known for their impact on Austin's growth and development.

In sum, Rogers Washington Holy Cross meets several of the criteria for local designation, including architecture, historical associations, and community value. The neighborhood is overwhelmingly comprised of historic-age resources that retain architectural integrity (47 of 57 resources), and it has an exceptional ratio of contributing to noncontributing properties with 82% contributing and 18% non-contributing.

The Rogers Washington Holy Cross Historic District represents the history and significance of an underrepresented population and under-told story of the history of Austin.

Purpose of the preservation plan

The City of Austin benefits from having neighborhoods and buildings that represent its diverse history and with unique architectural styles. The Rogers Washington Holy Cross Historic District was identified by the East Austin Historic Resource Survey for its innate historical and architectural value. Historic district designation will ensure that the historical and architectural significance of this neighborhood will be understood and valued by future generations. The designation will protect and preserve the existing form, integrity, and materials of historic properties and will preserve this significant neighborhood.

The Design Standards recognize that change is inevitable. They are written to acknowledge and maintain the integrity of the structures and comply with the Secretary of the Interior's Standards for Rehabilitation. Consequently, the Rogers Washington Holy Cross Preservation Plan and Design Standards address rehabilitation, additions, and new construction.

Designation of the Rogers Washington Holy Cross Place Historic District does not require property owners to make changes to their properties, such as returning buildings to their historic appearance. Additionally, the review of construction projects within the district that results from district designation is limited to those

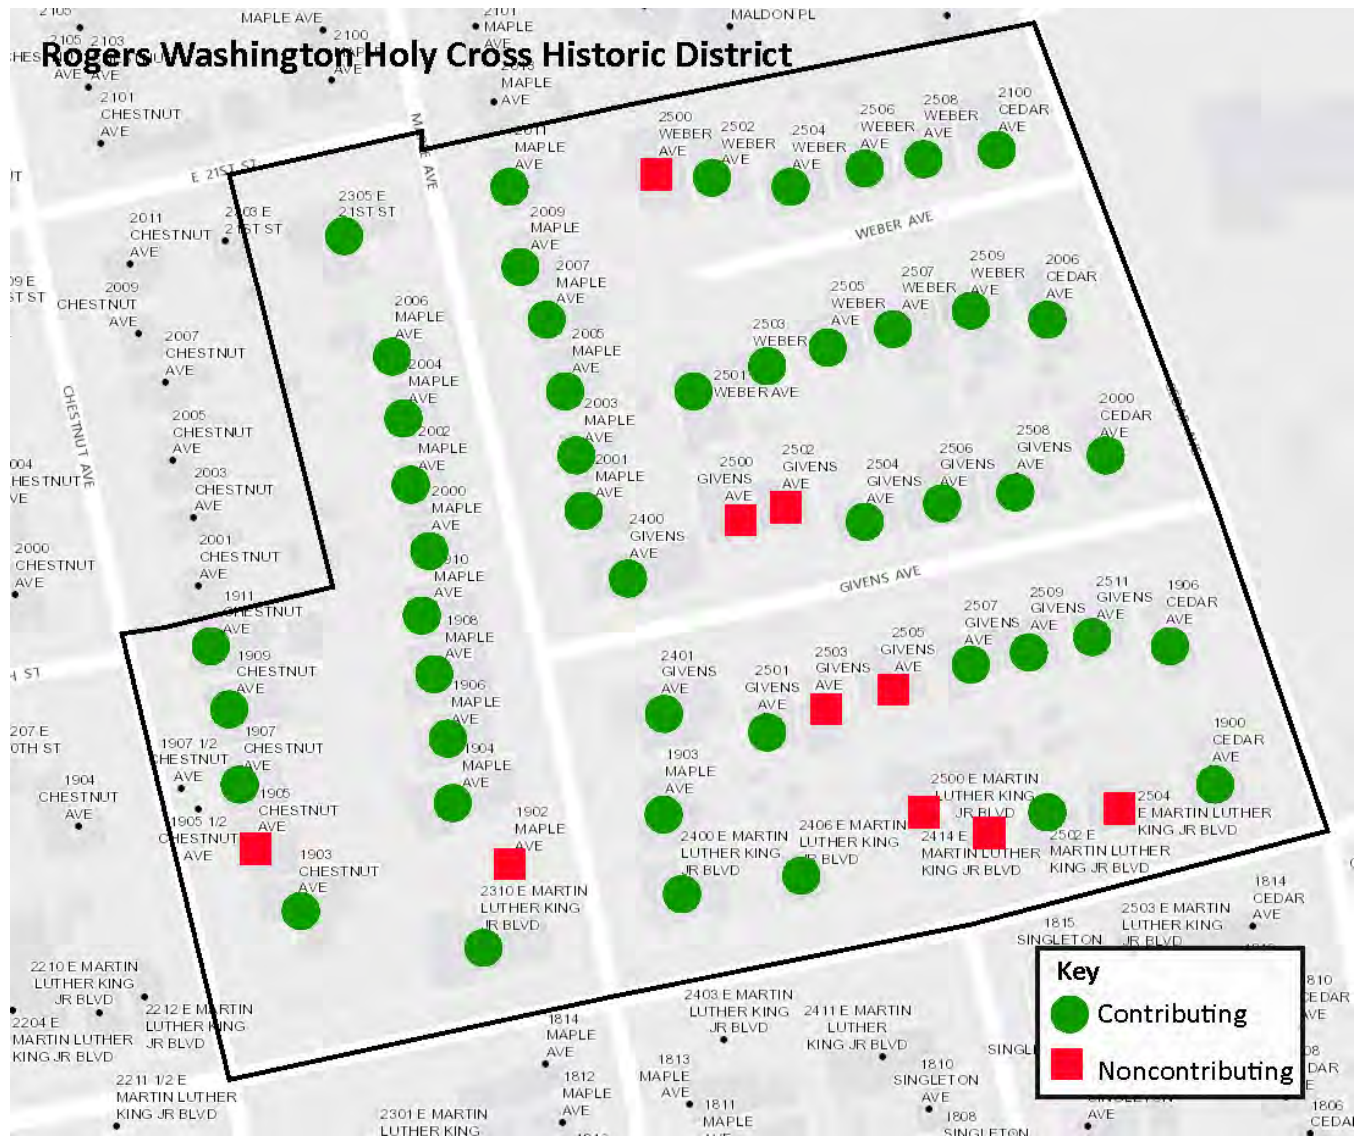

projects that affect the exterior of the building and its site; interior remodeling projects do not require review and approval.

Goals of the preservation plan

- Preserve the historic fabric of the Rogers Washington Holy Cross Historic District.
- Prevent the demolition of contributing buildings in the neighborhood.
- Encourage the rehabilitation, maintenance, and retention of historic structures.
- Ensure that alterations to existing buildings are compatible with the historic character of the structure and the district.
- Assist property owners and designers in developing plans for historic properties and encourage the compatibility of new structures with the existing historic fabric of the district.
- Encourage sustainable design and building practices in the neighborhood.
- Ensure that new construction in the district meets the design standards.

This document is a tool for the following parties:

- Property owners, tenants, contractors, design professionals, realtors or anyone else planning a change to the exterior or site of a building or new construction within the district.
- Historic Preservation Office staff and the Historic Landmark Commission, in their evaluation of whether to grant a Certificate of Appropriateness for any project covered by these Standards.

Map showing the Rogers Washington Holy Cross Historic District, with contributing resources shown in green and non-contributing resources shown in red.* Map identifies IDs, subdivision names, and boundaries of proposed NR/local district. Source: HHM survey data with Google base map, 2016.

Rogers Washington Holy Cross Historic District

GEOGRAPHIC DESCRIPTION

Geographical Description/Boundaries: East side of Chestnut Ave from E 20th Street to E Martin Luther King Jr Boulevard, both sides of Maple Avenue from E 21st Street to E Martin Luther King Jr Boulevard, both sides of Givens Avenue, both sides of Weber Avenue, north side of E Martin Luther King Jr Boulevard between Chestnut and Cedar

Acreage: 12.665 acres

Topography: Sloping gradually toward Boggy Creek to the southeast

Natural Features: N/A

Subdivisions Included: Sunrise Addition, Holy Cross Heights, Holy Cross Heights Re-subdivision, Washington Subdivision, various re-subdivisions (see map)

PROPERTIES WITHIN THE DISTRICT

Total Properties: 57

Contributing/Noncontributing: 82% contributing (47 resources), 18% noncontributing (10 resources)

OVERALL DISTRICT DEVELOPMENT PATTERNS

Dates of subdivisions: 1932 (Sunrise Addition), 1956 (Holy Cross Heights), 1958 (Holy Cross Heights Re-subdivision), 1959 (Washington Subdivision)

Circulation Patterns: Combination of grid and cul de sac patterns

Open Spaces: No public open spaces within district boundaries, but open front yards and typically fenced back yards

PRINCIPAL ARCHITECTURAL STYLES AND PERIODS OF CONSTRUCTIONS

Period(s) of Construction: Earliest constructed 1952. Construction period ended 1972.

Property Types (Use): 3% vacant, 95% residential

Property Subtypes (Form): Ranch

Common Styles: Ranch, Minimal Traditional, Split Level and Contemporary

OVERALL DISTRICT INTEGRITY

Common Alterations: Doors replaced, windows replaced, exterior wall materials replaced

Non-historic-age Infill: A few new houses were constructed in 2015-2016 on Givens Avenue and E Martin Luther King Jr Boulevard

HISTORIC ASSOCIATIONS

Themes within the Context of East Austin:

Post-World War II Development Patterns (Section 7.1.2), Desegregation, Private Sector (Section 7.4.3). The Holy Cross Heights Subdivision has a significant association with the introduction of the postwar curvilinear suburb neighborhood typology into East Austin, and because of the typically modest Ranch stylistic influences displayed by the collection of houses.

