The Historic Review Committee of the Bryker Woods Neighborhood Association reviewed the plans and discussed the plans via Zoom with the architect and owner and made serious recommendations, particularly about the “box dormers” jutting from the roof, as well as the window casings. The architect made minor adjustments—from three box dormers to one 15-18’ box dormer, and did not change the style. At this date, The Neighborhood Association OPPOSES this permit, as it is not in the style of our National Heritage District and greatly contrasts with adjacent homes. (By way of information, our Neighborhood Association only votes to “oppose” or “not oppose;” we do not “support.”)

To their credit, the architect did agree to repurpose the stone siding of the existing house and use it as the base of the wall along Jefferson St., as well as preserve the 1930’s stone boundary marker on the SW corner of that lot.