Significant Historic Events: Unknown

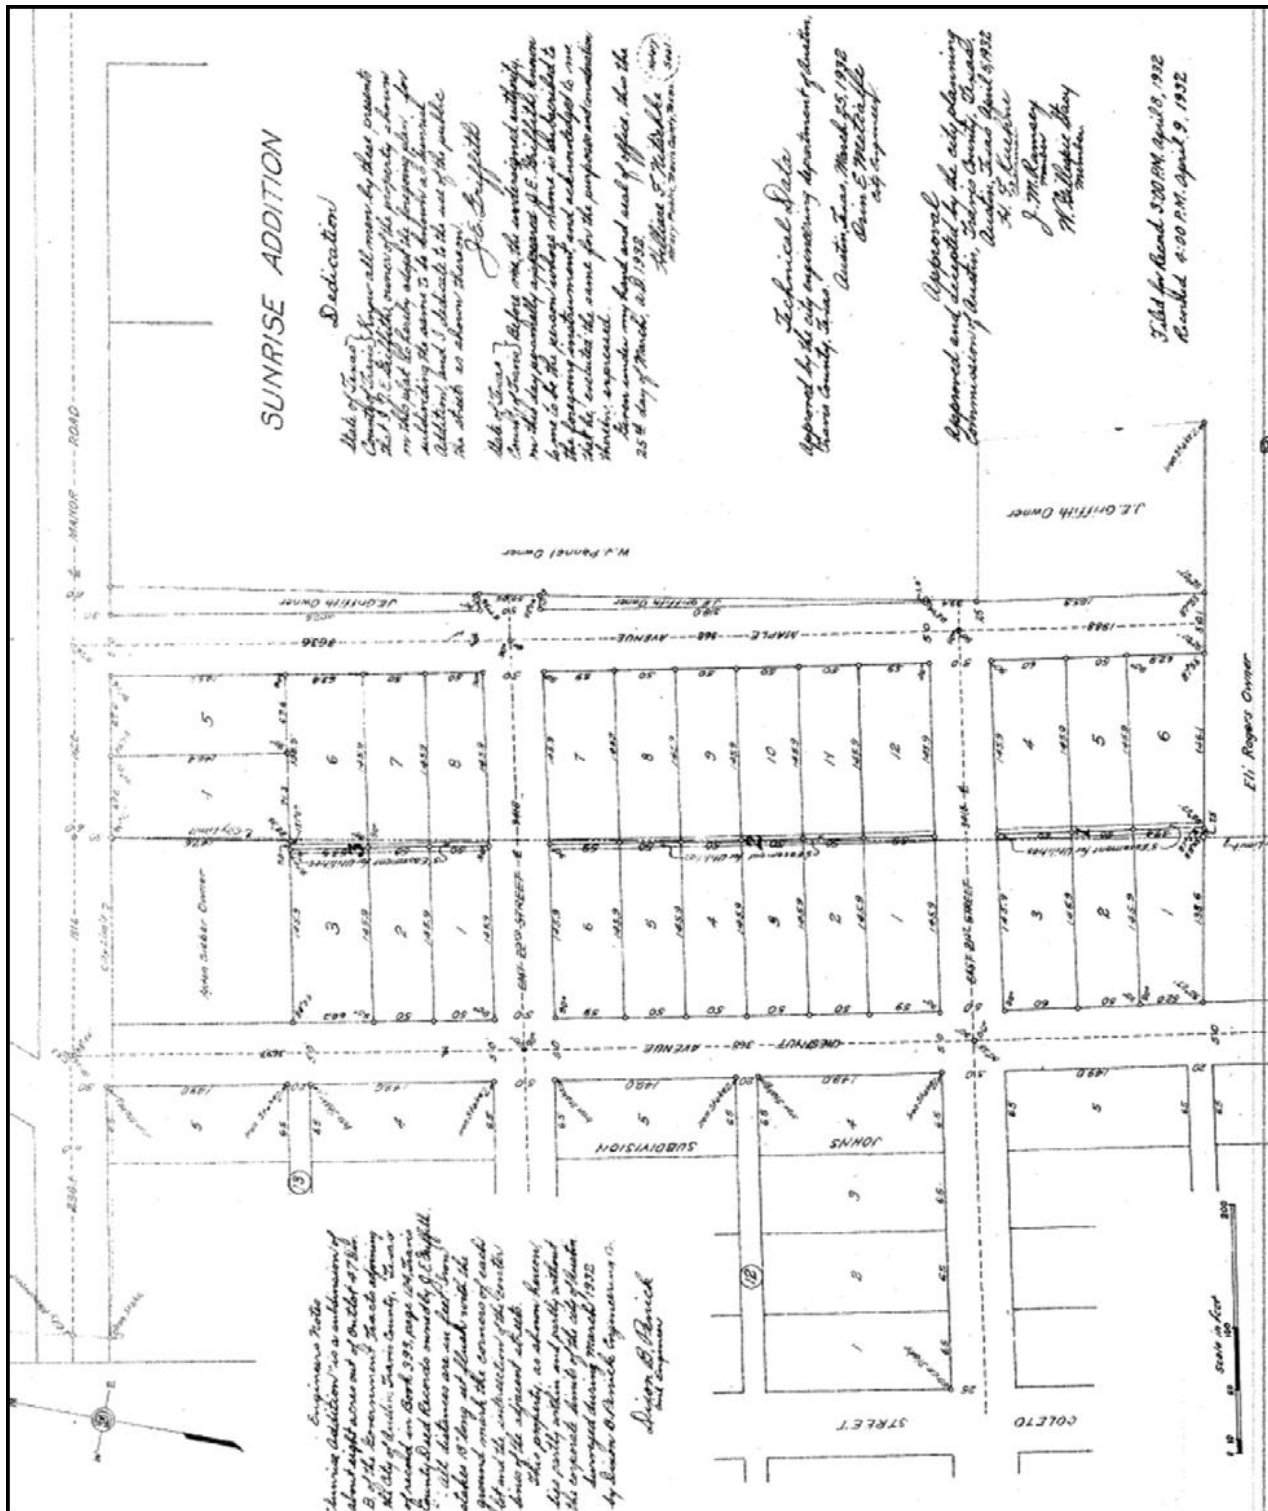

Social, Racial, or Ethnic: African American

Known Architects and/or Builders: Nash Phillips, John S. Chase

PERIOD OF SIGNIFICANCE

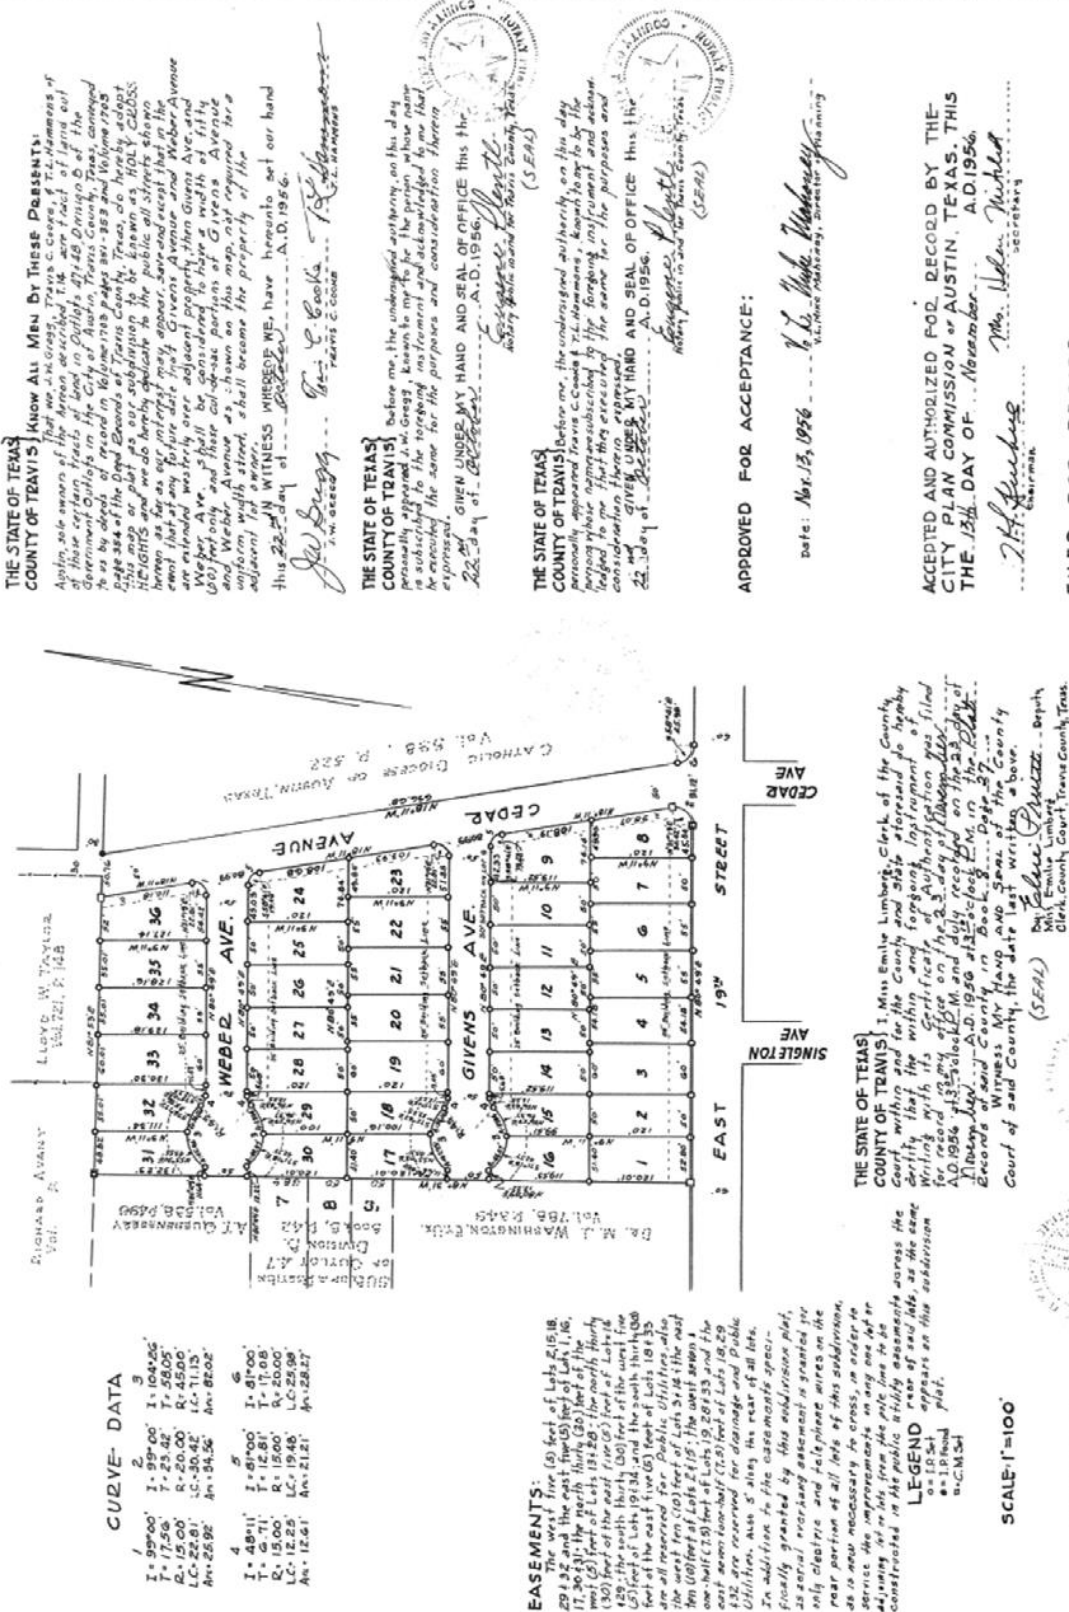

Period of Significance: 1953-1970

HOLY CROSS HEIGHTS

HOLY CROSS HEIGHTS RESUBDIVISION

The map shows a grid of lots numbered 1 through 50. Weber Ave runs horizontally across the top, Givens Ave runs horizontally across the middle, and East 19th Street runs horizontally across the bottom. Cedar Avenue runs vertically along the right side. Lots are arranged in rows: 31-36 at the top, 37-42 below Weber Ave, 43-48 below Givens Ave, and 1-8 at the bottom. Dimensions and bearings are noted for various lot boundaries.

Context and Narrative History

The initial sections of this context statement were excerpted from the East Austin Historic Resource Survey conducted in 2016 by Hardy-Heck-Moore, Inc. Additional information and research about the neighborhood and families who lived here follows.

Postwar Suburbanization, 1946–1969

Infill development continued gradually in East Austin in the post-World War II era, as opposed to the rapid and large-scale suburbanization generally thought to characterize development in the United States during the period. For the most part, land within the East Austin survey area was platted, and development had begun prior to World War II. In predominantly white areas, the process of residential development in the United States typically required that developers file a plat with the local government that specified “their plans for improving the land with streets and utilities.” However, in East Austin, completion of a plat did not equate provision of city services, and many platted subdivisions were devoid of paved streets, water and sewer services, and electricity lines. The resulting inequities in municipal services resulted in slower, more sporadic development patterns that counter the narrative of planned suburban development typical in the United States in the post-World War II era.

To assert their rights to equitable public services in exchange for their tax contributions, East Austin communities built strong non-governmental institutions, ranging from churches to political organizations to business enterprises. In East Austin and in similar communities across the United States, the grassroots activism of the post-World War II era resulted in policy changes at the federal, state, and local level that laid the groundwork for correcting inequalities in municipal services, encouraging private-sector redevelopment efforts in the decades to come.

Development Patterns

Within East Austin, residential construction boomed immediately after World War II with the shortage of housing as veterans returned and rural populations moved toward cities. During the 1950s and 60s, the pace of residential construction declined. Commercial construction remained somewhat steady, though, and institutional construction spiked in the early 1960s, in connection with the expansion of Huston-Tillotson College and the construction of Martin Junior High School. The survey area was platted prior to World War II, but not fully built out until after the war’s conclusion. The trend of “Merchant Builders,” who both subdivided land and constructed houses for sale, and often provided financing as well, did not reach East Austin until the 1960s. Instead, each property owner took responsibility for building a house on their own land. For example, the College Heights Subdivision east of Chicon Street and north of East 11th Street was built out gradually from about 1910 through 1957. House plans and styles varied according to the day’s popular tastes.

From 1946 through ca. 1960, new houses were generally small, and additions and outbuildings often were constructed over time to enlarge living space and work space. In the 1950s, a number of large, older homes were subdivided into apartments, consistent of the trend toward small, modest living spaces in East Austin... Beginning ca. 1960, some new subdivision plats incorporated cul-de-sacs, a layout feature reminiscent of many postwar curvilinear suburbs of the era, but used on a much smaller scale. Notable examples in East Austin are the Washington and Holy Cross Heights Subdivisions—roughly bound by Cedar Avenue, East 19th Street (MLK, Jr. Boulevard), Chestnut Avenue, and East 20th Street.

Effects of Desegregation on the Private Sector

With the legal imperative to desegregate public facilities after 1954, infrastructure gradually improved in East Austin. This stimulated private developers to plat residential suburbs that followed the postwar curvilinear pattern begun elsewhere in Austin (and across the United States) immediately after World War II. Within the East Austin survey boundaries, Holy Cross Heights forms the most prominent example. The subdivision was platted in 1952, featuring a street layout with the cul-de-sac pattern so characteristic of postwar American suburbs. Houses within the subdivision were constructed between 1956 and 1964. Overall, houses in the historic district were constructed between 1953 and 1972, with a few houses constructed recently (2015-2016).

Other similar suburbs were constructed beyond the East Austin survey boundaries to the east and northeast at an increasing rate after 1963. As a result, many families migrated into the newer and larger houses in these subdivisions rather than continuing the trend of constructing additions and enlarging houses in East Austin. With the resulting depopulation, a number of large-scale apartment complexes were constructed in East Austin beginning about 1963 as well—primarily along Manor Road and East 19th Street (MLK Jr. Boulevard), which were well-paved to accommodate automobile traffic. With the improvements to city infrastructure, white residents began to move into these new apartment complexes, slowly reintegrating the residential mix of the neighborhood, although single-family housing would remain occupied primarily by African American and Mexican American families for decades to come.

[Conclusion of East Austin Historic Resource Survey excerpts]

Additional Information and Research about Rogers Washington Holy Cross

Rogers Washington Holy Cross was one of the first neighborhoods developed by black professionals for black professionals. Therefore, the neighborhood's development pattern is strongly tied to its cultural significance as a professional, middle-class, suburban African American neighborhood. Neighborhood residents positively impacted the areas of science, architecture, local and national government, education, the U.S. Armed Forces, and more.

- Oscar Thompson (1907-1962), who lived in **1906 Maple Avenue**, was one of the first African Americans to graduate from the University of Texas in 1951 with a master's degree in zoology. Thompson served in the Pacific Theatre in WWII prior to enrolling at UT. He went on to lead research in sickle cell anemia after graduation. His wife, Irene, was the only African American certified school secretary in Austin at the time. She served as secretary and registrar for Anderson High School for over 25 years, and spent over 34 years with Austin Independent School District. (Anderson High was the first African American high school in Austin.) Mrs. Thompson was a long-time member of Ebenezer Baptist Church. She also worked on the election committees of many Democratic candidates and hosted campaign functions in her house, which was designed by John Chase.
- Robert and Ruth McAlister lived in **1903 Maple Avenue**. Ruth was the first African American female teacher to receive a Master's Degree in Special Education at the University of Texas. She went on to be supervisor of special education—the first African American to hold a supervisory position in the Austin Independent School District. Her husband, Robert, was promoted to business manager at D.D.&B. After retirement, the couple owned and operated a grocery store at the corner of Chicon and Tillotson Streets.
- Della Phillips, who lived at **2310 E. MLK Jr. Boulevard**, also lived in a John Chase-designed house. Mrs. Phillips was a prominent businesswoman and an owner of the Phillips Upshaw Funeral Home. Phillips allowed Chase to design the house however he wanted to, with one stipulation: it must include spaces for

entertaining. This house stands out from the bungalow and Ranch-style homes in the rest of the district. Mrs. Phillips often hosted parties and events that brought the community together.

The following residents were part of the public service sector and helped improve education for the community through their work.

- **Kirk family (1908 Maple Avenue)**

Lee Kirk, Sr. was the first African American postal worker and certified pilot in Austin.

Willie Mae “Ankie” Kirk (1921-2013) donated 50 years of her life to improving local public services. Her leadership and service made her a beloved elder in the community. Mrs. Kirk attended high school at Anderson High School and earned her B.S. degree in Social Science at Sam Huston College (now part of Huston-Tillotson University, a historically black university affiliated with the United Methodist Church, the United Church of Christ, and the United Negro College Fund). She began her career in 1947 as a certified public school teacher and taught elementary education until retirement in 1982. Mrs. Kirk continued her education at Prairie View College and the University of Texas. She was appointed to the first Human Rights Coalition by the Austin City Council in 1968. Austin Mayor Jeffery Friedman appointed Kirk to the Library Commission in 1971. She succeeded in saving the Carver Library from demolition during her 12-years tenure as Commissioner. The Oak Springs Branch Library was renamed in honor of Willie Mae Kirk. The Kirks had four children together, Sandra, Connie, Lee, and Ron.

Ambassador Ron Kirk, son of Willie Mae Kirk, served two terms as the first African American mayor of Dallas. He was also the first African American Secretary of State in Texas under Governor Ann Richards. As a United States Trade Representative, Kirk was a member of President Obama’s cabinet and served as a principal trade advisor, negotiator, and spokesperson on trade issues. He was named one of “The 50 Most Influential Minority Leaders in America” by the *National Law Journal* in 2008.

- **Calhoun family (2401 Givens Avenue)**

T. C. Calhoun, who lived at **2401 Givens Avenue**, was the principal of Kealing Junior High School for over 40 years. He continued to be a leader by serving as one of the presidents of the African American State Teachers’ Association in the 1950s. Calhoun also opened the Teachers’ Credit Union for African American teachers. His wife, Thelma, worked with him to maintain the Union.

Thelma Calhoun was a supervisor for African American Travis County schools and a reading specialist at Sims and Maplewood elementary schools. She also assisted Ada Simon in the publishing of the *Let’s Pretend* series of children’s books and wrote elementary-school curriculum based on the books. Both T.C. and Thelma Calhoun were long-time active members of Ebenezer Baptist Church and helped many successfully find jobs.

- Norman Scales, who lived at **2509 Weber Avenue**, was born in Austin on November 11, 1918. He grew up in East Austin, and graduated from Anderson High School and Tillotson College (now Huston-Tillotson University). In 1940, he enlisted in the U.S. Army and served in WWII as a member of the Tuskegee Airmen, a renowned group of African American pilots. He was promoted to second lieutenant and then to captain. He was the first black pilot from Austin who was commissioned as second lieutenant. His squadron disabled or destroyed 400 German planes and at least 1,000 ground and sea targets. Scales flew over 70 missions over enemy territory and survived a plane crash. He was awarded the Distinguished Flying Cross at Bergstrom Air Force Base in Austin on February 21, 1945. Scales was also awarded a Certificate of Valor. In 1989, he was posthumously recognized with an Honors Award by the Texas Association for the Study of Afro-American Life and History at the Capitol’s Senate Chamber.

- Ira Poole, who lived at **2400 E. MLK Jr. Boulevard.**, moved to Austin as a student in order to earn his teaching credentials at Huston-Tillotson College. Throughout the course of his teaching career, he educated generations of Austin's students over a period of decades in several different elementary schools. A patriot and history buff, Poole generated enthusiasm among his students as he helped them learn, decorating his classroom bulletin boards and inventing hands-on projects that promoted a more in-depth understanding of their curriculum.

In the early 1960s, Poole built a single-story brick ranch-style home in Rogers Washington Holy Cross. Located on a corner, the house is situated toward the rear of the lot, providing an expansive front yard that, over time, Poole decorated with three-dimensional and bas-relief sculptures that reinforced the lessons he was teaching in school. Indeed, some of them actually began as school projects.

- John Quill Taylor and Marcet King lived at **2400 Givens Avenue** from 1962 into the 1990s, according to City directories. During this time, John Quill Taylor King served as Dean, President, and finally Chancellor of Huston-Tillotson College (now University). He also served as Vice President of King-Tears Mortuary.

- Jackson and Marshall families (**2508 Givens Avenue**)

Mrs. Sophia Lavon Jackson was an older married student who graduated from Tillotson College in 1944 with a B.A. degree in Home Economics. She was the highest-ranking student in the class. She worked at Tillotson's Home Economics Department from September 1944 to May 1960, Manor ISD from 1960 to 1962, and Prairie View University's Home Economics Department from 1962 to 1967.

Mr. Marion Sandy Jackson was one of the first African American mail handlers at the U.S. Postal Service in Austin from 1945 to 1962. The Jacksons purchased their house at 2508 Givens Avenue in 1959 from the builder, Travis Cook.

Mrs. Lavon Marshall, professor at Huston-Tillotson University, was active in The Links, Inc., an international nonprofit women's organization committed to enriching, sustaining, and ensuring the culture and economic survival of African Americans and other persons of African ancestry.

- Lester and Joyce Mays lived at **2502 Weber Avenue**. Joyce was an educator in the Flatonia, Coleman, Georgetown and Austin school systems. Lester Mays was a teacher and coach at Flatonia and DeValle. He was the first AISD Supervisor Coordinator over the Vocational Adjustment Coordinators in the Special Education Department and the Assistant Supervisor of the Clifton Center in Austin. He was also Assistant Director of the Upward Bound Program at Huston-Tillotson University.

- Mims family (**2502 Weber Avenue**)

Carnegie Harvard Mims, Sr. moved his wife and four children from San Angelo to Austin. The move was quite significant because he left a position in San Angelo, Texas as the state's first Black principal of an integrated high school. Even though he and his wife were highly educated and even founded some schools in West Texas, he took a lower-ranking position at the Negro Middle School to get his foot in the door of employment. His ambition did bear fruit after all.

Carnegie H. Mims, Jr. became the first Ombudsman of the University of Texas at Austin, mentoring young minds and proffering solutions to their problems. Before he went into private practice, he was chosen as an attorney for the first Texas Constitutional Revision Commission.

Brenda Mims Malik, daughter of Carnegie H. Mims, Sr., became one of the first Black broadcast news anchors in Austin. She continued to serve her community as a frequent host for the annual United Negro College Fund Extravaganza.

- Jimmy Snell, who lived at **2506 Givens Avenue**, served as Austin's first black Mayor Pro Tem in 1975. His candidacy was heavily supported by East Austin and University neighborhood residents. During his tenure as a City Councilman, he pursued the implementation of equal employment opportunity (EEO) programs. He also served as Honorary Public Service Chairman for the Austin Association of Life Underwriters.
- Maxine C. Johnson and Garvin Johnson, who lived at **1900 Cedar Avenue**, were among the first of the original homeowners to purchase a newly built home in the new Holy Cross Heights subdivision. Their home sits at the corner and intersection of Cedar Avenue and East Martin Luther King, Jr. Boulevard. Maxine graduated from Tillotson College with a degree in English in 1952, the same year that Tillotson merged with Samuel Huston College. After purchasing their new home in 1957, Maxine initially taught high school English in Roswell, New Mexico. She and her husband, Gavin, commuted weekly from Austin to Roswell. Garvin immediately returned to Austin after each trip in order to run his successful businesses—a Ritter Service Station on East 11th Street (behind Ebenezer Baptist Church) and the lucrative Harlem Cab business. Garvin returned each weekend to Roswell to pick up Maxine, and together they drove home to Austin.

John Chase

John Saunders Chase was the first licensed African American architect in Texas. Chase was born in Annapolis, Maryland, to a principal and teacher. After serving in the Army during World War II, he studied architecture at Hampton University, a historically black university in Virginia. He moved to Austin in 1949 to work at the Lott Lumber Company, a black-owned business. In 1950, two days after the Supreme Court ruled that the University of Texas must admit Heman Sweatt and other African Americans in graduate and professional programs, Chase enrolled at UT's School of Architecture. He was the first African American to do so, and only one of two black students at UT. Federal marshals shadowed Chase for safety after he received hate mail.

After Chase graduated, no firms in Austin were willing to hire him. He moved to Houston in 1952, yet faced the same issue. So he established his own firm, John S. Chase, Architect, and taught architectural drafting at Texas Southern University, a historically black public university. Soon after moving to Houston, Chase and his wife Drucie visited black churches and shared his master's thesis on churches and progressive architecture with their ministers. That strategy generated ample work, and Chase went on to design schools, houses, churches, and public buildings. Influenced by Frank Lloyd Wright, his work features bright, spacious rooms and a minimalist approach.

Chase led the way for other African Americans as the first black member of the Texas Society of Architects, the Houston Chapter of the A.I.A., the United States Commission on Fine Arts (appointed by President Jimmy Carter), and the first black president of the University of Texas Exes; he also co-founded the National Organization of Minority Architects. Chase also became a mover and shaker for African Americans and their allies in Houston's political scene. John Chase died in 2012 and is now recognized as one of the most important African American architects of the 21st century and a leading Mid-Century Modern designer.

In Rogers Washington Holy Cross, Chase designed the houses at 1906 Maple Avenue and 2310 E. MLK Jr. Boulevard. He is also the architect of David Chapel, a striking Mid-Century Modern church complex kitty-corner from the historic district.

Nash Phillips

Nash Phillips was a well-known Austin builder who constructed more than 80,000 homes over his career—50,000 in the Austin area alone. Phillips was born in Ft. Bliss, Texas in 1920. He grew up in San Antonio, graduated from the University of Texas, and attended law school. During World War II he served in the Navy, maintaining aircraft.

In 1945, Phillips and Clyde Copus founded Nash Phillips Copus Company (Nash Phillips/Copus Builders Inc.), which worked across Central Texas and in Phoenix. In Austin, the company constructed one-quarter of all houses built between 1945 and 1986 and served as a realtor for other properties. “The key to growth... has been quality design and quality building,” enthused *The Austin American* in 1958. The company prioritized houses with “livability-plus features” like pantries and fireplaces, in planned developments that balanced access to central Austin with proximity to new schools and shopping centers. That year, the company built and sold more than \$7 million in real estate.

Nash Phillips Copus also nurtured a new generation of homebuilders who went on to found their own companies. The company received the Builder of the Year award from *Professional Builder Magazine* in 1984. In 1991, Phillips co-founded Wilshire Homes. He died in 2011.

Phillips helped pioneer a number of innovations in homebuilding. Some were physical, such as preassembling house frames inside warehouses and erecting them on-site. Others were less tangible but equally critical, such as working with “sister” mortgage and insurance companies to help drive ownership opportunities.

In Rogers Washington Holy Cross, Phillips constructed houses along Maple, Givens, and Werner avenues.

ROGERS WASHINGTON HOLY
CROSS
HISTORIC DISTRICT
DESIGN STANDARDS

CONTEXT

Historic Rogers Washington Holy Cross was one of the first neighborhoods developed by black professionals for black professionals, and therefore the development pattern of the neighborhood is strongly tied to the cultural significance of the neighborhood as a professional, middle-class, suburban neighborhood.

Historic Rogers Washington Holy Cross is an auto-oriented development. Therefore, the patterns of development are based on a street pattern favoring the auto, not the pedestrian. Much of the neighborhood is characterized by curvilinear streets without sidewalks.

Construction in the neighborhood began around 1950. The oldest structure documented in the neighborhood is from 1947, but the era of significance of the District is between 1950 and 1965, when the majority of the houses were built. The District features classic mid-century American architecture, which falls into three primary styles: Minimal Traditional, Ranch and Contemporary.

INTRODUCTION

The primary goal of this historic district is to preserve the overall character, identity, and presence of the Rogers Washington Holy Cross neighborhood. Buildings, sites, and landscapes help create the identity and character of the neighborhood. Design standards serve to preserve and protect areas of historical and architectural importance, as well as the overall visual characteristics of the district.

The design standards recognize that change is inevitable. They are written to enable and empower property owners to acknowledge and maintain the integrity of historic buildings and comply with the Secretary of Interior's Standards for Rehabilitation. Consequently, the Rogers Washington Holy Cross Design Standards provide guidance and support for the repair, rehabilitation, preservation and restoration of historic buildings within the historic district, and to ensure that additions and new construction are compatible with the architectural character of the district.

Historic district designation does not require property owners to make changes to their properties, such as returning buildings to their historic appearance. Additionally, the historic review process that results from district designation is limited to projects that affect the exterior of the building and its site. Interior remodeling projects do not require Historic Preservation Office or Historic Landmark Commission review and approval.

This document is a tool for property owners, tenants, contractors, design professionals, realtors, and anyone else planning a change to the exterior or site of a building or new construction within the district; as well as the Historic Landmark Commission in its evaluation of whether to grant a Certificate of Appropriateness for any project covered by these standards.

The goals of the design standards are to:

- Preserve the architectural heritage of the district through retention and preservation of historic buildings and landscape features;
- Discourage demolition of contributing buildings and buildings easily restored to contributing status;
- Support historic building preservation by providing guidance in building maintenance and repair;
- Ensure that alterations to existing buildings are compatible with the character of the structure and the district;
- Support sustainable design by providing guidance to improve energy efficiency and building performance and sustainable landscaping;
- Establish design criteria for new construction within the district to ensure that new structures will be compatible with the historic character of the district; and
- Stabilize property values by maintaining existing building stock and defining compatible new construction.

The following actions must receive a Certificate of Appropriateness prior to the issuance of any permits or before work begins, if no permit is required:

- Demolition or relocation of a contributing building;
- Construction or relocation of a new primary or accessory building or structure on any property;
- Construction of an addition to a contributing building;
- Exterior alterations to a contributing building; and
- Major site work, including but not limited to changes to or the construction of a deck (that is visible from the public right-of-way), pool, outbuilding, walls, and fences.

Of the above items, the Historic Landmark Commission shall review all demolitions, relocations, and ground-up new construction, as well as alterations, additions, and site work that are visible from the public right-of-

way and/or considered by the Historic Preservation Officer to significantly alter the historic character of the structure or site.

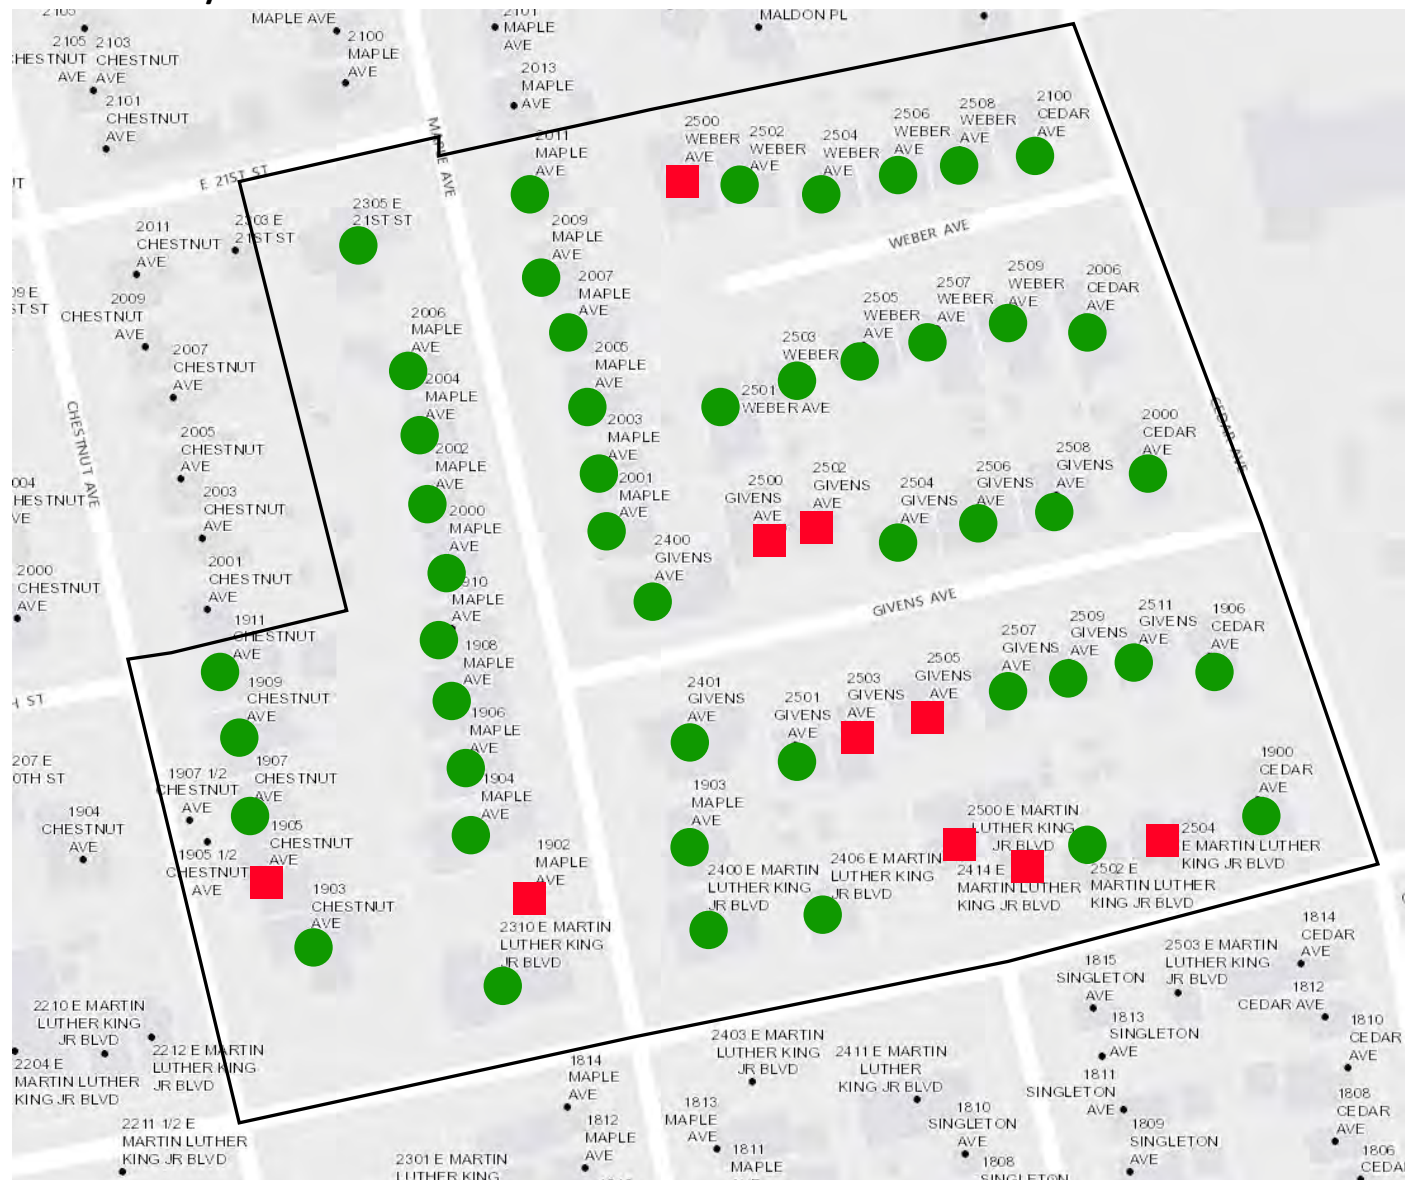

The Historic Preservation Officer shall review all other proposed repairs, alterations, or construction undertaken to the exterior of a site or structure within the district and evaluate their compliance with these standards. Work may be administratively approved, if allowed by code, or referred to the Historic Landmark Commission for further review.

If changes to a project are proposed subsequent to historic review and approval, these standards shall be used to determine the appropriateness of any proposed project to which they apply. All standards are required unless specifically noted.

The Historic Landmark Commission may approve a Certificate of Appropriateness for work that does not strictly comply with the design standards if it finds that the proposed work is historically accurate and/or consistent with the spirit and intent of the standards, and that the proposed work will not adversely affect the historic character of the property or the integrity of the district. The Commission may impose conditions on the Certificate of Appropriateness. The applicant has the burden of proof to establish the necessary facts to warrant favorable action. The Historic Preservation Officer shall notify the applicant of the Commission's action as prescribed by the Land Development Code.

The design standards prioritize the preservation of building facades that are visible from public streets; these are designated as "protected" facades and are defined in Section 1.0 Protected Facades. Protected facades should be preserved or restored, and alterations should be avoided if possible. Work to non-protected facades must comply with the design standards.

HOLY CROSS/WASHINGTON HISTORIC DISTRICT MAP

Contributing properties fit the following criteria:

1. Contribute architecturally and/or historically to the historic character of the district;
2. Are at least 50 years old and retains their historic appearance; and
3. Were built during the period of significance for the district (1953-69).

Altered buildings may still be considered contributing if the alterations are minor and have not significantly compromised the integrity of materials and design of the building. However, a building that has been significantly altered and no longer retains its historic appearance is no longer contributing, even if it is over 50 years old. The building may be rehabilitated to its historic appearance and determined contributing at that time.

ARCHITECTURAL STYLES AND CHARACTER-DEFINING FEATURES

The predominant architectural style in the Rogers Washington Holy Cross Historic District is Ranch; however, there are representations of other styles common to the period of significance (1952-1969) and the development patterns of this time. They include: Minimal Traditional, Split Level (a type of Ranch), and Contemporary.

Character-defining features are elements of a building that illustrate a period or style of architecture that should be preserved and maintained. These features can include building form and shape, roof type, materials, door and window patterns, craftsmanship, decorative details, and other physical details such as landscape features including retaining walls and trees and how a building is sited on a lot. Character-defining features of the Holy Cross/Washington Historic District and the district's architectural styles are explained below. Although these styles may include certain features such as shed roofs or stucco cladding, the design standards address the typical representation of these styles in Holy Cross/Washington.

Character-defining Features of the District

This neighborhood is an auto-oriented development and the patterns of development are based on a street pattern favoring the auto, not the pedestrian. Much of the neighborhood is characterized by curvilinear streets without sidewalks. The setting of the houses is a typical suburban pattern of a front yard, side setbacks, and backyard. The front yards are open, some sloping due to the topography of the neighborhood. The character-defining features include the siting of the buildings on the lot forward facing to the street, the front yard and landscaping, exterior materials including brick, wood siding, rock and other exterior materials, roof form and chimneys, garages and carports and their placement in relation to the main structure, windows including placement, shape, size and materials; doors including placement, shape, size and materials, porches and entrances; decorative elements including decorative rafter tails and gables, brick work and stone and landscape elements including decorative masonry fencing, retaining walls, and other site elements.

Architectural Styles within the District

MINIMAL TRADITIONAL, CIRCA 1935-1950s

This style is characterized by a simple linear rectangle shape and form with little decoration and a low to intermediate pitched roof. It features closed narrow to moderate eave overhangs, sometimes with rake detailing. Houses are typically one story, though some two-story structures are possible, but there is almost always a large, wide chimney on the front face of the house and at least one front-facing gable. Houses are constructed of wood, brick, stone or a mix of two or more of these materials. Garages, if built, are usually attached to the house, flush to the elevation.

Character-defining features of the Minimal Traditional style:

- Building Form: L-plan, modified L-plan, bungalow, or ranch.
- Exterior walls: Wood siding or asbestos shingle. Decorative wood shingles, board-and-batten, or wavy-edge siding sometimes present at gable ends. Brick or stone veneer sometimes present at water table.
- Foundation: Pier and beam with wood skirt, or concrete slab.
- Porches: Typically, partial-width, supported by simple wood posts, geometric wood posts, or decorative metal posts.
- Roofs: Cross-gabled or gable-on-hip.
- Windows: Casement or double-hung, wood or metal sash. Fixed picture windows sometimes present at front façade. Decorative wood shutters common.
- Doors: Wood, often with small lites in geometric patterns.
- Chimneys: If present, simple brick or stone.
- Garage/carport: Attached or detached. Attached are located on the side-flush, recessed or projecting. Detached are located to the rear.

RANCH, CIRCA 1950s-1960s

Also known as the 'rambler,' the Ranch style is loosely based on colonial styles, particularly Spanish Colonial or English Colonial. It is characterized by a single story, asymmetrical form, and linear, rambling shape, which maximizes the façade width. It always features a 'built-in' attached garage flush to the elevation, usually on the front or side façade. Roof forms are typically hipped, though cross-gable and side-gable types are possible, with low pitches and moderate to wide eave overhangs. Usually the house is constructed of wood and/or brick with decorative shutters and iron or wood porch supports. Partially enclosed courtyards and patios located on the rear elevation are typical. Picture windows in the living room and decorative ribbon-style windows are common.

Character-defining features of the Ranch style:

- Building Form: One-story, irregular-plan.
- Exterior Walls: Often brick or stone masonry, often using Roman brick or flagstone; sometimes wood siding or asbestos shingle siding.
- Foundation: Concrete slab or pier and beam.
- Porches: If present, typically recessed under main roof form and supported by simple wood posts or decorative metal posts. Floor typically concrete. Integral stone or brick planters often common. Details may exhibit influences of Revival Styles.
- Roofs: Low-sloped hipped or side-gabled, with deep eaves. Clerestory windows sometimes present at gable ends or below eaves. Details may exhibit influences of Revival Styles.
- Windows: Double-hung, casement, awning or jalousie, with wood or metal sash.
- Doors: Wood, often with small lites in geometric patterns. Decorative metal screen doors.
- Chimneys: If present, broad and simple brick or stone.
- Garages and carports: Located to the front side or rear; attached or detached.

SPLIT LEVEL AND TWO-STORY, CIRCA 1950s-1970s

The Split Level house was a novel form that developed at the end of the 1950s and remained popular through the 1970s. It is often considered a subset of the Ranch-style house. Split Level houses typically has three or more separate levels that are staggered and separated from each other by a partial flight of stairs. The two primary types are the Tri-Level Split, with three distinct living stories each a half-level apart, and the Bi-Level, with two distinct living spaces and a split-entry level. Like the other house types of this era, Split Level houses characteristically display little decorative detail; where ornamentation exists, it is minimal and may reflect Colonial, Modern, or Prairie influences in a very simplified manner. Thus, the Split Level house shares many characteristics with the post-WWII Colonial or Ranch-style house. As with the Ranch style, the garage is fully integrated into the house, reflecting the predominance of the automobile in this era.

Character-defining features of the Split Level style:

- Form: Asymmetrical; one section of the house is a half-story taller than the other, and often has a front-facing gable (side-facing gable on the lower portion is common). Hipped roofs are common as well.
- Materials: Wood siding, wide reveal; some brick or stone veneer is possible.
- Roofs: Low to moderate pitch, multiple levels, with cross-gable; hip or gable is possible.
- Windows: Picture and bay windows are common. Early examples typically had double-hung windows; later examples had sliding windows.
- Doors: Modern door, often a solid wood door with small windows.
- Details: Little decorative ornamentation. Where present, details may reflect some Colonial Revival influence, but other stylistic references are possible.
- Garage: Fully integrated into house.

CONTEMPORARY, CIRCA 1950s-1970s

This style was favored by American architects from about 1945 to 1965. Roofs may be either flat or low pitched gabled. The Contemporary style had advantages over the Ranch style: it could be adapted to a two-story house and it could be built on hillsides or sloped terrain. Earlier styles were concerned about exterior decorative details whereas Contemporary houses were designed with concern for how interior spaces would function, especially in relation to each other. Thought was put into how interior and exterior spaces were integrated. A typical contemporary-style house is one story, although later versions featured a shed-style roofline with alternating floor heights. Visually integrated attached garages are typical. The flat roof style has wide overhangs; the gabled style has a low-pitched roof with wide overhangs and a low, broad front-facing gable. Exposed support beams and structural members are common. The exterior is constructed of contrasting wall materials and textures of wood, brick, and stone. Windows are often unusual in size, shape, style, and placement.

Character-defining features of the Contemporary style:

- Building Form: Irregular or ranch.
- Exterior Walls: Stucco, wood, Roman brick, flagstone, glass, or tile. No applied ornament. Often curving or angular.
- Foundation: Concrete slab.
- Porches: Cantilevered flat awnings, or recessed under flat roof.
- Roofs: Flat, low- pitched, or irregular.
- Windows: Double-hung, casement, or fixed, with metal or wood sashes.
- Doors: Typically wood or metal, often with glazing.
- Chimneys: If present, typically brick or stone.
- Garages and carports: Are usually attached and integrated into the design.

DESIGN STANDARDS

1.0 PROTECTED FACADES

The standards prioritize the preservation of building facades that are visible from public streets; these are designated as “protected” facades and are defined by the diagrams below. Protected facades are defined as the front façade, front 50% of the side facades, and front 75% of the corner side yard façade, as illustrated below. Non-protected facades are the remaining facades of the building.

- 1.1 Retain and preserve protected facades.
- 1.2 Do not change the character, appearance, configuration, or materials of protected façades, except to restore buildings to their original appearance.³⁶
- 1.3 Do not add conjectural architectural features (e.g., do not add a front porch to a house that never had one).
- 1.4 Work to non-protected facades must be appropriate. However, the guidelines recognize that change will occur and that alterations and additions may be required on these non-protected facades.

Diagram 1-1 Protected facades on an interior lot

Diagram 1-2 Protected facades on a cornerside lot

2.0 LOT CONFIGURATION

Lot configuration and grading are important historic features of the Holy Cross/Washington Historic District. These design standards seek to preserve, as much as possible, the lot configuration, orientation, scale and dimensions of the neighborhood.

- 2.1 Do not replat one or more lots, which may alter the original lot configurations or orientations.
- 2.2 Development or redevelopment of vacant lots shall respect the historical development of the property and district in terms of lot size and relationship between public and private spaces.
- 2.3 Preserve existing single-family development patterns by constructing one principal house on each platted lot. Accessory dwelling units are permitted.
- 2.4 Significant alteration of a property's topography through extensive grading, removal or alteration of rolled terraces and similar character-defining features, filling or excavating, is not permitted unless it is to correct significant flooding and drainage issues as specified by the City of Austin Engineering Department.

3.0 SITE AND SITE ELEMENTS

Site and context are critical to the character of a historic building and neighborhood. Therefore, the relationship of buildings and structures to their respective sites and to adjacent sites are important character-defining features of the Holy Cross neighborhood. Holy Cross/Washington was an auto-oriented suburb. Therefore, the driveway, sidewalks, walkways, and parking areas were an integral part of the development pattern and are important to the character of the neighborhood.

3.1 SIDEWALKS/WALKWAYS

Many of the block faces have walkways to the front of the houses. These walkways are typically simple and perpendicular to the street.

- 3.1.1 Retain the original location, size and orientation of historic sidewalks/walkways.
- 3.1.2 Repair historic walkways rather than replacing them. If replacement is necessary due to severe deterioration or damage, the replacement shall match the size, form, location, and material of the historic walkway.
- 3.1.3 Where changes to historic walkways are necessary or new walkways are installed, the alterations and new walkways shall be similar to and compatible with the historic walkways in location, design, width, and materials.
- 3.1.4 Locate new walkways in front of the house, perpendicular to the street (as is typical of the neighborhood), matching the size, form, and material of historic walkways. On houses on an arterial corridor such as Martin Luther King Blvd, new walkways do not need to be perpendicular to the street.
- 3.1.5 New public sidewalks shall be aligned with those already on the block. If none exist, new sidewalks shall be placed immediately adjacent to the curb.

3.2 DRIVEWAYS

Typical neighborhood driveways are narrow, located to one side of the residence near the side property line, are straight and perpendicular to the street, constructed of concrete, and typically lead up to a garage or carport.

- 3.2.1 Retain the original size, location, orientation, and materials of historic driveways.
- 3.2.2 Integrate parking areas into the architecture of the house and orientation of the lot.
- 3.2.3 Do not pave historically landscaped areas of the yard.
- 3.2.4 Repair historic driveways rather than replacing them. If replacement is necessary due to severe deterioration or damage, the replacement shall match the historic form, width, location, and material.
- 3.2.5 New driveways shall be similar to and compatible with historic driveways in placement and location, design, width, and materials. Circular or semi-circular driveways are not allowed unless on an arterial corridor (such as Martin Luther King Drive).
- 3.2.6 Driveways shall be concrete or similar material. Do not use plain asphalt or blacktop for a driveway or sidewalk or in the front of the house. Do not use artificial grass, asphalt, exposed aggregate, or outdoor carpet.

3.3 LANDSCAPING

The predominant landscaping in front and side yards includes grassy areas that connect one

property to another. Trees have been planted in many front yards.

- 3.3.1 Keep landscape planting, beds, and features at the curb or front lot line low (no more than 3 feet tall). Do not obscure the front or primary façade of the house with vegetation.
- 3.3.2 Replace only those portions of character-defining landscape features that are deteriorated beyond repair. Existing mature trees located in the front yard shall be maintained, with the exception of unhealthy or damaged trees, which may be removed and replaced.
- 3.3.3 Landscape elements in back yards, not visible from any street and less than six feet in height, are not subject to review unless a building or other type of permit is required by the Municipal Code.

Recommendations

- 3.3.a Indigenous plant species, which are better adapted to local climate, may require less water than non-native species and are therefore encouraged.
- 3.3.b Deciduous trees that provide shade in the summer and allow passive heating in the winter are also encouraged.
- 3.3.c Grass types that are drought-resistant are encouraged. Some drought-tolerant grasses include native Buffalo grass, Tall Fescue, and Bermuda.
- 3.3.d Drought-tolerant landscaping offers an alternative to turf in yards and is encouraged. Alternatives for lawn areas can include any combination of hardy, low-growing ground-covers, rock, and grass.
- 3.3.e Native and drought-tolerant species are encouraged for landscape beds.

3.4 RETAINING WALLS

- 3.4.1 Preserve historic retaining walls.
- 3.4.2 Repair retaining walls with materials that match the original.
- 3.4.3 New retaining walls located in front or side yards and visible from the right-of-way shall be constructed of brushed concrete, stone, brick, or a combination of these materials that is compatible in texture, color, and style to the principal building or adjacent paving materials.
- 3.4.4 The height of a new retaining wall shall not exceed the height of the slope it retains.

3.5 PATIOS AND DECKS

- 3.5.1 Locate new patios and decks at the rear of the existing structure.
- 3.5.2 Construct new decks in such a manner that prevents the pooling of moisture against or the infiltration of moisture into an existing structure.

3.6 OUTDOOR LIGHTING

- 3.6.1 Outdoor lighting must be compatible with the historic character of the building and neighborhood in design, material, and scale.

3.7 MECHANICAL AND ENERGY CONSERVATION EQUIPMENT

- 3.7.1 Locate mechanical equipment and energy conservation equipment on non-primary

elevations, where feasible, to minimize visibility from the street.

- 3.7.2 Solar panels shall be installed flat and not alter the slope of the roof. Installation of panels must be reversible and not damage the historic integrity of the property or district.
- 3.7.3 Locate rainwater collection systems on the side or rear of the house and not along the front façade.
- 3.7.4 Locate wind power systems to the rear of the site or the rear of new additions. The color of the turbine must be muted and free from graphics.

Recommendation

- 3.7.a Appropriate landscaping is encouraged to screen mechanical equipment or accessories.
- 3.7 b Gutters are encouraged as a method of directing stormwater runoff and preventing drainage problems.

3.8 ENERGY EFFICIENCY

- 3.8.1 Compliance with energy or building codes shall not be used as a reason to demolish a historic, contributing, or potentially contributing structure, or to change a structure in such a way that its historic features are modified or removed. The City of Austin recognizes that protection of our cultural heritage contributes to sustainable communities and preserves the value of embodied energy used in the construction of the building.
- 3.8.2 Construction of any new structures or alterations of existing structures shall be done in such a way as to meet or exceed the intent and requirements of current energy and building codes, except in cases where compliance with the codes would adversely impact the historic character of the property or the district.

3.9 ARCHITECTURAL BARRIERS AND ACCESSIBILITY

When needed or required, accessibility to historic properties can be achieved with careful and creative design solutions.

- 3.9.1 Ramps and other accessibility-related installations shall be of aesthetically conforming materials and as unobtrusive as possible.

3.10 FENCES

The primary purpose of a fence is to define a boundary or to enclose a site. It is appropriate to construct and use fences in this manner for a historic neighborhood. Typically, Holy Cross has chain link and wood fencing around properties and decorative masonry (CMU) walls (see following photo) and wing walls adjacent to side facades.

- 3.10.1 Fences and fence walls are generally permitted in side, corner side, and back yards. Interior side and corner side yard fences and fence walls shall not extend in front of the historic front building facade. Depending on the materials and details of a fence and fence wall, additional requirements of this section may apply.
- 3.10.2 Construct fences in a material and style consistent with the adjacent buildings and in accordance with applicable zoning regulations. Allowed fence locations are shown below.

3.10.3 Fences shall not obscure significant views of protected facades nor obscure views to other character-defining features of the neighborhood. Fences in the front shall be no more than 4 feet in height.

3.10.4 Repair historic decorative masonry walls (CMU) rather than replacing them. If replacement is necessary due to severe deterioration or damage, the replacement shall match the

historic size, form, location, and material of the historic masonry wall.

- 3.10.5 Fences historically located on the property line between houses and extending into the front yard are permitted and may remain and be repaired or replaced with material that is aesthetically conforming for mid-century architecture.

4.0 ALTERATIONS TO CONTRIBUTING PROPERTIES

The intent of the historic district is to preserve existing buildings that contribute to the overall historic identity and character of Holy Cross/Washington. Because the Ranch and Minimal Traditional style homes that dominate the district have very little ornamentation, features such as roofline, doors, windows and exterior materials become more important.

Wherever possible, materials, design, and craftsmanship of original features shall be retained, used and maintained in a manner consistent with these standards. The preservation of historic materials provides individual properties and the neighborhood with authenticity and integrity.

4.1 EXTERIOR WALLS

- 4.1.1 Retain original exterior materials, including siding and trim. Wood and historic masonry and features such as texture, tooling, bonding patterns, and joint treatment are protected and must be retained.
- 4.1.2 Repair rather than replacing original exterior materials.
- 4.1.3 When replacement of historic original exterior material is necessary due to severe deterioration or damage, the replacement shall match the historic element in appearance, dimension, form, color, reflectivity, finish, and texture. Mortar used in re-pointing must match the color and composition of the original. Incompatible mortar, too high in Portland cement content, may exceed the strength of historic brick and result in accelerated deterioration of brickwork.
- 4.1.4 Do not apply aluminum, vinyl, or other synthetic siding as a replacement for a primary building material. Artificial siding materials have been documented to cause serious, costly, and often irreparable damage to underlying materials and structural members.
- 4.1.5 Exposed wood shall be painted, stained, or otherwise protected from deterioration, except for roof shingles and other elements, including brick that were historically unpainted.
- 4.1.6 Do not use paint removal methods that involve thermal devices, or utilize chemical strippers that are not neutralized and stripping over a prolonged period such that the grain is raised and the surface is roughened, and mechanical abrasive methods.
- 4.1.7 Do not paint masonry elements unless they were originally painted. Moisture may become trapped between the paint and masonry, causing deterioration of the underlying materials and structural members.
- 4.1.8 Cleaning of masonry should only be undertaken when necessary to stop deterioration and shall employ the gentlest means possible, such as low-pressure water and soft bristle brushes. Test chemical cleaners or micro-abrasive systems on a hidden area of the building to determine if damage will occur and to ensure an appropriate cleaning treatment.
- 4.1.9 Replacement of deteriorated asbestos tiles and boards is allowed. Replacement materials shall match in size, form, texture, and pattern.

4.2 ROOFS

Roofs are an important character-defining feature for houses in the neighborhood. Roofs are a principal structural element of houses and help define the character of historic architectural styles through their form and material.

- 4.2.1 Retain historic original roof form, shape, overhang, eaves, coping, dormers, and decorative elements. With Ranch, Minimal Traditional, and Split Level styles, the roof form is usually gable-side crossed or front-facing or hipped or a combination. The roof pitch is generally low

or intermediate, with minimal cornice boards and other decoration. Contemporary-style houses often have flat or low-pitched roofs, but may be “gull-wing” or “butterfly.”

- 4.2.2 Base replacement roofing for non-historic roofing on roofing that is appropriate to the style of the building. Substitute materials that simulate historic roofing materials are permitted where their design is appropriate. Typical historic roof materials are composition shingles or metal for Ranch, Split Level, and Minimal Traditional style houses. Typical roof materials for Contemporary houses are composition roll roofing or tar and gravel.
- 4.2.3 If replacement is necessary due to severe deterioration or damage, the replacement shall match the original in material, texture, color, and shape, where possible or be similar in appearance to the historic roofing and/or features.
- 4.2.4 Do not apply roof detail if it did not exist historically.

4.3 CHIMNEYS

- 4.3.1 Retain chimneys as protected features.
- 4.3.2 Repair historic chimney material rather than replacing it.
- 4.3.3 If chimney material is severely deteriorated or damaged, replacement materials shall match the original in material, size, and form, texture, bonding pattern, joint size, shape, appearance, color, and mortar.

4.4 PORCHES AND ENTRANCES

Porches and entrances are character-defining features that provide interest and are integral to the housing styles in Holy Cross/Washington.

- 4.4.1 Retain historic porches and entrances as protected features, including porch railings and/or columns.
- 4.4.2 If replacement is necessary due to severe deterioration or damage, replacement materials shall match the original in design, profile, finish, and texture. Do not add porch elements that were not historically present.
- 4.4.3 Do not enclose front porches.
- 4.4.4 Do not construct a new front deck or front porch or expand an existing porch on the main or corner side facade.
- 4.4.5 If original porch elements are missing, they may be restored to their historic appearance if sufficient documentation exists to ensure accuracy.
- 4.4.6 If new railings are needed due to safety concerns, style and materials shall be appropriate to the style of the house.

4.5 WINDOWS

Historic windows are an important character-defining feature of a building. Window design typically provides an accent and may incorporate a special material, finish, or design that provides variety and visual interest to the building and neighborhood. Each style of building uses characteristic window styles, and it is important to maintain appropriate designs for these elements.

- 4.5.1 Do not enlarge, move, or enclose historic window openings on protected facades. Do not create new window openings on protected façades. It may be appropriate to restore original

window openings that have been enclosed.

- 4.5.2 Repair historic windows, surrounds, and elements rather than replacing them. If replacement is necessary due to severe deterioration or damage, or to meet a whole-house energy standard along with other energy-efficiency measures, the replacement shall match the historic window size, profile, appearance, window pane number and configuration, and other design characteristics. The relationship between the replacement windows, the window surrounds, and the screens (if present) shall match the original.
- 4.5.3 Do not install vinyl-clad wood windows or vinyl-sash windows. Vinyl is not an environmentally sustainable material, and the texture and sheen of vinyl windows does not match the materials or appearance of original windows.
- 4.5.4 Muntins, the strip of wood or metal separating and holding panes of glass in a window, must match the profile of the original window with either true divided lights or dimensional muntins placed on the outside of the glass. Do not use false muntins inserted inside the glass.
- 4.5.5 Replacement glazing shall be clear. The application of clear ultraviolet (UV) film to window glazing is the least costly option for reducing heat gain from sunlight and may be an acceptable addition to window glass.
- 4.5.6 Storm windows can provide increased energy efficiency without damaging historic windows. Interior storm windows may be used to maintain the historic exterior appearance of the window. If using storm windows, install them in a way that does not damage exterior historic fabric.
- 4.5.7 The replacement of non-historic incompatible windows with windows that are more historically appropriate is encouraged.

4.6 DOORS

Historic doors are an important character-defining feature of a building. Door design typically provides an accent and may incorporate a special material, finish, or design that provides variety and visual interest to the building and neighborhood. Each style of building uses characteristic door styles and it is important to maintain appropriate designs for these elements.

- 4.6.1 Do not enlarge, move, or enclose original door openings. It may be appropriate to restore original door openings that have been enclosed.
- 4.6.2 Retain original doors, door surrounds, and sidelights.
- 4.6.3 If a replacement door, door surround, sidelight, or transom is necessary due to severe deterioration or damage, the style, materials, and finish of the replacement shall reflect the style and period of the house. Replacement doors shall be compatible with historic doors in proportion, shape, location, pattern, size, materials, and details.
- 4.6.4 Do not create new door openings in the front facade of a principal building.
- 4.6.5 If new openings are necessary due to code requirements or unique circumstances, they may be considered by the Historic Landmark Commission. In this case, new openings shall be compatible with existing door openings in proportion, shape, location, pattern, size, and material.
- 4.6.6 A storm or screen door visible from the public right-of-way shall be limited to one intermediate rail and full view glazed panels (clear glass) to maximize the view of the existing door, while not damaging or obscuring the door and frame. Do not enlarge or decrease the size of a door opening to accommodate a storm door.

4.6.7 Do not install security bars on doors or windows visible from the public right-of-way.

4.7 RECONSTRUCTION OF MISSING ELEMENTS

4.7.1 Use photographs, documentary, or physical evidence to replace missing features or design elements. Replicate only those features that are known to have existed on the building or site.

5.0 ADDITIONS TO CONTRIBUTING PROPERTIES

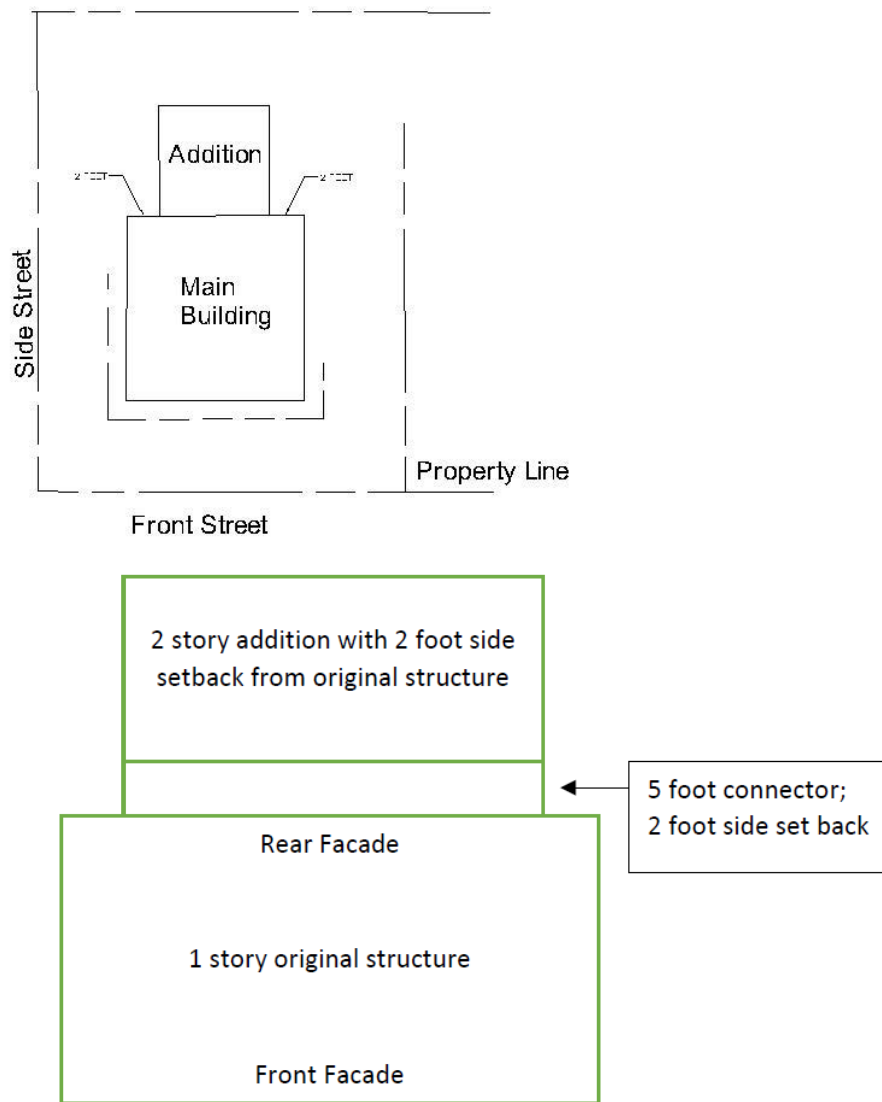

The expansion of historic buildings can be part of a building's evolution. These guidelines are intended to manage that change in a way that protects the character-defining features of contributing buildings and the neighborhood. Additions should relate to and complement the style of the principal building and the streetscape.

5.1 DESIGN OF ADDITIONS

- 5.1.1 Design additions to be compatible with the principal building in massing, size, scale, proportion, texture, finish materials, and detail.
- 5.1.2 Additions visible from the street (either from the front or from the side) shall have window-to-wall area ratios, floor-to-floor heights, fenestration patterns, and bay divisions compatible with those on the existing house.
- 5.1.3 Additions are not required to be designed in a particular style, but their design should be compatible with the architectural style of the existing building.
- 5.1.4 Design additions to appear secondary and subordinate to, and differentiated from, the existing house.
- 5.1.5 Design connections between additions and historic structures to be clearly discernible. A clear definition of the transition between the new addition and the historic structure shall be established and maintained.
- 5.1.6 One-story additions not visible from the public right-of-way do not need a connector between the original rear façade and new construction.
- 5.1.7 A two-story addition shall have a one-story connector of at least five (5) feet between the main building and the addition.
- 5.1.8 Design the roof form of additions to echo those of the original structure. Do not add dormers visible from the public right-of-way.

5.2 LOCATION OF ADDITIONS

- 5.2.1 Locate additions at the rear façade of the principal building. Additions must be set back at least two feet from the side facades of the building.
- 5.2.2 A two-story addition is permitted behind a one-story house and shall have a one-story connector of at least five (5) feet between the principal building and the two-story addition.
- 5.2.3 A second-story addition built directly over the principal building is permitted only when the second-story is built over an existing addition that was not originally part of the contributing principal building.

6.0 ACCESSORY STRUCTURES

Accessory structures are differentiated from accessory dwelling units (ADUs) by use and by size. Accessory structures are not used as living spaces and may include buildings like sheds. See 8.0 New Construction for accessory dwelling unit standards.

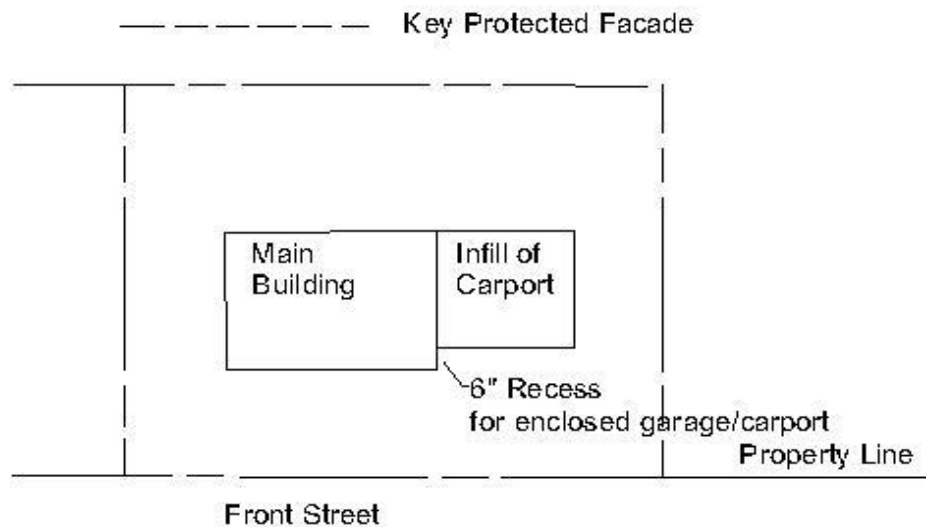

These standards apply to all ground-up, standalone new construction within the district, on both contributing and noncontributing properties.

- 6.1 Accessory buildings shall follow the historic setback patterns of the property or other accessory buildings in the streetscape or district when constructed new or replaced in kind.
- 6.2 Locate accessory structures behind the rear of the house.
- 6.3 Accessory structures shall be secondary in size and use to the existing main house and garage.
- 6.4 Accessory structures shall not exceed the height of the existing main house.

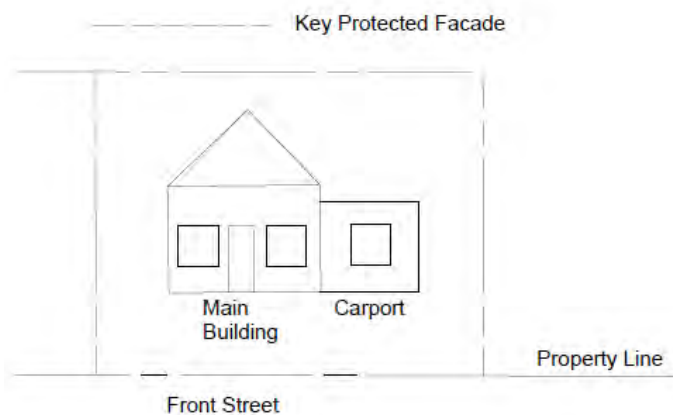

7.0 GARAGES, CARPORTS, AND GARAGE APARTMENTS

Garages and carports are an integral part of the design of the houses. Most garages and carports are attached to the front façade, as is typical for Ranch, Contemporary, and Split Level houses.

- 7.1 Retain historic garages and carports and their character-defining features, such as primary materials, roof materials, roof form, windows, window and door openings, and any architectural details.
- 7.2 If replacement of character-defining features is necessary due to severe deterioration or damage, replacements shall match the original as closely as possible in material, texture, size, and finish.
- 7.3 Conversion of historic-age attached carports into enclosed garages or living space, or historic-age garages into living space, is allowed.
- 7.4 The infill of the entry of the carport on the front facing façade for a garage shall be recessed six inches at minimum.

- 7.5 Infill of the entry of the historic-age carport or garage on the front façade as a living space shall be recessed at least six inches, shall use exterior materials similar to and compatible with the original house, and have at least one window similar in size to the typical window on the original house.

8.0 NEW CONSTRUCTION OF INFILL (HOUSES) AND ACCESSORY DWELLING UNITS

These standards apply to ground-up standalone new construction on every property within the district, both contributing and noncontributing. New construction within Holy Cross/Washington should not copy the district's historic buildings, but it should be compatible with the mid-20th-century design of the neighborhood. New construction should reflect building forms, materials, massing, proportions, roof forms, fenestration patterns, and architectural styles historically present within the district. The intent of these guidelines is not to limit creativity, but to encourage compatible design and construction.

The neighborhood has historically been single-family, and therefore the most appropriate type of new construction within the residential neighborhood reflects the single-family scale and aesthetic.

To balance economic vitality and historic preservation, accessory dwelling units (ADUs) are allowed in rear yards. This portion of the standards applies to ADUs as well as construction of new principal buildings.

Driveways, landscaping, fences, walls, mechanical equipment, and other site elements will be reviewed under the design standards for these elements in the sections listed above.

8.1 ORIENTATION, SETBACKS, AND HEIGHT

- 8.1.1 Locate new or moved structures on their lot to maintain the existing patterns and setbacks of the street.
- 8.1.2 Front and side yard setbacks for new principal buildings shall equal the prevalent setback of the contributing houses on the same side of the street. When the historic street pattern is irregular, new principal buildings shall have a setback similar to adjacent contributing properties.
- 8.1.3 The height of new construction for principal buildings shall not exceed 27 feet measured vertically from a) the average of the highest and lowest grades adjacent to the side of the building facing the primary street (typically the front of the building) to b) the highest point of the building at any location. Refer to the Land Development Code for more detail on measuring building height.
- 8.1.4 The grade of the lot shall be the same as the grade of the adjacent street, as well as the grade of the adjacent contributing buildings.
- 8.1.5 The height of new construction for ADUs shall be compatible to the dimensions of the lot and the scale of the property.

Recommendations

- 8.1.a Consider cornice heights, porch heights, and foundation heights in the same block face when designing a new building.
- 8.1.b Consider the grade of the lot against the grade of the adjacent street, as well as the grade of adjacent contributing buildings.

8.2 DESIGN AND STYLE

- 8.2.1 The total mass and site coverage of a new building shall be consistent with adjacent contributing buildings. The massing of the various parts of a new building shall be compatible with contributing buildings that are adjacent and on the same block face.
- 8.2.2 Design new buildings to be compatible with the historic character of the district, yet

differentiated from historic buildings in the district.

- 8.2.3 Buildings designed in a contemporary style shall respect the scale, massing, proportions, patterns (including door and window patterns), and materials prevalent among contributing houses.
- 8.2.4 Do not combine character-defining features from different architectural styles in the district historically.

Recommendation

- 8.2.a The building forms and architectural styles that historically were present within the district may serve as a guide for new construction.

8.3 EXTERIOR WALLS

- 8.3.1 Use exterior materials that are compatible with the character of the district in scale, type, size, finish, and texture.
- 8.3.2 The pattern and arrangement of secondary materials shall be compatible with the overall character of the district.
- 8.3.3 Limestone/sandstone, brick, clapboard, wood, and cement board are appropriate cladding materials.
- 8.3.4 When cement board siding is used to simulate wood or asbestos siding, it shall reflect the general directional and dimensional characteristics found historically in the district.

8.4 PORCHES AND ENTRANCES

- 8.4.1 New construction shall have a front porch or entrance area that is similar to those on surrounding contributing buildings.
- 8.4.2 Porch posts/columns, railings, and detailing shall correspond to the form and architectural style of the new building.
- 8.4.3 Do not add porch elements that were not historically present.

8.5 ROOFS

- 8.5.1 Roofs shall be simple in form, reflecting the character of the roofs on contributing houses.
- 8.5.2 Roof details such as eave detailing and bargeboards shall correspond to the building form and architectural style of the new building.
- 8.5.3 Roof materials shall reflect the character of the roofs on contributing houses, as well as the historic character of houses with a similar building form and architectural style.

8.6 WINDOWS AND SCREENS

- 8.6.1 Windows and screens shall reflect the proportions, configuration, and patterns of windows and doors in historic buildings within the district.
- 8.6.2 Do not install vinyl-clad wood windows or vinyl-sash windows.
- 8.6.3 Divided-light windows must use either true divided lights or dimensional muntins placed on the outside of the glass. Do not use false muntins inserted inside the glass.

- 8.6.4 Glazing shall be clear. The application of clear ultraviolet (UV) film to window glazing is the least costly option for reducing heat gain from sunlight and may be an acceptable addition to window glass.

8.7 DOORS

- 8.7.1 A single primary door is allowed on the front, primary façade of new construction and shall be located so that it is visible from the street.
- 8.7.2 Match the style, proportions, materials, and finish of the front door to the overall style and design of the house. The door placement, style, proportions, materials and finish shall correspond to the building form and architectural style of the new building in a way that responds to historical styles and trends evident in the neighborhood.

8.8 CHIMNEYS

- 8.8.1 Chimneys shall reflect the configuration, form and patterns of chimneys in historic buildings within the district and be compatible with the overall style and design of the house.

8.9 GARAGES, CARPORTS, ACCESSORY BUILDINGS

- 8.9.1 Garages and carports shall correspond in size, scale, and placement to contributing houses on the block face and architectural styles within the district.
- 8.9.2 The materials and finishes used for new garages, carports, and outbuildings – including garage doors – shall correspond to the overall character of the district, as well as the building type and style of the new house.
- 8.9.3 Accessory buildings shall be located in the rear yard. Refer to “6.0 Accessory Structures” for additional standards.

9.0 DEMOLITION AND RELOCATION

- 9.1 Do not demolish a contributing building unless the structure is a threat to the safety of the public and/or cannot reasonably be rehabilitated either structurally or economically.
- 9.2 The relocation of contributing buildings from inside the district to locations outside the district shall be considered in the same manner as demolition for the purposes of considering the appropriateness of the action.
- 9.3 Relocation of buildings from outside of the district to a location within the district shall be considered appropriate only when the structure to be moved is architecturally, materially, and dimensionally compatible with the district.
- 9.4 The demolition and relocation of noncontributing buildings shall be considered using the process defined by code for historic-age buildings.

The City's Land Development Code addresses demolitions in historic districts with the following provisions:

ISSUANCE OF DEMOLITION PERMIT

When the Historic Landmark Commission recommends approval of a certificate regarding demolition of buildings, objects, sites, or structures in historic districts or historic landmarks, permits shall not be issued until all plans for the site have received approval from all appropriate city boards, commissions, departments and agencies.

If any building, object, site or structure covered by this subdivision shall have to be demolished as a public safety hazard, no application for a permit for a project on the property may be considered for a period of two (2) years from the date of demolition of the structure provided that the following have occurred prior to an order for demolition:

- A. The owner thereof has received two (2) or more notices of building neglect in violation of this and other city ordinances from the historic preservation officer and the director of development services, or their designees;
- B. At least two (2) municipal court cases have been filed in an attempt to enforce applicable provisions of the City Code;
- C. A verified consultation between the owner, historic preservation officer, and the director of development services has occurred. Additionally, no permit for a curb cut needed for the operation of surface parking lot shall be granted by a city office during this period, nor shall a parking lot for vehicles be operated whether for remuneration or not on the site for a period of five (5) years from and after the date of such demolition.

TREATMENT OF SITE FOLLOWING DEMOLITION

Following the demolition or removal of a historic landmark, a building, object or structure found eligible for landmark designation, or a building, object, or structure located in a historic district, the owner or other person having legal custody and control thereof shall

- (1) remove all traces of previous construction, including foundation,
- (2) grade, level, sod and seed the lot to prevent erosion and improve drainage, and
- (3) repair at his own expense any damage to public rights-of-way, including sidewalks, curbs and streets, that may have occurred in the course of removing the building, object, or structure and its appurtenances.

10.0 NONCONTRIBUTING PROPERTIES

It is recommended that historic-age properties that are noncontributing due to alterations be rehabilitated under these standards to return them to contributing status.

DEFINITIONS

ACCESSORY BUILDING means a structure, such as a detached garage, shed, gazebo, or other building that supports the function of the principal building on the site and that is subordinate to this principal building.

ACCESSORY DWELLING UNIT, or ADU, is a secondary, usually smaller unit on a property with a primary house. It is self-contained with its own bathroom and kitchen. ADUs can include stand-alone one-story and two-story units as well as those above garages.

ADDITION means construction that increases the size of the original structure by building outside of the existing walls and/or roof. Additions can be either horizontal or vertical.

ALTERATION means an act that changes one or more of the exterior architectural features of a structure or its appurtenances, including but not limited to the erection, construction, reconstruction, or removal of any structure or appurtenance. Appurtenance is anything attached to the building.

APPROPRIATE means typical of the historic architectural style, compatible with the character of this district, and consistent with these design standards.

ARCHITECTURAL STYLE means a category of architecture of similar buildings distinguished by similar characteristics of construction, design, materials, etc.

CERTIFICATE OF APPROPRIATENESS means the documentation provided by the Historic Landmark Commission and Historic Preservation Office. Provided after review of proposed changes to a contributing structure in the historic district, a Certificate of Appropriateness certifies that the proposed change conforms to the Holy Cross/Washington Historic District Design Standards. Certificates of Appropriateness are governed by sections 25-11-2 and 25-11-212 of the City of Austin Land Development Code, which provide that a person must obtain a Certificate of Appropriateness to change, restore, remove, or demolish an exterior architectural or site feature of a structure that is contributing to the historic district; and for ground-up new construction within the district. City Historic Preservation Office staff can approve applications for some Certificates of Appropriateness, as provided in the Land Development Code.

CHARACTER-DEFINING FEATURE means those important architectural materials or features that constitute the property's historic significance as determined by these design standards, Historic Preservation Office staff, or the Historic Landmark Commission. Character- defining features may include a historic building's form, materials, features, craftsmanship, decorative details, as well as its site/ environment. Because these elements contribute to a property's historic character, they are typically prioritized for preservation.

COLUMN means the entire column, including the base and capital.

COMPATIBLE means a design or use that maintains the historical appearance of a building and does not irreversibly alter the building.

CONSTRUCTION means the act or business of building a structure or part of a structure.

CONTRIBUTING STRUCTURE means a structure that fits the following criteria:

1. Contributes architecturally and/or historically to the historic character of the historic district and whose architectural style is typical of or integral to this district.
2. Is at least 50 years old and maintains a high degree of integrity in that it retains its historic appearance (see definition of integrity).

3. Was built during the period of significance for the historic district (1953-69 for Holy Cross/Washington).

The determination of whether a structure is contributing to the historic district was included in the “East Austin Historic Resources Survey” conducted in 2016 by Hardy Heck Moore, Inc. who evaluated the survey and inventory of the buildings within the district, in conjunction with City of Austin staff. A structure is designated contributing to the historic district by the ordinance establishing the district.

Altered structures may still be considered contributing to the character of the historic district if the alterations are minor and have not significantly compromised the integrity of materials and design of the building. However, a building that has been significantly altered and no longer retains its historic appearance is no longer contributing to the district, even if the building is over 50 years old. The building may be rehabilitated to its historic appearance and determined contributing at that time.

CORNERSIDE FACADE means a facade facing a side street.

CORNERSIDE FENCE means a fence adjacent to a side street.

CORNERSIDE YARD means a side yard abutting a street.

DEMOLITION means an act or process that destroys or razes a structure or its appurtenances in part or in whole, or permanently impairs its structural integrity, including its demolition by neglect of necessary maintenance and repairs.

DIRECTOR means the Director of the Department of Planning and Zoning or the Director's representative.

DISTRICT means the Holy Cross/Washington Historic Overlay District (or Historic District). A historic area (HD) combining district is the collection of structures and spatial relationships that give an area its historic character. At least 51% of the principal buildings within the historic area (HD) combining district must be designated as contributing to the district.

ENTRY means a door, gate, or passage used to enter a building.

FAÇADE means any exterior face or elevation of a building.

ERECT means to attach, build, draw, fasten, fix, hang, maintain, paint, place, suspend, or otherwise construct.

FENCE means a structure or hedgerow that provides a physical barrier, including a fence gate.

FENESTRATION means the arrangement, proportioning, and design of windows and doors in a building.

FORM means the size, shape, and massing of a building.

HEIGHT means the vertical distance from the average grade level to the average level of the roof.

HISTORIC means a property, building, element, or material that dates either to the original construction date or to some later but important alteration date that is consistent with a historic district's period of significance.

HISTORIC LANDMARK COMMISSION means the City of Austin Historic Landmark Commission.

INFILL CONSTRUCTION means construction on property between or adjacent to existing buildings.

INTEGRITY means a measure of the authenticity of a property's historic identity, evidenced by the survival of physical characteristics that existed during the property's historic period in comparison with its unaltered state.

INTERIOR SIDE FACADE means a facade not facing a street or alley.

INTERIOR SIDE FENCE means a fence not adjacent to a street or alley.

INTERIOR SIDE YARD means a side yard not abutting a street or alley.

LANDSCAPE means the whole of the exterior environment of a site, district, or region, including landforms, trees, and plants.

LOT means a surveyed parcel of land that fronts on a public street, especially of a size to accommodate an individual building.

MAIN BUILDING means the primary residential or commercial building on a site.

MODIFY or MODIFICATION means to make changes to an existing structure. See also alteration.

MULLION means a wide upright bar dividing two window units within a frame.

MUNTIN means a strip of wood or other material that separates lites or panes of glass within a window sash.

NEW CONSTRUCTION means the act of adding to an existing structure or erecting a new principal or accessory structure or appurtenances to a structure, including, but not limited to, buildings, extensions, outbuildings, fire escapes, and retaining walls.

NO-BUILD ZONE means that part of a district or a lot in which no new construction may take place.

NONCONTRIBUTING STRUCTURE means a structure that meets at least one of the following criteria:

1. Is less than 50 years old.
2. Has been moved into the district less than 50 years ago.
3. Is more than 50 years old, but has been significantly altered over time so that the building no longer conveys its historic appearance. A building is noncontributing to the district unless it is restored to its historic appearance. City incentives are available to owners of historic-age noncontributing properties to encourage restoration into a contributing building.

ORDINARY MAINTENANCE AND REPAIR means work meant to remedy damage to deterioration of a structure or its appurtenances. It does not involve changes in materials, dimensions, design, configuration, color, texture, or visual appearance.

PERIOD OF SIGNIFICANCE means a time period during the history of a neighborhood or district when a substantial amount of construction activity took place. For Holy Cross/Washington, the period of significance is from 1952 to 1969. Most resources in the district were built during this time.

PORCH means the area of a building with a roof and floor, but no front wall. Porches are typically open at the sides as well.

PRESERVATION means measures necessary to sustain the existing form, integrity, and materials of a historic

property. Preservation work focuses on maintenance and repair of historic materials and features rather than extensive replacement and/or new construction.

PROPORTION means the dimensional relationship between one part of a structure or appurtenance and another. Façade proportions involve relationships such as height to width, the percent of the façade given to window and door openings, the size of these openings, and floor-to-ceiling heights. Often described as a ratio, proportions may be vertical (taller than wide), horizontal (wider than tall), or non-directional (equally tall and wide).

PROTECTED means an architectural or landscaping feature that must be retained and maintain its historic appearance, as near as practical, in all aspects.

RECONSTRUCTION means new construction that replicates the form, features, and detailing of a non-surviving site, landscape, building, structure, or object. Examples of reconstruction include the construction of new window screens that replicate historic screens on a structure or the replacement of missing eave brackets or porch features. Reconstruction should be undertaken only when physical and/or documentary (photographic) evidence is available to show the size, scale, proportion, and materials of missing features.

REHABILITATION means the repair, alterations, and additions to a historic property that make a compatible use of the property possible, while preserving the character-defining features of the structure which convey its historic, cultural, or architectural values. Rehabilitation generally involves the construction of additions to historic buildings.

REPAIR means fixing a deteriorated part of a building, structure, or object, including mechanical or electrical systems or equipment, so that it is functional; may involve replacement of minor parts.

REPLACEMENT means interchanging a deteriorated element of a building, structure, or object with a new one that matches the original element as closely as possible in size, scale, proportion, and materials.

REPLICATION means the accurate reconstruction of an element of a building, structure or object using the original element as a model or mold. See reconstruction.

REPOINTING means the repair of existing masonry joints by removing defective mortar and installing new mortar.

RESTORATION means the accurate depiction of the form, features, and character of a property as it appeared at a particular period of time by removing features from other periods in its history and reconstructing missing features from the restoration period.

RIGHT-OF-WAY means the land used for a transportation corridor such as a public street, alley, or railroad; typically owned by the government.

SCALE means the relative proportion of a building to neighboring buildings, or of a building to a pedestrian observer.

SETBACK means the horizontal distance between a structure's vertical planes (walls and/or foundation) and a reference line, usually the property line.

SITE means the land on which a building or other feature is located.

SOLID-TO-VOID RATIO means the proportion of window and door openings to wall surface area in the

exterior wall of a building.

STRUCTURE means anything constructed or erected, on the ground or attached to something having a location on the ground, including but not limited to buildings, fences, site walls, gazebos, billboards, outbuildings, and swimming pools.

VISIBLE FROM A PUBLIC WAY means able to be seen from any public right-of-way (street, alley, or railroad), or other place, whether privately or publicly owned, upon which the public is regularly allowed or invited to be.

Case Number:

PETITION**Rogers Washington Holy Cross HD**

Date: 3/11/2020

Total Square Footage of Buffer: 551692.1328

Percentage of Square Footage Owned by Petitioners Within Buffer: 53.04%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Email or call the staff contact no later than noon the day before the meeting for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Email or call the staff contact no later than noon the day before the meeting for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, please visit our website: www.austintexas.gov/abc

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, the Case Number and the contact person listed on the notice.

Dear Members of the Historic Landmark Commission

I thank you for your service and making time to listen to public input regarding the application for the Historic District Application for the Rogers Washington Holy Cross neighborhood.

My wife and I own and lease a contributing property associated with the application. We collectively spent 15 years in Austin. We moved away from Austin to support extended family in 2014. However, we loved living in Austin and kept our home so that we can retire there. We look forward to spending more time with our Austin friends and the broader community.

We treat our lessees like we would want to be treated and invest in the home as if we lived there. In the last decade, we have invested in over \$30,000 in maintenance and improvements, including approximately \$6,000 in above-code energy efficiency improvements. I cannot think of a time when we denied a tenant a request, from paying for smart thermostats to indoor air quality tests. As recently as July of this year, we upgraded the HVAC equipment at our property in Rogers Washington to meet current Energy Star standards. In March of this year, we offered rent forgiveness to our tenants - no strings attached - to alleviate the stress of COVID19. I'd be happy to share with you other anecdotes that demonstrate how we care for our tenants and property.

We know it is stressful to live in an ever changing and growing Austin. While we support the Rogers Washington community in their stated objectives, we ultimately voted against the design standards because: (1) the processes used to develop the design standards excluded us; (2) some original features are required to be preserved where replacements may perform better; (3) there appear to be conflicts within the standards, particularly when combined with existing and future development requirements; and (4) we see no institutional mechanisms in place at the City to deal with these conflicts and democratize voices when preservation requires trade-offs.

We found the processes used to develop the standards to be exclusive and opaque. We asked to join the design committee and neighborhood association and/or connect with the design committee by phone. We paid for a Basecamp account to share information online, as there is no online presence for the neighborhood association, the design committee, or draft documents submitted to the City. None of these efforts were successful. Twice the design committee scheduled a time to call us but did not call at the scheduled time.

In contrast, Preservation Austin, a group that has no physical presence in the neighborhood, had an elevated influence in the development of the standards, providing monetary and technical support. We have no negative feeling towards Preservation Austin but struggle to contrast their leading role in developing standards against our being excluded. I would hope our experience would concern public decision makers that value transparency and equity.

Writing was the only means were we able to communicate with the design committee. We provided 41 written comments on an early draft of the standards to the design committee and

the City. These comments took extensive time to generate and reflect our experience owning, improving, and maintaining residential property. These comments sought clarification, highlighted inaccuracies, and identified design conflicts, particularly when combined with other development requirements. Both City staff and design committee members responded to many of these comments. We appreciate their time and feel that subsequent revisions strengthen the current standards. Some questions, however, remain unaddressed. While we understand that not all questions could be addressed and don't expect them to be, I'll highlight three particular remaining concerns. First, we had asked the association to consider using language from standards approved for other Austin historic districts for windows and doors that allows these features to be replaced if the replacements "match the scale, profile, appearance, and configuration of existing." This is partly due to our interest in a more energy efficient home but also out of concern for safety. We don't understand how aesthetically conforming replacement windows and doors are not better - or at least equal - alternatives than preserving original amenities. (Also, we suspect none of the exterior doors are original to the property. How will this be handled?) Second, we are also still concerned about conflicts between codes and standards that may inadvertently restrict rear additions. Many, perhaps most, contributing properties have roof lines that drain to the rear. Thus, a single-story rear addition could not meet both minimum ceiling height (per residential construction code) and roof slope requirements (per the design standards) absent a very awkward roof drainage system. Third, we had asked the design committee to increase the 21-foot height restriction for accessory dwelling units to provide more flexibility and efficiency in site layout and structure design. We would welcome the opportunity to verbally discuss these issues with the design committee.

Finally, we are concerned about how ad hoc decisions will be made when difficult siting, design, and construction issues arise from the application of the historic district standards. Here, we're looking to the City to bring balance. While staff at the Historic Preservation Office have been very professional, polite, and are skilled in their own discipline, they place undo weight on preservation over and above other property related attributes. For example, their website lists as a benefit of historic districts "retaining an existing house... saves energy." This statement is untrue. If it were true, there would be no need to have or update building energy codes, as older buildings would outperform new ones. (There is also extensive evidence that the energy and emissions production footprints of materials used to meet new code are significantly outweighed by their operating benefits.) This is only one of many observations signaling how the Office makes judgement. I am not looking to find fault with the Historic Preservation Office in any way. However, their Office serves as gatekeepers of what will be acceptable property changes and has very powerful tools that serve preservation. Recognizing that real estate decisions involve trading off many performance attributes beyond preservation, we would be more comfortable supporting the proposed standards if there were institutional mechanisms at the City that bring balance when conflicts arise. Examples might include asking staff from Austin Energy, permit review, inspections, etc. to review design standards for balance and to avoid conflicts. These functions are needed at the City given the City allows historic district applicants to exclude contributing property owners from developing design standards. Absent a more inclusive process, we fear being further marginalized from future decisions related to our property.

I want to emphasize that we are not trying to disparage any stakeholder or individual. We loved our neighbors when we lived in Rogers Washington. We have a lot of personal and professional respect for City of Austin staff. I'd also be remiss if I did not recognize that one member of the design committee has been very sympathetic to our concerns. However, this has been an emotionally challenging process for us. We thrive on fostering positive relationships with others but have not been given the means to connect with individuals in ways that build trust and seek common goals. I think we all share an interest in being good public stewards of property maintenance and development. That requires balance and collaboration and could serve as a great foundation to seek healthy compromise and build trusting relationships.

We are not asking that you oppose the application. Instead, we are hoping you can use our experience to strengthen the historic district process. We ask that you delay this decision and, in the interim, request that the design committee and the City give us and any other dissenting views equal voice so that we can resolve outstanding issues in collaboration with and respect for each other. If all stakeholders engage with an open mind and mutual respect, I trust that a few brief but meaningful conversations between us, the design committee, and City staff would benefit all of us. This would be consistent with the Austin that we have grown to know, love, and respect.

Please let me know if you have any questions.

Sincerely,

Michael Blackhurst
Elizabeth Hurley Blackhurst

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Email or call the staff contact no later than noon the day before the meeting for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, please visit our website: www.austintexas.gov/abc

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, the Case Number and the contact person listed on the notice.

Subject: Support for C14H-2020-0069 – Rogers Washington Holy Cross Historic District
Date: Thursday, July 23, 2020 at 12:02:32 PM Central Daylight Time
From: Jen Margulies
To: Bertron, Cara, PAZ Preservation

*** External Email - Exercise Caution ***

Hello,

I am writing in advance of the July 27 Historic Landmark Commission meeting to register my support for Case Number C14H-2020-0069, the proposed historic district in Rogers Washington Holy Cross. I would like to speak at the meeting on Monday.

I am a resident of the Rogers Washington Holy Cross neighborhood. I live at 1906 Cedar Avenue, ZIP code 78722. I moved here in 2013 and have been honored to learn from my neighbors about the history of this community and its significance to Austin, especially East Austin and the vibrant Black community that grew up here in the face of segregation and discrimination. At the same time, I have been disturbed to see the rapid erasure of this history, both in the built environment, as old homes in good repair have been bulldozed all around me to make way for expensive new builds -- and in the increasing unaffordability of our once middle-class neighborhood, which is losing Black residents as families are unable to pass on their homes to the next generations due to the rising property values caused, in part, by the demolition of modest housing replaced by exceedingly expensive homes.

Thank you for the opportunity to share my perspective as a neighborhood resident.

Best wishes,

Jen Margulies

Comments: As a 2nd generation homeowner, (I live in the home my parent's built.) I am proud & pleased to register my support of new historic zoning for RWHC. This neighborhood represents a snapshot of African American life in Austin - 50's to present. We have worked tirelessly to prevent demolition of old and new construction out of character with the neighborhood. We have been diligent with our efforts to include old & new owners' concerns in developing design standards that maintain but do not eliminate creative design. Another major issue for older residents is the tax advantage that will offer a small degree of assistance in keeping our homes!!

Subject: Dissent to Historical District Designation for Rogers Washington Holy Cross Historical District (Case Number C14H-2020-0069)

Date: Friday, July 24, 2020 at 1:05:24 AM Central Daylight Time

From: Taylor McDowell

To: PAZ Preservation, Bertron, Cara

CC: Pamela Lim, merlioncapitalllc@gmail.com

*** External Email - Exercise Caution ***

Dear Cara Bertron & The Historic Landmark Commission,

My name is Theodore ("Taylor") McDowell, and my wife, Pamela Lim, and I are the owners of record of 2011 Maple Avenue, Austin, Texas 78722. We purchased the property on April 30, 2020 through our limited liability company (Merlion Capital, LLC), of which we are the only members.

We are writing in advance of the July 27, 2020 Historic Landmark Commission meeting to note our **objection** to the proposed historic district in Rogers Washington Holy Cross (Case Number C14H-2020-0069).

We certainly appreciate the historical nature of the neighborhood and have great admiration for the intent behind this project. Despite the property being marketed to us as a "tear down," we have spent over \$20,000 in renovations after closing on the property to improve the interior and exterior of the property and make it habitable.

Unfortunately, while these renovations were necessary to make the home livable, they would have been exceedingly difficult to make under the historic district design standards as currently drafted, which we believe signals an imbalance between home preservation and requisite renovation and improvement. Accordingly, we share the concerns of the Blackhurst family with respect to the design standards, particularly in respect of existing and future development requirements. Given the difficulties in communication during the COVID-19 pandemic, finding resources and means for contacting the Design Committee has been exceedingly difficult, especially for new homeowners such as ourselves who have no pre-existing contacts within the neighborhood. ***We therefore similarly request that the Historic Landmark Commission delay their decision on the historic district designation so that we, the Blackhursts, and other dissenting voices may collaborate with the City of Austin, the Design Committee, and other community members in modifying the design standards and ensuring there is communal inclusivity in this process. We feel that this accommodation is especially important in light of the current pandemic, during which time methods of communication have been stalled due to infrastructural challenges.***

As an alternative, we would also like to propose the slight modification of the proposed historical district parameters to **exclude** our 2011 Maple Avenue address. We believe this could be a quick and easy solution given that our property is the northernmost property in the proposed historical district; the address of the proposed zoning change already indicates that the zone is "roughly bounded by East 21st street," meaning that our property's removal would not contravene this description. Further, the proposed historical district parameters exclude a number of properties located on Chestnut Ave and other homes that are otherwise included in the Rogers Washington Holy Cross neighborhood map on the City of Austin website, meaning the exclusion of 2011 Maple Avenue would be similar to the exclusion of these other homes. We also do not believe the exclusion of our property would derail the preservation of the remaining historical district, as 56 homes would still remain in the district and 46 would be "contributing" (*i.e.*, there would still be an 82% contribution rate). We feel that excluding our property from the historical district would be an effective and expeditious way of resolving our objection that relieves time, cost, and administrative burden for ourselves, the community members in favor of the historical designation, and the Historic Landmark Commission itself.

We look forward to speaking further on this issue during the July 27, 2020 meeting. In the interim, you may contact us at theodore.mcdowell@gmail.com or at MerlionCapitalLLC@gmail.com.

Best regards,
Taylor McDowell

Subject: Support for Rogers Washington Holy Cross Historic District (Case No C14H-2020-0069)
Date: Wednesday, July 15, 2020 at 9:20:47 PM Central Daylight Time
From: Bridget Gayle Ground
To: Bertron, Cara

*** External Email - Exercise Caution ***

Hi Cara,

I received a notice of the proposed Rogers Washington Holy Cross Historic District (Case No C14H-2020-0069), as I am a homeowner living within 500 feet of the proposed development (1806 Cedar Avenue, 78702).

I want to express that **I am in favor** of the proposed district in advance of the Historic Landmark Commission's July 27 public hearing.

Preserving the architectural character of this historic suburb--both as a cohesive neighborhood and also at the level of individual homes like the highly significant and iconic Phillips House designed by John S. Chase-- is so essential to maintaining the unique and authentic character of Austin, not to mention preserving part of the heritage of a long underserved community. I only wish the proposed historic district were larger to include more properties in the area!

If any additional information is needed to share my support for this rezoning please let me know.

Thank you!
Bridget Gayle Ground
1806 Cedar Avenue

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted online and you have the opportunity to speak FOR or AGAINST the proposed development or change. Email or call the staff contact no later than noon the day before the meeting for information on how to participate in the public hearings online. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, please visit our website: www.austintexas.gov/abc

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, the Case Number and the contact person listed on the notice.

Dear Ms. Reed and Commissioners,

Re: Rogers-Washington-Holy Cross District Preservation Application

Please accept this letter of support for the Roger-Washington-Holy Cross Neighborhood Association (RWHC) Historic District Designation Application. As you may know, when I was Executive Director for Preservation Austin, I worked closely with the neighborhood to gather information and begin the process of designation.

The Rogers-Washington-Holy Cross neighborhood was identified in the East Austin Historic Resources Survey (2016) as a potential local historic district and as eligible for the National Register of Historic Places. The history of the neighborhood tells a rich story of the development of East Austin in the Post-War years. The neighborhood was developed for the African American community returning from serving their country in World War II. It was developed for and by professors of Huston-Tillotson, principals and teachers of the local schools and business owners. The architecture speaks to the time period with houses that vary in style from John Chase's Modern Phillips house to handsome split-level and one story ranch homes. Many of the residents have lived in the neighborhood all their lives, bringing a pride of ownership and history that is being lost in Austin.

The neighborhood has worked hard for this designation. I should know as I attended numerous meetings with them! Over the past three years, they have done extensive outreach to and communicated with everyone in the neighborhood—from homeowners to renters to businesses and landlords.

Austin is quickly losing much of the fabric that tells the history of the city. East Austin has been especially hard hit, losing historically and culturally significant places. In this time of our City's history and our Nation's history it is important to preserve places like the Rogers-Washington-Holy Cross neighborhood. We must be able to see the physical manifestation of our full history, not just read a plaque about it.

Again, I hope you will support the neighborhood's request for local historic designation for this neighborhood that clearly meets several of the designation criteria as established by code. The neighborhood has worked extraordinarily hard for this because they believe their history is worth saving too.

Sincerely,

A handwritten signature in dark ink that reads "Kate Singleton". The signature is written in a cursive, flowing style.

PUBLIC HEARING INFORMATION

Subject: Rogers-Washington-Holy Cross Historic District

This message is from Amy Schweiss. [REDACTED]

Hello,

I have been a resident of East Austin for nearly 10 years and own a home in the Chestnut neighborhood. I am writing today in support of the proposed Rogers-Washington-Holy Cross Historic District. With the rapid rise in gentrification of east Austin in the last 10-15 years forcing out long time residents and drastically changing the look, feel, and culture of the neighborhood it is more important than ever to preserve and protect the history of east Austin and Austin's black community. I hope you'll support the formation of the historic district supported by the Historic Landmark Commission and Preservation Austin.

Regards,
Amy Schweiss

Re: Rogers Washington Holy Cross District LHD Application

Dear Ms. Reed,

Preservation Austin is so pleased to offer this letter of support for the Rogers Washington Holy Cross Historic District application. Our organization has been Austin's leading nonprofit voice for historic preservation since 1953, with a mission to promote our city's diverse cultural heritage through the preservation of historic places. We strongly support the establishment of a local historic district in Rogers Washington Holy Cross (RWHC).

The Rogers Washington Holy Cross Historic District is one of the most intact concentrations of post-World War II housing for African Americans in Austin. As an early neighborhood developed by Black professionals for Black professionals, Rogers Washington Holy Cross represents the strength and tenacity of many African American families who dedicated their lives to the education and uplifting of their children and their community. The RWHC neighborhood is small in size but large in significance, including several architecturally distinct buildings designed by African American architect John Chase, FAIA, and many residences of individuals and families who made meaningful contributions to the city of Austin and beyond. Historic district status would help preserve this unique cultural and built legacy.

The RWHC neighborhood organization has been committed to investing in the needs and improvements of the neighborhood for decades, despite the pressures of systemic racism and economic inequities. The neighborhood association has worked collaboratively and creatively with homeowners, renters, and businesses over the last three years to develop design standards that incorporate the spirit of preservation and the dynamic realities of this central East Austin neighborhood.

Our nonprofit has supported this community-based, volunteer-driven effort for the past two years, including through two matching grants to help cover application fees. We've been honored to work with these advocates, and urge the Historic Landmark Commission to support making this district a reality.

Sincerely,

Lori Martin, President

Dear Commissioners,

Re: Rogers-Washington-Holy Cross District Preservation Application

On behalf of the City of Austin's Equity Office, please accept this letter of support for the Rogers-Washington-Holy Cross Neighborhood Association [RWHC] Historic District Preservation Application.

The City of Austin's Strategic Direction 2023 calls for the focus on culture and lifelong learning being enriched by Austin's unique civic, cultural, ethnic, and learning opportunities. Unfortunately, one of the major challenges we face is the loss of that culture and history of Austin's African American community. Austin is the only city among the ten fastest growing U.S. cities where general population growth and African American growth point in opposite directions.

Likewise, the RWHC organization has been committed to investing in the needs and improvements of their neighborhood for decades, despite the pressures of systemic racism and economic inequities. This neighborhood represents the strength and tenacity of many African American families who dedicated their lives to the education and uplifting of their children and their community. And I applaud their efforts preserve Austin's history of historic African American neighborhoods.

We also recognize the persistent, dedicated, hard work that the RWHC Neighborhood Association has put into this process for the last (3) years through constant communication with homeowners, businesses, renters and the City of Austin.

We have worked with members of RWHC on various projects and respect their methods of solicitation as well as their efforts to collaborate with all for the most beneficial solutions.

In that spirit, I hope that you will grant this application to a truly-deserving community!

Sincerely,

Bryon Oaks
Chief Equity Officer
Austin Equity Office

BLACKLAND

COMMUNITY DEVELOPMENT CORPORATION

The Dream Starts Here

July 21, 2020

Dear Commissioners,

Re: Rogers-Washington-Holy Cross District Preservation Application

On behalf of the Blackland Community Development Corporation please accept this letter of support for the Rogers-Washington-Holy Cross Neighborhood Association [RWHC] Historic District Preservation Application.

Our organization was founded in 1983 with the express aim of protecting the integrity and character of our neighborhood. We have steadfastly stood by that promise in building and improving the lives of our neighbors of all ages.

Likewise, the RWHC organization has been committed to investing in the needs and improvements of their neighborhood for decades, despite the pressures of systemic racism and economic inequities. This neighborhood represents the strength and tenacity of many African American families who dedicated their lives to the education and uplifting of their children and their community.

We also recognize the persistent, dedicated, hard work that the RWHC Neighborhood Association has put into this process for the last (3) years through constant communication with homeowners, businesses, renters and the City of Austin.

We have worked with members of RWHC on numerous projects and respect their methods of solicitation as well as their efforts to collaborate with other neighborhoods for the most beneficial solutions.

In that spirit, I hope that you will approve this application to a truly deserving community!

Sincerely,

Austin Dennis

Dear Ms. Reed and Commissioners,

Re: Rogers-Washington-Holy Cross District Preservation Application

Please accept this letter of support for the Roger-Washington-Holy Cross Neighborhood Association (RWHC) Historic District Designation Application. As you may know, the Austin Revitalization Authority has long been a supporter of preserving communities and history, particularly in the East Austin sector of the City of Austin.

The Rogers-Washington-Holy Cross neighborhood was identified in the East Austin Historic Resources Survey (2016) as a potential local historic district, eligible for the National Register of Historic Places. The history of the neighborhood tells a rich story of the development of East Austin in the Post-War and early years of the civil rights movement. Initially developed for the African American community veterans returning from serving their country in World War II, the addition of land owned by local Black dentist, Joseph W. Washington, created space for custom designed homes for luminary figures within the community. It became home to Huston-Tillotson President John Q. Taylor King, Oscar L. Thompson, the first African American graduate of the University of Texas at Austin and HT professor, Austin Public Library branch namesake Willie Mae Kirk, Principal of Kealing Jr. High School and 75th President of the Colored Teachers State Association, T.C. Calhoun, businesswoman Della Phillips, and other noted professionals. The architecture of the homes speaks to the time period; houses vary in style from John Chase's two mid-century modern designs to handsome split-level and one-story ranch homes. Many of the current residents have lived in the neighborhood all their lives, bringing a pride of continuous ownership and history that is being lost in Austin.

Austin is quickly losing much of the fabric that encases the history of the city. East Austin has been especially hard hit, losing historically and culturally significant places. It is important to recognize and preserve spaces like the Rogers-Washington-Holy Cross neighborhood, in order to exhibit a physical manifestation of our full American history, not just read a plaque about it.

Again, I hope you will support the Rogers-Washington-Holy Cross neighborhood's request which clearly meets the designation criteria established by code. I agree that its history is worth saving, and I support their efforts.

Sincerely,

Gregory L. Smith

The architecture of the homes speaks to the time period; houses vary in style from John Chase's two mid-century modern designs to handsome split-level and one-story ranch homes. Many of the current residents have lived in the neighborhood all their lives, bringing a pride of continuous ownership and history that is being lost in Austin.

Austin is quickly losing much of the fabric that encases the history of the city. East Austin has been especially hard hit, losing historically and culturally significant places. It is important to recognize and preserve spaces like the Rogers-Washington-Holy Cross neighborhood, in order to exhibit a physical manifestation of our full American history, not just read a plaque about it.

Again, I hope you will support the Rogers-Washington-Holy Cross neighborhood's request which clearly meets the designation criteria established by code. I agree that its history is worth saving, and I support their efforts.

Sincerely,

KYmberly Keeton
